What percentage of the survey has been completed and in what areas. 4. What is the estimated cost of this survey. 5. To what extent, if any, do the present licensees share in defraying these costs. 6. What are the costs to date to the Province of Ontario in connection with the current salvage of fire-damaged timber in the Mississagi area with respect to: (a) indirect subsidies in the form of reduced stumpage fees, ground rent and fire protection tax; (b) direct monetary outlays in connection with roads, equipment, or other forms of direct subsidies. 7. What firms or private contractors are currently involved in the Mississagi salvage operations. 8. What is the type, volume and species of timber taken out in the Mississagi fire area to date. 9. What are the estimates of fire-scarred timber still standing in this area, and when are the Mississagi salvage operations expected to be completed. 10. In what areas, outside of the Mississagi forest area, has the Minister used his authority under the Crown Timber Regulations to fix special rates for salvage of fire-damaged, diseased, insect damaged, windthrown, and flooded timber. 11. What are the estimated costs to the province of such special concessions, apart from the Mississagi fire-area, during the fiscal year immediately preceding the current fiscal year, or for the last year for which such figures would now be available. 12. What, if any, are the differences in rate of stumpage fees charged and paid by the pulp and paper companies in this province as against other operators with respect to: (a) sawlog-sized timber cut into pulpwood, and (b) sawlog-sized timber used for lumber, or (c) railway

ties, piling, poles, pit-props, etc. 13. What is the actual difference if any, in charges per square mile for ground rent and fire protection charges as between the pulp and paper industry and independent operators engaged in other lines of production. 14. Are there any individuals or corporations holding timber lands in reserve for future cutting purposes and upon which no ground rent or fire protection charges are collected by the Crown. 15. Do cash or bond deposits made by contractors or corporations correspond in equal ratio based upon a certain percentage of estimated value of commercial timber on limits obtained for cutting purposes. 16. What percentage of available Crown timber lands in the province of Ontario are presently held by: (a) Pulp and Paper Companies, including domestic use or export; (b) other operators in various forest products, including those who operate on their own limits and deliver pulpwood to the pulp and paper industry along with other operations. 17. Does the Department employ its own scalers in all cases to determine and check the amount of Crown timber dues payable on all kinds and species of timber cut throughout the province on Crown lands. 18. Does the cost of Government check-scaling on timber of all kinds cut on Crown lands fall on the operator, i.e., the person or corporation holding cutting rights. Mr. MacLeod. At Our City of Toronto in Our said Province this twenty-sixth day of January in the year of Our Lord one thousand nine hundred and fifty and in the fourteenth year of Our Reign.

BY COMMAND

H. A. STEWART,  
*Acting Clerk of the Crown in Chancery.*

---

Thursday, the Sixteenth Day of February, 1950, being the first day of the Second Session of the Twenty-third Legislature of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Robert Spelman Robertson, Administrator of the Province.

---

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

*Mr. Speaker and Members of the Legislative Assembly:*

As you resume your duties at this second session of the Twenty-third Legislature of the Province of Ontario I am happy to extend my best wishes to each of you, more especially to those of you who have become members since this Legislature last met. I am sure that as the elected representatives of the people of this great Province you will give sincere thought and sound judgment to the problems brought before you for your consideration.

The great progress and expansion which have been the experience of our Province during the last few years have continued undiminished. Industrial growth has been strong and soundly founded. The population has continued to expand in a substantial way and prospects for further and greater growth may be expected with confidence in the years to come. In the vast area which comprises Ontario the possibilities in every field of human endeavour are unlimited. You will do your duty well as legislators with your eyes constantly trained on the betterment of every condition which will bring encouragement,

security and sound living values to our people as an integrated part of a great nation. The jealous preservation of initiative and freedom is our inherited and valued responsibility. Everywhere opportunity is at hand. With expansion and development have come many problems which can be solved in a balanced manner consistent with steady progress and our financial resources.

My Government is pleased to report that during the last months a Federal-Provincial Conference has been held and is continuing, with the purpose of finding the ways and means of amending our Constitution as desirable, wholly within the power and discretion of the people of Canada. Further conferences between the Governments of Canada and of the provinces will be convened during this year for the purposes of clarifying and defining respective responsibilities within many particular fields. The Province of Ontario repeats freely its many time offered willingness to work with the Governments of Canada and of the other provinces to the fullest extent, in a deeply responsible spirit of co-operation, understanding and mutual goodwill.

The Government views as of most far-reaching importance the co-ordination and integration of the endeavours of all Governments—Federal, Provincial and Municipal, in the administration of the public affairs of the people of this great nation faced as we are with great difficulties and dangers from without. The times in which we live call for united efforts.

During the last six years very great progress has been made in the broad field of education. In order to approach equality of opportunity, very large sums of moneys have been contributed by the Province to the cost of education. Annual contributions have reached five times the sums provided at the beginning of that period. Methods of determining the most effective distribution of provincial contributions have been under constant examination, and changes in these methods have been made from time to time, and will continue to be made as experience is gained and studies progress. Sound and careful standards in elementary and secondary education, coupled with constantly improved teaching methods provide the foundation for a vigorous and healthy people. The Royal Commission on Education has made an interim report for consideration and study, and further reports are expected this year. We must bear in mind that in our changing province we must ever be alert to the best of methods in that all-important field.

The provision of comfortable and secure housing conditions for our people has been receiving close attention. Toward this end the Province of Ontario has loaned more than seventeen millions of dollars within the last two years, enabling over fifteen thousand Ontario families to own their own new homes. Large grants have been made to municipalities to assist in the cost of installing services. This has removed a considerable burden from the municipalities. In conjunction with the Government of Canada, not only will this aid to home owners continue, but arrangements are in course of completion which will stimulate the construction of many thousands of new low cost homes where they are most needed. The greatest encouragement and assistance will be extended, to enable those who will occupy these low cost homes, to own them. You will be asked to give your consideration to measures which will implement these arrangements and which will relieve our municipalities of many burdens which they have previously borne.

Conditions quite beyond the jurisdiction of a provincial Government, such as world trade conditions and the maladjustment arising from the non-convertibility of sterling into dollars, have had their effects upon employment. The Government of Ontario has offered to integrate its plans with those of the Federal Government to assist the latter in maintaining a high level of employment. Control of conditions related to trade and commerce, upon which employment in main rests, come within the purview of the Federal Government. Nevertheless by co-ordinated effort the Province and its municipalities can do much to assist. In the past year very large investments of money have been made in capital outlays by the Government, its agencies and the municipalities. This program is continuing. The Hydro-Electric Power Commission is undertaking enormous development projects which have a profound effect in many trades. A very extensive highway construction program is in progress. Because of the expansion of the Province some twenty-five millions of dollars are being expended each month, with the consequent employment of many thousands of our people. This is the largest public investment program ever undertaken in Ontario. Extending over the next few years, the construction of much-needed mental hospitals, delayed by the war and its aftermath of shortages, will be added to the enormous construction program and already, very substantial work is in progress. The new Montague Hospital, near Smiths Falls, ultimately to accommodate 2,400 mental patients, will be ready for partial occupancy in the very near future. A new mental hospital at Aurora will open within the next month, and construction of a mental hospital at the Head of the Lakes will be commenced shortly. New office facilities are needed urgently for the administration of the affairs of Government and for the accommodation of agencies of Government. These are in addition to municipal works and the housing requirements of our people, both of which will be at a high level during coming years. The Province is most anxious to integrate its endeavours with those of all Governments and the Provincial Government has indicated that it is prepared to unite its efforts with those of the Federal Government to stabilize employment in these difficult days of adjustment, brought about, as they are, by world conditions beyond the control of the Provincial Government. My Government has indicated that discussion and action need not await a Federal-Provincial Conference.

Since the introduction of capital and maintenance grants to public general and convalescent hospitals in 1947, great strides have been made in the provision of hospital accommodation. This form of assistance to the better health and welfare of the people will continue.

Ontario is blessed with most extensive natural resources which have contributed greatly to the wealth of the Province. It is realized keenly that they are the source of even greater wealth and every endeavour will be exercised to ensure their conservation and wise development. Of special importance is the broad expansion in the exercise of the newest principles and practices of conservation within the more settled parts of the Province. The elimination of flood conditions, the prevention of soil erosion, the rehabilitation of depreciated lands and the maintenance and spread of wooded areas are receiving close study. A program of aerial survey of the northern forests is rapidly approaching completion. Its purposes include the creation of a forest inventory, the improvement of the methods of timber management, and the best utilization of our forest resources. Very considerable research has been done, and is continuing actively,

which will improve the conservation of fish and wildlife within the Province. You will receive a report from the special committee on Conservation which you appointed at your last session.

It is proposed that methods be provided which will facilitate the construction of water works, sewage disposal plants, incineration plants, works for the elimination of pollution, and related services, especially within the smaller municipalities. You will have submitted to you a measure providing for the creation of a Municipal Development Corporation, the purpose of which will be to loan to municipalities at a favourable rate of interest, the moneys necessary to carry out such projects, where the burden of other methods of financing may be too heavy.

Of the greatest concern to my Government is the constant study of the conditions of labour and their betterment. Very careful consideration has been given to this important and vital factor of government and a measure will be introduced for your consideration which will set out a labour code for the Province of Ontario.

In projection of the study of labour conditions a Royal Commission was appointed for the purpose of studying and re-examining the existing legislation relating to Workmen's Compensation. Many sittings have been held and you will be informed of its findings and recommendations. It is the desire of the Government that our Workmen's Compensation provisions should be the very best in force anywhere.

Agricultural development within the Province is under constant and critical consideration. The farmer and the city worker are of equal significance to the expansion and progress of the Province and the maintenance of a sound and reasonable balance between the diverse economies of the farm and the city is of great value and importance to our advancement. The aftermath of war, and in particular currency difficulties, have created problems for this great industry. We, however, have made great progress. With the assistance of very largely increased provincial grants township roads have been very much improved. In the last half dozen years the blessings of electrical energy have been made available to an additional half million of our rural people, while community centers, athletic fields and rinks are adding to the attractions of rural life. The Department of Agriculture is engaged in a multitude of activities tending to improve Ontario's great agriculture industry. This industry is also very largely dependent upon world trade and the Government, through the Department of Agriculture and other departments, is doing everything within its power to co-operate with the Federal Government and all other agencies to maintain and improve agricultural conditions.

The great development program of The Hydro-Electric Power Commission is proceeding and is ahead of schedule. This year will witness the addition of very large blocks of electrical energy which will remove the threat of shortage. In our growing province, however, additional power for our future requirements is needed. Developments at Niagara and on the St. Lawrence are becoming more pressing and the Government has urged the governments of Canada and the United States to complete the treaty requirements which are a necessary preliminary to the Province of Ontario and the State of New York getting on with all-important work.

During the coming session many measures designed to further the development and better the conditions of our people will be submitted to you for approval. A survey of the fiscal condition of the Province will be presented together with the plans for the ensuing year. The Public Accounts for the last complete fiscal year and the Estimates for the year 1950-1951 will all be placed before you for your consideration. Details of the Province's great public investment program will be given to you.

Among other matters coming before you will be legislation concerning the audit of the Public Accounts, the Registration of partnerships, improvements in the administration of The Real Estate and Business Brokers Act, Survivorship, Municipal government and assessment, The Ontario Municipal Board, Highway Traffic, improvements to The Mining Act and The Mining Tax Act, amendments of The Hospital Aid Act and The Public Health Act, The Ontario-Manitoba Boundary, and concerning Crown Timber and Public Lands.

You will also be asked to give your consideration to a measure concerning discriminatory covenants in deeds.

I am happy once again to extend a word of appreciation to the members of the Public Service. Through their loyal efforts your work in the interests of the people is carried into administrative action. Grateful thanks are extended to those who have reached their retirement during the past year, and we remember with respect those who have died.

May your deliberations in the interests of the people of our Province be guided by Divine Providence.

His Honour was then pleased to retire.

Mr. Speaker informed the House,

That he had received during the recess of the Assembly, as provided by the Revised Statutes of Ontario, 1937, chapter 12, section 32 (1), notification of a vacancy which had occurred in the membership of the Assembly.

TO THE HONOURABLE REV. M. COOKE DAVIES,

Speaker of the Legislative Assembly of the Province of Ontario.

We, the undersigned, William Murdoch, Member of the Legislative Assembly of Ontario for the Electoral District of Essex South, and George H. Dunbar,

Member of the said Legislative Assembly for the Electoral District of Ottawa South, do hereby notify you that a vacancy has occurred in the representation in the said Legislative Assembly for the Electoral District of Leeds by reason of the death of Walter Bain Reynolds, Esquire, Member for the said Electoral District of Leeds. And we, the said William Murdoch and George H. Dunbar, Members of the Assembly aforesaid, hereby require you to issue a new writ for the election of a Member to fill the said vacancy.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this 27th day of September, in the year of our Lord one thousand nine hundred and forty-nine.

Signed and sealed in the presence of  
ALEX. C. LEWIS.

W. MURDOCH (Seal)

G. H. DUNBAR (Seal)

Mr. Speaker then informed the House,

PRAYERS.

3 O'CLOCK P.M.

Mr. Parry, from the Standing Committee on Standing Orders, presented the Committee's Second and Final Report which was read as follows and adopted:—

Your Committee has carefully considered the following Petitions and finds the Notices in each case sufficient:—

Petition of the Corporation of the City of Kingston, praying that an Act may pass authorizing the establishment, development and management of the Kingston Community Memorial Health and Recreation Centre.

Petition of the Corporation of the Town of Alexandria, praying that an Act may pass to ratify and confirm the purchase by the Corporation of the Glengarry Mills properties and water rights and the sale of the mill property not required for the Corporation's purposes and to authorize the use and diversion of waters of the River Garry and Loch Garry for the purposes of the Town's waterworks and water supply in lieu of the use thereof for mill power purposes.

Petition of the Corporation of the City of Ottawa, praying that an Act may pass amending the City of Ottawa Act, 1949, for the purpose of detaching all the lands in the Township of Nepean from the Registry Division of the County of Carleton and attaching them to the Registry Division of the City of Ottawa for the purposes of The Registry Act, and for other purposes.

Petition of the Corporation of the City of London, praying that an Act may pass confirming certain agreements between the Corporation, the Canadian National Railway and the Western Fair Association; and for other purposes.

Petition of the Trustees of The United Church of Canada, the Trustee Board of the Presbyterian Church in Canada, the Corporation of Knox College and the Corporation of Victoria University, praying that an Act may pass confirming a certain agreement vesting The Knox College Library in Knox College and certain archives in Victoria University.

Your Committee has carefully examined the following Petitions and recommends to the House that while the publication of the Notices has not met the requirements of the Rules, the Petitions should be accepted by the House, a satisfactory explanation for the default having been given:—

Petition of the Corporation of the City of Sault Ste. Marie.

Petition of the Ottawa Separate School Board.

Your Committee further recommends that the following Petition be not accepted, Rule No. 66 not having been complied with and no sufficient explanation for the default having been given.

Your Committee further recommends that the fees less any penalties and the actual cost of printing be remitted with respect to this Petition.

Petition of the Corporation of the Township of East York.

The House resolved itself into a Committee to consider a certain Resolution and certain Bills.

Mr. Frost acquainted the House that the Honourable the Lieutenant-Governor, having been informed of the subject matter of the Resolution, recommends it to the consideration of the House.

After some time, Mr. Speaker resumed the Chair, and Mr. Patrick reported that the Committee had come to a certain Resolution as follows:—

*Resolved,*

- (a) the salary of the auditor may be charged to and paid out of the Consolidated Revenue Fund; and
- (b) if, when the Legislature is not in session, any accident happens to any public work or building which requires an immediate outlay for repair or renewal thereof, or any other occasion arises when any expenditure not foreseen or provided for by the Legislature is urgently required for the public good, then upon the report of the Treasurer that there is no legislative provision, and of the minister having charge of the service in question that the necessity is urgent and for the public good, the Lieutenant-Governor in Council may order a special warrant to be prepared, to be signed by the Lieutenant-Governor for the issue of the amount estimated to be required which shall be placed by the Treasurer to a special account, against which cheques may issue as may be required; and
- (c) the Treasurer of Ontario may pay out of the Consolidated Revenue Fund such sum of money as is required by the certificate or order

of the Attorney General or Deputy Attorney General on account of the investigation, detection or punishment of any offence against the laws of Ontario or of Canada, or on account of special services or disbursements in connection with inquests, or any purpose connected with the administration of justice in either civil or criminal matters; and

(d) whenever the Assembly has concurred in the report of the Committee of Supply recommending the passing of any estimates, the Lieutenant-Governor in Council may authorize the payment of any items of expenditure so concurred in; and

(e) where an appropriation is exhausted or is insufficiently provided for and the public interest or the urgent requirements of the public service necessitate further payments, then upon the report to the Treasury Board of the minister having charge of the appropriation as to the necessity for further payments and the reasons why the appropriation is insufficient and the amount estimated to be required, the Board may make an order for the issue of such amount as it deems proper which amount shall be placed to the credit of the appropriation against which cheques may issue as may be required; and

(f) the Treasurer of Ontario may pay out of the Consolidated Revenue Fund accounts for legislative and departmental printing, paper and stationery and other supplies delivered to the King's Printer,

as provided by Bill No. 90, *The Audit Act, 1950*.

Also, That the Committee had directed him to report the following Bills without amendment:—

Bill No. 4, An Act respecting Canada Conference Evangelical Church.

Bill No. 11, An Act respecting the Hospital for Sick Children.

Bill No. 18, An Act respecting the Township of Cornwall.

PRAYERS.

2 O'CLOCK P.M.

Mr. Cathcart, from the Standing Committee on Miscellaneous Private Bills, presented the Committee's Fourth Report which was read as follows and adopted:—

Your Committee begs to report the following Bills without amendment:—

Bill No. 24. An Act respecting the Town of Leamington.

Bill No. 25. An Act respecting the Town of Alexandria.

Bill No. 28. An Act respecting the Township of North York.

Your Committee begs to report the following Bill with certain amendments:—

Bill No. 16. An Act respecting the City of Windsor.

Your Committee would recommend that the following Bill be not reported, the petitioner having requested that it be withdrawn and your Committee would further recommend that the fees less the penalties and the actual cost of printing be remitted:—

Bill No. 12. An Act respecting the Ottawa Young Men's Christian Association.

Mr. Houck asked the following Question, No. 42:—

1. Have any modifications been made in the agreement with the Province of Quebec on the Hydro-Electric Power Development of the Ottawa River since the present administration assumed office. 2. Has the Province of Quebec any rights to a share of any power developed on the Upper Ottawa River by the Ontario Hydro-Electric Power Commission. 3. Does the Province of Quebec have any rights to a share of labour at the Des Joachims development; if so, how many men from Quebec have been employed.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:

1. An arrangement has been made for the raising of the headwater level at La Cave Development from 575 to 583, thus increasing the head by eight feet, and capacity by 15,000 horsepower. 2. There is no provision for sharing of power. 3. Nothing stipulated in agreement, but labour drawn from both provinces as required and available.

Mr. Oliver asked the following Question, No. 46:

1. How many miles of County roads have been taken into the Provincial highway system since January 1st, 1949. 2. What was the mileage of such absorbed roads in each electoral district.

The Minister of Highways replied as follows:—

1. 0.66 miles. 2. Peel—0.66 miles.

Mr. Isley asked the following Question, No. 60:—

1. On what date was the Union Stock Yards acquired by the Government of Ontario. 2. What was the area acquired and the price. 3. To whom and at what price and for what area, and on what date has any portion of the Union Stock Yards been sold. 4. What has been the yearly loss in operation and the yearly subsidy paid by the Government since its purchase.

The Minister of Agriculture replied as follows:—

1. July 1st, 1944. 2. 82,025 acres—\$2,000,000.

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor now before the House be amended by adding there to the following words:—

And this House particularly regrets:

1. That the Government is taking no effective action to safeguard our forests, iron ore deposits and other natural resources from alienation to external interests, thereby imperilling the industrial development of Ontario and greater employment opportunities for our people.
2. That the Government has failed to seek an agreement with the Federal Government to provide cash relief for those unemployed citizens not covered by unemployment insurance benefits, during the period of their enforced idleness.
3. That the Government has not seen fit to continue supplementary assistance to the old age pensioners of the Province to meet the rising cost of living.

And it was,

*Resolved*, That an humble Address be presented to the Honourable the Lieutenant-Governor of the Province of Ontario, as follows:—

*To the Honourable Ray Lawson, O.B.E., LL.D.,  
Lieutenant-Governor of the Province of Ontario.*

We, His Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, beg leave to thank Your Honour for the gracious speech Your Honour has addressed to us.

The Address, having been read the second time, was agreed to.

*Ordered*, That the Address be engrossed and presented to the Honourable the Lieutenant-Governor by those Members of this House who are Members of the Executive Council.

---

On motion by Mr. Frost, seconded by Mr. Doucett,

*Ordered*, That this House will to-morrow resolve itself into the Committee of Supply.

---

On motion by Mr. Frost, seconded by Mr. Doucett,

*Ordered*, That this House will to-morrow resolve itself into the Committee on Ways and Means.

---

The House then adjourned at 6.24 p.m.

FRIDAY, MARCH 17TH, 1950

PRAYERS.

2 O'CLOCK P.M.

On motion by Mr. Frost, seconded by Mr. Doucett,

*Ordered*, That when this House adjourns the present sitting thereof it do stand adjourned until two of the clock on Monday afternoon and that the provisions of Rule No. 2 of the Assembly be suspended so far as they might apply to this motion.

Mr. Frost delivered to Mr. Speaker a message from the Honourable the Lieutenant-Governor signed by himself, and the said message was read by Mr. Speaker and is as follows:

RAY LAWSON, O.B.E., LL.D.

The Lieutenant-Governor transmits Estimates of certain sums required for the services of the Province for the year ending 31st March, 1951, and recommends them to the Legislative Assembly.

Toronto, March 17th, 1950.

*(Sessional Paper No. 2.)*

*Ordered*, That the message of the Lieutenant-Governor, together with the Estimates accompanying the same, be referred to the Committee of Supply.

The Order of the Day for the House to resolve itself into the Committee of Supply having been read,

Mr. Frost moved,

That Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee of Supply.

And a Debate having ensued, it was, on motion by Mr. Wismer,

*Ordered*, That the Debate be adjourned.

During the course of his presentation of the Budget the Provincial Treasurer laid on the Table the following statements:—

Mr. Foster asked the following Question, No. 27:—

Have any private railway cars been used for Hydro officials for visits either in United States or Canada and what has been the total cost of these trips.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:—

No private railway cars have been used by Hydro officials for visits to the United States, and on two occasions only in Canada, as follows: the Province of Ontario business car was used by Provincial and Commission officials once in 1948 to travel to Aquasabon for the opening of the generating station there, and once in 1949 to inspect the tunnel site generating station; the total cost to the Commission for the use of this car being \$64.55.

Mr. Dennison asked the following Question, No. 56:—

What is the present maximum (a) primary, and (b) secondary production and demand of electric energy for all systems operated by the Hydro-Electric Power Commission, and what is the estimated production and demand for each of the years 1950, 1951, 1952, 1953, 1954, 1955.

The 1st Vice-Chairman of The Hydro-Electric Power Commission replied as follows:—

PART 1—During January, 1950, the last month for which complete records are available, the following maximum production and demands for electric energy were recorded or estimated:—

NOTE: It is impracticable to estimate future secondary production.

The Commission believes that there should be a reserve of at least 10 per cent of demand to provide for plant breakdowns, water shortages, ice conditions, etc., part of which can be taken care of by the "interruptible" and "at-will" features of present contracts.

Mr. MacLeod asked the following Question, No. 69:—

1. How many general and other hospitals in the province are now participating in the Admission Chest X-ray program. 2. How many are not now participating. 3. How many patients have been X-rayed since the program was inaugurated. 4. How many cases of tuberculosis have been detected since the program was inaugurated. 5. How often are reports made to the Department of Health by participating hospitals. 6. Does The Public Health Act now require general and other hospitals to X-ray patients on admission to such institutions.

The Minister of Health replied as follows:—

1. 124. 2. 34 (Public General Hospitals). 3. 103,944 (January 1st, 1949–December 31st, 1949). 4. Provisional diagnosis of Tuberculosis 1,128: Probably Active, 156; Activity Undetermined, 271; Probably Inactive, 701. 5. Quarterly. 6. No.

The following Bills were severally read the third time and were passed:—

Bill No. 7, An Act respecting the City of London.

Bill No. 14, An Act respecting the Village of Long Branch.

The matter of printing the report of the Select Committee on Conservation was referred to your Committee by the Assembly on Monday the 27th instant. After giving the matter due consideration and having the advantage of the advice of Mr. Thomas (Elgin), Chairman of the Committee and Mr. Oliver, one of the Committee members, your Committee recommends that 5,000 copies of the report be printed for general distribution and that any Department of Government desiring to distribute copies, be authorized to have the same printed and distributed at the expense of such Department.

Your Committee further recommends that a special appropriation be made to cover the cost of printing the report and that every effort be made to have the report ready for distribution not later than July 1st, 1950.

An application was received from the Association of Ontario Land Surveyors asking that the book entitled, "A Report of Decisions in Cases arising out of the Municipal Drainage Act", which was published in 1916, be reprinted for distribution.

The Committee considered that the usefulness of the book in question would be impaired by the amendments to the Drainage Act at present proposed and by any action taken under authority of the Committee on Conservation and decided to lay the request on the Table for the present.

Your Committee recommends that all Sessional Papers required to be printed be printed and made available to be tabled in the House not later than at the first Session of the Assembly following the end of the previous fiscal year and that all Departments of Government and the King's Printer be notified to that effect.

Your Committee desires to express its appreciation of the value to Members of the Assembly of the book entitled "Parliamentary Procedure in Ontario" by Alex. C. Lewis, Clerk of the Assembly, and recommends that he be asked to re-edit the book and bring it up to date for the convenience of the Members.

Mr. Mackenzie moved the adoption of the Report.

Mr. Salsberg then moved in amendment, seconded by Mr. MacLeod,

That the Report of the Committee on Printing and Stationery be not now adopted but that it be referred back to the said Committee with instructions to call upon the King's Printer to appear before a properly called meeting of the Committee so that he may provide such information and data as may be requested by the Committee in the proper conduct of its business,

And, a Debate arising, after some time the amendment was, with the consent of the House, withdrawn.

The motion for the adoption of the Report having then been put was declared to be carried.

---

The following Bills were introduced, read the first time, and ordered to be read the second time to-morrow:—

Bill No. 136, intituled, "An Act to express the Consent of the Legislature of Ontario to an Alteration of the Limits of the Province." *Mr. Scott* (Peterborough).

Bill No. 137, intituled, "An Act to amend The Workmen's Compensation Act." *Mr. Daley*.

---

Mr. Scott (Beaches) asked the following Question, No. 104:—

FRIDAY, MARCH 31st, 1950

PRAYERS.

10 O'CLOCK A.M.

Mr. Cathcart, from the Select Committee appointed to direct the expenditure of any sum set apart in the Estimates for Art Purposes, presented the Committee's Report which was read, as follows, and adopted:—

Your Committee recommends that it be authorized to purchase the following pictures of Ontario subjects by Ontario artists out of the appropriation for the fiscal year ending the 31st day of March, 1950:

Maple Sugar Time, by S. C. Shaw, at a price of \$300.00.

Winston Churchill, by Thomas Cordell, at a price of \$75.00.

A winter scene by Stanley Page, at a price of \$100.00.

Two landscapes by Shirley Farmer, at a total price of \$75.00.

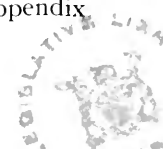

Parry Sound-Burks Falls, by Jen Coles, at a price of \$35.00.

Another landscape also by Jen Coles, at a price of \$20.00.

Your Committee recommends that it be authorized to proceed with the painting of portraits of former Prime Ministers, the portrait in each case to be painted by artists chosen by the subjects, the cost in each case not to exceed the sum of \$1,500.00.

Your Committee recommends that it be authorized to meet during the recess between this and the next Session of the Legislature for consideration of a plan to encourage amateur painters throughout the Province and that it be authorized to purchase paintings of Ontario scenes by Ontario artists at a total cost of not more than \$2,000.00 during the fiscal year ending the 31st day of March, 1951,

Mr. Robson, from the Standing Committee on Agriculture and Colonization, presented the Committee's Report and moved that it be printed as an appendix to the Journals of the Legislature, which motion was carried.

Mr. Millard asked the following Question, No. 6:—

1. What were the amounts of the general legislative grants paid in 1949 for public schools in: (a) Toronto; (b) Forest Hill Village; (c) Long Branch; (d) Scarborough Township. 2. What would the grant have been in each case if the grant plan outlined in the Minister's memorandum to secretaries of Boards of Trustees, dated February 17th, 1950, had been in effect.

The Minister of Education replied as follows:—

1. (a) \$1,699,160.49; (b) \$43,411.16; (c) \$33,320.81; (d) \$202,353.91.

NOTE: No portion of the sum of \$33,302.60 paid to the Toronto Board of Education for schools conducted in Emergency Housing Developments at Long Branch, Malton and Scarborough has been included. The sum of \$30,302.60 cannot be apportioned between the three municipalities.

2. This question is purely hypothetical and no answer is offered.

Mr. Oliver asked the following Question, No. 13:—

1. What has been the dollar value of electrical equipment purchased in the United States of America by the Hydro-Electric Power Commission since January 1st, 1948. 2. What has been the dollar value of electrical equipment purchased in the United Kingdom by the Hydro-Electric Power Commission since January 1st, 1948. 3. What was the dollar value of electrical equipment and supplies of all types purchased in the United States for which comparable equipment and supplies were available in the United Kingdom.

3. To the best of the Commission's knowledge, nil. See answers for Parts 1 and 2.

Mr. Houck asked the following Question, No. 26:—

What amount is allowed in the interim power rate to municipalities to provide funds for frequency conversion.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:—

In accordance with the financial report on frequency standardization dated January, 1948, and prepared by Clarkson, Gordon & Co., provision has been made in the cost of power for frequency standardization as follows: 1948—\$7,447,030.47—See pages 166 and 182 of Commission's 1948 Annual Report. 1949—\$6,393,158.21—This will be shown in the Commission's 1949 Annual Report when issued.

Mr. Dennison asked the following Question, No. 52:—

1. At December 31st, 1949, in each district undergoing conversion by the Hydro-Electric Power Commission, how many (a) Domestic Consumers, (b) Commercial Consumers, (c) Industrial Consumers of Hydro have been changed over to 60 cycle. 2. On what basis is the "cost-plus-graded-fee" estimated and paid by the Hydro-Electric Power Commission to the Canadian Comstock Company in connection with the Hydro conversion to 60 cycle. 3. What check is used by the Commission as a measure of the cost and efficiency of the Contractor's work. 4. Have any revised estimates of the cost of frequency standardization been prepared by Hydro-Electric Power Commission to take into account the changed conditions of prices and the rate of growth since the publication of the Stone & Webster & Clarkson report. If so, (a) What are the totals of the revised estimates, (b) In what amounts do they differ from the original estimates, (c) What is the per capita total in each case for each class of consumer.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:—

1. As of December 31st, 1949—Number of consumers changed to 60 cycles:

		District	
(a) Domestic . . . . .	6,234	Scarborough . . . . .	5,058
(b) Commercial . . . . .	330	Hamilton . . . . .	3
(c) Industrial . . . . .	85	East York . . . . .	1,588

			19

2. and 3. The Canadian Comstock Company Limited is reimbursed by the Commission on the basis of actual expenditures, and the Contractor's work is under constant supervision by the Commission's engineers, purchasing agents and auditors. 4. The Commission has no revised estimates of the cost of the Frequency Standardization Program as it is too early to determine, with any degree of accuracy, what unit costs will be.

Mr. Millard asked the following Question, No. 79:—

1. What was the amount of the general legislative grant paid in 1949 for public schools in the City of Sudbury. 2. What would the grant have been if the grant plan outlined in the Minister's memorandum to secretaries of Boards of Trustees, dated February 17th, 1950, had been in effect.

The Minister of Education replied as follows:—

1. \$82,510.50. 2. This question is purely hypothetical and no answer is offered.

Mr. MacLeod asked the following Question, No. 84:—

1. How many penal institutions—jails, reformatories, industrial farms, etc., were operating in Ontario on January 31st, 1950. 2. In what year were these institutions built and at what cost. 3. How many people were confined to such institutions on January 31st, 1950. 4. How many people are on the staff. 5. How many doctors, nurses, psychologists, social workers and chaplains. 6. How much is allowed per day per inmate for food. 7. What is the total cost for maintenance per day per inmate. 8. Give the comparable figures for mental hospitals, other government hospitals and homes for the aged.

The Minister of Reform Institutions replied as follows:—

Mr. Calder asked the following Question, No. 23:—

1. What amount of money has been paid to mining municipalities under The Mining Tax Amendment Act, 1947, since December 10th, 1948, for the purpose of providing such Municipal aid. 2. On what dates were such grants made. 3. To what municipalities. 4. For what purposes. 5. What is the basis of making such grants.

The Minister of Municipal Affairs replied as follows:—

1. None. 2. Answered by 1. 3. Answered by 1. 4. Answered by 1. 5. Answered by 1.

Assuming that the Member from London is referring to subsidies paid to certain mining municipalities in order to reasonably stabilize their revenues, the following statement is submitted for his information.

A municipality is not permitted to levy taxes on an assessed value of buildings, plant and equipment of mining properties.

Instead of taxing mining companies on the basis of real property values, the mining municipalities are permitted to levy a tax on the annual net operating profit of mining companies as determined under the provisions of The Mining Tax Act. This tax is levied at the rate of  $1\frac{1}{2}\%$  on each company's annual profit up to \$2,333,333.33 and at the rate of 2.5% of profits in excess of this sum.

Unfortunately, the annual net operating profits of mining companies fluctuate greatly from year to year. Since a mining municipality must depend to a considerable extent on this taxation from mines, it is in a precarious position, because of decreased revenue, in any year in which the profits of the mines fall sharply.

To assist in this situation, an agreement was made with certain mining municipalities to cover the years 1948-52 inclusive. Under the terms of this agreement, if the yearly revenue of the municipality from assessing the net operating profits of mining companies does not equal an agreed fixed amount, this Department will make up the deficiency to them. This fixed amount was suggested by the Association of Northern Ontario Mining municipalities and agreed to by the Government.

In addition to grants paid under this agreement, payments of a similar nature have been made to other mining municipalities to assist them directly because the municipal services which they are called upon to render to the mining industry and to its employees is out of all proportion to the taxation revenue which it receives from imposing a tax on the industry's profits.

PRAYERS.

11 O'CLOCK A.M.

Mr. Wismer asked the following Question, No. 86:—

What were the average monthly expenditures for capital purposes made by (a) the Government, (b) its agencies, and (c) the municipalities in each of the years 1948 and 1949.

The Provincial Treasurer replied as follows:—

The estimated monthly expenditures in millions of dollars were as follows.—

	1948	1949
(a) Government of Ontario.....	4.8	6.1
(b) Provincial Agencies (Hydro, Ontario Northland Railway and U. of T.).....	10.1	12.7
(c) Municipalities.....	5.9	7.3
Adjusted Total.....	20.2	25.2

Rural power bonuses amounting to \$8,000,000 in 1948-49 and \$10,800,000 in 1949-50 have been included in expenditures of both the Government and the Hydro-Electric Power Commission, but are not included twice in the adjusted totals.

The capital expenditures of the Government, the Ontario Northland Railway and the Hydro are shown for the fiscal years ending 31st March. The expenditures for the University of Toronto and municipalities are for calendar years.

Mr. MacLeod asked the following Question, No. 98:—

1. Does the Mantane Contracting Company have a contract with the Department of Lands and Forests for cutting logs: (a) In the Mississagi Provincial Forest; (b) In the Hydro Reserve dam at Rocky Island Lake. 2. If so, how many logs have been cut to date. 3. How much has been paid to the Mantane Contracting Co. to date. 4. What is the estimated cost when the contract has been completed. 5. On what date was the contract signed. 6. Is the Great Northern Woods Company Limited at North Bay a Crown company. 7. On what basis does the Great Northern Woods Co. Ltd. handle sawn lumber originating in the Mississagi Provincial Forest. 8. Is Red and White Pine lumber salvaged in the Mississagi Provincial Forest graded by government graders. 9. Are grades for this lumber set by the Department.

The Minister of Lands and Forests replied as follows:—

1. (a) Yes; (b) Yes. 2. 543,083 logs; 30,000 cords pulpwood. 3. \$323,690.43 including \$115,728.90 for pulpwood. 4. \$455,473.94 including \$214,925.10 for pulpwood. 5. On the 15th of November, 1949. 6. No. 7. By an Agree-

ment between the Company and the Government the Company agrees (a) to assist the Minister in negotiating sawing contracts; (b) to supervise the sawing, dipping, piling and shipping to North Bay of all Government owned or purchased lumber; (c) to receive, grade, sort, re-manufacture, where necessary, all shipments received; (d) to make shipments to wholesale purchasers; (e) to make sales in collaboration with the Government; (f) to keep records of all receipts and shipments of lumber. 8. No. 9. No.

Mr. Dennison asked the following Question, No. 108:—

1. In each year since 1944, how many (a) boats or canoes, (b) outboard motors, (c) motor vehicles, were seized by the Department of Lands and Forests for infractions of the game and fishing laws or regulations. 2. How many have been (a) sold by public auction, (b) given back to the offender, (c) disposed of in any other way.

The Minister of Lands and Forests replied as follows:—

Before the Orders of the Day, Mr. Frost informed the House that Question No. 88 by Mr. MacLeod and Questions Nos. 89 and 110 by Mr. Dennison necessitate such lengthy replies that the Government requires that they be made motions for Returns.

On motion by Mr. MacLeod, seconded by Mr. Salsberg,

*Ordered*, That there be laid before this House a Return showing: 1. What are the terms and extent in area of the current Crown timber resources survey. 2. What private firm, or firms, are presently engaged in this work. 3. What percentage of the survey has been completed and in what areas. 4. What is the estimated cost of this survey. 5. To what extent, if any, do the present licensees share in defraying these costs. 6. What are the costs to date to the Province of Ontario in connection with the current salvage of fire-damaged timber in the Mississagi area with respect to: (a) indirect subsidies in the form of reduced stumpage fees, ground rent and fire protection tax; (b) direct monetary outlays in connection with roads, equipment, or other forms of direct subsidies. 7. What

firms or private contractors are currently involved in the Mississagi salvage operations. 8. What is the type, volume and species of timber taken out in the Mississagi fire area to date. 9. What are the estimates of fire-scarred timber still standing in this area, and when are the Mississagi salvage operations expected to be completed. 10. In what areas, outside of the Mississagi forest area, has the Minister used his authority under the Crown Timber Regulations to fix special rates for salvage of fire-damaged, diseased, insect damaged, windthrown, and flooded timber. 11. What are the estimated costs to the province of such special concessions, apart from the Mississagi fire-area, during the fiscal year immediately preceding the current fiscal year, or for the last year for which such figures would now be available. 12. What, if any, are the differences in rate of stumpage fees charged and paid by the pulp and paper companies in this province as against other operators with respect to: (a) sawlog-sized timber cut into pulpwood, and (b) sawlog-sized timber used for lumber, or (c) railway ties, piling, poles, pit-props, etc. 13. What is the actual difference, if any, in charges per square mile for ground rent and fire protection charges as between the pulp and paper industry and independent operators engaged in other lines of production. 14. Are there any individuals or corporations holding timber lands in reserve for future cutting purposes and upon which no ground rent or fire protection charges are collected by the Crown. 15. Do cash or bond deposits made by contractors or corporations correspond in equal ratio based upon a certain percentage of estimated value of commercial timber on limits obtained for cutting purposes. 16. What percentage of available Crown timber lands in the province of Ontario are presently held by: (a) Pulp and Paper Companies, including domestic use or export; (b) other operators in various forest products, including those who operate on their own limits and deliver pulpwood to the pulp and paper industry along with other operations. 17. Does the Department employ its own scalers in all cases to determine and check the amount of Crown timber dues payable on all kinds and species of timber cut throughout the province on Crown lands. 18. Does the cost of Government check-scaling of timber of all kinds cut on Crown lands fall on the operator, i.e., the person or corporation holding cutting rights.

On motion by Mr. Dennison, seconded by Mr. Wismer,

*Ordered*, That there be laid before this House a Return showing: 1. What firms engaged principally in the production of pulp and paper held Crown timber limits on January 31st, 1950, and what was the total area held by each firm. 2. What firms engaged principally in the production of lumber held such limits on the above date, and what was the total area held by each firm.

On motion by Mr. Dennison, seconded by Mr. Wismer,

*Ordered*, That there be laid before this House a Return showing: Since the publication of the Report of the Ontario Royal Commission on Forestry in 1947, what steps has the Government taken to: (1) ensure that the principle of sustained yield will apply in the harvesting of timber; (2) ensure that legislation and regulations will apply equally to all operators; (3) ensure that in any area cut over all usable species will be removed to the full extent of the capacity of existing markets to absorb them; (4) ensure that overmature timber will be removed before younger stands are cut; (5) ensure that all cut-over areas will be stocked either by natural or artificial means with a potential stand equal to or better

than that removed both as to species and density; (6) standardize stumpage rates per cubic unit of any given species, regardless of the final disposition of the timber; (7) simplify and improve the method of levying Government charges on forest operations; (8) replace the Doyle rule by a more accurate system of measurement; (9) eliminate speculation for profit on timber stumpage; (10) establish an export levy in accordance with the recommendation appearing at the bottom of page 181 of the above-mentioned report; (11) ensure that each area will be developed to its full growth capacity, with cutting confined to the older stands except under normal circumstances such as insect epidemic or fire loss.

The House resolved itself into a Committee to consider certain Resolutions and certain Bills.

Mr. Frost acquainted the House that the Honourable the Administrator of the Province, having been informed of the subject matter of the Resolutions, recommends them to the consideration of the House.

After some time, Mr. Speaker resumed the Chair, and Mr. Patrick reported that the Committee had come to certain Resolutions as follows:—

*Resolved,*

That,

- (a) an income tax shall be paid upon the tax payable under Part I of The Income Tax Act (Canada) for each taxation year by every individual resident in Ontario at any time in the year; and
- (b) the tax payable under Part I of The Income Tax Act, 1950 for a taxation year shall be five per centum of the tax payable under section 31 of The Income Tax Act (Canada) for the same taxation year,

as provided by Bill No. 132, The Income Tax Act, 1950 (Ontario).

*Resolved,*

That,

every taxpayer shall for each taxation year, pay a tax of nine per centum calculated on the income in excess of \$10,000 which he derives during such year from logging operations in Ontario,

as provided by Bill No. 134, An Act to impose a Tax on Logging Profits.

*Resolved,*

That,

deductions may be allowed from income,

- (a) for payments made by companies as current contributions to employees' pension funds;
- (b) of the profits derived from logging operations taxable under The Logging Tax Act, 1950 (Bill No. 134);
- (c) for payments made by companies as special contributions to employees' pension plans to make them actuarially sound; and
- (d) of portions of special payments made by companies to employees' pension funds in 1949 and prior years which to date have not been deductible,

as provided by Bill No. 135, An Act to amend The Corporations Tax Act, 1939.

*Resolved,*

That,

there shall be payable in respect of all land the owner of which is liable to taxation under The Provincial Land Tax Act, a tax of not less than \$4 on each parcel or lot, or where a parcel or lot has been divided or subdivided, on each separate portion into which such land has been divided or subdivided, and where such land has not been divided or subdivided and the total area thereof exceeds two hundred acres, the tax thereon shall not be less than \$4 on each two hundred acres nor less than two cents an acre on any or all acreage in excess of two hundred acres,

as provided by Bill No. 145, The Statute Law Amendment Act, 1950.

Also, That the Committee had directed him to report the following Bills without amendment:—

Bill No. 132, The Income Tax Act, 1950.

*Ordered*, That the Report be received to-morrow.

*Resolved*, That the Committee have leave to sit again to-morrow.

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant-Governor:—

Copy of an Order-in-Council numbered OC-597/50 under The Northern Development Act. (*Sessional Paper No. 47.*)

Also, Fourth Annual Report of the Department of Travel and Publicity, Ontario, for the fiscal year 1949-50. (*Sessional Paper No. 20.*)

Also, Report of the Minister of Public Works, Ontario, for the twelve months ending the 31st of March, 1949. (*Sessional Paper No. 19.*)

Also, Return to an Order of the House, dated April 5th, 1950, That there be laid before this House a Return showing: 1. What are the terms and extent

in area of the current Crown timber resources survey. 2. What private firm or firms, are presently engaged in this work. 3. What percentage of the survey has been completed and in what areas. 4. What is the estimated cost of this survey. 5. To what extent, if any, do the present licensees share in defraying these costs. 6. What are the costs to date to the Province of Ontario in connection with the current salvage of fire-damaged timber in the Mississagi area with respect to: (a) indirect subsidies in the form of reduced stumpage fees, ground rent and fire protection tax; (b) direct monetary outlays in connection with roads, equipment, or other forms of direct subsidies. 7. What firms or private contractors are currently involved in the Mississagi salvage operations. 8. What is the type, volume and species of timber taken out in the Mississagi fire area to date. 9. What are the estimates of fire-scarred timber still standing in this area, and when are the Mississagi salvage operations expected to be completed. 10. In what areas, outside of the Mississagi forest area, has the Minister used his authority under the Crown Timber Regulations to fix special rates for salvage of fire-damaged, diseased, insect damaged, windthrown, and flooded timber. 11. What are the estimated costs to the province of such special concessions, apart from the Mississagi fire-area, during the fiscal year immediately preceding the current fiscal year, or for the last year for which such figures would now be available. 12. What, if any, are the differences in rate of stumpage fees charged and paid by the pulp and paper companies in this province as against other operators with respect to: (a) sawlog-sized timber cut into pulpwood, and (b) sawlog-sized timber used for lumber, or (c) railway ties, piling, poles, pit-props, etc. 13. What is the actual difference, if any, in charges per square mile for ground rent and fire protection charges as between the pulp and paper industry and independent operators engaged in other lines of production. 14. Are there any individuals or corporations holding timber lands in reserve for future cutting purposes and upon which no ground rent or fire protection charges are collected by the Crown. 15. Do cash or bond deposits made by contractors or corporations correspond in equal ratio based upon a certain percentage of estimated value of commercial timber on limits obtained for cutting purposes. 16. What percentage of available Crown timber lands in the province of Ontario are presently held by: (a) Pulp and Paper Companies, including domestic use or export; (b) other operators in various forest products, including those who operate on their own limits and deliver pulpwood to the pulp and paper industry along with other operations. 17. Does the Department employ its own scalers in all cases to determine and check the amount of Crown timber dues payable on all kinds and species of timber cut throughout the province on Crown lands. 18. Does the cost of Government check-scaling of timber of all kinds cut on Crown lands fall on the operator, i.e., the person or corporation holding cutting rights. (*Sessional Paper No. 48.*)

Also, Return to an Order of the House dated April 5th, 1950, That there be laid before this House a Return showing: 1. What firms engaged principally in the production of pulp and paper held Crown timber limits on January 31st, 1950, and what was the total area held by each firm. 2. What firms engaged principally in the production of lumber held such limits on the above date, and what was the total area held by each firm. (*Sessional Paper No. 49.*)

Also, Return to an Order of the House dated April 5th, 1950, That there be laid before this House a Return showing: Since the publication of the Report of the Ontario Royal Commission on Forestry in 1947, what steps has the Government taken to: (1) ensure that the principle of sustained yield will apply in the

harvesting of timber; (2) ensure that legislation and regulations will apply equally to all operators; (3) ensure that in any area cut over all usable species will be removed to the full extent of the capacity of existing markets to absorb them; (4) ensure that overmature timber will be removed before younger stands are cut; (5) ensure that all cut-over areas will be stocked either by natural or artificial means with a potential stand equal to or better than that removed both as to species and density; (6) standardize stumpage rates per cubic unit of any given species, regardless of the final disposition of the timber; (7) simplify and improve the method of levying Government charges on forest operations; (8) replace the Doyle rule by a more accurate system of measurement; (9) eliminate speculation for profit on timber stumpage; (10) establish an export levy in accordance with the recommendation appearing at the bottom of page 181 of the above-mentioned report; (11) ensure that each area will be developed to its full growth capacity, with cutting confined to the older stands except under normal circumstances such as insect epidemic or fire loss. Mr. Houck asked the following Question, No. 39:—

1. What has been the total cost during the year 1949 for the entertainment of guests at the Niagara Park Refectory. 2. Are Niagara Falls Park Commissioners assessed for rooms at the Refectory or are these complimentary. 3. Are Niagara Falls Park Commissioners assessed for meals at the Refectory or are these complimentary. 4. If meals are complimentary, how many meals have been taken by Park Commissioners and their guests.

The Minister of Labour replied as follows:—

1. \$984.00. 2. Complimentary. 3. Complimentary to Commissioners when on business of Commission. Meals for Commissioners at other times, and meals for guests, not complimentary. 4. In 1949—294 complimentary meals.

Mr. Oliver asked the following Question, No. 80:—

1. What has been the cost to date of the construction of the Ontario Hospital at Smiths Falls. 2. What is the estimated cost of the completed work. 3. When is it expected to open such hospital.

The Minister of Public Works replied as follows:—

1. \$3,769,512.50. 2. At this stage information not yet available from which accurate estimate can be made. 3. The buildings will be progressively occupied by patients as they are completed, equipped and furnished. It is anticipated that the first move of occupancy will be made early in the coming fiscal year, when 450 patients will be moved into Group A buildings. Other moves will follow as quickly as the buildings become ready.

Mr. Dennison asked the following Question, No. 85:—

What is the number and value of motor trucks purchased by the Ontario Hydro-Electric Power Commission since April 1st, 1945, which were: (a) wholly manufactured in Canada; (b) manufactured partially in the United States, and partially in Canada; (c) manufactured in the United States; (d) manufactured in the United Kingdom.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:—

Information necessary to provide answers for this Question is not available. There is no motor truck wholly manufactured in Canada, and in making purchases of these vehicles the Commission does not receive information that would indicate the manufacturing source of the component parts.

Mr. Dennison asked the following Question, No. 91:—

What is the number and value of automobiles purchased by the Ontario Hydro-Electric Power Commission since April 1st, 1945, which were: (a) wholly manufactured in Canada; (b) manufactured partially in the United States and partially in Canada; (c) manufactured in the United States; (d) manufactured in the United Kingdom.

The 1st Vice-Chairman of The Hydro-Electric Power Commission of Ontario replied as follows:—

Information necessary to provide answers for this Question is not available. There is no automobile wholly manufactured in Canada, and in making purchases of these vehicles the Commission does not receive information that would indicate the manufacturing source of the component parts.

The House, according to Order, resolved itself into the Committee of Supply.

*Mr. Speaker and Members of the Legislative Assembly:*

Before performing the duty of proroguing the Second Session of the Twenty-third Legislature of the Province of Ontario, I wish to thank you, in the name of His Majesty, for the faithful and diligent application which you have given to the business of the people of this Province. The legislation which my Government has brought forward for your consideration and which you have approved, is of essential importance and includes many measures of particular benefit and interest.

Ninety Public Bills have received sanction. All are consistent with the continuing development and economic expansion of the Province. I should mention particularly a few of the measures which have special importance and value to the people.

Measures have been approved which will enable my Government to carry forward the coming conferences and discussions between the Federal Government and those of the several provinces, particularly within the fields of taxation. A Federal-Provincial Conference will be held this Autumn. It is a matter of much gratification that the various Governments can, and do, confer in a spirit of full co-operation and mutual understanding, in the interests of Canada. Arising directly from this co-operation is an Act to give increased stimulation to the building of homes. It is noted that a high level of home building in the Province has already been achieved.

Approval has been given to "The Labour Relations Act, 1950" which puts clearly into the form of legislation for the Province of Ontario, a code of principles and procedures for the conduct of relations between labour and management. I am confident that great good will come to all our people from willing adherence to the true intent and spirit of this great measure.

In recognition of the trends of these changing times, a measure has been given sanction which will prohibit in the future the making of covenants in deeds of land designed to prevent ownership or occupation on grounds of race or creed. An adaptation of the same principle was introduced in the Act relating to labour relations.

In response to the expressed desire of the people, authority has been given to the Municipalities of the Province independently to permit the conduct of sport within a limited period, on Sunday afternoons. This authority may be exercised only after a vote of the people in each municipality has been taken, and the conduct of sport will be subject to regulation by the municipal council.

Improvement in many respects of the marriage laws of the Province has been given sanction. In particular, provision has been made for the solemnization of marriage by County and District judges and by Magistrates.

Penalties upon conviction for driving while drunk have been increased materially.

Another measure which warrants particular mention is that establishing the Ontario Racing Commission, created to control and regulate all forms of horse racing in Ontario.

Although not a matter which involved legislative action, special mention should be made of the submission to you of a most comprehensive and far-reaching report by your Select Committee on Conservation.

Many measures have been passed which assist our people and tend to the betterment of conditions. Progress in education is most marked, and is reflected in grants to primary and secondary schools which are the highest in the history of our Province. Ontario leads all comparable jurisdictions in America. Additional assistance has been given to our hospitals in the form of a special maintenance grant of 25% of the amount given in 1949. Gratifying progress has been shown in the continuing improvement of the health and welfare of our people.

Many other matters have received consideration and approval. Among them should be mentioned twenty-eight Private Bills dealing with matters of special importance to those concerned and which required legislative action.

Satisfactory financial provision for the ensuing year has been made. Much gratification should be expressed and much encouragement taken from the fact that although the demand for funds to meet the requirements of my Government has been higher than ever before in the history of the Province, it has been possible to meet this demand, and at the same time, to reduce amusement and entertainment taxes.

In addition to the ordinary requirements my Government will be enabled to undertake very large public investment commitments. The substance and stability of this great Province are high.

May I express my gratitude for the appropriation of public funds for the purposes to which I have just referred. I am confident that under the guidance of Divine Providence the security and well being of the people of this Province will be advanced and strengthened by your endeavours as legislators.

The Provincial Secretary then said:—

*Mr. Speaker and Gentlemen of the Legislative Assembly:—*

It is the will and pleasure of the Honourable the Administrator of the Province that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

Fish and Game

---

SESSION OF 1950

*To the Honourable the Legislative Assembly of the Province of Ontario:*

GENTLEMEN:

Your Standing Committee on Fish and Game begs to present the following as its report:

The committee met three times during the session with Mr. Allen in the chair.

Representatives of Sportsmen's and Outfitters Associations were heard by the Committee, as well as private individuals.

187 recommendations were received.

No recommendations were made by the committee but a number of matters were forwarded to the Department of Lands and Forests for further consideration or study.

All of which is respectfully submitted.

Committee Room,  
Tuesday March 28, 1950.

H. M. ALLEN,  
*Chairman.*

## Minutes of the Meetings of the Standing Committee on Fish and Game

### FIRST MEETING

The first meeting of the Standing Committee on Fish and Game of the Second Session of the Twenty-Third Legislature of the Province of Ontario was held in Committee Room 1 on Tuesday March 21 at 10 a.m.

Present were Messrs. Allen, Baxter, Cathcart, Dennison, Dowling, Downer, Easton, Ellis, Hall, Harvey (Nipissing), Harvey (Sault Ste. Marie), Houck, Isley, Janes, Johnston (Parry Sound), Johnston (Simcoe Centre), Leavens, Mackenzie, Martin, Morrow, Murdoch, McMillan, McPhee, Newman, Pringle, Pryde, Reynolds, Robinson, Salsberg, Sandercock, Hon. Mr. Scott, Stewart, Taylor, Villeneuve and Walker.

On motion of Mr. Janes, seconded by Mr. Cathcart, Mr. Allen was unanimously made chairman.

Submissions were received from the Ontario Federation of Anglers and Hunters; The Northern Outfitters Association; Mr. H. Breckenridge, Mr. George Wright (tabled); The Rice Lake Tourist Association; The Lake Huron and Georgian Bay Fishermen's Association; The Peterborough Fish and Game Association; The Resort Operators Section of the Peterborough Chamber of Commerce; The Jolly Anglers Fish and Hunt Club; The Central Kawartha Cottagers Association; The Pickerel River Outfitters Association; Mr. Harold Shannon.

Mr. H. V. Sutton, representing the Ontario Federation of Anglers and Hunters congratulated the Department of Lands and Forests for the progress it had made on fish and game problems during the year. He also commended the report of the Select Committee of the Legislature on Conservation.

Mr. George Bishop of the Northern Outfitters Association reported his association was pleased with the decentralization program being carried on by the Department of Lands and Forests.

Mr. Salsberg questioned Mr. Bishop on the effect of American airplanes illegally bringing parties to fish in Ontario waters. Mr. Bishop said it was "very serious" in the Lake of the Woods area and north and west of Sudbury, and there definitely were not enough overseers. They were not spending money to any degree, he said.

Hon. Mr. Scott reported his department was working very closely with the Department of Transport at Ottawa to control any illegal traffic.

Referring to homesteading on Crown lands Mr. Dennison asked if there

was not a considerable degree of this in Southern Ontario as well as in the north. Mr. Scott replied it was mainly on private lands.

When Mr. J. Hambleton representing the Peterborough Fish and Game Association presented a resolution dealing with fishing seasons in that area, Mr. James Fraser representing the Peterborough Chamber of Commerce reported the resolution had later been rescinded by the Association. Mr. Hambleton withdrew this resolution.

In reply to a question as to why there had been a \$1 increase in the non-resident angling licence Dr. W. J. Harkness explained there had been many requests for additional coupons to be incorporated with the licences. A new licence had then been designed which was more expensive to produce.

In asking that the Pickerel season in the Kawartha Lakes should be from May 1 to May 31 and that all fishing should be stopped in June, Dr. Heiton of the Central Kawartha Cottagers explained the present June season meant that pickerel were fished over the bass grounds and many bass were caught illegally.

Mr. Dowling submitted to the committee that at Long Point Beach there were areas held by Americans which were restricted to fishing.

Dr. Harkness explained that these were canals which had been artificially created and that the private interests therefore controlled them.

Other members complained that in other areas waters extending out considerable distances from shore were controlled privately.

The other submissions were received without comment.

On motion of Mr. Janes, seconded by Mr. Reynolds, the committee adjourned at 11.50 a.m.

Briefs presented at First Meeting:—

THE ONTARIO FEDERATION OF ANGLERS AND HUNTERS  
RESOLUTIONS OF GENERAL INTEREST AND PERTAINING TO FISH

---

The Hon. Harold R. Scott has said in a recent speech regarding Ontario's Northland: "This forest is dedicated, with its resources, to multiple uses—that is, the use of forest, water and soil for the purpose for which they are best fitted."

These resolutions are made, and urged, for the preservation and improvement of wild life in Provincial areas as part of that dedicated use.

Proper forest management is of primary importance. If our forest areas are to be dedicated and used for the purpose for which they are best fitted, competent examination should determine what that best use is before remaining crown timber lands are turned over to private holding. Under land settlement regulations the grant of public land to private ownership is practically mandatory if approximately 50% of the area is not rock, regardless of the agricultural value of the land. Land so alienated is no longer under forest management, and wood cutting for sale is the main reason for cleaning it.

1. And therefore we repeat our resolution: "That so-called "Homesteading" of crown woodlands be not permitted unless and until competent previous examination has shown that the soil is suitable for successful farming in proper social and economic communities. The establishment of more rural slums should not be permitted through the process of turning good public forest lands into sub-marginal agricultural lands. Such areas are more valuable to the Province for the well-managed production of forest and wildlife crops.

2. We congratulate the Ontario Government in working, with the co-operation of Federal Authorities for the beginning of control of aircraft as instruments used in hunting game. Such control should be adequately and rigidly enforced. We continue to urge: That the Ontario Government secure the full co-operation of the Federal Authorities in insisting (a) that all aircraft coming into and leaving Canada report at points of entry, as required by law, and (b) that aircraft be used for transportation only to and from a declared base, and (c) that their use in Ontario as instruments for the fishing and the actual taking of fish be prohibited by regulations then strictly enforced by the Ontario Department of Lands and Forests.

3. The authority responsible for stocking and maintenance of fish in waters under control of the Province of Ontario should include all matters affecting the taking of fish from these waters.

The same centralizing of authority should apply in like manner to houseboats and cabin cruisers operating under Federal license and used for fishing in navigable waters within Provincial areas. At present the Ontario Government has no authority to regulate fishing activities from such boats licensed by Federal Authorities to carry passengers on navigable waters. Zoning of commercial fishing and tourist camps is recognized as necessary to keep fishing pressure within bounds, but such control of depletion is impossible unless the commercialized take by cruisers and houseboats is under control of the Department of Lands and Forests.

Therefore, be it resolved: That the regulation of fishing and hunting by and from cruisers and houseboats licensed by Federal authorities should be recognized as within the authority of the Ontario Department of Lands and Forests, and that all necessary steps be taken to secure that recognition.

4. The Algonquin Park wildlife sanctuary has, during the years demonstrated the value of such an area for rebuilding wildlife stocks within the protected area, and supplying game to areas around it. In other sanctuary areas notably the Mississauga and Chapleau reserves, poaching of game and fur is notorious. We continue to urge therefore:

That full warden protection be provided against poaching activities within Provincial wildlife sanctuaries, and especially now that the legal killing of moose is suspended, that sufficient warden protection be provided, on the ground and from the air, to stop the illegal killing still being done.

5. Since many novice hunters and fishermen do not know the laws and regulations, and lack of knowledge has caused unnecessary and regrettable violations, it should be mandatory for every issuer of licenses to furnish the purchaser at the time of issue, with a digest or Blue book of the game laws and fish regulations, of most recent issue.

6. That in the interest of safety and for the protection of human life, the bearing of firearms while under the influence of intoxicants be subject to the same penalties as the operation of a motor vehicle while in a similar condition.

7. That the salaries of Game Wardens and their allowances, be raised at least to a level comparable with the Provincial Police, and that a sufficient staff be maintained to cover all border crossing points 24 hours per day during open seasons.

8. Resolved that the penalties for illegal hunting and fishing be substantially increased, and that all equipment including motor vehicles, outboard motors, guns, etc. which are seized should be sold at public auction.

9. That the Department be urged to display prominently larger signs on all roads leading to the wildlife areas, urging the public to become more conservation minded.

10. That all members of the Provincial Legislature be requested to attend the Fish and Game Committee public hearings and the House agenda be so arranged that they may, to enable them to become more informed of the importance of this Province's renewable natural resources and to impress on them the weakness and folly of interfering with convictions and the work of this Department's field men in the enforcement of the law.

11. The Burwash Industrial (Prison) Farm is supposed to be a game and fish reserve. A recent arrest and detention of partridge hunters within the ill-marked boundaries of the area has brought to light some unsatisfactory conditions. Prison guards made the arrest, and called on the game wardens to take over from there. The hunters were said to have been guilty of an offence, but would not have been guilty had they been friends of, and with permission from, the superintendent of the Prison Farm.

The area is either a reserve, held by and for all the people of Ontario, or it is not a reserve. Grave objection is taken that any one acting as an officer under the Ontario Government representing all the people of Ontario, should be able to grant special privileges to any one to do on lands belonging to all the people what would be illegal for others to do. We urge, therefore:

- (a) That the Ontario Government revoke any orders-in-council or other authority permitting the superintendent or other officials of the Burwash Industrial Farm to issue hunting permits for use on any part of Burwash

Industrial Farm area; (b) That the Farm area be kept as a game sanctuary; (c) That all the Burwash Industrial Farm boundaries be so clearly defined and plainly marked that trespassing hunters can have no reasonable excuse.

12. That no Tourist Outfitters' License be granted except to Canadian citizens and that all aliens applying for campsites of any kind be informed to the above effect.

13. BE IT RESOLVED that as the Ontario Federation of Anglers and Hunters as represented by their executive body are extremely dissatisfied with the reported stand of the Ontario Government on river pollution, and feeling that if no direct action is taken our natural resources will be wasted and our fish and wildlife exterminated, representation be made to the Lieutenant-Governor in Council and the Prime Minister of the Province of Ontario demanding direct action be taken to implement the following resolution which was unanimously passed at our annual meeting held in Sudbury January 30th and 31st, 1950, which resolution is hereto attached and marked as Schedule 1.

RESOLVED:

That the Ontario Federation of Anglers and Hunters shall, through its proper officers in that behalf, submit a recommendation in writing to the Lieutenant-Governor in Council that he shall, pursuant to the Public Enquiries Act, Chapter 19 of the Revised Statutes of Ontario, 1937, cause an enquiry to be made in Ontario by appointing a person or persons by Commission, to enquire into and report upon the best possible methods and means by way of legislation or otherwise to preserve the rivers, lakes and waterways within the jurisdiction of the Province of Ontario from pollution of all sorts, types and classes and without limiting the generality of such reference, to enquire into the following subjects:—

- (a) Methods employed in other countries for the elimination of pollution of rivers, lakes and waterways in such countries.
- (b) The Statutes, Orders and Regulations presently in force in other countries covering the question of pollution of rivers, lakes and waterways within their respective national jurisdictions.
- (c) Supervision and administration of all rivers, lakes and waterways within the jurisdiction of the Province of Ontario to ensure proper preservation thereof free from any and all unnecessary pollution.
- (d) All relevant facts relating to any matter into which in the opinion of the said Commission it is necessary to enquire in order to carry out fully and effectually the duties imposed upon such Commission.

FISH

---

1. That the Department of Lands and Forests urge the proper governmental authority to pass such rules and regulations governing the hiring, renting and identification of boats as may best safeguard the lives of the users thereof, and to

establish such inspection and licensing of all boats for hire as may prevent the use of leaky, unsound and unseaworthy craft. Leaving this to a few R.C.M.P. officers is not good enough.

2. We urge the continuance of the Department's policy of building more trout rearing ponds to enable them to distribute more fish of larger size in Ontario.

3. Whereas the game fish of this Province are being so heavily exploited and intensively angled for, and

Whereas there is cause for grave concern regarding our depleted stocks of game fish, and

Whereas there is considerable spoilage and resultant wastage of game fish exported from this Province by returning tourists,

Therefore be it resolved that no game fish be allowed to be exported from the Province of Ontario with the exception of mounted specimens which have been prepared in this Province.

4. Whereas we have every reason to believe that considerable numbers of Fish are taken immediately prior to the open season, and

Whereas there is insufficient overseer service to cope with offenders.

Now therefore be it resolved that additional overseer service be given at least one week before the opening of Trout and Bass seasons.

5. That no angling through ice be permitted for speckled trout.

6. That the closed season for pickerel be set as from April 15, to May 23rd, in the district north of North Bay.

7. Resolved that all angling in the St. Lawrence River on the Ontario side cease on October 15th.

Whereas many interested sportsmen consider that the St. Lawrence River is not adequately patrolled and that our overseers are handicapped by not having proper boats and equipment.

8. Resolved that the Dominion Government be approached for a conference as regards the lowering of the water levels in the Rideau River from Hog's Back to Burritt's Rapids or Merrickville. Local sportsmen are firmly of the opinion that under the present system there is a heavy loss of both fish and muskrats, owing to the water level being too low during the months of November, December and January.

9. Resolved that we ask for a Biological Survey of the Physical Characteristics of Belmont Lake.

10. Resolved that the closed season for Lake Trout in Lakes Muskoka, Rosseau and Joseph be from October 5th to January 1st of each year.

Resolved that the Department give us a report on Ling Investigations.

11. A follow up of a 1947 resolution asked again in 1948: It is our sincere desire that consideration be given to thorough study of the fish habits prior to, during and following the spawning period for Pickerel, in the waters leading out of Lake Couchiching insofar as the advisability of having fish ladders placed at Wasdells Falls and all branches of the Severn River leading out of Lake Couchiching where there are presently in operation Lake level control dams, hydro dam and canal lock, and if such study is evidence of the fact that we believe these fish go down stream to spawn and try to return and cannot due to these obstructions, then proper fish ladders be installed to correct this draining of Lake Couchiching of this type of fish.

12. Due to many so-called illegal devices commonly known as "Sniggers" or "Snaggers" being used in our local waters for the taking of white fish and herring especially when fishing through the ice, we recommend the following: That in fishing in the waters of Lakes Simcoe and Couchiching during the period or periods that white fish and herring may be taken by angling, that each line have not more than two small (No. 2 or smaller) single hooks freely attached thereto and that no ridged device be allowed to either connect the hooks to one another or the hooks to the line.

13. Due to the gross misuse of spears in the Lakes Simcoe and Couchiching districts under the guise of spearing coarse fish, this Club urgently recommends the following: That in the Townships of Tay, Matchedash, Medonte, Oro and Orillia in Simcoe County, Rama, Mara and Thorah in Ontario County and Morrison Township in the District of Muskoka, it be illegal for any person to use, carry or be in possession of a spear at any time of the year, unless by special permission of a local Game Overseer for a specific purpose.

14. That all the carp trapped in the nets during the spawning process of Muskellunge carried on in the Kawartha Lakes area, each spring, be destroyed.

15. That this zone do all in its power to have the Dept. of Lands and Forests put in a fish ladder to enable the Rainbow Trout to get past Nicholson's Dam on the Nottawasaga River.

16. That the use of dip-nets be prohibited in the County of Welland, except for the taking of Smelt under special Smelt licenses.

17. That all fishing in the Trout streams of Norfolk County except during the Trout season be prohibited.

18. Now therefore be it resolved that a size limit of 24" be placed on Pike taken from the waters of the Nith River.

19. Now therefore be it resolved that the Department of Lands and Forests define and protect by markers, the spawning areas of Mitchell's Bay and prohibit fishing in these areas until after the Bass spawning season in each year.

20. Now therefore be it resolved that the Department of Lands and

Forests put a closed season on Lake Trout during the spawning season all over Ontario as was the case previous to 1917, when it was lifted as a war measure and never put on again.

21. That the Department of Lands and Forests carry out all planting of fish, provided, however, that individuals or clubs shall still be permitted to plant fish in remote or inaccessible waters.

22. That the number of biologists be increased as rapidly as possible for more extended investigation in fish conditions and fishing problems, with special attention to the value of fertilizing, stream culture and present restocking methods.

Minutes of joint meeting of the Peterborough Fish and Game Protective Association and Resort Operators' Section of the Peterborough Chamber of Commerce, held in Peterborough, Friday evening, March 17th, 1950.

Executive members of the Chamber's Resort Operators' Section present were: Geo. Robertson (Rice Lake), Paul Harding (Stony Lake), Wes. Doyle (Pigeon Lake), E. Balmer (Chandos Lake), Bus Mitchell (Chemong Lake), Mac. McWilliams (Buckhorn Lake), J. M. Fraser, Chairman. Executive members of the Peterborough Fish and Game Protective Association present were: J. Baldwin, President, N. Bradley, E. Guppy, D. Smedmore, R. Menzies, R. Curtis, E. Hiland, S. Percer, G. Houghton, W. Perry, H. Tighe, J. Rogers.

Moved by Paul Harding, seconded by W. Doyle: "That there be no change in the opening date of May 15th for the pickerel season for 1950."

Moved by 'Mac' McWilliams, Gail Park, and seconded by Wes. Doyle, Pine Tree Lodge:

(Item 1) "That the drift fishing regulations applying to the Counties of Peterborough, Northumberland, Durham and Victoria be rescinded and that drift fishing be permitted in these four counties from May 15th to June 30th, allowing the use of artificial bait.

(Item 2) "That the minimum fine of \$50.00 for first offence be applied to all infractions of the Game Laws regarding the taking of bass and muskelunge out of season, as well as undersized fish and exceeding the game limit."

Carried.

Moved by Norm. Bradley, seconded by E. Guppy: "That the Peterborough Fish and Game Protective Association go on record along with the Resort Operators' Section of the Peterborough Chamber of Commerce, as protesting the increase of \$1.00 as applied to fishing licenses for non-resident anglers for the year 1950.

(Approved unanimously).

JAS. M. FRASER,  
*Chairman — Manager*

## SECOND MEETING

The second meeting of the Standing Committee on Fish and Game of the Ontario Legislature was held in Committee Room 2 on Wednesday March 22 at 10 a.m.

Present were Mr. Allen (Chairman) and Messrs: Cathcart, Cox, Dennison, Ellis, Fullerton, Hall, Harvey (Nippising), Harvey (Sault Ste. Marie), Houck, Janes, Johnston (Simcoe Centre), Leavens, Mackenzie, McDonald, McEwing, McPhee, Newman, Pringle, Reynolds, Robinson, Salsberg, Sandercock, Hon. Mr. Scott, Villeneuve and Walker.

Representations were heard from the Ontario Federation of Anglers and Hunters; The Northern Ontario Outfitters; The New Ontario Trappers Association; Mr. Len Hughes; Mr. Charles Hoover, of the Regulated Game Preserve Areas in the Counties of Ontario and York; Mr. Bert Taylor; The Peel County Game and Fish Protective Association; The Port Perry Rod and Gun Club; The Georgian Bay Trappers Association (tabled); Mr. Douglas McKay (tabled); Mr. S. H. Holly (tabled); Mr. Clive A. Thomason; The Holst Point Association (tabled); Mr. I. Pettit; The Brant County Rod and Gun Club; Dr. J. White; Mr. Court Glover; Mr. Harry Hazen; Mr. Ken Hansen; Mr. E. Sawyers; The International Peace Memorial Forest; Mr. W. P. Shields; The Central Muskoka Game and Fish Protective Association; Mr. W. Myer; Mr. Ernest Chauvin; The Dundas Governor's Road Conservation Club; The Jolly Anglers Fish and Hunt Club.

Considering the brief of the Ontario Federation of Anglers and Hunters it was suggested by Mr. Ellis that Pelee Island should have the same open dates for pheasant shooting as prevailed on the mainland in Kent and Essex counties.

Mr. Dennison asked if all outboard motors seized from transgressors of the Game and Fisheries laws were sold at auction, or if not how many were.

Mr. H. V. Sutton said his association felt that in many cases the motors were returned after intervention of the local member of the Legislature.

Mr. F. S. McDougall, Deputy Minister, said he couldn't state how many motors were sold at auction. The Department itself, he said, used a number of the motors which had been taken for violations.

Mr. Sam Osborne of Sudbury objected to the suggestion of Mr. Taylor that the deer season on the Pickerel River should open earlier. In former years, he said, deer had been taken out of the area like cordwood.

Mr. Glover of Windsor after his presentation complimented the Department of Lands and Forests for the attention it now paid to resolutions.

There was considerable discussion regarding the Quetico national park area.

Various operators from the area complained that they couldn't either estab-

lish camps in the area or take parties in overnight. While American operators through airplanes and houseboats could use the resources freely from their side.

It was suggested that American operators be invited to establish camps in the area but various members complained that Canadian operators should be given the chance to develop the area.

After receiving the representations, on the motion of Mr. Leavens, seconded by Dr. McPhee, the committee adjourned at 12.30 p.m.

Briefs presented at Second Meeting:—

THE ONTARIO FEDERATION OF ANGLERS AND HUNTERS

RESOLUTIONS OF GENERAL INTEREST AND PERTAINING TO GAME

1. That non-resident Deer hunters in any part of Ontario be accompanied by a licensed guide, on the same basis as has been hitherto required in the case of non-resident moose-hunters. Sec. 20-3 applies to Rainy River and Kenora only.

2. That guides, when acting as such, be prohibited from carrying firearms.

3. That a Junior License be issued to permit a person under the age of 16 to hunt in the company of a licensed parent or guardian. (Zones 2 and 3).

4. That the present law regarding deer licenses be clarified to require that the metal tag be placed on a deer as soon as it is shot.

5. Whereas our predators appear to be on the increase, in spite of the bounty system, we urge that trial be made of professional hunters to be paid maintenance rates plus incentive payments, to control predators—i.e. wolves and bears, where they are increasing or are causing marked destruction of wild life.

6. That non-Resident Hunting Licenses confer only the same privileges as to bag limits and open seasons as are accorded to residents. Examples: The shipping tags on the Non-resident License far exceed the quantities of various game birds permitted by the resident season limit.

7. That competent investigation be made of the destruction of Fawns and Calf Moose by Bears, and the effects of such destruction on Deer and Moose populations. This may be covered by current investigations.

8. That a numbered button, to be worn in plain sight by the license holder, be issued with every hunting license sold in Ontario.

9. Resolved that the opening dates for the different species of fish to appear on non-resident fishing licenses and (2) Game Laws to be published before the non-resident licenses are issued.

10. Whereas the present regulations permitting persons hunting in company to kill one doe or fawn for each two hunters, discriminate against persons hunting

individually, and many doe and fawns are left to waste in the woods, be it resolved that individual hunters be not limited to shooting bucks only.

11. That a Game Preserve of up to one thousand square miles area be established north of Lake Wanapitei, based on a suggested line from Tyrone to MacBeth Townships, and extending northward to a line from Adams to Black Townships, with adequate forestry and wildlife control. Camp locations are being taken up in the area now, and unless a preserve is established now, vested interests will be established.

12. That a wildfowl sanctuary be established on Whitewater Lake.

13. Whereas a fish and game overseer had made the town of Smiths Falls his headquarters for a number of years but as there is none located there at present it is felt that this practice should be re-established due to the large number of hunters and anglers in the district.

Therefore be it resolved that the Department of Lands and Forests consider the appointment of a full time Fish and Game overseer to work out of Smiths Falls.

14. It has been brought to the attention of this club to what great extent snares have been improperly used. We therefore strongly recommend that the use of snares of any type be made unlawful in the following Townships: Tay, Matchedash, Medonte, Orillia, Tiny and Oro in Simcoe County, and Morrison Township in the District of Muskoka at any time of the year unless by special permission of the local Game Overseer for a specific purpose.

15. Whereas the cotton-tail, Jack Rabbit and Hare population in the Huron and Erie Zone has dropped to an all time low, and whereas some measures must be taken to protect these species of Game now: Therefore be it resolved, that the sale of Jack Rabbits, Cotton-Tail Rabbits and Hare be prohibited and that a bag limit of six Jack Rabbits, Cotton-Tail Rabbits and Hare in the aggregate per day, be added to the regulations.

16. Whereas it is believed that good numbers of deer are killed immediately before and immediately after the open seasons where special Township deer hunts are held.

Now therefore be it resolved that the Department of Lands and Forests give additional overseer service at least one week before and one week after the dates set for open season on deer in these special areas.

17. Now therefore be it resolved that the gun be kept out of the field until the opening day of the Pheasant shoot in Kent County.

18. Whereas we believe that bow and arrow hunting is a form of sport in which the hunter practices conservation due to the fact that he must stalk his game to get in shooting range,

Now therefore be it resolved that bow and arrow hunting be encouraged and that certain areas not open to firearms be opened up for bow and arrow hunting.

19. Due to the fact that convictions and fines under the Game and Fisheries laws have little effect on the hardened transgressors, and in view of the success of the method in use in New York State, now therefore be it resolved that if an individual has two convictions under our Game, Fish or Trapping Laws against him, the said individual shall be unable to buy or hold any license for fishing hunting, trapping or buying of furs for a period of five years.

20. Whereas from year to year the dates for the open season on upland game have changed from time to time, creating unnecessary disturbances to the plans of sportsmen and associations, and whereas sportsmen cannot plan ahead as to vacations, and associations cannot plan their activities with any assurance as to the date of open seasons; now

Therefore be it resolved that the Federation recommend to the Department of Lands and Forests that the dates for open season on game, wherever possible, be set on the following principle. Should conditions be such that by an Order-in-Council an open season will be declared on game, they shall be at the following times:

Ruffed Grouse	—The week of Thanksgiving Day and another open season during the open deer season.
Pheasant	—The last week of October.
Squirrel	—One week later.

That the Cotton-Tail and Jack Rabbit season open on the same date as Pheasant season in Regulated Game Preserve Areas, and that this information be printed on Township Licenses.

21. Therefore be it resolved, that alien non-residents be prohibited from shooting small game in Haldimand County.

22. Therefore be it resolved that Clause B, Section 43, Game and Fisheries Act, be changed to read "to discharge or carry."

23. Therefore be it resolved that the Huron and Erie Zone go on record as recommending that there be a change in the Criminal Code to prohibit the sales of guns and ammunition to any youth under the age of 16.

24. That the laws relating to Guides Licenses be rigidly enforced, and that these licenses should not be issued without the approval of the local Fish and Game Overseer.

25. That Vermin Permits shall not be issued except by the Game Overseer in the locality where the applicant resides, but in no event shall a Vermin Permit be issued without the written consent of the local Game Overseer.

26. Whereas angling and hunting (of ducks) occurs illegally to a very great extent, these violations of the Fish and Game Regulations are becoming very serious and should receive the immediate attention of the Department of Lands and Forests.

27. Therefore be it resolved that we recommend the appointment of an overseer for the St. Lawrence River exclusively for the area between Brockville and Kingston and that there should be suitable power boats and equipment to enable the officer to patrol the area satisfactorily.

Members of the Fish and Game Committee.

Two meetings have been held this year with representatives present from the Regulated Game Preserve Areas in the undernamed townships in the Counties of Ontario and York:

East Whitby, Whitby, and Pickering Townships in the County of Ontario.

King, Whitechurch, Markham, and Vaughan Townships in the County of York.

The meetings unanimously decided that the following resolutions be presented for your consideration, and it is our sincere hope that they will be favorably considered.

Moved by J. W. Powers, East Whitby, seconded by S. S. Pugh, Pickering.

That we petition the Provincial Department of Lands and Forests, Fish and Wildlife Division, through the Fish and Game Committee, to delegate the authority of issuing Vermin Permits to Regulated Game Preserve Areas, similar to the procedure to issuing Township Hunting Licences, with the fee arranged to the satisfaction of the Provincial Department.

Resolution carried.

Moved by J. E. Harper, Markham; Seconded by R. A. Belcour, East Whitby.

Whereas conservation is dependent upon the number of hunters being limited to a reasonable number for a certain given area, we have already petitioned the Provincial Department to enact legislation to make Township Hunting Licences valid only in the Township where they are issued, and we solicit the support of this Committee to support this recommendation.

Resolution carried.

It is apparent to those residing in areas adjacent to cities that some action along the lines suggested in these resolutions must be taken to conserve our wild life, otherwise the hunters outnumber the game.

We have also noticed hunters in regulated areas using vermin permits since February 28 without the approval of the local authorities. This is not in keeping with the memorandum received from the Fish and Wildlife Division, during the year 1949, and released to the press.

I quote from Paragraph 2: "This licence is not valid in Townships estab-

lished as Regulated Game Preserve areas without the approval of the controlling organizations in such Townships.”

All of which is respectfully submitted.

NEW ONTARIO TRAPPERS ASSOCIATION

The following resolutions and recommendations were moved and passed at the Third Annual Convention of the New Ontario Trappers Association, which was held in Sudbury, Ontario, on February 1st, 2nd and 3rd, 1950, and are hereby presented in brief to the Legislature for consideration and approval:

RESOLVED:

1. That a \$50.00 bounty be paid on wolves and that the same bounty apply on the pups as well as on the adult wolves.
2. That a bounty be paid on bear and fox. The trappers have found that both these animals are very destructive to many kinds of game, and it will create a great deal more interest among the trappers in predator control to have a bounty on them.
3. That a trapper who has had only one conviction and had his license taken from him, should have his case reviewed and his license returned to him if the wildlife supervisors feel that the circumstances warrant giving him another chance. The trappers all feel it is too severe a penalty to have his trapping rights taken from him for only one conviction unless it is an extremely severe violation.
4. That the Department allow trappers, in the section of the north country where only a few dogs are used in hunting, to use snares for the taking of wolves during all seasons or at least for the duration of their trapping licenses.
5. That the trappers be allowed to use snares for the taking of beaver under the ice.
6. That the hunting and trapping seasons be handled by zoning on a much closer scale, in accord with the conditions of the seasons and the volume of fur and game in different localities. This also to include moose, since many trappers feel that there are plenty of moose in their area to warrant an open season.

7. That the taking of otter be allowed until the end of the beaver season.
8. That before being granted a license, a new applicant be required to pass a test which will satisfy the Inspector of Traplines that he is capable and qualified to hold a license, both for his own protection in the bush and to guard against placing inferior or poorly handled merchandise on the market.
9. That the Department arrange to transplant Marten into areas which at present have none, but which have proper food and conditions for them.

1. That the Department of Lands and Forests be requested to have a sufficient number of game wardens posted at all border crossing points to ensure the cancellation of all non-resident fishing and hunting licenses.
2. That foreign aircraft, when entering Canada for hunting and fishing purposes, or when entering the bush area removed from organized territory, be required to tie up at the Customs entry point, or at registered airdrome, or seaplane base, or at the licensed tourist operator's camp nearest their destination; there to remain until its departure for home or for a like area in Canada. Travel from the point where foreign aircraft left to the fishing or hunting destination to be under the supervision of registered Canadian operators, or other duly qualified resident overseers.
3. That the open season for deer hunting in the Kenora-Rainy River Districts remain as at present.
4. That the Department seek to have established a uniform wolf bounty for all Canadian provinces. That the present \$25 bounty on adult wolves include wolf pups as well. That the opening date for wolf hunting be set at January 1 instead of March 1. That licenses be granted to responsible persons to hunt wolves in game preserves.
5. That the Department of Lands and Forests be urged to give serious consideration to the control of private camps that are using their establishments as unlicensed tourists camps. (In this connection a memo of existing conditions will be submitted direct to Department officers.)
6. That in appreciation of their past co-operation, as well as in the interests of Conservation, Northern Ontario Outfitters' Association will extend fullest co-operation to the Department of Lands and Forests in the matter of fire control, wildlife protection, and in the accurate reporting of their take of fish and game.

## THIRD MEETING

The third meeting of the Committee on Fish and Game was held on Tuesday, March 28, at 10 a.m., with the following members present:

Messrs. Allen (Chairman), Cathcart, Cox, Dennison, Harvey (Sault Ste. Marie), Houck, Mackenzie, Martin, Pringle, Reynolds, Sandercock, Scott (Peterborough), Taylor and Walker.

The Committee met to consider 187 resolutions.

No motions were passed, but a number of resolutions were sent to the Department of Lands and Forests for consideration. Among these were:

That a closed season for pike and pickerel be established at some period in the year on the St. Lawrence River.

That study be given to outlawing all spear fishing in the Province.

That the possibilities of opening a game preserve in the Parry Sound and Peterborough districts be reviewed.

The Committee did not approve of resolutions which would have prevented the export of game fish except mounted specimens by non-resident anglers, and which would have refused tourist outfitters' licenses to any except Canadian citizens.

A proposal that certain lakes in Leeds County should be closed for fishing through the ice was referred back to local authorities. The same action was taken on a large number of other resolutions without discussion.

On the proposal of Mr. Houck it was recommended that a limit of 3 a night and 25 a season be set on coons. Also that shooting be barred between 6 a.m. and 6 p.m.

Hon. Mr. Scott reported the Department of Lands and Forests was considering opening the trout and pickerel seasons this year on a Saturday. The regular opening dates would fall on a Monday. He said that in future years when the regular opening dates fell beyond a Monday he would not agree with putting it back.

Mr. Scott also gave interim figures on a ling survey.

Read and tabled was a report on Ontario Moose Investigations by Randolph L. Peterson, which recommended the moose season be closed for another year. The investigations are continuing.

Mr. Houck moved a vote of thanks to the Chairman of the Committee and also to the Department of Lands and Forests.

The meeting adjourned at 12.15 p.m.

Brief Presented at Third Meeting:

ONTARIO MOOSE INVESTIGATIONS

By Randolph L. Peterson

Recommendations:

1. That the moose season remain closed during 1950.
2. That the Department of Lands and Forests continue a special study of the moose situation in order to (i) establish an estimate of the moose population for 1951, (ii) study the trends in the moose population relative to a possible open season in 1951, and (iii) establish a management programme for the maintaining and increasing of Ontario's moose population.
3. That an annual inventory of the moose populations, along the lines carried out this year, be established on a permanent basis.
4. That a special study be made of ways and means of preventing the killing, during any open season, of a greater number of adult shootable moose than are produced in one year in the general areas to be hunted.
5. That the estimates for the individual districts as well as the maps showing relative abundance be regarded as confidential information, not for the general release to the public.

1. *Crown Timber Land Management*

Proper forest management is of primary importance. If our forest areas are to be dedicated and used for the purpose for which they are best fitted, competent examination should determine what that best use is before remaining Crown timber lands are turned over to private holding. Under land settlement regulations the grant of public land to private ownership is practically mandatory if approximately 50 per cent of the area is not rock, regardless of the agricultural value of the land. Land so alienated is no longer under forest management, and wood cutting for sale is the main reason for cleaning it.

And, therefore, we repeat our resolution: "That so-called 'Homesteading' of Crown woodlands be not permitted unless and until competent previous examination has shown that the soil is suitable for successful farming in proper social and economic communities. The establishment of more rural slums should not be permitted through the process of turning good public forest lands into sub-marginal agricultural lands. Such areas are more valuable to the Province for the well-managed production of forest and wildlife crops".

Ontario Federation of  
Anglers and Hunters.

This is the present practice.

2. We congratulate the Ontario Government in working, with the cooperation of Federal authorities for the beginning of control of aircraft as instruments used in hunting game. Such control should be adequately and rigidly enforced. We continue to urge:

That the Ontario Government secure the full cooperation of the Federal authorities in insisting,

- (a) that all aircraft coming into and leaving Canada report at points of entry, as required by law, and
- (b) that aircraft be used for transportation only to and from a declared base, and
- (c) that their use in Ontario as instruments for the fishing and the actual taking of fish be prohibited by regulations then strictly enforced by the Ontario Department of Lands and Forests.

3. The authority responsible for stocking and maintenance of fish in waters under control of the Province of Ontario should include all matters affecting the taking of fish from these waters.

4. The same centralizing of authority should apply in like manner to houseboats and cabin cruisers operating under Federal licence and used for fishing in navigable waters within Provincial areas. At present the Ontario

Government has no authority to regulate fishing activities from such boats licensed by Federal authorities to carry passengers on navigable waters. Zoning of commercial fishing and tourist camps is recognized as necessary to keep fishing pressure within bounds, but such control of depletion is impossible unless the commercialized take by cruisers and houseboats is under control of the Department of Lands and Forests;

Therefore be it resolved that the regulation of fishing and hunting by and from cruisers and houseboats licensed by Federal authorities should be recognized as within the authority of the Ontario Department of Lands and Forests, and that all necessary steps be taken to secure that recognition.

5. The Algonquin Park wildlife sanctuary has, during the years demonstrated the value of such an area for rebuilding wildlife stocks within the protected area, and supplying game to areas around it. In other sanctuary areas notably the Mississauga and Chapleau reserves, poaching of game and fur is notorious. We continue to urge therefore:

That full warden protection be provided against poaching activities within Provincial wildlife sanctuaries, and especially now that the legal killing of moose is suspended, that sufficient warden protection be provided, on

the ground and from the air, to stop the illegal killing still being done.

6. Since many novice hunters and fishermen do not know the Laws and regulations, and lack of knowledge has caused unnecessary and regrettable violations, it should be mandatory for every issuer of licences to furnish the purchaser at the time of issue, with a digest or Blue Book of the game laws and fish regulations, of most recent issue.

Ontario Federation of Anglers and Hunters.

This condition is being met through inclusion of a summary of the Game and Fisheries regulations with the licence now being issued in booklet form for non-resident, and a general educational programme for residents is being continued. It is not altogether practical to impose extra responsibilities on the issuers of licences.

7. That in the interest of safety and for the protection of human life, the bearing of firearms while under the influence of intoxicants be subject to the same penalties as the operation of a motor vehicle while in a similar condition.

Ontario Federation of Anglers and Hunters.

This has been under some study by the Department.

8. That the salaries of Game Wardens and their allowance be raised at least to a level comparable with the Provincial Police and that a sufficient staff be maintained to cover all border crossing points 24 hours per day during open seasons.

Ontario Federation of Anglers and Hunters.

The penalties for illegal fishing are covered by the Federal Fisheries Act, which provides the maximum penalty of \$1,000 and which section the Federal Government is not inclined to change as it would involve separate categories for each of the provinces for each species of fish. At the present time seized equipment is sold at public auction by tender which in many ways is preferable to the open period type of auction.

12. The Burwash Industrial (Prison) Farm is supposed to be a game and fish reserve. A recent arrest and detention of partridge hunters within the ill-marked boundaries of the area has brought to light some unsatisfactory conditions. Prison guards made the arrest, and called on the game wardens to take over from there. The hunters were said to have been guilty of an offence, but would not have been guilty had they been friends of, and with permission from, the superintendent of the Prison Farm.

The area is either a reserve, held by and for all the people of Ontario, or it is not a reserve. Grave objection is taken that any one acting as an officer under the Ontario Government representing all the people of Ontario, should be able to grant special privileges to any one to do on lands belonging to all the people what would be illegal for others to do. We urge, therefore:

(a) That the Ontario Government revoke any Orders in Council or other authority permitting the superintendent or

134. (1) *Zoning*: That zone regulation of fish taken by angling be set up. The physical features of the shoreline, island formation, water and atmospheric temperatures are generally the same. Regulation of the fishery in this area would not appear to conflict with those in other parts of the Province.

135. (2) *Sanctuaries*: That the number and area of sanctuaries be varied from time to time by specific investigation, so as to provide as near as possible an equalized adult fish population for angling. Permanent steel or weather resisting metallic signs appropriately marked be erected to establish outlines of sanctuaries. Less permanent markers to fill in intermediate spaces. All markers to be attached to shafts or posts 4" x 6' in height, firmly secured in the ground at a standard height above H.W.L. in this County expire on February 15th instead on March 1st. Also, that the bag limit on cotton-tails be cut down to four per day instead of six.

There were over four thousand gun licences issued in Welland County this last open season and unless we make a move in the right direction at once, we are not going to have much game left. As it is now, a hunter and two of his friends take a ferret and go out for a cotton-tail hunt. Three in a gang can take eighteen cotton-tails per day and the season has been open for four months. As the open season begins to come to an end the men that have a ferret track down every cotton-tail and puts his ferret in the hole and the rabbit has not got a chance. Rabbits in this territory start to mate around the first of February. I think it is a shame to hunt them when they are about to raise young ones.

167. (2) I would also like to recommend that the vermin licence be issued to farmers only and that .22 rifles, that are known as high-powered rifles, be cancelled altogether as they are dangerous to men and animals working on their land, as it is known that a .22 long rifle shell will kill or wound at one mile. but present figures are not satisfactory, nor do they indicate any large area in which moose should be hunted this year. It is recommended:

1. That the inventory be carried out next year.
2. That after its completion areas north of the northernmost railway line having one moose to 5 square miles or more be opened to shooting by both residents of Ontario and non-residents.
3. That areas south of this line having one moose to 5 square miles be opened to residents and areas having one moose to three square miles be opened to non-residents.

## 186. DEER IN SOUTHERN ONTARIO:

Deer in the agricultural areas of southern Ontario are, in the opinion of the Department, too numerous. They are of doubtful value at the best, except in small numbers, because they subsist in considerable measure by depredations on crops and orchards, and they are seldom seen by the public except at night when they dart in front of speeding automobiles. The total number of deer involved in accidents each year in settled southern Ontario is not known but it is probably over one thousand. The Department does not

Department of Lands  
and Forests.

recognize claims for damages to property or crops. Obviously the surplus deer should be shot and utilized, and it is ridiculous to protect indefinitely in an agricultural community an animal with such destructive potentialities.

We have had provision for special open seasons, township by township, but in whole counties where deer ought to be killed there is an absolute refusal to open shooting even where deer are known to have starved in over-browsed cedar swamps. In most cases there seems to be an unreasoning sentiment for deer and a dislike of seeing strangers on the land hunting them. In some cases it is known that farmers poach the deer, and strive to prevent legal shooting. In townships which are open, the licences are handled by township officials, who often refuse sale to non-residents. There is no legislation granting them authority to do so and anyone taking the trouble to get a writ of mandamus could force issue of a licence.

The Department realizes that the present situation is in a state of flux until definite policy is decided on. We recommend:

1. That deer are undesirable in the farming area of southern Ontario except in small numbers.
2. That an open season of three or four days be held each year in the latter part

of the period open south of the French River, with the general deer licence to apply.

It is realized that there will be objections and that hundreds of farmers will post their property. We already have a request from the Township of St. Edmunds in Bruce County, which was once open on general licence and is now open on the township by township basis, not to go back to the old system. At the same time we feel that the matter will work itself out in the long run, and we also feel that the Department should never pay claims for deer damage. If anyone should pay them, it should be those groups that impede the harvesting of deer.

The closing for one year of a limited number of townships in Parry Sound and Muskoka is recommended.

## 188. PHEASANTS:

Of recent years climatic conditions, especially winter snowfall have been a little less severe, and as a result pheasants have begun to show up in parts of the province where under average conditions they would not survive. There have begun to be requests for birds for release in such areas. Under present conditions we can provide birds, especially

chicks, without too great expense but consider that the season should be open for removal of surplus cock birds, and also, that the Regulated Township system should not be extended beyond the major population areas.

It is recommended that:

1. The open season on pheasants should include the whole province, as no harm can possibly be done where cock birds only are removed.
2. That the Regulated Township system be not extended to new regions.
3. That the pheasant season be extended beyond two days where numbers permit.

Report of the Standing Committee on  
Agriculture and Colonization

---

Session of 1950

## Report of the Standing Committee on Agriculture and Colonization

---

*To the Honourable the Legislative Assembly of the Province of Ontario:*

GENTLEMEN:

Your Standing Committee on Agriculture and Colonization held four meetings during the present Session of the Legislature, with Mr. Robson in the chair.

At the first and second meetings, held on February 28th and March 7th, respectively, the Committee considered certain Bills referred to it by the Legislative Assembly, which Bills were reported to the Assembly without amendment on the same dates.

At the third meeting of the Committee on March 15th, Frank Perkin, Chairman of the Ontario Farm Marketing Board, was heard. He reported there were 16 marketing schemes, covering 26 crops, now in operation. The majority of the crops were those for processing. He said the primary object of the schemes was to negotiate a price each year.

In view of the increasing number of requests for such schemes each year, he said he assumed they were meeting the desires of the farmers. Forty-two inspectors were employed by the Board.

He explained the difference between Ontario potatoes and apples as compared with B. C. apples and Maritime potatoes as they appeared in the stores in this Province was due to grading and packaging. The products from both these coastal areas were handled through central marketing agencies which made sure that only top grades were shipped. This was particularly necessary because of the long distances they had to be transported.

In Ontario, the farmers sold their potatoes direct to the trucker, who was more concerned with a quick turnover, rather than the condition in which they were displayed in the stores. For that reason, poor quality potatoes often reached the retail market.

Mr. Kennedy said that a central grading and packaging organization, operated by other than farmers, would solve the problem of poor grade Ontario products reaching the retail market. Miss Macphail suggested that ungraded products should be marked as such and then the consumer would buy them at his own risk.

A discussion ensued upon increasing the cost of containers to the farmers. Mr. Perkin said that six-quart baskets sold last year for \$75 a thousand. The manufacturers were prepared to raise the price \$5 a thousand but were induced by the department to withhold the increase until a government-appointed

chartered accountant could inspect their books to determine whether the increase was justified.

Mr. Thornberry suggested that if a charge was levied on the container, it would be returned and thus could be used several times. This would enable a saving to the producer.

In respect to the increase in cheese boxes from a one-time 20 cents to 70 cents each, Mr. Robson and Mr. Allen told the committee how the price they got for elm had dropped while the cost of cheese boxes went up. Mr. Robson said he used to get \$60 a thousand feet and this had been cut to \$55. Mr. Allen said his return was cut from \$70 to \$60 and declared the cause of the increase in cheese boxes undoubtedly was due to higher labour costs.

Returning to marketing, Mr. Kennedy said the Government was prepared to contribute to the expense of sending a man, designated by the various growers' associations, to distant points to check on the mistakes that showed in the handling by retailers of farm products. This man could then report on faults in packaging, etc.

The Committee resolved that grading and packaging practices should be improved; that people should be educated to buy by grades and efforts should be made to obtain new markets.

At the fourth and final meeting on March 30, the Committee received a brief from the Dairy Committee appointed by Mr. Kennedy to advise him on problems connected with the dairy industry.

The brief contained recommendations concerning dairy farm housing and buildings; home grown feeds for dairy cattle, a provincial subsidy for Ontario Export Cheddar Cheese, artificial breeding, health of animals, dairy regulations, cost of production study, financial assistance to the national sales promotion programme of the Dairy Farmers of Canada and margarine.

Mr. V. S. Milburn, Secretary-Manager of the Ontario Federation of Agriculture, also reviewed the contents of a brief presented to the cabinet on March 10. In addition to the subjects mentioned in the Dairy Committee's brief, Mr. Milburn also covered marketing legislation, poultry marketing, schemes for soft wheat and seed corn, conservation, coarse grains, suburban taxation, financial protection for the primary producers selling to processors and the necessity of uniformity in daylight saving.

Mr. Erle Kitchen, Secretary of the Dairy Farmers of Canada, emphasized the importance of stabilized milk prices. Mr. John Ballantyne, of the Cheese Producers, deplored the fact that the cheapest market set the price for cheese and he asked for a two-cent per pound subsidy for export cheddar cheese which would correct this situation. Mr. J. C. Brodrick, President of the Ontario Federation of Agriculture, spoke on the need for national legislation in respect to marketing practices.

In reply to criticism of the Government's margarine legislation, Mr. Kennedy said the Act looked fairly reasonable at first but it had not worked out

too well. However, the Provincial Ministers of Agriculture will meet in Toronto in September to deal with this matter, among other things, and it was hoped that agreement could be reached on a programme to be submitted to the Dominion Government. He pointed out that in the U.S. only domestic ingredients were permitted to be used in the manufacture of margarine.

He said inspectors of the Dairy Branch had checked restaurants on their use of margarine and found only two places breaking the regulations. The Chairman thanked the members of the Dairy Committee for their presentations and the meeting then adjourned.

Committee Room,  
Thursday, March 30th, 1950.

ROSCOE ROBSON,  
*Chairman.*

## BRIEF PRESENTED BY DAIRY COMMITTEE

### RECOMMENDATIONS RE DAIRY FARM HOUSING AND BUILDING

The cost of dairy farm buildings, which amounts to thousands of dollars on the average dairy farm, is one of the principal factors in the cost of producing milk.

It is necessary that many farm buildings be erected or remodelled each year in the Province of Ontario, and in the past few years it has been apparent to members of the Ontario Dairy Committee that considerable sums of money have been practically wasted by the construction of outmoded types of buildings.

In recent years a great fund of information has become available on dairy housing in respect to types of structures, kinds of materials, possible layout arrangements to save cost of labour, ventilator systems, placement of milk cooling houses and methods of construction.

The Ontario Dairy Committee wishes to bring this problem to the attention of the Minister of Agriculture for Ontario, and to request that detailed and continuing studies be made of the various problems relating to cow housing and barn and silo construction and that the results of such studies and experiments be made readily available to farmers through such media as demonstration buildings at the Ontario Agricultural Institutions, the provision of scale models, building plans and personal advice at the offices of the local Agricultural Representatives, and plans and recommendations issued in bulletin or pamphlet form.

### RECOMMENDATIONS RE HOME GROWN FEEDS FOR DAIRY CATTLE

The Ontario Dairy Committee feels that the efficient and economical growing and use of hay, pasture and silage crops are of immense importance to dairy farmers in the production of milk, and would request the Minister of Agriculture for Ontario to have research work and studies carried out in an effort to extend the pasture season by the use of suitable varieties, to develop the most suitable strains of grasses and hay crops, to determine the most efficient use and type of fertilizers; the most suitable time for cutting; and to ascertain the best methods of curing, handling and storing such feedstuffs in barn and silo, with particular attention being directed to comparative feeding values.

This Committee believes that more extensive use of local grown grains is in the interest of dairy farm producers, and would prove an effective way of reducing the cost of milk production, and would recommend that efforts of qualified personnel of the Department of Agriculture be directed towards determining efficient dairy rations using home grown grains rather than high priced commercial feeds and concentrates, and also that studies be made so that definite recommendations can be issued by the Ontario Department of Agriculture to farmers concerning the satisfactory growing of high protein crops which are of great importance to the dairy industry.

Because of the recent extension in the acreage of corn for husking in the Province, this Committee would urge that studies and experiments be conducted by the Ontario Department of Agriculture to determine the extent to which corn for husking can be included in satisfactory dairy rations.

We would further recommend that more information should be made available on the feeding value of well cured hay and grass silage, and the best combination of grain with these feeds to obtain a balanced ration.

The Ontario Dairy Committee is aware of the fact that considerable work has already been done along these lines and wishes to commend the Department of Agriculture for the progress already made in this field. Because of the great possibilities that exist for improved dairy husbandry from experimentation along these lines, this Committee would urge that extensive additional work be undertaken and the information gathered be made available to dairy farmers in Ontario in the form of definite recommendations from the Ontario Department of Agriculture.

#### RECOMMENDATION RE PROVINCIAL SUBSIDY FOR ONTARIO EXPORT CHEDDAR CHEESE

In the contract for the sale of Ontario Cheddar cheese to the United Kingdom for 1950, the Dominion Government was able to obtain a contract sufficiently large to take care of any surplus of milk that might develop during the year, but was only able to get the United Kingdom to agree to a contract price of 25 cents per pound at seaboard, as compared with 30 cents per pound f.o.b. factory in 1949.

The Dominion Government has agreed to subsidize the dairy industry to the extent of paying a price of 28 cents per pound, at seaboard, but has repeatedly rejected requests for the provision of a larger subsidy. Consequently producers of cheese in Ontario stand to lose approximately three cents per pound (including the freight charges from factory to seaboard) as compared with the price arrangements which existed during the preceding year.

Returns from dairying operations are one of the principal items in agricultural revenue in Ontario, and as a result any measures taken to stabilize dairy farm income assists materially in stabilizing the entire farming situation in this Province. Moreover, the price received for cheese tends to control the level of prices for all milk produced and any decrease in the price of cheese milk eventually spreads to all other dairy products.

Because of the place that cheese holds in the dairy structure, and because of the effect that any reduction in farm purchasing power has on the general level of business activity in a province such as Ontario, which is very highly commercialized and has more people employed in industry than any other province, and because the reduction which has taken place in farm income is already having an adverse effect upon general business conditions, the Ontario Dairy Committee, representative of each of the different groups of milk producers in the Province, most strongly urges the establishment of a provincial subsidy of two cents (2c) per pound on all Ontario Cheddar cheese produced for export in 1950.

It is anticipated that Ontario farmers will produce 60 million pounds of Cheddar cheese for export during the current year, so that a subsidy of the amount suggested would cost the Provincial Government approximately \$1,200,000.

Offsetting, and fully justifying this measure of assistance, would be the prevention of a drop of 20 cents per cwt. on all milk produced in Ontario. (A loss of 2 cents per pound on cheese is equivalent to 20 cents per cwt. on milk, as it requires 10 pounds of milk to make one pound of cheese.) Total sales of milk off Ontario farms amounts to 5 billion pounds of milk annually, and the benefit to Ontario dairy farmers during 1950 would consequently amount to 10 million dollars.

This Committee confidently believes this proposed subsidy of 2 cents per pound on export Ontario Cheddar cheese would be sufficient to stabilize the entire dairy industry during 1950, and hopes the Government will consider it advisable to provide this amount of assistance to the agricultural industry.

#### RECOMMENDATION ON ARTIFICIAL BREEDING

The Ontario Dairy Committee desires to express its appreciation to the Ontario Department of Agriculture in providing guidance and financial assistance toward the establishment of a number of artificial breeding units for cattle in the Province.

This Committee believes the work will aid greatly in the improvement of dairy herds and will greatly increase the average yearly production of milk per cow.

It is the opinion that this work should be continued and expanded rapidly throughout the Province to provide coverage so far as practicable for as many dairy herds as possible. The results of this work will become very apparent in a reduction in cost per unit of milk production, and therefore be of great benefit to dairy farmers.

#### RECOMMENDATION RE HEALTH OF ANIMALS

Maintenance of export outlets for Canadian cattle is of paramount importance to the well-being of the live stock industry. During the calendar year 1949, Canada exported to the United States, and twenty other foreign countries, 21,700 head of purebred cattle, 47,000 other dairy cattle, 31,500 calves and 320,000 feeders and finished beef cattle—a total of over 420,000 head.

The high health standards of Canadian cattle have assisted materially in the development of this valuable export trade. Health standards are constantly being raised in most countries, and the maintenance of Canada's position in foreign markets requires that our standards be kept continuously higher than the standards prevailing in other countries.

Accordingly, the Ontario Dairy Committee requests the Minister of Agriculture for Ontario to attach special importance and priority to the work being

carried on by the Ontario Veterinary College and other divisions of the Department of Agriculture on animal diseases and the solution of breeding problems. We would especially desire that current recommendations on the treatment of mastitis be made available to farmers in the Province as rapidly as possible.

It is our opinion that the programme of calfhood vaccination has been eminently successful, and that the time has now arrived when a start should be made on systematic "area" vaccination for those areas of the Province indicating their desire to attain 100 percent objective.

This Committee is concerned about the ever increasing problem confronting our dairy farmers re health of animals. We are of the opinion that many health problems stem, more or less, directly from soils that are deficient in essential elements which may be only required in minute amounts. We recognize that there is much information still to be obtained through research on the relationship between trace elements in the soil and health of animals. We commend the work in this field presently under way by the Department of Agriculture and ask that this work be increased and speeded up by competent personnel in the realm of soils, nutrition, and health of animals toward the end that practical solutions may be worked out and recommendations made available to eliminate health problems.

#### RECOMMENDATIONS RE "NEW DAIRY REGULATIONS"

The Ontario Dairy Committee fully approves the set of new Dairy Regulations drafted some time ago by Mr. C. E. Lackner, Director, Dairy Branch, Ontario Department of Agriculture, and would recommend to the Minister of Agriculture for Ontario that these be put into effect immediately.

#### RECOMMENDATION RE COST OF PRODUCTION STUDY

Whereas it appears at present that the dairy industry will continue for some time to experience difficulties in finding foreign markets for surplus dairy products at a satisfactory price level, and

Whereas the present level of prices for beef cattle is considered quite favourable and the demand for beef cattle in the United States market is quite keen,

The Ontario Dairy Committee believe data should be made available on the comparative returns obtainable to farmers from the production of butterfat or the alternate raising of baby beef. This information would prove most useful to farmers desiring to make a switch in production.

Accordingly the Ontario Dairy Committee would request the Minister of Agriculture for Ontario to have the Farm Economics Branch carry on a continuing cost of production study for this purpose.

#### RECOMMENDATION RE FINANCIAL ASSISTANCE TO

#### NATIONAL SALES PROMOTION PROGRAMME OF THE DAIRY FARMERS OF CANADA

The Ontario Dairy Committee believes that the consumption of dairy

products in Canada can be increased considerably through effective advertising and sales promotion work carried out on a national basis, and

Whereas it is most desirable that the work of sales promotion be co-ordinated and unified under one body for the purpose of obtaining most effective results, and

Whereas the dairy farmers of Canada have undertaken the task of carrying out such a programme,

It is believed that the Ontario Department of Agriculture could most effectively assist in the extension of markets for dairy products by making financial contributions to the Dairy Farmers of Canada advertising fund.

#### RECOMMENDATION RE MARGARINE

The Ontario Legislature in 1949 passed an "Act respecting Oleomargarine" which was requested chiefly by Cream Producers, but was very actively supported by all dairy groups in the Province. Through the Ontario Federation of Agriculture, all other organized farm groups joined in emphatically registering their support at that time for adequate controlling legislation for any butter substitute.

We recall that when the Act was passed by the Legislative Assembly, it received almost unanimous support in the House, indicating that there was little, if any, opposition to the principles involved, other than that expressed by the manufacturers of butter substitutes. Consumers, as well as producers, require adequate protection in this matter.

We note that the question of the legality of the Canadian Government controlling the sale and manufacture of a substitute for butter does not come before the Privy Council until June, 1950, at the earliest, which leaves a few months' period in which the Provincial Governments must continue to exercise any controls they deem necessary in the matter. There is also a possibility that the Privy Council's decision may be such that controls will continue to be a provincial matter.

After a year's observation of the effectiveness of the present Act in carrying out its intent, we are convinced that it falls far short in many respects and it is with this in mind that we, the Ontario Dairy Committee, urgently recommend that adequate effective legislation be passed by the Legislature at its present sitting to effectively implement what we feel was the intent and purpose of the present Act in respect to the following items:

1. *Colouring:*

That no colouring material be attached to or *placed within* any package of a butter substitute.

2. *Misleading Advertising:*

That any misleading advertising or device suggesting margarine as a Dairy Product of Canadian Farms be not allowed.

NOTE: We refer here to such current advertising slogans as "Milk makes the Flavour" and "Country Fresh".

### 3. *Administration:*

We are convinced that the present Act is extremely weak and thus ineffective in that it does not provide for adequate administrative authority. Since strict regulations are in effect for butter and full authority provided to enforce same, we are convinced that similar authority must be provided to enforce regulations to control any butter substitute.

We therefore recommend that Section 7 of the present Act be changed to provide for inspectors with powers to enforce the Act and Regulations, and that 7B be changed to read—"Prescribing standards of quality and composition of oleomargarine".

### 4. *Restriction:*

In such countries as Australia, New Zealand, and South Africa, where margarine has been used for some time, it has been deemed essential to enforce definite restrictions. We believe that conditions in Ontario where Dairy Farming must continue to play an important role in a well balanced farm programme embracing adequate conservation of our soil, restrictions on the sale and manufacture of any substitute that constitutes a real threat to such an important factor in the future well being of Agriculture and of our whole province and country, warrants adequate and effective controls. We therefore recommend that restrictions by quota, license, and sales tax be implemented.
