## THE ONTARIO CONTROVERTED ELECTIONS ACT.

Election for the Electoral District of the East Riding of the County of Northumberland, holden on the 22nd day of February, 1898, and the 1st day of March, 1898.

Province of Ontario,

To-wit :

Between

Elisha Wm. Tuttle,

Petitioner,

and

John H. Douglas,

Respondent.

We, the undersigned, two of the Judges on the Rota assigned to try the petition of the above named petitioner, Elisha Wm. Tuttle, against the election and return of the above named respondent, John H. Douglas, to serve as a member of the Legislative Assembly of Ontario for the above named Riding, in which petitions there were allegations of corrupt practices, hereby certify as follows: That on the 29th and 31st days of October and the 1st, 2nd and 3rd days of November, 1898, we held a Court for the trial of and tried the said petition, and after hearing the evidence adduced, the tendency of which, or a part of which, was to disclose corrupt practices by the respondent or his alleged agents: The respondent and his counsel in Court admitted that enough corrupt practices by agents could be proved to void the election and disentitle the respondent to the benefit of Section 172 of the Elections Act.

The petitioner offered no further evidence, and we therefore report that the respondent was not duly elected and returned at the said election, and that the said election is void by reason of corrupt practices by agents of the respondent.

We further report that we have not found that any corrupt practice was proved to have been committed by or with the knowledge and consent of any candidate at such election.

We further report that the undernamed persons were each proved guilty of having committed corrupt practices :

Charles Crandell, John Reive, Frank Calberry, W. W. Brown, Edward Janeway.

We further certify that from the evidence adduced at the trial there is reason to believe that corrupt practices extensively prevailed at the said election.

Dated at Osgoode Hall, the 18th day of November, A. D. 1898.

## THE ONTARIO CONTROVERTED ELECTIONS ACT.

Election of a Member for the Electoral District of the West Riding of the County of Elgin holden on the 22nd day of February and 1st day March, A.D. 1898.

Between

William E. Howarth,  
 Petitioner  
 and  
 Finley G. Macdiarmid,  
 Respondent.

And by way of Cross Petition relating to the same Election

Between

John Crawford,  
 Petitioner,  
 and  
 Donald Macnish,  
 Respondent.

The undersigned two of the Judges on the Rota for the trial of Election Petitions under the said Act do hereby certify :

1. That on the first day of December, 1898, at the City of St. Thomas, in the County of Elgin, we held a Court for the trial of and there tried the Election Petition and Cross Petition between the above named parties respecting the said Election.
2. That at the said trial it appeared that the Respondent had been returned by a majority of one over Donald Macnish who was the only other candidate at the said election.
3. By the said Petition and Cross Petition many of the votes which had been given for the said Respondent and for the the said Macnish were objected to on various grounds.
4. One vote proved to have been given for the said Respondent was so given by one John Taylor who was not the person of the same name who was on the Revised Voters' List at the said Election, but another and different person, and who was not entitled to vote at the said Election, and the said vote was accordingly struck off and deducted from the number of votes which appeared to have been given for the said Respondent.
5. Neither the Petitioner nor the Respondent offered any further evidence in the matter of the said Petition or of the Cross Petition, and the number of votes given for each of the candidates thereupon appeared to be equal.
6. We therefore determined that neither of the candidates was duly returned or elected, and that the said election was and is void.

---

7. We further Certify and Report that corrupt practices are charged in the said Petition and Cross Petition and that particulars of the same were duly verified by affidavits. No evidence was given by either party in respect of the alleged corrupt practices.

8. No corrupt practices were proved before us to have been committed by or with the knowledge and consent of either of the candidates at the said Election.

9. Neither of the said parties asked for the costs of the proceedings.

10. We therefore avoided the said Election and dismissed the said Cross Petition without costs to either party.

11. We are unable to say whether there is or is not reason to believe that corrupt practices extensively prevailed at the Election to which the said Petition and Cross Petition relates.

I, James Strachan Cartwright, Registrar of the Court of Appeal for the Province of Ontario, do hereby certify :

1. That the Honourable the Chancellor of Ontario and the Honourable Mr. Justice Meredith on the 19th day of January, 1899, certified to this court that on the 14th day of October and on the 11th and 12th and 14th days of November, 1898, at the City of Stratford, in the County of Perth, they held a court for the trial of and there tried the petition and cross petition between the parties respecting the above mentioned election.

2. That at the said trial they found and determined that the election of the respondent, William Caven Moscrip, was void by reason of non-compliance with the directions contained in the Ontario Elections Act as to the taking of the poll in respect of the printing of certain ballot papers and delivery of them to voters at said election, which non-compliance might have affected and in their opinion did affect the result of the election.

And after some time the House was resumed.

His Honour the Honourable Sir Oliver Mowat, G.C.M.G., Lieutenant-Governor, then entered the House, and being seated in the chair on the Throne, was pleased to open the Session by the following gracious Speech to the House :—

*Mr. Speaker and Gentlemen of the Legislative Assembly :*

I have much pleasure in again meeting you as representatives of the Province in Parliament assembled.

After the adjournment of the Legislative Assembly in August last, it was found to be necessary that the Assembly should be prorogued in order that the by-elections might be proceeded with and thus effect given to the intention of the Legislature. I, therefore, on the 12th day of October, upon the advice of my Ministers, issued my proclamation proroguing the Assembly.

You have doubtless learned with satisfaction that since you last met Her Majesty has been pleased to appoint the Earl of Minto Governor-General of Canada, as successor to the Earl of Aberdeen, on his resignation a few months before his full term of office had expired. I am confident the people of Canada will find in the new Governor-General a constitutional ruler who will represent Her Majesty with ability and dignity in all the duties that pertain to his high office.

Lord Aberdeen's departure from Canada was a source of sincere regret to the people of this Province. By his deep interest in every matter affecting the prosperity and development of Canada, and by his wise and statesmanlike administration of public affairs, he strengthened the attachment of Canadians to the Empire, and to the principles of constitutional government.

The Countess of Aberdeen, too, especially endeared herself to the Canadian people by the interest which she constantly exhibited in their social well-being and in everything which affected the prosperity of Canada.

The decision of the Court of Appeal upon the questions submitted to that Court under the Act of last session, confirming the right of poll constables and others, when otherwise qualified, to vote at Provincial elections, is doubtless satisfactory to you all.

The legislation of last year which provided that all pine logs cut on the Crown domain after the termination of the then existing timber licenses should be sawn in Canada, has been made effective by inserting the manufacturing conditions in all renewals of licenses for the current year. In this connection I am pleased to be able to state that the cut of logs for export by American limit holders for the last license year did not appreciably exceed that of former years. It is anticipated that by reason of the legislation referred to there will be a sensible reduction in the revenue to be derived during the current year from timber sources. It will, therefore, be necessary to make provision by which any probable deficiency in the revenue may be otherwise made up. Measures to that end will be submitted for your consideration.

It will be satisfactory to you to learn that the mining industry of the Province continues to improve, and that it is giving constantly increased employment to both capital and labor.

You will be gratified to learn that since your last session the Province has assumed the administration of the Provincial Fisheries. A Fishery Branch has been established, departmental officials have been appointed, and the outside service is being organized.

The important rights and interests which are held by the Judicial Committee of the Privy Council to be vested in the Province relate to a Provincial asset which is of great value, which is to be husbanded and preserved as an important source of food supply, and is confidently expected to increase the annual revenue of the Province. A Bill embodying some needed improvements in the law may be submitted for your consideration and approval.

You will be pleased to know that satisfactory progress has been made in enforcing the provisions of the Act to prevent the spread of the San Jose scale, passed a year ago. A further measure upon the same subject will be submitted for your approval.

Experience has shown that the Election Laws may be further improved, and a Bill for that purpose will be submitted to you.

Among the other measures to be submitted for your consideration will be a Bill for amending the School Laws; a Bill to authorize the Parliament of Canada to pass an Act confirming the survey of the boundary between the Provinces of Ontario and Manitoba, made by commissioners appointed for that purpose; and a Bill to improve "The Workman's Compensation for Injuries Act."

Upon application of the Lord's Day Alliance, it has been arranged to submit to the Courts certain questions respecting the interpretation of the Lord's Day Act. Details of the case to be so submitted are still under consideration, and as soon as settled, an Order in Council will be passed for the submission under the Statute.

The public accounts and the reports of the various departments of the public service will be submitted to you.

The estimates for the current year have been prepared with a view to economy and efficiency, and will, at an early day, be laid before you.

I feel assured that you will give your earnest consideration to the subjects which I have mentioned, and to such other matters as may appear to you to be for the public good.

His Honour the Lieutenant-Governor was then leased to retire.

---

Mr. Speaker reported, That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

On motion of the Attorney-General, seconded by Mr. Ross, a Bill was introduced intitled "An Act to provide for the Administration of Oaths of Office to persons appointed as Justices of the Peace," and the same was read the first time.

On motion of the Attorney-General, seconded by Mr. Ross,

*Ordered*, That the Speech of His Honour the Lieutenant-Governor, to this House, be taken into consideration To-morrow.

On motion of the Attorney-General, seconded by Mr. Ross,

3. On Miscellaneous Private Bills ; 4. On Standing Orders ; 5. On Public Accounts ; 6. On Printing ; 7. On Municipal Law ; 8. On Legal Bills ; which said Committees shall severally be empowered to examine and inquire into all such matters and things as shall be referred to them by the House, and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

Mr. Speaker informed the House, That the Clerk had laid upon the table :

Of the Town Council of Collingwood, praying that an Act may pass to consolidate their debt.

Mr. McKay from the Standing Committee on Standing Orders presented their Sixth Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of G. H. Hopkins and others of Sturgeon Point, praying that an Act may pass to incorporate the Village of Sturgeon Point, and find that notice of the proposed application to this Legislature has been published for the term of six weeks in the "Ontario Gazette" and in the "Weekly Post," a newspaper published in the Town of Lindsay.

The Committee also find that the Petition does not enumerate the lots proposed to be included in such incorporation, while certain lots are set forth in the notice as those to be so included.

The Committee have examined a map of the territory, produced before them, and are of the opinion from evidence heard before them that Lot number 12 in the 1st Concession of Verulam, from its position, would naturally come within the limits of the proposed corporation and has been omitted from the notice.

The Committee would recommend that the attention of the Private Bills Committee be directed to this matter, with a view to all parties interested having notice of the proposed legislation.

Mr. McKay from the Standing Committee on Standing Orders presented their Seventh Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of Daniel F. Burk and others of Port Arthur, praying that an Act may pass to incorporate the Thunder Bay Pulp and Manufacturing Company and find that notice of the proposed application to this Legislature appeared in the "Ontario Gazette" on the 28th day of January last past, and the 4th, 11th and 18th days of February instant, and that said notice also appeared in the "Weekly Herald" and "Algoma Miner" on the 27th day of January last and on the 1st, 3rd and 8th days of February instant.

The Committee also find that among other things the Petition asks for "power to engage in the business of mining, milling and smelting ores"; "for power to acquire, hold and dispose of timber licenses and permits, real estate and elevators and warehouses"; and "for power to build, acquire and operate steam, electric and other railways and tramways and telegraph and telephone lines within the District of Algoma West," of which no mention is made in the Notice.

The Committee are of the opinion that the intention of the Petitioners to apply for these powers should have been set forth in the notice, and the Committee therefore find the

notices as published sufficient as regards the Incorporation of the Company with power to construct and operate pulp, lumber and other mills and factories and to manufacture and deal in all kinds of wood products and with power to develop and improve water powers and dispose of the surplus power produced, but insufficient in as far as the other powers sought and hereinbefore set forth are concerned. The Committee would therefore recommend that the attention of the Private Bills Committee be directed to this matter and that the Bill founded on the Petition be confined to the matters of which notice has been given.

Mr. Gibson, from the Standing Committee on Private Bills, presented their First Report, which was read as follows and adopted :—

Mr. McKay, from the Standing Committee on Standing Orders, presented their Eleventh Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of Charles Miller and others of Toronto, praying that an Act may pass to incorporate the Toronto Elevated Railway Company and find that notice of the proposed application to this Legislature has been inserted for the space of six weeks in the "Ontario Gazette" and "The Weekly Sun," this latter being a newspaper published in the City of Toronto.

The Committee also find that the petition and notice both ask "to construct and operate a system of elevated railways in the City of Toronto and adjoining municipalities, and also in conjunction therewith a system of surface street railways in the City of Toronto and other municipalities within a radius of fifty miles of the said city," as this would authorize them to construct works outside of the County of York and as notice of such intention is not given in any other newspaper than "The Weekly Sun," published in the said county, the committee recommend that the attention of the Railway Committee be directed to this matter and that the construction of the proposed railway be confined to the City of Toronto and the County of York.

Of Francis Joseph Carman and others of Bothwell, praying that an Act may pass to incorporate the Carman Natural Gas Company of Ontario.

Mr. McKay from the Standing Committee on Standing Orders presented their Thirteenth Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of the Town Council of Fort William, praying that an Act may pass (1) To legalize and confirm By-law 151 authorizing the issue of debentures for the construction of Water Works for the Town. (2) To obtain relief from the operation of Sec. 73 of Oap. 14, 60 Vict., an amendment to the High Schools Act in so far as the same affects the Town of Fort William. (3) To provide for the qualification of members of Council for the Town of Fort William.

The Committee find that notice of the proposed application to this Legislature for legislation in connection with the 1st Section of the Petition appeared in the issues of the "Ontario Gazette" each week from the 17th day of December to the 25th day of February last; that the notice was amended in the "Ontario Gazette" in its issue of January 28th, Sections 2 and 3 being added thereto, and also another section asking for the legalization of a By-law respecting Water Works, Electric Lighting and Power, and the notice, as so amended, appeared in the "Gazette" weekly for the space of five weeks; that the notice was further amended in the issue of the "Gazette" on the 4th day of February by the addition of another section thereto empowering the Town of Fort William to assess and levy taxes on certain property belonging to the Town of Port Arthur in connection with the Street Railway, and, as amended, has appeared for four weeks.

The Committee have also had filed before them a Declaration setting forth that the first four sections of the notice appeared in the issues of "The Weekly Journal," a newspaper published in the Town of Fort William, on the following dates: January 21, 28, February 4, 11, 18, and will be continued in the issues of the 25th February and 4th March instant. No notice appears to have been given in the newspapers of the intention to apply for power to assess and levy taxes on certain property belonging to the Town of Port Arthur in connection with the Street Railway, but inasmuch as the Petition does not ask for this power, and the Committee are credibly informed that no legislation is sought this Session in this particular matter, they are of the opinion that sufficient notice has been given to the public of what is proposed.

Mr. Gib on, from the Standing Committee on Private Bills, presented their Seventh report, which was read as follows and adopted :—

Mr. Pattullo moved, seconded by Mr. Lumsden,

That this House views with disfavor a tendency at the present time towards undue rivalry between municipalities in offering bonuses, loans or exemptions equivalent to bonuses or aid to manufacturing concerns, or other inducements of different kinds to secure their establishment or retention; and, that this House is further of opinion that the action of the Legislature in 1892—when by an amendment of the Municipal Act, the right of municipalities to grant bonuses to manufacturers was taken away—was entirely in harmony with public opinion and in the public interest.

That while cases of an exceptional nature may have arisen since the repeal of the said bonusing powers, justifying special legislation enabling municipalities to grant aid where disaster by fire has taken place, and possibly in other entirely exceptional cases, this House is of opinion that the door has been opened too wide, and that hereafter a discrimination should be exercised which will confine the granting of legislation to cases of such an undoubtedly exceptional nature as loss by fire, and that such special legislation shall not conflict with the spirit of these resolutions; and further, that such special legislation shall not confer power on any municipality, in the case of such industrial disasters, to grant relief by more than a limited loan or exemption from taxation for a period of years.

And, that this House is further of opinion that if in any such undoubtedly exceptional case special legislation should be granted, the requirements of the repeal provisions of the Municipal Amendment Act of 1888 should be insisted upon and that the Bill should contain, without modification, the following clause:—

"The vote of two thirds, in the affirmative, of the ratepayers who are entitled to  
"vote upon any by-law granting aid to a manufactory or manufacturing establishment, or  
"for lending money to such company, person or establishment shall be necessary in order

“to the carrying of the by-law for such loan or exemption from taxation, to an establishment destroyed by fire.”

The undersigned two of the Commissioners of Estates Bills to whom was referred Bill (No. 87), an Act respecting the Trusts under the marriage settlement of Mildred Raymond and John Raymond, beg to report that, having perused the said Bill, they are of opinion, presuming the allegations contained in the preamble to be proved to the satisfaction of the House, it is reasonable that the said Bill do pass into law, and they are also of opinion that the provisions of the said Bill are proper for carrying its purposes into effect.

The undersigned have assumed that the statement of the preamble is intended to allege that no means exist of proving by testimony admissible in a Court of Law the contents of the marriage settlement, otherwise there would appear to be no sufficient reason assigned to justify the petitioners resorting to the Legislature instead of applying for relief to the legal tribunals of the Province.

Of the Toronto Social Reform League ; also, of C. W. Hartman and others of East Grey ; also, of R. N. Price and others of St. Thomas, severally praying certain amendments to the Municipal Act, respecting the Hare-Spence Quota System of Voting.

Mr. McKay, from the Standing Committee on Standing Orders, presented their Fourteenth Report, which was read as follows and adopted :—

The Committee have carefully examined the following Petitions and find the notices as published in each sufficient :—

Of the London Young Mens' Christian Association, praying that an Act may pass to incorporate them.

Of Paul Weidace and others of Port Arthur, praying that an Act may pass to incorporate the Nipigon Electric Railway.

Of the Ontario Lands and Oil Company, Limited, praying that an Act may pass granting power to the Company to carry on the business of distilling and refining oils and for other purposes.

Of the Village Council of Exeter, praying that an Act may pass to legalize and confirm a certain By-law, *re* Assessment of farm lands.

Of the London Street Railway Company, praying that an Act may pass to legalize and confirm By-laws No 1,010 and 1,025 of the City and the agreements therein referred to, and certain other Township By-laws of Westminster and London.

Mr. McKay, from the Standing Committee on Standing Orders, presented their Fifteenth Report which was read as follows and adopted :—

The Committee have carefully examined the Petition of St. Luke's General Hospital of Ottawa, praying that an Act may pass to amend their Act of incorporation and find that notice of the proposed application to this Legislature appeared in the "Evening Citizen," "The Ottawa Evening Journal" and "The Ottawa Daily Free Press" in their issues of the 28th day of February last but that no such notice has appeared in the "Ontario Gazette."

The Committee however, finding that the Petition simply asks for the passing of an Act making further provision for "Founders of the Hospital" and "Life Governors" consider that no public or private rights could be injuriously affected thereby, and therefore recommend the suspension of the Rule requiring six weeks notice in this case, and find the notices as published sufficient.

Mr. McKay, from the Standing Committee on Standing Orders, presented their Sixteenth Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of Town Council of Sault Ste. Marie, The Lake Superior Power Company, The Sault Ste. Marie Pulp and Paper Company and Tagona Water and Light Company, and others praying that an Act may pass to legalize a certain Agreement and By-law and find that Notice of the proposed applic

tion to this Legislature was published in the "Ontario Gazette" in its issue of March 4th, and in the "Sault Express" in its issue of March 3rd, and a declaration produced shews that instructions have been given the publisher of the last named paper to insert the notice in six consecutive issues of said paper.

The Committee have had produced before them Declarations of the Mayor of the Town of Sault Ste. Marie, of the Town Solicitor, and of the President of the Sault Ste. Marie Pulp and Paper Company and Tagona Water and Light Company, and Vice-President of The Lake Superior Power Company, shewing that it was only on the 24th day of February last that the Agreement was finally arrived at, and the By-law passed by the Council on the same day; the declaration of the Mayor further sets forth, that he "verily believes that a very large majority of the ratepayers of the Town strongly favor "the entering into the said Agreement by the said corporation" and "that the matters contained in the said Agreement have been publicly discussed by the ratepayers of the town "for the past two weeks or more and public opinion in the said town has been very favorable thereto," and further, that "at the meeting of the Council at which the said Agreement was accepted on the 24th day of February, 1899, full opportunity was given to "the ratepayers to present their views on the subject, and the opinions of the large "majority present were almost unanimously in favor of the acceptance of the said agreement by the town."

In view of the foregoing, the Committee are of the opinion that all parties interested have had an opportunity of becoming aware of the proposed legislation and would therefore recommend the suspension of the Rule in this case, and that the notice be held sufficient.

Mr. McKay, from the Standing Committee on Standing Orders, presented their Seventeenth Report, which was read as follows and adopted:—

The Committee have carefully examined the Petition of the Town Council of Owen Sound, praying that an Act may pass authorizing the Corporation to subscribe stock to the amount of \$100,000 in aid of an Iron and Steel Smelting and Manufacturing Industry, and find that notice of the proposed application to this Legislature was published in the "Ontario Gazette" on the 4th day of March instant, and are also informed that such notice also appeared in the "Owen Sound Sun" and the "Owen Sound Advertiser" of recent dates.

The Committee are also informed that this matter has been the subject of general discussion in the town and is universally approved of and that with a view to give full publicity thereto 300 posters have been posted in conspicuous places through the town and that a very large number of circulars containing notice of the proposed legislation have been distributed from house to house through the town.

In consideration of the foregoing the Committee are of the opinion that sufficient publicity has been given to the matter and would recommend the suspension of the Rule in this case and that the notices as published be held sufficient.

Mr. McKay, from the Standing Committee on Standing Orders, presented their Eighteenth Report, which was read as follows and adopted :—

The Committee have carefully examined the Petition of George Hodder and others of Port Arthur, praying that an Act may pass to incorporate The Thunder Bay, Nipigon, and St. Joe Railway Company, and find that notice of the proposed application to this Legislature has been published for six successive weeks in the "Ontario Gazette," and has also appeared in the "Weekly Herald" and "Algoma Miner," a newspaper published in the Town of Port Arthur, on the 6th, 13th, 20th, and 27th days of January, and on the 1st, 3rd, 8th, 10th, 15th, 17th, 22nd, and 24th days of February last.

The Committee also find that the notice is in the following words : "Notice is hereby given that application will be made to the Legislative Assembly of Ontario at its next session for an Act to incorporate the Thunder Bay, Nipigon, and St. Joe Railway Company."

The Committee are of the opinion that the route of the proposed railway should have been set forth in the notice as in the Petition, and would therefore recommend that before the Bill be considered by the Railway Committee evidence be produced to the satisfaction of that Committee that 200 posters giving notice of the proposed application to this Legislature and setting forth the route as described in the Petition have been posted in the Towns of Port Arthur and Fort William in the most conspicuous places therein, and that a similar notice has been also inserted in one daily newspaper in the Town of Fort William in each issue up to the time of the consideration of the Bill by the Committee.

Mr. Gibson, from the Standing Committee on Private Bills, presented their Tenth Report which was read as follows and adopted :—

The Debate was resumed,

And after some time,

Mr. German moved in amendment, seconded by Mr. Pardee,

That the Motion be amended by adding thereto the following:—"This House, however, is also of the opinion that in view of the granting of exceptional legislation during the past five or six years in cases which have been brought before the House, there may be among the pending applications to the Legislature at the present time, cases where municipalities have in good faith proceeded upon the assumption that similar legislation would be granted to them and made arrangements accordingly, and that the Private Bills Committee should take circumstances of this nature into consideration in dealing with the pending applications, but the same should not grant legislation which would not substantially come within the lines of the repealed provisions of the Municipal Amendment Act of 1888.

Mr. McKay moved in amendment to the Amendment, seconded by Mr. Conmee,

That all the words in the Motion after the word "retention" in the fifth line thereof, be struck out and the following substituted therefor:—

"And this House is further of the opinion that no such bonus, loan or exemption or other aid should be granted in any case until the By-law for granting such bonus, loan or exemption or other aid has been submitted to a vote of the ratepayers of the municipality qualified to vote on money by-laws and has received the assent of a majority of two-thirds of such ratepayers voting thereon, nor in any case when one-fifth in number of the ratepayers so qualified vote against the By-law.

And this House is further of the opinion that no such By-law should be passed by any municipality having a debenture debt amounting to more than ten per centum of the total assessment of the municipality according to the last revised assessment roll, exclusive of debts contracted for Water Works or other lighting or power plants or street railway, the revenues from which are sufficient to defray the cost of the construction and maintenance thereof.

And this House is further of the opinion that no such By-law should be passed for the purpose of aiding any manufactory or other industry when there is another manufactory or other industry of a similar character already established in the municipality nor to induce the removal thereof to any manufactory or other industry already established in another municipality."

And a Debate having arisen, it was

*Ordered*, That the Debate be adjourned until To-morrow.

The Order of the Day for resuming the Adjourned Debate on the Motion for the Second Reading of Bill (No. 101), To regulate the overcrowding of Street Railway Cars having been read,

Mr. Speaker,—who had reserved his decision,—delivered his judgment as follows:—

Objection has been taken to this Bill (101), as one which ought to have been introduced as a Private Bill because it is practically a proposed amendment of a Private Act, and is not brought before the House by either of the parties to the Act, the City or the Toronto Railway Company.

The Bill, in Sections 1, 2, 3, 4, undoubtedly deals with matters of a Public character, and these could have been introduced as amendments to "The Electric Railway Act." Were it not for the last section of the Bill, which confines the application of the Act to Cities whose population at the last official Census was over 100,000 and so evidently indicating the City of Toronto only, I should have regarded it as a Public Bill, the policy of which might have been passed upon by the House. But the fact that it seeks to interfere with an Agreement between the City of Toronto and the Toronto Railway Company, and which was ratified by an Act of this House, warrants me in deciding that such proposed interference should have been introduced by Private Bill, and that Bill (101), is therefore out of order.

I am, however, of opinion, that any citizen of Toronto has a right to initiate legislation by Private Bill seeking to remedy a supposed defect in any Private Act passed by this House *re* the Toronto Railway.

The following Bills were severally read the second time:—

Bill (No. 106), To amend The Municipal Act.

*Ordered*, That the Order be discharged, and that the Bill be withdrawn.

Between

Jacob Shoemaker,  
Petitioner,  
and  
Henry George Lackner,  
Respondent.

Tuesday the 14th day of March, 1899.

I, James Strachan Cartwright, Registrar of the Court of Appeal for Ontario, do hereby certify :—

1. That the Honourable Mr. Justice Rose and the Honourable Mr. Justice McMahon on the 22nd day of October, 1898, certified to this Court that at the Town of Berlin and the City of Toronto, on the 22nd day of September, 1898, and the 14th day of October, 1898, respectively, they held a Court for the trial of and there tried the Petition respecting the above mentioned election.

2. That at the said trial they found and determined that the election of the respondent, Henry George Lackner, was void by reason of certain corrupt practices, that is to say, bribery which had been committed by one J. M. Scully and others, agents of the said Henry George Lackner.

3. They further certified and reported that no corrupt practices were proved before them to have been committed by or with the knowledge and consent of either of the candidates at the said election.

4. That there was no reason to believe that corrupt practices extensively prevailed at the said election, save the practice of corruptly treating the electors by the agent or agents of the candidate, which did extensively prevail.

5. They further certified and reported that the following persons were proved at the said trial to have been guilty of corrupt practices, that is to say : John R. Eden, William Wessler, Hugh G. Roberts, Michael Schell and J. M. Scully.

6. And I further certify that an appeal was taken to this Court on behalf of the above named Respondent, Henry George Lackner, from the judgment of the said trial Judges on the grounds following :—

(a) That the particulars furnished by the Petitioner of the alleged corrupt practices on the part of the Respondent or his agents at the said election were defective.

(b) That a portion of said trial took place on the 22nd day of September, 1898, while the Legislative Assembly was in Session, and the remainder thereof on the 14th day of

October, 1898, after the Legislative Assembly had been prorogued by proclamation of the Lieutenant-Governor on the 12th day of October, 1898, and therefore within fifteen days after the close of the Session contrary to the Statute in that case made and provided, there having been no consent by the said Respondent to proceed with the said trial within the meaning of Section 48 of the Ontario Controverted Elections Act, and that the said trial was illegal.

(c) That the facts as proved at the said trial did not constitute any offence against Section 162 of the said Elections Act.

7. I further certify that a cross appeal was taken on behalf of the above named petitioner, Jacob Shoemaker, from the said judgment on the ground that the evidence given at the said trial disclosed no offence or offences on the part of the respondent, Henry George Lackner, within section 161 of the said Ontario Controverted Elections Act.

8. And I further certify that the said appeal and cross appeal came on for hearing on the 24th and 25th days of January, 1899, when the Court was pleased to direct that the same should stand over for judgment; and the same having come on this day for judgment, it was ordered and adjudged that the said determination of the said trial judges should be affirmed, not on the ground that any offences had been committed by J. M. Scully and others within sections 161 and 162 of the Elections Act or that any act of bribery had been committed by the said Scully within section 159 of the said Act; but on the ground only of certain acts of bribery committed by two agents of the Respondent, Henry George Lackner, without his knowledge or consent, that is to say, the bribery of the said William Wessler by the before mentioned John R. Eden, and the bribery of the said Michael Schell by the before mentioned Hugh G. Roberts.

And it was further ordered and adjudged that the Report and Certificate of the said trial Judges should be varied and amended accordingly; and that the said respondent, Henry George Lackner, was not entitled to the benefit of section 172 of the said Ontario Controverted Elections Act, and that the said appeal and cross appeal should be and the same were both dismissed with costs.

And it was

*Resolved*, That in the opinion of this House, the provisions of the British North America Act respecting the constitution and powers of the Senate of Canada are at variance with the well understood principles of responsible government and should be brought more into harmony with those principles by an amendment to the said Act substantially providing that if the House of Commons passes any Bill and the Senate reject such Bill and fails to pass it, or passes it with any amendment or amendments to which the House of Commons shall not agree and to which amendment or amendments the Senate adheres, the Governor-General may, by message upon the advice of his Council, convene a joint sitting of the two Houses, at which the questions in controversy and the final passage of such Bill shall be decided by a joint vote of the two Houses without debate.

*May it please Your Honour :*

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach your Honour at the close of our labours with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for your Honour's acceptance a Bill intituled “An Act for granting to Her Majesty certain sums of money to defray the expenses of Civil Government for the year 1899, and for other purposes therein.”

To this Bill the Royal Assent was announced by the Clerk of the Legislative Assembly, in the following words :—

“His Honour the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal subjects, accept their benevolence and assent to this Bill in Her Majesty's name.”

His Honour was then pleased to deliver the following speech :—

*Mr. Speaker, and Gentlemen of the Legislative Assembly :*

In dismissing you from the arduous labours of the session, I have to thank you for the attention given to the public duties imposed upon you and for the valuable legislation which I have just sanctioned.

I cordially approve of the measures adopted for supplementing the revenues of the Province. By the Act of last year which required the manufacture of saw-logs in Canada it was inevitable that the receipts from the Crown Lands Department should be impaired, and, when to the probable loss of revenue are added the necessary expenditures arising from the increase of population and the growing needs of the people, the public interests required that provision should be made for all necessary expenditure and for the maintenance of the financial standing of the Province. I am glad that you have been able to effect this by a moderate tax upon the accumulation of capital and by a reasonable increase in the duties upon distillers', brewers' and liquor licenses. It is gratifying to believe that the taxes imposed will not be burdensome to any of the classes affected.

I assent with much pleasure to the Act Respecting Aid to certain Railways. Since Confederation the energies of the Assembly have been directed towards the development of all sections of the Province, and as a result of a wise and prudent expenditure of public monies nearly all the outlying portions of the older settlements have been placed within easy reach of the markets of the world by the improved transportation facilities thus afforded. In order, however, that the agricultural resources of the northerly and westerly parts of Ontario may be opened up for further settlement, and that the valuable mineral deposits now generally believed to exist in great abundance in the same districts may be brought within the possibilities of development, and that the timber and other resources of those districts may be made available, the further extension of our railway systems to those sections becomes necessary. I am pleased therefore to think that within two or three years access will probably be obtained by railway to the agricultural lands in the Rainy River District and the mineral and timber lands lying between Rainy Lake and Port Arthur. I am also pleased to notice that through part of the railway systems projected it is intended to place the capital of the Province in direct communication with the tide waters of Hudson's Bay, thus opening a new region to the energies of our own people and establishing a new highway between our own Province by way of Hudson's Bay and the northern territories of the Dominion.

The amendments which you have made to the Statute Laws of the Province, and to the Municipal and Assessment Acts, for the purpose of facilitating the administration of Justice, and rendering more effective the government of municipal corporations, and for other purposes, will, I am confident, be of material advantage to all classes of the community.

The Acts respecting Public Schools, the amendments to the Election Laws, the further improvement of our Mining industries, for the protection of our Fisheries, and for the better administration of the Game Laws meet with my hearty approval.

I have with much satisfaction assented to an Act for facilitating and lessening the costs of the procedure by which workmen who suffer injuries in the course of their

---

employment may obtain such compensation as I am confident it is the desire of the Assembly they should receive. I have no doubt this Act will greatly aid in securing to workmen and render less onerous upon employers the costs of recovering compensation in the event of such accidents as are incident to many of the industries of the Province.

I notice that the private legislation this session has been unprecedentedly large, a fact that marks the ever increasing wants of an active population. These measures, some of which are of a very important character, bear evidence of having received careful consideration.

I thank you for the liberal appropriations which you have made for the public service. The supplies which you have granted will be expended with prudence and in the public interest.

The Provincial Secretary then said :—

*Mr. Speaker and Gentlemen of the Legislative Assembly :*

It is His Honour's will and pleasure that this Legislative Assembly be prorogued ; and this Legislative Assembly is accordingly prorogued.

EVIDENCE TAKEN BEFORE THE PUBLIC ACCOUNTS COMMITTEE.

---

PUBLIC ACCOUNTS COMMITTEE ROOM,

March 14th, 1899.

The committee met at 11 a.m., Mr. W. A. Charlton, the chairman, occupying the chair.

Henry Smith, Superintendent of Colonization Roads, was called, sworn and examined.

By Mr. Mr. MATHESON.—Q. Mr. Fraser is in Manitoulin, is he?

A. I believe so; that is his home.

Q. You are the Superintendent of Colonization Roads?

A. Yes, I am the Superintendent.

Q. Where is the Indian Point bridge?

A. It is across the Narrows, which separates a bay called Wolsey bay and the larger waters of the Georgian Bay across from a point called Indian Point; I think it is within the Township of Gaden.

Q. On Manitoulin Island?

A. On Manitoulin Island; yes.

Q. How long is it?

A. I think it is 1,760 feet. The exact length is in the report and I can verify it if necessary.

Q. What is the estimated cost ?

A. About \$5,000—at least that is what is in the estimates. I was never on the ground.

Q. I would like to have some one to give me information about the bridge. Is there anybody in these buildings who knows about the bridge?

A. No sir. The only persons who would know about it are the builder of the bridge, Mr. Fraser, and the Inspector, and neither of them is here.

Q. Where is the Inspector ?

A. He lives near the Bruce Mines at Thessalon,

Q. What is his name ?

A. John F. Boyd.

Q. The Dominion Government gave a grant towards this bridge ?

A. Yes, of \$3,000.

Q. When was it commenced ? Was it last year or the year before ?

A. In 1898 it was commenced, I think. Very early in the spring of 1898—I have forgotten exactly—we began to get out some of the material, stone and things that had to be drawn in the winter.

Q. Who was in charge of the work ?

A. Mr. J. M. Fraser.

Q. Where does he live ?

A. He lives at Gore Bay—that is his post office address.

Q. Do you know whether the bridge is completed ?

A. No sir, it is not completed yet.

Q. How late in the year did they work ?

A. Well I think about———

Q. Until the end of September ?

A. Perhaps later. The pay sheets will show exactly. The last pay sheets will show the last day (examining pay sheets). The work lasted from February 4th to September. They finished some time in September. September 27th, is the last record we have.

Q. You say that the estimate for the bridge was \$5,000 ?

A. \$5,000, yes.

Q. How much has been spent on it according to the public accounts last year \$5,850 is it not ?

A. \$5,850.

Q. Of which \$3,000 was paid by the Dominion ?

A. Paid by the Dominion, yes.

Q. And the bridge is not completed yet ?

A. The bridge is not completed yet.

Q. Have you any reports as to the progress of the bridge ?

A. Oh ! yes.

Q. Do you know how much is the estimated cost of finishing it ?

A. The estimated cost, so far as the balance of the wood work is concerned, is about \$1,300.

Q. Is the bridge passable at present ?

A. Oh no, it is not passable at present. It requires \$1,300 to be spent on wood-work and requires also a swing for the purposes of navigation before the bridge is completed.

Q. Where steamers can go through ?

A. So that steamers and boats can go through, yes.

Q. Is the swing not built yet ?

A. It is not built yet.

Q. Did Mr. Fraser give any reason for the bridge not being completed last year ?

A. Well, we gave reasons rather than he because we had not money appropriated for the work and we could not go along.

Q. Who made the estimate for the cost ?

A. Well, it was made by Mr. John Boyd, the father of the present John F. Boyd. He made an estimate of the cost.

Q. Is he alive now ?

A. No sir, he is dead. The later reports show that the bridge could not be built for that amount of money.

Q. Is there any reason beyond the want of money to prevent the bridge being finished last year ?

A. No, sir, none that I know of.

Q. People up there have complained it was kept back for election purposes ?

A. Well, that does not reach me.

Q. You do not understand that part ?

A. No. As matter of fact we would not have spent so much as we did, but the account was overdrawn somewhat before it was found —

Q. What was the vote that this Legislature granted for the bridge ?

A. I think there was \$2,500 granted in the estimates of last year, conditional upon the Government giving \$3,000. I would not be positive about that, perhaps it was less than that. I think it was, perhaps, less than \$1,500.

By Hon. Mr. HARCOURT.—Q. Who did you say the overseer was, Mr. Smith ?

A. It was Mr. John F. Boyd.

Q. Where is he ?

A. He is at Thessalon. His father was the inspector who made the measurement and that sort of thing. His son succeeded him last year, and he is the only one and the builder who would know anything about it from personal examination.

By Mr. MATHESON.—Q. And what do you estimate, from the information which has been sent down, will be required to finish the bridge completely?

A. I think it will cost from the information I have received about \$2,800 to fully complete the bridge, including the steel swing portion.

Q. Are the piers built for the swing portion?

A. No, they are not quite, but the material is on the ground for the erection of the foundations for the steel swing. It swings upon a large pier in the centre.

Q. Is there anything in the estimates this year do you know?

A. It is not in the estimates yet.

Q. Not in the main estimates for that bridge?

A. No.

Q. And the work done is of no use until it is completed, I suppose?

A. No; of course you cannot pass over the work yet.

Q. How much is required for the approaches, and how much for the bridge work?

A. The total length is 1,760 or 1,770 feet. About 1,300 or 1,400 I think are now complete. It is built and based on crib-work filled with stone—a solid roadway.

Q. Is it solid crib all the way?

A. All the way, and will be except the swing.

Q. The whole bridge will be solid except the swing?

A. All solid except the swing which is a permanent work.

Q. As I understand, even the solid part is not finished?

A. No, there is at one end—I am speaking from memory—a couple of hundred feet that is with the pier and the filling up to that pier, and I think about, probably, one hundred feet on the other side. There are nearly 1,400 feet, I think, completed out of the 1,700.

Q. Are any of the piers built yet?

A. No, the main piers are not built yet. As I said before the material is already on the ground for this work.

Q. And is it paid for?

A. Yes, it is all paid for.

Q. I suppose that is all you know about it?

A. Yes sir, that is all I know about it.

---

PUBLIC ACCOUNTS COMMITTEE ROOM,

March 16th.

The Committee met at 11 o'clock, the Chairman, Mr. W. A. Charlton presiding.

AUBREY WHITE, Deputy Commissioner of Crown Lands, was called and examined.

By Mr. MATHESON.—I did not mean to call you—the man I wanted was Mr. Macdonald—but the Chairman suggested that you should be called. I do not know whether you can give the exact information I want?

A. Well, I will try to give the information if I know it.

Q. You are the Assistant Commissioner of Crown Lands?

A. Yes,

Q. Who is D. F. Macdonald? He is a woodranger, is he not?

A. Not now sir.

Q. He was last year?

A. He was last year, yes.

Q. About what date?

A. Well, I cannot say. His account would show.

Q. These are his accounts? (handing documents to witness).

A. This first account is from the 25th November, 1897, to the 6th June, 1898. Then there is an account for the examination he made in the Township of Baxter, ranging from June 13th to September 10th.

Q. Will you look at the affidavit verifying that account for Baxter Township?

A. I have it in my hand, sir.

Q. What is the date on which it was sworn?

A. It is sworn in October.

Q. What year?

A. 1894. That is a mistake, of course.

Q. That is what I want to find out?

A. I don't understand that.

Q. You cannot explain that?

A. That was sworn here in the Department this fall. I am aware of it, because I sent for Mr. Crozier, who is chief of the Woods and Forests' branch, to take the affidavit. It is sworn before the chief of the Woods and Forests' branch.

Q. Do you know of your own knowledge that Macdonald was at that work last summer?

A. Yes, I do.

Q. And not in 1894?

A. Not in 1894, but this summer. I gave him the instructions, Mr. Matheson, in connection with the lawyer who had charge of this particular matter.

Q. It is a very extraordinary thing. Are these woodrangers given affidavits in advance?

A. No.

Q. Are they given forms?

A. Not until they come to close their accounts. Then when they come to put in their accounts, it is said to them "This is the form and you have to make your affidavit upon that form."

Q. Do they take out forms of affidavits partially filled up?

A. No, I don't think so.

Q. And then fill them in afterwards ?

A. When a ranger has completed his service and writes to say so, we would transmit to him a form upon which to make his account, similar to this. If you have any doubt as to the date upon which this was sworn you can call Mr. Crozier, Chief of the Woods and Forests' Branch, before whom the affidavit was taken.

By Hon. Mr. DAVIS.—Q. And did Mr. Crozier place that date there, would you suppose ?

A. I think so, I think that is his writing.

By the CHAIRMAN —Q. 1894 on the affidavit ?

A. Yes.

By Mr. MATHESON.—Q. The auditor complained as to some vouchers, did he not ? Have you seen that correspondence before (pointing to papers in the hands of the witness) ?

A. I think so.

Q. Has he complained there as to details and vouchers ?

A. He asks for further particulars. Those further particulars we supplied before the auditor passed the account.

Q. No ; I think they are not given except in a letter of his. Can you find among those papers anything except a letter of D. F. Macdonald giving further particulars ?

A. (Reads) "in reply to your request for information *re* Isa Aissance in the township of Baxter." This is Macdonald's letter.

Q. The reason the auditor asks for those particulars is that the voucher is for a lump sum, is it not ? Just look at the voucher there, that for \$20 ?

A. There is one for \$20, yes.

Q. Read it, please ?

A. "Received from D. F. Macdonald, Crown Timber Agent, \$20 for cooking, etc., in the township of Baxter."

Q. There is another one there ?

A. "David Hawke, cooking and charge of camp and fire in the township of Baxter, \$37."

Q. Is that the explanation of accounts which the auditor asked for ?

A. Yes, sir ; I think that is what he asked for.

Q. Now, can you find any explanation other than that letter of Macdonald's ? I think as a matter of fact there is none ?

A. There does not seem to be any except Macdonald's letter of explanation.

By Mr. PARDEE.—Q. As to those two items ?

A. Yes ; he says he employed Isa Aissance at \$1.25 a day and board himself. He left and then David Hawke was engaged at the same wages and board himself. "Isa Aissance worked 16 days and I paid him \$20 and got his receipt for the same. David Hawke worked 29½ days and was paid \$37 and I got his receipt for the same."

By Mr. MATHESON.—Q. So the receipt does not show how many days there were ?

A. No, the receipt itself does not.

Q. And the only detail given is the letter of Macdonald?

A. The letter of Macdonald.

By Mr. MACNISH.—Q. Who engaged the men?

A. Mr. Macdonald.

By Mr. MATHESON.—Q. What work was this he was doing in the Islands?

A. He was making an inspection to ascertain the quantity of timber upon the mainland, in connection with a dispute that had come up between the Department and the timber licensee.

Q. Where are these islands?

A. They are in the Georgian Bay in the front of the township of Baxter.

Q. Do you know where Macdonald is now?

A. I do not, unless he is at his home in Parry Sound.

Q. Has he been employed by the Government at any time since the end of September?

A. No, sir; not to my knowledge.

Q. Is he in the employment of the Government now?

A. No, sir.

Q. How long was he in the employment of the Government previous to this?

A. I think he came into the service as a forest ranger when I was transferred to the Crown Lands Department—that would be in the year 1878.

Q. How long did he remain as forest ranger?

A. He was a forest ranger until—I cannot fix the year when he was appointed Crown Timber Agent at Parry Sound, but I think it would probably be along in 1884 or 1885.

Q. How long has he been Crown Timber Agent? Did he succeed as Crown Timber Agent?

A. Yes; he succeeded a Mr. Johnson who had been timber agent at Parry Sound, who resigned, and Mr. Macdonald succeeded him.

Q. How long did he act as Crown Timber Agent?

A. Until 1894 or 1895, or along there—1896, I think. I don't wish to be understood as speaking positively.

Q. Was he discharged?

A. He sent in his resignation at the request of the Commissioner of Crown Lands at that time.

Q. For what reason was that request given?

A. What reason?

Q. Were there any charges against him that caused his resignation?

A. I think it was in connection with the Moore Lumber Company that the Commissioner thought his resignation should be tendered.

Q. Was he in charge of the limits from which the Moore Lumber Company took lumber?

A. He was in charge of the ranging in that country.

Q. Of the ranging?

A. Yes.

Q. And the Moore Lumber Company took some timber from territory not within their license? That was the charge, was it not?

A. No; that was not the charge.

Q. What was it?

A. That they got out more timber than they returned.

Q. To what extent? 15,000,000 feet?

A. I think it was ten or twelve million feet.

Q. And was D. F. Macdonald responsible for measuring the timber they got out?

A. He was responsible in the sense that he was in charge of the territory. If you will allow me to make an explanation, I desire to say that it would be almost impossible for him to know what was being done there. You will understand, Colonel Matheson, that our staff of forest rangers consists of only some twenty-one or twenty-two individuals, and that it is impossible for them to have close accurate supervision of all the work that is going on, as to measurements and skidding, and handling in different shanties. The best they can do is to get a general knowledge—that is all.

Q. Still the only check that the Department has on the Moore Lumber Company's operations was such as Macdonald?

A. Such as Macdonald or some other ranger employed in the same territory might have \_\_\_\_\_.

Q. He was the one especially responsible?

A. And then when the returns come to be made out, the foreman who had charge of the shanty has to make an affidavit that this is the full quantity of logs that he took out as foreman of that shanty. The culler who measures the logs has to make an affidavit that he measured all the logs in that shanty, and these were all the logs that were cut under the supervision of that foreman.

Q. Who pays the culler?

A. The culler is paid by the lumberman. Then the owner of that limit or the agent in charge has to make an affidavit showing all the logs that were got out by the different foremen, and the quantity that each got out, so that there has to be collusion and perjury by three individuals before fraud can take place.

Q. Of course. There is first the lumberman, then two of his employees, the foreman and the culler, make an affidavit. Outside of that, the only check you have is the Crown Timber Agent, who in this case was Mr. Macdonald?

A. Yes.

Q. Then the Commissioner considered he was negligent, did he?

A. Yes.

Q. And he asked for his resignation?

A. He asked for his resignation.

Q. And he resigned?

A. He resigned.

Q. Can you give about the date when that took place?

A. I cannot from memory. I have the exact date down stairs.

Q. Can you tell the year?

A. No, I cannot; not from memory.

Q. How long was he employed by the Department?

A. I think for over a year after that. I would have to look it up before speaking correctly.

Q. Speaking from memory, you think about a year?

A. I think so.

Q. When next was he employed?

A. I think he was employed estimating the timber upon islands in the Georgian Bay and seeing that no fire took place upon them—as a fire ranger making estimates.

Q. Any idea of the year that was in? I don't know myself.

A. I don't know either. It was the following year, I think, sometime—the year after he resigned.

Q. And has he been continually in the employ of the Government since that date up to last September?

A. Well, he has been employed from each year from to time, not continuously. You see these rangers are not continuously employed. They are employed for only part of the year—just for the winter season, that is all, and while the lumbering is going on.

Q. What are the duties of the rangers?

A. They are to visit the different lumbering operations; to go through the logs and form an idea as best they can about the average of the logs; to get from the culler, statements of his measurements up to the date of their visit and the number of pieces that are cut and measured, and from that produce an average and compare it with the average which they get from their own measurements, and then see if the two averages pretty nearly agree.

Q. So that these rangers are a check on the company?

A. They are a check on the company.

Q. So Macdonald was actually employed in the same work from which he was discharged before?

A. No, he was Crown timber agent having supervision, when he was discharged.

Q. But he was discharged for neglect in supervising the cut, and supervision of the cut was part of his work as ranger?

A. That was part of his work.

By Mr. LOUGHRIN.—Q. You did not say that they are expected to take a measurement of certain samples?

A. I said to compare that with their own average.

Q. Colonel Matheson asked you what their duties were, and you did not explain that each bush ranger is expected to take a measurement of certain samples?

A. Yes, I did.

By Hon. Mr. DAVIS.—Q. Did the Commissioner, in looking into the Moore Lumber Company matter, consider that Macdonald was in collusion with everybody to defraud?

A. I think he did not, Mr. Davis. I think he did not consider that there had been any collusion, but he considered that there had been carelessness and that Mr. Macdonald might have known more about it than he did, and under the circumstances that some action, to give him to understand that he had not done his full duty in the premises, perhaps should be taken.

Q. What are Macdonald's capabilities as ranger?

A. I should consider Mr. Macdonald well qualified—as well qualified a man as ranger as there is in the Province.

By Mr. PARDEE.—Q. As a matter of fact, this whole trouble arose through the falsification of books by the Moore Lumber Company? That was the foundation of the whole matter?

A. Yes.

By Mr. LOUGHRIN.—Q. At the time this took place, Mr. Macdonald was an ordinary bushranger?

A. He was Crown timber agent.

Q. There were other men under him. He himself was not expected to visit the lumber camps?

A. Yes, he was expected. He took part of the territory.

By Mr. REID (Addington).—Q. Did it take place all in one year?

A. My impression is when we found there was a shortage we went into a thorough examination, and took evidence under oath, and went into accounts from the very beginning. We went to Detroit and inspected the company's books and records of sales and everything, and what we established was that, comparing what they had sold with what they had returned to us during the whole period, there appeared to be a shortage of so much. You understand that the fraud might all have been in one year, but we went into the whole thing and we said: "Now, let us see, since you began the lumber trade, how much lumber you have had and how much you have sold—what those logs have produced—and we compared that with their returns from the beginning and we found that there was so much of a difference, and we charged them up upon the whole difference.

Q. You think, Mr. White, it could be possible they could make that all in one year without Macdonald's knowing anything about it?

A. They might have done so. You see, as Mr. Pardee has said, the books kept in the shanty were false books, and the ranger going there and looking at the books would be deceived by them.

Q. A double set of books?

A. A double set of books.

By Mr. MATHESON.—Q. What was the exact amount of the shortage?

A. 10,861,166 million feet which, at \$1 thousand, would be \$10,861.16. That was the amount we added to the company's account.

Q. What is the date of that account of D. F. Macdonald's?

A. That is in 1898 apparently.

Q. What is it for? Will you read it please?

A. This is for the work on the Georgian Bay islands that I was speaking of. There was a balance which seems to have been paid this year.

Q. It is the \$42.50 in a lump sum that I am speaking of?

A. \$42.50 David Hawke.

Q. Read his receipt?

A. "For ranging on the islands, \$42.50."

Q. There is no time given; is it just a lump sum?

A. It is a lump sum.

Q. That receipt that Macdonald handed in, is the voucher for that much money?

A. Yes, for his expenses—for the wages, rather, of the man that he employed.

Q. Is Capt. Sullivan in the employ of the Department?

A. No, sir, he is not.

Q. Was he in the employ of the Department?

A. Capt. Sullivan? He was in the employ last year.

Q. What was his employment?

A. He was a forest ranger.

Q. Where did he live?

A. At Sault Ste. Marie, under Mr. Campbell, the Crown timber agent there.

Q. Has he been employed for some years?

A. Yes, for five or six years, I think.

Q. Up to what time was he employed?

A. His account will show the date his services terminated.

Q. Up to last October?

A. Well, I don't know. I would have to see the account before I answered that.

Q. I see in his account he deducts twenty days in February and one in March?

A. Yes.

Q. 1st March, I suppose?

A. I don't know, I am sure. I did not ask him what particular day that was.

Q. Is he, like Mr. Macdonald, employed part of the year in each of these years?

A. Yes.

Q. Not all the year round ?

A. Not all the year round. Just employed by the day and paid for the number of days he is engaged.

Q. His work was of the same nature as Mr. Macdonald, forest ranging ?

A. Forest ranging.

Q. Are any of these rangers employed in winter ?

A. Yes. They go out about the middle of November and they stay on duty until, sometimes, on in July or August—it depends upon the amount of work they are charged with. Some of them are taken off on the 30th April ; others are retained to collect the returns, to visit the different lumbering operations and to take the returns from the foremen, cullers and managers.

Q. Do you know the reason D. F. Macdonald and—what's Sullivan's first name ?

A. John.

Q. And John Sullivan were not employed this last winter ?

A. I do not, sir. I had no instructions to engage them and did not engage them.

Q. I suppose you do not know it was because of the bye-elections ?

A. I do not know anything about the bye-elections, except that they occurred.

By Mr. REID (Addington).—Q. These men kept their own time. There is no check as to whether they were woodranging or not. You have to take their word ?

A. Except that they swore to the number of days they were employed.

Q. Is Frank Halliday employed by the Department ?

A. He is employed as Crown Timber Agent. He succeeded Mr. Macdonald at Parry Sound.

Q. About when ?

A. I think it was 1895 or thereabouts—1896, it might be.

Q. Is he employed all the year round ?

A. Yes, sir.

Q. What is his salary ?

A. \$1,600.

Q. What territory has he ?

A. He has the whole of the Muskoka and Parry Sound districts under his supervision.

Q. Is he employed in the County of Hastings ?

A. No.

Q. Is he employed in the County of Addington ?

A. No.

Q. His whole time is supposed to be given to the Government service ?

A. Yes.

Q. Has he asked for leave of absence ?

A. No.

Q. At any time since last August ?

A. Not to my recollection.

Q. What is the nature of his duties ?

A. He has supervision of all the forest rangers ; he has four or five men under him in these districts and they are subject to his directions. He gives them instructions and they make their reports and returns to him ; in addition to which he visits certain lumbering operations himself and makes inspections and that sort of thing. Then, at the end of the season all the lumbering returns are sent to him and he transmits them to the Department. He is the medium of communication between the Department and the lumberman or settler or anybody there who has business with the timber branch.

Q. Mr. Halliday does not go out into the woods at all ?

A. Oh, yes.

Q. I understood he had an office ?

A. He has an office ; but, as I said, he takes part of the territory himself.

Q. He oversees the others ?

A. He oversees the others in addition.

Q. You do not know where he is now ?

A. I do not, although I had a letter from him to-day dated Huntsville. He will probably be at home now.

By Mr. MATHESON.—Q. Have you the date now of the Moore Lumber Company investigation ?

A. Yes, in December, 1895.

Q. And it was in that year Macdonald was dismissed ?

A. It was immediately after this.

By the CHAIRMAN.—Q. In addition to paying for the shortage, Mr. White, did the company pay the costs of the investigation ?

A. Yes.

Q. So that the Government were not out any in the costs of the investigation ?

A. No.

By Mr. MATHESON.—Q. Do you know what year the Government made the demand for the dues on that lumber ? When did they discover it ?

A. I think it was in the fall of 1894 that we first heard about it.

Q. And what about 1895.

A. That is the season of 1894-95—that is the lumbering season we investigated it.

Q. When did they pay the money over ?

A. They paid it over to the Crown Lands Department.

Q. When ?

A. I think it would be in 1896, probably, after this investigation took place.

Q. Were they fined at all ?

A. No, sir.

Q. Was any allowance made for culls ?

A. They were not charged for culls. They took this position. They said : "These logs are of small diameter and naturally they will overrun the measurements made in the woods when they come to be sawn out. Now, you are proposing to charge us on what these logs actually cut out at the mills which is something you would not charge another lumberman, and we think in consideration of that you ought not to charge us anything at all upon what were culls," and it is not the practice to charge for valueless culls.

Q. What percentage were they allowed off for culls ?

A. Well, I cannot say from memory.

Q. There was an allowance made for culls ?

A. Well, we did not charge them on the culls.

Q. Well, the culls must have been a percentage ?

A. No doubt they were ; but I cannot say now exactly what that percentage was. Of course, Mr. Matheson, when we went into the books we got the inner history of the character of the lumber. They got so much good lumber and so much culls, and they contended that we should not charge them for the culls.

Q. Did they claim that under the circumstances they were entitled to any allowance ?

A. They claimed we should not charge them upon the culls.

Q. What excuse did they give for taking the lumber this way ?

A. The individuals composing the company said that they did not know anything about it, that they had no knowledge of it at all. What was done was done by their manager.

Q. Who is their manager ?

A. A man named Sheehan.

Q. Is he in this country ?

A. I don't know where he is.

Q. Was it not understood at the time that he cleared off to the States ?

A. I think it was.

Q. And he has never come back since ?

A. Not to my knowledge.

Q. Who would benefit by the reduction in the dues ?

A. Well, of course the Company getting the logs benefitted.

Q. And yet they pretended they knew nothing about it ?

A. They said they were not parties to the fraud, and did not know anything about it. They gave no instructions to have anything of the kind done, and it did seem to the Department, I suppose, a reasonable thing that no reputable man would place himself at the mercy of two or three employes.

Q. What inducement would these men have ?

A. Sheehan, I think, had a small interest in the concern, but I do not know that that was sufficient to induce him to commit fraud.

BY MR. CARNEGIE.—Q. The Company knew they sold so much lumber ?

A. Yes.

Q. They also knew that they paid so much dues ?

A. Yes.

Q. They knew what the regulations of the Department were in the matter ?

A. Yes.

Q. Would that not show that they must have known that something was wrong ?

A. Yes, there was that, no doubt. But there was an additional factor in the case, and that was that the people who owned the Moore Lumber Company when we discovered the fraud, and had to deal with it, were not the people who owned it when the fraud was committed. They had passed out of it, and there was only one of the original Company in it, and he at the time the fraud was committed only held a small share.

BY MR. EILBER.—Q. The same book-keeper ?

A. No, because Sheehan was the man who kept the books.

BY MR. REID.—Q. What was the average number of feet the Moore Lumber Company worked out in those years ?

A. I cannot say from memory.

Q. Can you give any idea ?

A. I could not say from memory. My impression is that the whole cut was between fifty and sixty millions.

BY MR. PARDEE.—Q. As a matter of fact the Government lost nothing ?

A. No.

Q. The logs were paid for in the ordinary way, the same as if they had been allowed in the account ?

A. Yes.

Q. And the Company paid all the costs of the investigation ?

A. Yes.

BY MR. MATHESON.—Q. But the Government would have lost had they not accidentally found out about it ?

A. Certainly the Government would have lost.

Q. The Moore Lumber Company did not give any information, did they ?

A. No, the information came from one of our own rangers.

BY MR. REID.—Under the regulations the Government could have imposed a fine, could they not, on the Moore Company ?

A. Oh, yes ; the Government could have. If they had seen fit, they could have done so.

By MR. MATHESON.—Q. They did not do it?

A. For the reasons I have given you.

By MR. PARDEE.—Q. Because the Company had materially changed?

A. The Company had materially changed.

By MR. CALDWELL.—Q. The extra allowance they paid was made up from the actual cut of the lumber?

A. From their cut from the beginning—made up from the products of their mills.

Q. If it was from small logs the cut was taken, so far from the Government losing they were actually making a gain?

A. Of course the logs would overrun in the culling. There is no question about that in the case of small logs.

By MR. REID.—Q. I understand you to say that the man who kept the books was an interested party. If that was true, do you not think the Government should have imposed a fine?

A. Of course I cannot carry in my memory exactly everything that took place, but my impression is that this man had part of an interest.

By THE CHAIRMAN.—Q. He was not interested in the Company at the time of the settlement?

A. I don't think he was at the time of the settlement.

By MR. MATHESON.—Q. Did the Government not cancel another license for something similar somewhere about Peterborough, I forget the name of the firm?

A. You are referring to what is known as the Scott frauds.

Q. Did they not cancel the license in that case?

A. I think they did.

Q. Did they not make them pay a large amount besides?

A. They made them pay the difference between what they had returned and what they got. The Scott people claim they were overcharged, and I think a certain amount was returned to them after the settlement.

By MR. CARNEGIE.—Q. The logs in the Scott case were taken not off Government limits but off the Scotts' own property?

A. They were taken off the Scott limits, but he claimed we were charging him dues upon logs which came off private lands.

By MR. MATHESON.—Q. In that case there was a penalty imposed?

A. There was a penalty imposed.

Q. And there was none in the case of the Moore Lumber Company?

A. There was none in the case of the Moore Lumber Company. Of course I can give you the particulars as to the Scott matter if you want it. That was investigated by a Commission.

By MR. REID.—Q. What about the fire rangers? Who appoints them?

A. The limit holders recommend the men they want to be employed on their limits, and the Government appoints those men.

Q. They generally recommend their own men ?

A. They generally recommend men in whom they have confidence.

Q. They pay one-half ?

A. They pay one-half—one dollar a day. Sometimes it's a little less. It is according to a bargain the lumberman makes with his ranger.

Q. Who puts in the account ?

A. The fire ranger swears to his account. He makes it out on a form something like this wood ranger's form. Then he hands it to the lumberman by whom he is employed, and he has to certify to it and make an affidavit that that fire ranger was not engaged in any other duty but fire ranging, and that he was employed the number of days stated upon that certificate ; then we pay our proportion, the lumberman paying his.

Q. Is it the government suggests how many fire rangers should be appointed ?

A. No.

Q. The lumberman ?

A. The lumberman. I was in a measure responsible for the framing of this regulation in the beginning under Mr. Pardee, and my idea was this : that it would be better to allow the lumberman to select the men to supervise his limits for two reasons. First, because he would select a man who was familiar with the country, who knew the people who were settled there, and would be able to move about rapidly from place to place, and would select men of discretion—men who, he knew, would not get into difficulty with the people. And in the next place, being his man, the lumberman would have supervision over him, and see that he did his duty.

Q. The fire rangers are increasing very fast ?

A. The complaint is that we have not enough.

Q. I know that there are some employed where there is no timber ?

A. The matter is voluntary in this sense ; that the lumberman is allowed to elect whether he will have rangers on his limit or not. We are now pressed to say " You must employ so many men."

By Mr. EILBER.—Q. Was there any complaint ever made to the Department by any of the fire rangers that they had not been paid at the rate of sixty or eighty dollars a month by the owner of these limits ?

A. I think there was in one case. I recollect now a complaint of that kind, and we investigated it, and we found there had been an attempt to pay the man less than he should have got, and we made the lumberman pay over the amount.

Q. But is it not the general practice of these men not to pay at the rate of sixty or eighty dollars ?

A. We are not aware of anything of the kind, and if so there must be perjury on the part of the lumberman and of the fire ranger.

J. A. G. CROZIER called, sworn and examined.

By Hon. Mr. DAVIS.—Q. Have you any idea who prepared this affidavit (handing document to witness) ?

A. Who wrote this.

Q. Yes.

A. Well that looks like D. F. Macdonald's hand-writing.

Q. Before whom was that affidavit made?

A. It was made before me—it is sworn before me.

Q. The bills in the affidavit, you will see, are dated in the year 1898?

A. This affidavit is dated 1894.

Q. Do you know when that was made?

A. I have no reason to doubt it was made on the date given here.

Q. How do you explain that the account is dated 1898, and the affidavit is made in 1894?

A. That is my writing there. I filled in the jurat and swore the man. He simply came to me to swear his affidavit.

By Mr. MATHESON.—Q. Is there any year mentioned except 1894? I think there is none?

A. No, sir. I see no year here except what I put in the jurat myself. Of course it is customary for me, when a man comes before me to be sworn, to examine these papers here.

Q. In whose writing is the jurat filled in?

A. It is filled in by me.

By Hon. Mr. DAVIS.—Q. Mr. White, did I understand you to say that the affidavit is brought to you, and then by you sent to Mr. Crozier?

A. The account would be sent to Mr. Crozier for the man to swear to it.

Q. Did you see it before it was sent to him?

A. The affidavit? No, I don't think so. The account would come to me to be passed, and I would say "You must get it sworn to."

Mr. CROZIER.—It might be sworn before me or somebody else.

Q. That is not the point. The point is that accounts in the affidavit are dated 1898 while the affidavit itself is dated 1894.

A. 1894 might be an error of mine, of course.

By the CHAIRMAN.—Q. A person might very easily make an error?

A. Yes.

Hon. Mr. DAVIS.—I would like Mr. White or Mr. Crozier to explain the discrepancy.

Mr. WHITE.—I can say this—that the work in the Township of Baxter, which these accounts cover, was performed in the year 1898.

By Hon. Mr. DAVIS.—Q. You swear to that?

A. I swear to that. I am not sworn, but I am ready to be sworn.

By Mr. MATHESON.—Q. The other presumption is this. The man took the affidavit in blank and filled it in afterwards?

A. He filled in the affidavit as to the number of days he worked. The jurat is filled in by Mr. Crozier.

Q. He may have sworn the affidavit here in Toronto in blank and filled it out some years afterwards?

A. I know he did the work that is charged for in the account.

By Hon. Mr. DAVIS.—Q. Looking over the accounts attached to the affidavit are you prepared to swear that the work was performed in 1898?

A. In the year 1898.

Q. You are prepared to swear to that?

A. Yes, I am prepared to swear to that.

Hon. Mr. DAVIS.—That would seem to explain the matter, although the date 1894 is very peculiar.

Mr. CROZIER —Of course we are all liable to error. I might have put 1894 there by mistake, but I could not swear to that as a certainty.

Hon. Mr. DAVIS.—There is no fraud or anything wrong?

WITNESS.—There is no fraud on my part, at any rate.

By Hon. Mr. DAVIS.—Q. Mr. White, you are the responsible deputy head of the Department. I want to ask you if you think it possible for any official or any employe to get affidavits made in advance and fill them in years afterwards?

A. No.

Q. Are you sure of that?

A. He might do it, but it would be impossible for him to get paid on such an affidavit. I was personally aware that Mr. Macdonald was working there, how long he was there, and I think we have his diary showing the work.

By Mr. PARDEE —Q. Mr. White, this could not be open to the construction Colonel Matheson wishes to put on it, because the accounts for the different years are all passed?

A. Certainly.

Q. Therefore this affidavit of 1894 could not very well ring in on an 1898 account?

A. It could not.

Q. That would be utterly impossible?

A. There must be an error.

Q. It is plainly evident the affidavit must have been wrongly filled in, because an 1898 could not come in under 1894?

A. Yes, certainly.

Q. And the affidavit solely refers to the Baxter and other accounts mentioned in the document?

A. We have his diary showing where he was and what he did in each of those days, in the Department.

By Mr. MATHESON.—Q. I would like to have that diary.

A. I can produce it.

The committee then adjourned.

PUBLIC ACCOUNTS COMMITTEE ROOM,  
March 17th.

The Committee met at 11 a.m., the Chairman Mr. W. A. Charlton, presiding.

Mr. AUBREY WHITE was recalled, sworn and examined,

By Mr. MATHESON.—Q. Have you brought Mr. Macdonald's diary?

A. Yes, sir. I desire, Mr. Chairman, to make further explanation with regard to that account of Mr. Macdonald's. I might say that all these accounts are made in triplicate. One copy is sent to the audit office when the account is paid; one copy is kept with the Woods and Forests' branch in the Department, and the other copy goes to the Accountant's branch of the Department. You have there the copy that went to the Audit Department. I have here the copies that went to the Woods and Forests' branch and to the Accountant's branch, and if you will examine the two you will find that they are exact copies of the one that went to the audit office, and that the same vouchers are attached to them. Both copies are sworn to before Mr. Crozier upon 1st October, 1898, whereas the third copy, which is before the Committee, appears to be sworn to in 1894.

By Mr. MACNISH.—Q. And the rest are 1898?

A. Yes. That is the explanation. I just wanted to establish that that account was correct and true.

By the CHAIRMAN.—Q. I did not know you had the accounts in triplicate. I noticed upon further examination of the accounts before the Committee that the date "1894" was clearly an error?

A. You will see that the accounts I now produce are exact copies of the other, and that they are sworn to before Mr. Crozier on 10th October, 1898. That purports to be sworn to on 10th October, 1894.

By Mr. MATHESON.—Q. Have you Macdonald's diary?

A. Yes, sir. His instructions are to keep a diary.

Q. You have an account of D. F. Macdonald's there?

A. Yes, sir.

Q. What date is that for?

A. This is for his services on the Georgian Bay between 3rd August and the 22nd November.

Q. What year?

A. In the year 1897.

Q. How does that come to be paid in 1898?

A. It was a balance only paid in 1898. You will recollect that we had an early Session; that would probably account for it. Sometimes these accounts come and they don't pass the audit office until after the end of the year, although they are in before, or perhaps the appropriation was exhausted, or something of that kind. You will find a number of cases where balances are paid in the next year.

Q. This is the diary that you have handed me?

A. Yes, sir.

Q. Does any clerk check it over with his accountant ?

A. I suppose it would be looked through at the time, just to see that it contained the record of where he was.

Q. Does that diary not appear to be written subsequently ?

A. Well, I suppose that this would not be the book that he kept in the field.

Q. It looks as if it had been written at the same time—the whole diary ?

A. Yes.

Q. I think that is the explanation ?

A. That would be so, because he would carry a pocket diary in his pocket, and make his entries in that from day to day, and then transcribe it to this.

Q. Read the entries in the diary, the first ten days ? It commences on what date ?

A. On Friday, 26th, it commences.

Q. Of what month ?

A. November.

Q. In what year ?

A. In 1897.

Q. Read it over so that we may get an idea of the contents.

Witness read the entries of the diary for the first ten days.

Q. Now read the last five or six days, please ?

Witness read the entries in the diary from September 2nd until September 10th.

Q. Will you read the first item in the account that covers the time in the diary ?

A. "From the 25th November, 1897, to 6th June, 1898, inclusive, 164 days at \$5

Q. \$820 ?

A. Yes.

Q. There is an item of disbursements ?

A. Disbursements \$48.91. Account for work in Baxter, \$385, disbursements in connection therewith, \$82.73.

Q. He appears to get \$5 for Sundays, does he not ?

A. No, he does not.

Q. Does he not ?

A. No.

Q. 25th November to 6th June ?

A. I have not checked it, but I will undertake to say he does not, because no wood-ranger gets paid for Sundays except there are special reasons for it.

Q. I see on closer examination that he is not paid Sundays ?

A. No.

Q. What report is he preparing there ?

A. It is a very elaborate report and requires a great deal of care in preparation, because it is in connection with that arbitration case that is going on between the Government and the Kanes in connection with timber, and it was made for the lawyer who is looking after the matter.

Q. That is before Mr. McBrady ?

A. It is very elaborate and in detail.

C. C. JAMES, Deputy Minister of Agriculture. was called, sworn and examined.

By Mr. MATHESON.—Q. Mr. James, you are the Deputy Minister of Agriculture, are you not ?

A. Yes, sir.

Q. Would you look at the item on page 461 of the Public Accounts. "C. N. Smith, printing pamphlet, *re* Algoma, \$400" ?

A. Yes, sir.

Q. Do you know anything about that item ?

A. I know nothing at all.

Q. Who would know about it ?

A. Well, I cannot tell you that, sir.

Q. Do you know what Department authorized this payment ? Did yours authorize these payments ?

A. Just this pamphlet prepared for us ; the tenth item "W. B. Varley, revising and editing pamphlet, 'Ontario the Premier Province,' \$50." That was under our Department.

Q. Is that the only one you have anything to do with ?

A. That and Mr. Anderson.

Q. The pamphlet you have produced here (New Ontario) is not the one that was referred to, as far as you know, under the item 'C. N. Smith,' is it ?

A. No, sir.

Q. And you know nothing about the item C. N. Smith ?

A. Nothing at all.

Q. Have you any idea who could tell us about it ?

A. No.

Q. Who is Mr. Anderson ?

A. He is a farmer of Simcoe County. His Post Office is Rugby.

Q. Duncan Anderson ?

A. Duncan Anderson of Rugby.

Q. Was he travelling in the Wabigoon district ?

A. We sent him off to investigate all the agricultural districts in the north. He went through the Rainy River district, visited several sections between Port Arthur and Rat Portage in the vicinity of the Sault and in the Lake Temiscamingue Country.

Q. Last year?

A. Last year.

Q. In the months of May and June?

A. I think it was from May to September. May, June and July were the months in which he was inspecting.

Q. There are two vouchers there. The one you have in your hand is the voucher for his services?

A. The next sheet contains the statement of his services.

Q. I suppose this is correct? "May 16 to August 14, 1898, inclusive, 11 $\frac{2}{3}$  weeks at 6 days each, 70 days at \$5 per day, \$350?"

A. That is for his services—that includes the inspection and preparation of the report

Q. And in addition to that he gets \$118.75 for travelling expenses?

A. Yes, sir.

Q. Is there a printed report?

A. You have it in your hands now.

Q. This book?

A. That is Mr. Anderson's report.

Q. It is a book of some 24 pages is it not?

A. It is.

Q. Is this the result of his work?

A. This is the report he has given of his investigation of the north.

Q. And that cost for the getting up \$468.75 between what he received and his expenses. Did he furnish you with any further written report than this?

A. Not that I am aware of.

Q. Did you advise his being sent out? Had you anything to do with his being sent out otherwise than acting upon instructions?

A. I simply carried out instructions.

Q. Is Mr. Anderson a graduate of the Agricultural College do you know?

A. No, sir.

Q. Is he a farmer?

A. He is a farmer.

Q. Is he a surveyor?

A. He is not a surveyor that I know of.

Q. Has he been in the habit of going to the woods?

A. I cannot say as to that.

The Committee then adjourned.

## PUBLIC ACCOUNTS COMMITTEE ROOM,

March 22, 1899.

The Committee met at 11 a. m., Mr. W. A. Charlton, the Chairman occupying the chair.

AUBREY WHITE, recalled and examined.

By Mr. MATHESON.—Q. I am desirous of having the entries which you read the other day from D. F. Macdonald's diary appear in the records. Will you please read the entries for the first 10 days and the entries for the last 6 days?

A. The entries for the first 10 days are as follows:—

“Thursday, November 25th, 1897, cloudy, cold and raw winds. Thanksgiving Day. I was busy all day getting ready for the woods to start ranging per Departmental order from Crown Timber Agent of Parry Sound.”

“Friday, 26th. Raining and storming all day. Fitting out for the winter's work.”

“Saturday, 27th. Stormy and dirty blustering weather.”

“Sunday, 28th. Snowing all forenoon.”

“Monday, 29th. Cloudy and cold. I went out on the train to Kearney on wood-ranging duty.”

“Tuesday, 30th. Cold and frosty. I went on to Ravensworth, township of Bethune, to Messrs. McPherson and Laidlaw's operation. They have no camp. They operate direct from the mill boarding house.”

“December 1st, snowing and storming all day. The men came in from their work; too rough to be out.”

“December 2nd, milder and fine weather. Good sleighing. I returned home to Parry Sound on the evening train in obedience to a telegraph despatch from woodranger John Regan.”

“Friday, December 3rd, 1898. Picked up my dunnage and got ready to join woodranger John Regan.”

“Saturday, 4th, raining and hail with sleet. I left Parry Sound for Huntsville on duty.”

The entries for the last 6 days are as follows:—

“Monday, 5th (September). Making up my report.”

“Tuesday, 6th. Making out my report.”

“Wednesday, 7th. Making out my report.”

“Thursday, 8th. At my report.”

“Friday, 9th. At my report.”

“Saturday, 10th. Finished my report on Baxter and the islands in triplicate, and quit work on Saturday night like “my grandfather's clock.”

Witness:—I think I explained the other day that, with reference to the last period, Mr. McDonald was engaged in making up an elaborate report for a legal case.

Q. I think you said, Mr. White, that Frank Halliday is D. F. McDonald's successor?

A. Yes, sir.

Q. Is he the Crown Timber Agent in the Parry Sound district?

A. Yes, sir.

Q. What territory does he cover?

A. He covers the districts of Muskoka and Parry Sound and part of North Ontario.

Q. That is further north ?

A. The north part of north Ontario. He also has part of the county of Simcoe—the township of Matchedash, in the county of Simcoe.

Q. Has he applied for leave at any time within 15 months ?

A. Not at any time that I recollect.

Q. Is there any understanding about holidays with officers that are paid yearly like Mr. Halliday ?

A. Well, I suppose there is not special arrangement. If he required holidays I suppose he would ask for them.

Q. What is the nature of his duties ?

A. He has the supervision of the forest ranging in that territory—that is, he instructs the rangers who are under him as to their duties, and receives reports from them, and then takes a part of the ranging work himself. He divides his district into certain divisions, apportioning each man his work and then takes part of the work himself, and at the end of the season he is the man who is charged with getting all the sworn returns from the lumbermen and forwarding them to the Department. He is the medium of communication between the lumbermen and the Department.

Q. Does he look after the fire rangers ?

A. No.

Q. He has nothing to do with them ?

A. He has nothing to do with the fire ranging.

Q. He has none but the forest timber agents to look after ?

A. Only the forest rangers and cullers.

Q. Has he anything to do with looking after settlers ?

A. Oh, no, there is a Crown Lands Agent there.

Q. Halliday is the chief timber agent ?

A. The chief timber agent—what we call Crown timber agent.

Q. I suppose he gets paid by cheque ?

A. He gets a cheque each month for his monthly salary.

By Mr. CARNEGIE.—Q. I understood you to say that Mr. Halliday did not keep a diary ?

A. No.

Q. But Mr. Macdonald kept one ?

A. Yes.

Q. Why should Mr. Macdonald keep a diary and Mr. Halliday not ?

A. Mr. Halliday is a permanent official, he is paid by the year, but the other man is only paid by the day, by the number of days he is employed, and he is expected to keep a diary to show what he was doing on each day.

By Mr. MATHESON.—Q. How are the fire rangers paid ?

A. One-half of their wages is paid by the lumbermen on whose limits they are employed and the other half by the Crown Lands Department.

Q. Who appoints them ?

A. They are selected by the lumbermen and their names are submitted to the Department for approval and appointment.

Q. Are the cheques paid out to the individual himself or to the lumbermen ?

A. In some cases they are made out to the lumbermen, but as a rule to the individual rangers. You will understand that these men are moving about. They do not always remain in the same employ, and sometimes they go away before the accounts are paid here, and when they want to go the lumbermen pay them in full, so as to let them move.

Q. Are the lumbermen supposed to pay as much as the Crown pays ?

A. They pay half of whatever sum the man receives. If the man gets \$2 per day they pay \$1. If they engage a man for \$1.50 they are to pay 75 cents.

Q. Have you had any complaints from the fire rangers that the lumbermen did not pay them the full amount—that is an amount equal to what the Crown Lands Department paid ?

A. I have in one or two cases, as I said at the previous meeting of the Committee, received complaints. I investigated them and in one case I found that it was so and we made the lumberman pay up the difference—that is, we made him pay it over to the Department.

Q. How are the cullers paid ?

A. They are paid by the people who employ them.

Q. Who appoints them ?

A. They have to pass an examination before a board of cullers and then they are given certificates signed by the Commissioner of Crown Lands. That clothes them with authority to cull and then the lumbermen who require their services engage them and pay them.

Q. The lumbermen pay them ?

A. The lumbermen pay them.

Q. These are the men who measure lumber for the Crown dues ?

A. Yes.

Q. Does the Government exercise any other check over the quantity of lumber other than the affidavit of these men ?

A. There is the affidavit, as I explained the other day, of the foreman as to the number of pieces cut in his shanty, the affidavit of the culler showing the diameter and length of each log, and then there is the affidavit of the manager of the company showing the quantity that was got out in each man's shanty. These affidavits are sent into the Department with the returns. In addition to that we have such supervision as our rangers can give by going to the shanties and measuring a certain proportion of the logs and comparing an average of that proportion with the average of the culler's measurements up to the date of the visit.

Q. You say "our rangers." Do you mean the Crown timber agents ?

A. Yes, the Crown timber rangers. Some of the agents are also rangers.

Q. They are also rangers ?

A. Yes, certainly.

Q. Is it expected that they should always measure a certain quantity of the lumber at each camp?

A. The expectation is that they will measure a certain proportion in every operation. Sometimes they are not able to do it because they have not sufficient staff to reach all the camps, but there are cases in which the owner of a limit has a contract and in those cases the contractor generally has a culler of his own to check the lumberman's culler. In those cases we have a double check. We have the check of the contractor and we have our own check such as it is.

By Mr. REID.—Q. Who are the men that constitute the board of examiners?

A. They are selected by the Commissioner of Crown Lands as occasion arises for the appointment of a board. The course pursued is to select one experienced lumberman as a member of the commission and then two officers of the Crown Lands Department. Mr. McWilliams has usually been selected as being the supervising ranger of the Province. Associated with him is some other Crown timber ranger or agent.

Q. What is the nature of the examination?

A. There is a theoretical examination, and a practical examination as well. They are given certain papers with questions upon them and they have to answer these questions in writing within a certain time, and in addition to that they are taken to a lot of logs and asked to measure those logs, and then the logs are sawn up in a sawmill, and the accuracy of the measurement is tested in that way.

By Mr. MATHESON.—Q. When are these commissions appointed?

A. They are appointed from time to time.

Q. Are they cullers?

A. No, they are not cullers. They are appointed by the Commissioner of Crown Lands. As I said just now, the usual practice is to select Mr. McWilliams who is supervising ranger of the Province as one member of the board, and some other Crown timber agent or ranger and then an experienced lumberman. These three constitute the board.

Q. The examination is mainly, as I understand it, to test their ability to measure a certain quantity of logs, and the commission is appointed having regard to that one point?

A. They are examined, also, as to their theoretical knowledge of measurements—how they ought to be made and that sort of thing. In addition to that they have to give satisfactory evidence that they are British subjects, and that they are men of good character.

By Mr. REID.—Q. Do you find cases where cullers remain in the employment of the lumbermen for a long period of time?

A. These men are employed from year to year by different lumbermen. It is not often you will find the same culler in the employ of the same lumberman for any length of time.

Q. I know that men have worked for lumbermen for years.

A. That might be in particular cases, but the rule is to the contrary. The exception is for them to stay a long time.

By Mr. MATHESON.—Q. What is the present rule of measurement?

A. The Doyle.

Q. What was the former rule?

A. The Scribner rule.

Q. Take a thousand feet of lumber. What would be the difference in the return between the Doyle rule and the Scribner rule? Would the Doyle rule make it less?

A. It depends upon the size of the logs. Below a certain average the Doyle rule does not give as much as the Scribner does. Above a certain average the Doyle gives more than the Scribner.

Q. What is the average?

A. I think from about 20 inches, or perhaps 18 inches, down, the Scribner would be more favorable to the Crown Lands Department than the Doyle. From 28 inches up the Doyle would be more favorable to the Department than the Scribner. I do not want to speak positively, but I think that would be about right.

Q. When was the rule changed?

A. It was changed, I think, somewhere about 1876 or 1877, when the Honorable Mr. Pardee was Commissioner of Crown Lands. It was before I came into the Department, and I think it was in 1877.

Q. At the time of the change or previous to the time of the change the size of the lumber taken out was very much larger than it is at present, was it not?

A. Yes.

Q. So that the change was more favorable to the lumbermen?

A. In the sense that they do not have to pay duty on so much as they did under the Scribner rule. But I was going to say that in addition to that the timber taken out now is very much more faulty than the timber taken out at that period. The lumbermen cut very much closer than they did then and the consequence is that the average is reduced.

Q. On a 20 inch log, what difference would there be between the Doyle rule and the Scribner rule? How much smaller would the Doyle be?

A. I cannot carry that in my head. If I had the ready reckoners here I could answer the question in a moment.

BY MR. LOUGHRIN.—Q. About 9 per cent is it not?

A. You can calculate the Doyle rule but you cannot calculate the Scribner rule.

BY MR. MATHESON.—Q. I suppose on a 15 inch log you would be likely to have more difference than on a 20 inch.

A. Yes. As you go down the difference increases.

Q. Is it as much as one-third less on a 15 inch log?

A. Oh, no; I don't think so.

Q. It seems to me that Mr. Beatty, of Leeds, has figured out something like that?

A. Of course, with all due deference to Mr. Beatty's figuring, it was largely theoretical.

BY HON. MR. HARCOURT.—Q. You remember all this being discussed years ago? It was a question as to the Scribner or the other?

A. The change was made before I came into the Department.

Q. Mr. Caldwell will recollect the matter being discussed.

A. I might say we are continually having presented to us this state of affairs: that the logs do not saw out the actual quantity that was returned for them. People making that complaint come to us and say: "We are prepared to show you our books and account for every log that came in and every foot of lumber that was cut and we do not get as much out of it as would appear from the returns."

By HON. MR. HARCOURT.—Q. They say the difference is more like one-tenth than one-third?

A. It varies; there is a difference in each diameter. Of course if I had known that you were going to examine me upon the question I would have brought the two books and shown the difference between the two rules.

FRANK HALLIDAY, called, sworn and examined:—

By MR. MATHESON.—Q. You are Mr. Frank Halliday, I believe?

A. Yes, sir.

Q. I believe you are the Crown Timber Agent for the districts of Parry Sound and Muskoka?

A. Yes, sir.

Q. When were you appointed?

A. Some three years ago last January.

Q. That would be in January, 1896?

A. It is three years ago last January.

Q. How long have you been in the employ of the Government?

A. Some 18 years or better.

Q. That is since 1881, I suppose?

A. About that date.

Q. What was your first employment?

A. In the Department?

Q. For the Government?

A. I was assistant ranger to S. M. Johnson in the Ottawa district.

Q. What was your next position?

A. I was then sent to the Mississippi district.

Q. What time was that?

A. Some two years, I think, after my appointment.

Q. Give the year?

A. I could not give the dates just now.

Q. I do not want to tie you down to the year exactly.

A. I do not remember just now. If I had thought that I would have been questioned on this I could have given you day and date.

Q. It would be about 1883, would it not?

A. Yes, about that time,

Q. How long were you there?

A. I was there until I removed to the Parry Sound district.

Q. That is up to three years ago ?

A. Up to three years ago.

Q. What was your employment there ?

A. Forest ranging.

Q. Were you paid a fixed salary when you were appointed timber agent for the Parry Sound district ?

A. I have been paid an annual salary since three years ago last January and have devoted my whole time and attention to the work of the Department.

Q. Were you paid an annual salary before that ?

A. Not before that.

Q. I believe you ran for the Legislature several times ?

A. I did one time.

Q. You ran against Mr. Reid, of Addington ?

A. Mr. Reid, of Addington, yes.

Q. In 1890 you ran against Mr. Reid.

A, Yes.

Q. Had you been Crown timber agent previous to that ?

A. I had not been Crown timber agent. I was forest ranger previous to that.

Q. Up to within a few days of the election ?

A. Up to within about a month of the election.

Q. And when were you appointed after ?

A. The following season.

Q. Appointed in the fall, I suppose ?

A. Yes. The forest rangers are appointed annually from year to year.

Q. Did you contest Addington against Mr. Reid in 1894 ?

A. Yes.

Q. Were you a bush ranger up to within a short time before that ?

A. Yes.

Q. You were re-appointed immediately afterwards ?

A. Re-appointed the following season.

Q. Were you in the County of Addington during the election of 1898 ?

A. Was I in the county ?

Q. Yes, the County of Addington.

A. During the election of 1898 ?

Q. Yes, or at any time previous to it.

A. No, sir ; I was not.

- Q. Were you in the County of North Hastings ?  
A. No, sir ; I was not. I have not been in the County of North Hastings for over ten years.
- Q. Were you in the County of Addington in the last ten years ?  
A. I have been in Addington.
- Q. Were you there at the time of the last Dominion election in 1896 ?  
A. I voted at the Dominion election in 1896.
- Q. Do you own property there ?  
A. I own property there.
- Q. Did you as a matter of fact get some forty names struck off the roll in the rear of the county in 1896 ?  
A. No, sir ; I did not.
- Q. Are you aware of some forty names being struck off ?  
A. I do not know where there were forty.
- Q. Had you heard of it ?  
A. I heard there were some names struck off, how many I could not say.
- Q. Had you anything to do with their being struck off ?  
A. Nothing whatever.
- Q. Did you take any part in the Parry Sound election ?  
A. No part whatever but vote.
- Q. Did you take any part in the Muskoka election ?  
A. No part whatever.
- Q. You have heard Mr. White's evidence about your duties ?  
A. Yes.
- Q. That is what you understand by them ?  
A. That is what I understand by them.
- Q. It is your duty to look after the bush rangers and the cullers ?  
A. The wood rangers that are under my charge and the cullers that are scaling the timber cut in my division.
- Q. Are you in the habit of checking the cut of the cullers ?  
A. Yes, we check it.
- Q. That is, you make a check on each lumberman ?  
A. I make a check on each lumber operation.
- Q. Do you measure part of the lumber in each case as far as you can ?  
A. Yes.

Q. Would it be possible for a lumberman under your jurisdiction to cut a large amount of lumber without making proper returns?

A. It might be possible if the manager, foreman, clerk and culler would perjure themselves. It might be possible to give a false return as to a slight discrepancy in pieces. It would be impossible to give a false return in regard to measurement.

Q. You are supposed to be a careful man looking after your duties—I am not speaking of other men—would it be possible for any lumberman over whom you have oversight to take out ten million or fifteen million feet without your knowing about it?

A. Well I consider I would know about it—I consider I would know it.

Q. I should think you ought to if you were looking after your business.

A. Yes.

Q. You think it would have been impossible that such a transaction as that of the Moore Lumber Company could have occurred under your jurisdiction? You know about that case.

A. I have heard of it; yes.

Q. You think under your management it would be impossible to repeat that?

A. Well, Col. Matheson, where there are a very large quantity of logs cut there could be a discrepancy in the number of pieces. It would be a pretty difficult matter to keep an accurate record where all the men in the employ of the firm would perjure themselves, as I have already stated, for the logs are dumped into lakes and dumped into rivers and thrown over bluffs and piled up into large piles. Then it is a very difficult matter sometimes to get an accurate count of the logs delivered on the ice for the rangers are not there at all times and the logs are being dumped during the whole season.

Q. Do you say, Mr. Halliday, that under the management at present it would not be possible for that irregularity to be repeated?

A. No.

Q. You don't say that?

A. I say it is not repeated.

Q. It is not possible to repeat it under your careful supervision?

A. Yes.

Q. So there must have been gross carelessness under D. F. Macdonald?

A. I cannot say; I do not know.

Q. You think if you had been there it would not have happened?

A. Circumstances alter cases. I do not know the circumstances; I am not prepared to answer that.

Q. Did you vote in Muskoka?

A. I did not.

Q. Were you in Muskoka during the time of the election?

A. I was in Muskoka.

Q. In the month of February, 1898?

A. In the month of February in connection with my ranging duties.

Q. What part of Muskoka were you in ?

A. I was in the townships of Freeman and Conger—at least I think those townships are in the district of Muskoka. I am not altogether positive as to the dividing line between the two districts.

Q. What were you doing during January and February ?

A. Attending to my ranging duties and the other business of the Department.

Q. It is a curious thing, Mr. Halliday, that in your account for disbursements here there quite a considerable number of items for November and December. There is one thing on the 1st January for log rules and stamps ?

A. Yes.

Q. Log rules, \$3.75, and stamps, \$1 ; but, except that, between the 30th December and 1st March, you charge no items for disbursements ?

A. Simply because I was in the woods, and you will understand, Col. Matheson, that I find my own team and feed my own team, and I am in the woods during these months. At the periods where you see no disbursements I am in the woods and I charge nothing. I do not charge my hotel bill or anything of that kind.

By Mr. LOUGHRIN.—Q. You live on the lumbermen ?

A. Well, I don't know that. I pay the lumbermen for my keep. As a rule you will find some lumbermen who do not charge and you find lumbermen that do.

By Mr. MATHESON.—Q. It is a curious thing that all during the year there are items charged for railway fare and telegraphing, but for January and February and up to 16th March there is only one item, \$4.75 ?

A. I gave that to the Department as my legitimate expenses.

Q. I suppose you stay with the lumbermen for a month at a time ?

A. I do not, sir.

Q. How long ?

A. I stay with the lumbermen while my duties require it.

Q. How long ?

A. Sometimes a day ; sometimes two or three days ; perhaps not more than three days.

Q. They never charge you ?

A. Sometimes they do, and sometimes they don't. In every case I offer to pay, and if a man does not take it, we cannot compel him to.

Q. You think it is right for you to accept hospitality from them ?

A. I consider that if they won't accept pay I can't compel them.

Q. Have you a brother in the employment of the Department ?

A. There is a brother in the employ of the Department.

Q. What is his name ?

A. James.

Q. What is his occupation ?

A. He is ranging in the Ottawa district.

Q. What territory does he cover ?

A. I cannot tell you. He is under S. M. Johnston, Renfrew.

Q. Do you know whether that extends to North Hastings ?

A. I cannot say.

Q. Do you know if he covers Addington ?

A. He covers a portion of Addington.

Q. Do you know whether he was in the election last year ?

A. I do not.

Q. Will you swear you do not know ?

A. I will swear positively I don't know.

Q. Were you in the hall when these votes were struck off Palmerston and Addington ?

A. What revision do you mean ?

Q. Before the election of 1896 for the Dominion ?

A. Which election do you say ?

Q. Or before 1891, it was ?

A. In the revision in connection—

Q. In connection with the Dominion election of 1891 ?

A. I was at a revision where there was some struck off.

By Mr. LOUGHRIN.—Q. Ten years ago ?

A. Yes ; nine or ten years ago ?

By Mr. MATHESON.—Q. Had you any votes put on ?

A. I had not votes put on ?

Q. Was not Mr. White brought down from Toronto to show they were not qualified ?

A. I do not know.

Q. Was not some official brought down ?

A. There was an official brought down.

Q. Do you swear you had nothing to do with putting these men on ?

A. I swear I had nothing to do with putting these men on.

Q. Then you are pretty much maligned ?

A. Probably I am. You know the devil is not as black as he is painted.

By the CHAIRMAN.—Q. You stated that a fraud like that of the Moore Lumber Company could happen if the three men engaged in the measurement of logs perjured themselves ?

A. If the four men all perjure themselves—that is the manager, the foreman, the clerk and the culler.

Q. Under your management it would not happen only under those circumstances ?

A. Only under those circumstances.

By Mr. LOUGHRIN.—Q. Do you think it would be impossible for a steal of that extent to take place where the concern takes out 36 or 40 million feet of lumber a year ?

A. It could be done provided all the officials of that company would perjure themselves and it would be a very difficult matter for a ranger to go and accurately give account of that number of pieces. As I have already described, these logs are dumped into lakes, rivers and creeks and piled up in such a way as to prevent giving an accurate count.

By Mr. MATHESON.—Q. You think under your management fraud could not happen to such an extent ?

A. I consider that I give all the operations a very close supervision and I do not think that that quantity of lumber would escape my notice.

By Mr. REID.—Q. There are generally two cullers go together ?

A. In some cases two scalers and in some cases one.

Q. Do you not think it would be better for the Government to employ one and the lumbermen the other and have them go together ?

A. I do not think so. Under the present system the Government and the Crown Lands Department have full control of the scalers of the Province and where a scaler is found not doing his duty he is at once suspended.

Q. And his license cancelled ?

A. And his license cancelled.

By Mr. EILBER.—Q. I understand it would be necessary in order to have false returns that the four men should perjure themselves ?

A. Yes ; four men would have to perjure themselves.

Q. Is it not a fact that the culler is the only man that actually measures the logs ?

A. The culler is the only man who actually measures the logs.

Q. And he makes a return to—— ?

A. He makes an independent return of his own.

Q. Who to ?

A. To myself or some of the rangers.

Q. How do you make out that the other three men in the shanty would have to perjure themselves when they do not see any of the logs ?

A. In the first place, the forman of a camp has to make an affidavit—a sworn affidavit—as to the quantity and the number of pieces he has cut. The clerk who keeps the record makes an affidavit as to the accuracy of that record.

Q. And how does he ascertain that accuracy ?

A. It is obtained by count from the men every night—from the cutters, skidders and haulers. We have three men cutting, skidding and hauling and we have the scaler's account to check.

Q. Is what they usually call the banking system practised ?

A. In some cases it is, and in some cases it is not.

Q. Explain what the banking system is ?

A. It is where the cutters are chopping. They calculate to return so many logs as cut during the day. They may get a wet day when perhaps they cannot work all day, and they will have a bank, and draw from that bank in order to give in the day cut on the evening of the wet day when they are not working.

Q. Are the townships of Wilson and McConkey in your district ?

A. Yes.

Q. Who is the forest ranger there ?

A. Myself and Mr. Wm. McGowan.

Q. He comes from the Ottawa district ?

A. No ; he comes from the Parry Sound district.

Q. Have there been very many complaints from that vicinity as to settlers not being able to get pine culls for making shingles for their houses ?

A. Very few ; allow me to explain. In the townships of Barrie and Wilson which are held under license by Turner & Fisher there is a very small and limited settlement ; in fact, there is very nearly a dense pine forest and the country is practically unfit for cultivation.

Q. You know there are four townships there ? The other three townships are pretty well settled ?

A. Yes. There are some townships to the north pretty well settled.

Q. Is it not a fact that a large number of these settlers at the county corners have represented that they have gone up there and tried to get some bolt timber and been stopped from taking it ?

A. That is a mistake.

Q. It has not come to your knowledge ?

A. If it has been done it has been done to a very limited extent.

By Mr. MATHESON.—Q. The check upon fraud then, really depends on one man—the man who measures the timber ?

A. No.

Q. The other man simply swears to his return ?

A. No. The foreman swears to the returns—to the day returns and the number of pieces cut in that operation.

By Mr. REID.—Q. The amount of timber in these pieces only one man knows ?

A. That is it, the amount of timber.

By Mr. MATHESON.—Q. So there might be a good deal of fraud through that one man ?

A. No fraud, as I say, as far as measurements are concerned, for we check his measurements and ascertain that his measurements are accurate.

Q. What quantity of timber is there in your district of Parry Sound and Muskoka and the north part of Ontario ? What quantity of pine timber is there, do you estimate, in those districts not under license ?

A. It is all under license except what is held by deed.

Q. Have you been in the Ottawa district ?

A. Yes.

Q. What part of the Ottawa district do you know ?

A. I have been all over the Ottawa district—from the headwaters of Temiscamingue to the mouth.

Q. Is there any large quantity of pine timber in the Ottawa district not under license ?

A. Yes. A large acreage of Crown timber land.

Q. Where is it ?

A. West of Lake Temiscamingue and north of Lake Temiscamingue.

Q. The south of Lake Temiscamingue is pretty well under license is it not ?

A. South of Lake Temiscamingue is the Ottawa River and it is under license five miles back from the river, and in one or two instances ten miles back from the river, and then to the west of that it is an area of unsurveyed unlicensed Crown land.

Q. Is that south of the C.P.R. ?

A. North of the C.P.R.

Q. South of the C.P.R. is pretty well under license, is it not, as a rule ?

A. I am not in a position to say as to that, Col. Matheson, when you get west of Markstay and that section of country.

Q. Where is Markstay ?

A. West of North Bay and west of Sudbury.

By Mr. LOUGHRIN.—Q. Not west of Sudbury.

A. East of Sudbury.

By Mr. MATHESON —Q. As far as you know the country it is pretty well under license south of the C.P.R. ?

A. South of the C.P.R.

Q. That is east of Markstay. As far as you know, the only tract not under license of crown timber is west and north of Lake Temiscamingue ?

A. Yes.

Q. Is it between that and Temogamingue ?

A. North and west of Temogamingue.

Q. How far west of Temiscamingue ?

A. I cannot tell you exactly. It must be 40 or 50 miles.

Q. Have you been in the country west of Temogamingue ?

A. Not west of Temogamingue. I have been through a very considerable portion of the country between Temogamingue and Temiscamingue.

Q. How many square miles do you think there are in the district west of Ottawa under license ?

A. I have not been in that country a sufficient length of time to answer the question.

Q. Is the timber mixed with hardwood through that country ?

A. It is slightly mixed with hardwood in sections.

Q. Do you know any other part of the Province where there is pine timber ?

A. Do I know which ?

Q. Do you know any part towards Lake Superior in which there is pine timber ?

A. No ; I am not familiar with that country, but from my knowledge of the Temiscamingue and Temogamingue districts there is a vast area of green pine there.

Q. Have you been north of the height of land ?

A. I have not.

By Mr. REID.—Q. What is your opinion of the second growth of pine ? I hear a good deal of talk about it in our district. Do you think it will ever amount to much ?

A. I do. I consider that the second growth of timber that is now growing upon portions of our Crown timber lands that have been cut over and burned over, if we can protect those portions of this Province from destruction by fire, in 50 years or less there will be a second growth of timber.

By Mr. MATHESON.—Q. What kind ?

A. White pine.

By Hon. Mr. HARCOURT.—Q. Merchantable.

A. Of a marketable and merchantable diameter.

By Mr. REID.—Q. In 50 years ?

A. Or less.

Q. I understand the reforestry commission says 80 years.

A. For we find that in many sections of the Province a young pine is now fairly well advanced.

By Mr. MATHESON.—Q. Does pine follow pine where the land has been burned over ?

A. That is my experience.

Q. Other lumbermen think otherwise ?

A. Lumbermen may think, but I am speaking from personal experience.

Q. But do you know ?

A. I have heard the lumbermen express those opinions, but I am speaking from personal experience.

Q. Where do you know such a tract ?

A. On the Madawaska a tributary of the Ottawa, on the Bonnechere, on the Petewawa, and many sections of the Georgian Bay.

Q. Has that country been burned over ?

A. Burned over and it is now covered with a dense growth of green pine.

Q. Is it the true pine ?

A. The true pine.

Q. Not the jackpine ?

A. No: not the jackpine. You find the jackpine or pitchpine in sections of the Georgian Bay.

By Mr. REID.—Q. Take the Addington road, the Snow road, do you think the second growth of pine there will ever amount to anything?

A. Yes sir, I do.

Q. I cannot see anything of it.

A. Well, Mr. Reid, if you will go down to the township of McNab in the county of Renfrew that was settled some 60 or 70 years ago—

Q. But this is in Addington.

A. Allow me; I will come to that later. You will find that the forests in that country were cut away forty years ago and wherever the young pine was left they are to-day cutting sawlogs—the settlers are cutting a second growth of pine. I can take you up into the townships of Hardy and Patterson and Mills where we have large areas of young pine. It is evident the whole country has been devastated by fire and yet to-day it is covered with a dense growth of young pine from seventy to eighty feet high and from 6 to 15 inches on the stump. In the township of Clarendon, in portions of the township of Barrie, the south half of the township of Abinger, a portion of the township of Denbigh and all that whole country there to the Madawaska, it is all covered with a lesser growth of young pine.

Q. Jackpine?

A. White and red pine.

By Mr. MATHESON.—Q. I am glad to hear you say so. The settlers say exactly the reverse?

A. There is no jackpine grows in that country. I have never seen a tree of it.

Q. The settlers say there is not a stick of true pine there.

A. The settlers don't know the surroundings.

Q. You know better than the men who live there?

A. I have been there, lived there for many years and I can assure you there is not a tree of jackpine growing in that country.

Q. You think it is all true pine? It will all make good red or white pine.

A. If not destroyed by fire.

Q. Is it white or red pine?

A. White pine and red pine, chiefly red pine.

Q. I have questioned a number from up there and they say exactly the opposite.

A. I took close personal supervision of that section of country. I will give you an instance. Mr. Caldwell, you know McNicholl, who has a small sawmill on the Clyde river in your district. I was at his mill one day years ago and he was then cutting a second growth of pine in his fields and round the borders of his clearing. There were two twelve feet logs and the butt of the log was fourteen inches and the top was ten inches. I asked him if he could inform me how long it took the tree to grow and he said "I have lived here since that tree grew and that tree has grown in thirty years."

Q. How thick was it?

A. The butt of the log was fourteen inches and it was ten inches at the top.

By Mr. REID.—Q. Take the county of Addington. How many trees per acre of the young pine you spoke of would it average?

A. That would be a difficult question to answer. There are sections where the timber grows very thickly and other sections where it grows more sparsely. That section of country has been twice devastated by fire or at least portions of it, and where a country has been devastated a second time by fire then the next growth of pine timber is more sparse.

By Mr. EILBER.—Q. You are a strong believer in the reforestation of this country?

A. Well, in sections.

Q. Take the section from McKellar clean up to Holland Harbor, do you not think there is a section of the country the Government should reforest?

A. I do not know. There is perhaps too much settlement in that country for reforestation.

Q. Going further north, what do you think of the Pickering Hills?

A. The Pickering hills will reforest themselves naturally.

Q. Do you not think it would be a great deal better if the Government were to carry out reforestation there?

A. I think not. I do not think there is any necessity for incurring any expense for reforestation in sections such as the Pickering hills for they will reforest naturally.

By Mr. CALDWELL —Q. About the chances of defrauding the Government in the respect to the logs that are cut. There is oversight of the limits?

A. Of every lumberman.

Q. There is oversight over the log cutters, over the skidders, and as they draw these logs?

A. Yes.

Q. Every night the entry of what the log cutters have done is put down in the book?

A. It is put down in the book.

Q. Of the skidders as well?

A. Of the skidders as well.

Q. The amount totalled up as soon as the hauling season is at an end?

A. Yes.

Q. Unless there are three men in collusion it is impossible for any fraud to take place?

A. Yes.

Q. As to the number of pieces?

A. Yes.

Q. Your ranger takes what he considers an average for the whole of the logs and measures so many of them in each lumber operation?

A. Yes.

Q. And multiplies that by the number and he gets a pretty close estimate as to the cut?

A. A pretty close estimate.

Q. And you depend upon the affidavits to substantiate it ?

A. Yes.

By the CHAIRMAN.—Q. Did you say you had no personal knowledge of the extent of the pineries north of lake Huron and west of lake Temogamingue ?

A. No personal knowledge.

Q. Or the Rainy River District ?

A. Or the Rainy River District.

Q. Or any of these western districts.

A. Or any of the western districts.

By Mr. MATHESON.—Q. Do you know the members of the Moore Lumber Company ?

A. I am not familiar with them.

Q. Do you know Sheehan ?

A. I don't know the man.

Q. Do you know he was the book-keeper ?

A. I don't know any of the men who were connected with it.

By Mr. CLARKE.—Q. You were examining all over New Ontario which is a very extensive district ? What are the chances of settlement after the pine timber is all cut ? How much land would be available for settlement ?

A. I would say one-third.

Q. One third is good arable land ?

A. It is suitable for cultivation.

Q. That is good land which settlers could make a good living upon by farming, but there is two-thirds upon which they could not do that ?

A. Yes.

By Mr. CARNegie.—Q. Is the Algonquin Park or any part of it in your district ?

A. A small portion.

Q. The majority of the park is under license now ?

A. I understand so, for pine only.

Q. You said a few moments ago, I think, that the fire almost invariably followed the lumbermen, did you not ?

A. I did not ; you must have misunderstood me. Not in all cases, but as a rule the fire is more apt to devastate a country that has been lumbered over than a country that has not been lumbered over.

Q. You have been through the park, I suppose ?

A. I have been through the park.

Q. The pine is pretty thick in various quarters ?

A. In sections, but there is a very large area of hardwood. Speaking of forest fires, the mode of cutting the timber previous to Confederation and after Confederation has been the most fruitful source of forest fires in the Province. The lumbermen of that

date ran over all the respective timber limits, selecting the choice trees and taking only the choice portions of those trees, and by cutting roads, building skidways and slashing the woods, they left a fire bed which has been the means of destroying large areas of pine forests by fire.

By Mr. REID.—Q. Do you not think there has been a lot of timber lost in consequence of the regulations allowing lumbermen to go through and re-cut.

A. Not of late years. I am speaking of a period thirty years ago or less than thirty years ago. For the last twenty years the lumbermen have been cleaning up the country. They have been cutting and taking all the merchantable timber, all the sound timber, as well as the unsound timber in the localities operated by them.

Q. All the lumbermen do that?

A. Yes.

By Mr. EILBER.—Q. Take for instance the townships of McConkey and Wilson, there is very valuable timber there, basswood, black ash and birch?

A. There is a considerable quantity of birch, but the quantity of basswood is limited.

Q. What are the lumbermen doing there to avoid this timber being destroyed by fire?

A. The lumbermen are not operating in birch, or basswood, or oak in that country. All the lumbermen are cutting pine, and in the sections they cut over they cut clean and take all with the exception of the small timber.

By Mr. REID.—Q. Judging of the present cut, what is your opinion of the lifetime of our timber?

A. That is a pretty difficult question to answer.

Q. I just want your opinion?

A. We have certainly timber for the next fifty years to come.

Q. At the present rate of cutting?

A. Yes, at the present rate of cutting, and if we can protect the young forests of this Province from destruction by fire the whole future timber supply of this Province is solved.

Q. They tell me twenty years?

A. Well, they are mistaken.

By the CHAIRMAN.—Q. How do you fix the time at fifty years for the Province without having any knowledge?

A. I am just giving my opinion.

By Mr. EILBER.—Q. Have you ever studied the history of the Black Forest in Germany?

A. I have not, sir.

By Mr. CARNEGIE.—Q. Do you not think there is a great probability of a great portion of the Algonquin park being burned over?

A. I think not.

Q. What is to prevent it?

A. Well, there is a very efficient staff there to prevent it.

Q. The settlers surrounding the park are very much opposed to it being set apart as a park ?

A. There are very few settlers in the neighborhood of the park.

Q. Take, for instance, south of the Algonquin park, say in the township of Sherbourne and through there. There are a number of settlers who are hunters, and they were very much opposed to this being set apart as a park, because it was their hunting ground ?

A. I have no knowledge of that.

Q. Well, I say that know for a fact. Knowing it to be a fact, might there not be a feeling that would incline them in going about there to drop a match or something of that kind, and in that way would there not be great danger ?

A. I don't know that those men would be inclined to do that. I know several hunters in that section of country—I have met them in the woods—and I have found them to be honorable fellows, and I think they realize this fact that by having game in the park that game will scatter out and they will get their portion of it in the surrounding country. I do not think that the hunters are men who would do what you suggest.

Q. I had a talk with a great many of them, and they say the park will undoubtedly be burned over ?

A. Well, I do not think so. Last season was a very dry season, and there were no fires in the park. The railway company, the licensees, and the park wardens are all careful, and certainly there was no fire last season.

Q. I understood Mr. Hardy to say the other day that all along the line of the railway has been burnt ?

A. That is a mistake. There is a small portion burned at or near Whitefish Lake on the upper waters of the Madawaska, but only a very small area.

Q. Was it not burned near Caroe Lake ?

A. Not to any extent.

The witness was then discharged.

O. C. JAMES, recalled and examined by Mr. MATHESON.—Q. With regard to the payment of \$400 to C. N. Smith of the Sault *Express* for a pamphlet re Algoma, some correspondence went through your hands ?

A. Yes, Col. Matheson.

Q. You have in your hands the correspondence of the Department regarding it ?

A. There is a letter here addressed to me, dated February 3rd.

Q. From that correspondence how many pamphlets was C. N. Smith empowered to get up ? It speaks of 10,000 there in one place.

A. Well, as I stated the other day, I know nothing whatever about it.

Q. Is there a letter there with Mr. Hardy's, the Attorney-General's, authority to pay C. N. Smith \$400 on account of the pamphlet ? Will you read the letter please ?

A. The whole letter or the memorandum on it ?

Q. Read the letter.

A. It as follows :

TORONTO, February 3, 1898.

DEAR SIR,—I regret having to trouble you again about the payment of \$400 or thereabouts which the Bank of Commerce at Sault Ste Marie, expected would be coming to one C. N. Smith, publisher of the Sault Ste *Express* about this time. You will remember coming up to see me about this some two months ago, when you were kind enough to say that you would speak to the Minister of Agriculture respecting the matter.

Witness: Mr. Anderson met me in the hall the other day with a letter in regard to this matter and I told him I knew nothing about it. The letter goes on to say

The bank has advanced \$400 to C. N. Smith upon the understanding that they shall be repaid out of certain moneys which would be payable to him by the Government. There is no doubt that such an arrangement was made as the letter is initialed by the Attorney-General.

I am, dear Sir,

Yours respectfully,

(Sgd.) W. N. ANDERSON,  
Assistant Treasurer.

Q. There is a note endorsed on the letter, signed by the Attorney-General; read that please.

A. Let cheque issue and charge to miscellaneous vote re colonization pamphlets.  
A. S. HARDY.

C. C. JAMES, Esq.,  
Deputy Minister of Agriculture.

Q. Other than this transaction, you know nothing about the matter?

A. I know nothing about it.

Q. You don't know the quantity of pamphlets ordered or the price?

A. I know nothing about it whatever. Not coming under my observation or anything of that kind, I simply returned it to the Treasury Department.

Q. Have you ever seen the pamphlet?

A. I don't know what the pamphlet is.

Q. Have you ever seen any pamphlet published by C. N. Smith, so far as you know, on Algoma?

A. The only Algoma pamphlet I have seen is one published a couple of years ago entitled—

Q. It is certainly not this one.

A. Entitled "Algoma Farmers Testify." I think that was reprinted several times.

Q. This is published since then?

A. I have seen no Algoma pamphlet since this transaction came up or since I was asked about it. I do not know why the letters were directed to me, I am sure.

The Committee then adjourned.

## PUBLIC ACCOUNTS COMMITTEE ROOM,

March 24, 1899.

The Committee met at 11 a.m., the chairman occupying the chair.

F. J. SLEIGHTHOLM was called, sworn and examined.

By Mr. CARNEGIE.—Q You are the Superintendent of the Western Dairy School?

A. I am, sir.

Q. When were you appointed?

A. If I mistake not, in December, 1896.

Q. What previous experience had you in dairy matters before you became superintendent of the school?

A. I had my course at Guelph. I had three years' work in connection with that, that is, lecturing on practical work and dairying and my own private experience.

Q. You are a practical buttermaker. Are you also a practical cheesemaker?

A. Not to the same extent or in the same sense; I have made some cheese.

Q. But of course you have a general knowledge? You would be quite capable, of course, of giving practical instruction yourself in butter making if not in cheese making?

A. Yes, sir; I think so.

Q. You have with you some experts in both these lines, have you not?

A. Yes.

Q. You have one buttermaker and two cheesemakers?

A. No, sir; we are not making cheese there now.

Q. I see in last year's public accounts it says Henry Smith, instructor in butter-making, W. Waddell, cheesemaking and J. E. Crealy, assistant cheesemaker?

A. No, it is not absolutely correct. There is a misnomer in the work of Mr. J. E. Crealy. The wording should be milk testing. He is really instructor in milk testing. Otherwise it is correct.

Q. Your salary is, I see, \$1,200?

A. Yes, sir.

Q. Mr. Smith's is \$650?

A. Yes, sir.

Q. Mr. Crealy, you say his work is simply milk testing?

A. That was not all his work, but it was his chiefest instruction work.

Q. Instruction in milk testing?

A. Yes.

Q. I see you have a second assistant here, for a short time. What was his work? His name is F. A. Leak?

A. Oh, yes; he was in there this winter taking in milk and assisting generally as an assistant buttermaker.

Q. Mr. Waddell is a cheesemaker?

A. Not now.

Q. Well he was in 1898?

A. Yes.

Q. Mr. Waddell received \$228. What period was he employed for?

A. Well, now, I cannot just tell you offhand what that covers—how long that covers. I presume—

Q. Take a copy of the Public Accounts and look at it. What would Mr. Waddell's work be?

A. He was instructor in cheesemaking at this time. We had him, if I mistake not, a little over three months. I presume that is the item. We paid him during the time he was there, if I mistake not, \$70 a month—I am not very positive on that point. We did the first year. I would not be positive.

Q. Is there any fee for instruction or entrance fee or anything of that kind?

A. We have an entrance fee of \$1.

Q. Is this usually collected or is it not?

A. It is always collected, except under such rules as say that it shall not be.

Q. How are your terms arranged? For instance, supposing a student goes there who desires to take out a certificate. What time is he required to spend there in order to do so?

A. When we offered certificates, they were given, if I mistake not, not under four weeks. Well, I am not sure, either four or six weeks.

Q. It would not be longer than six weeks, however?

A. Not for certificate work.

Q. What is your term now?

A. We did not offer certificates in our regular course this year.

Q. What is the reason of that?

A. The chief reason I had in view was simply this: We offer diplomas and we don't want a student to use the student's certificate without a diploma.

Q. How long does it require to take a diploma?

A. Eight weeks is our course, but that does not cover all diploma work, you will understand. I don't wish to be understood as saying we offer diplomas for eight weeks' simple work. That is our course.

Q. Have you any shorter course? For instance, in connection with the Kingston Dairy School, I notice that some of their courses are only two weeks?

A. Yes, we allow the same privilege.

Q. How many students had you at the school, can you recollect, during 1896?

A. No; I cannot state positively, but I know it was in the immediate neighborhood of 30.

Q. About 30?

A. Yes.

Q. Of those how many graduated, do you remember ?

A. No, I cannot answer that question.

Q. Well, some graduated, did they not ?

A. Yes, I recollect they did ; but the majority we had were short course students.

Q. About two weeks ?

A. Two and four weeks and six weeks. Some stayed three or four months, but the majority did not.

Q. The majority of the 30 were short course students, were they ?

A. Yes ; I recollect they were.

Q. During what portion of the year would the majority of these students be attending ?

A. Oh, during the winter months.

Q. They probably came about December and the course would extend until——

A. The end of March and April.

Q. How many students attended the school during 1897 ?

A. I cannot answer that correctly either, but I remember this, that our average for the first three sessions was just about 30—in the immediate neighborhood of 30, as near as I can give it to you without having my book.

Q. What would you call the first three seasons ?

A. Well, our regular course extends from November to April.

By Mr. MATHESON.—Q. You mean by three seasons three years, and each winter you had about 30 ?

A. Yes, that is the idea.

By Mr. CARNEGIE.—Q. These would not be the same students ?

A. Oh, by no means.

Q. They were an entirely new class ?

A. I would not say entirely new. Sometimes we have students come back but practically speaking a new class, certainly.

Q. You don't recollect then how many you had ? You think you had 30 in 1897 ?

A. I would not say positively.

Q. I see the receipts for students in 1897 were \$24 ?

A. Yes.

Q. That would probably indicate the number you had there then ?

A. Not necessarily. Probably pretty near, but not necessarily. For this reason, among others, that we don't charge home dairy students any fee. They are usually ladies and we admit them free.

Q. How many students had you for 1898 ?

A. Well, you see our season runs in two years. I will be obliged to ask you whether you mean 1897-98 or 1898-99.

Q. Of course I refer naturally to 1897-98.

A. Then I must answer you the same as I did before. I cannot tell you positively how many, but I say we had about 30—that was about our average.

Q. How many are at the institution now?

A. The session just closed there was only one there when I left.

Q. How many during the session?

A. As I remembered it about 12 or 13.

Q. How many will there be in attendance in all probability during the session of 1898-99?

A. That is the number I have just given you.

By Hon. Mr. DAVIS.—Q. The attendance is falling off a little?

A. Yes, it is.

By Mr. CARNEGIE.—Q. During 1898 I see you manufactured some 6,756 pounds of cheese which sold for \$491. Did that occupy the cheesemaker all the time in performing this work?

A. The instructor in cheese-making is not supposed to make cheese. His business is to instruct somebody else in making cheese. That is what his time is taken up with.

Q. Who does the actual work?

A. The students under his direction and with his help.

Q. Are lectures and classes in instruction going on at the same time?

A. Yes, sir. The same day. Each day lectures in the morning and instruction all day.

Q. In your position as superintendent would you be occupied in giving lectures or what would your work be generally?

A. My work generally is to superintend all the work and the lecturing generally falls to me.

Q. You give lectures, then, in both cheese-making and butter-making, do you?

A. Yes, sir.

Q. It seems to me that the amount of cheese you manufacture is very small to keep one man engaged in giving instructions to students. For example, take one man in an ordinary factory without any assistance whatever, what amount of milk would he handle and make into cheese?

A. Oh, he would make up, I presume, probably 6,000 pounds of milk a day, but I suggest that that was not our business; it is not to make cheese.

Q. I desire that in connection with any questions, you should give the fullest information, because what I want to get at is the work that the school is actually doing. It seems to me, taking this 6,000 pounds which one man would handle in a day, to be a very small quantity to teach students the actual practical work.

A. Well, allow me to explain sir. I can teach cheese-making or butter-making as well with 1,000 pounds of milk practically as I can with 100,000. It is the principle underlying practical work that I wish to instil. The more milk I make up it is not necessarily the better instruction I give. Within reasonable limits it is so, but beyond

a certain limit, my time and the time of my students would be taken up too much in work and not enough in education. That is why. I think perhaps that will explain it. We purposely do not take in large quantities of milk for that work. I think it is borne out on the face of it.

Q. I see the amount realized on that cheese was \$666.15—at least that is what you paid for the milk. You realized \$523.43. There is a difference of about \$142. How do you account for that fact?

A. In this way: We were obliged to buy our milk for that work, that is to buy it out and out; otherwise we could not have got it, and in consequence we had to pay above the market price or we could not get it.

Q. What did you pay a hundred for that milk?

A. I cannot answer that question.

Q. How did you buy it?—how did you pay for the milk?

A. We paid for it as I recollect now—I am not very positive now in what I am giving you without my books—I think this was the basis: whatever we paid for our milk that we used for instruction in butter-making, we paid the same for that which we bought for cheese-making, but seemingly it netted us less than what our milk for butter-making netted us, which it would certainly do in the winter months in a general way.

Q. You don't seem to have sold any butter here at all? For instance, at the bottom of the page there are charges to patrons for making butter, \$4,449. Is that the milk that you used for instruction that you speak of?

A. Yes.

Q. How much did you receive a pound for making this butter for the patrons?

A. 3 and  $3\frac{1}{4}$  cents.

Q. Did the instructor in butter-making have any assistance apart from that which he received from the students?

A. And what he received from the man at the weigh scales who assisted him also. Allow me to explain. We did not need all the milk that we received in the butter-making department for instruction in butter-making. It was a matter of accommodation that it should be received; and in consequence—

Q. It seems to me that relatively the buttermaker performs the bulk of the work done at the institution—at least much the heavier task falls on him, judging of course from the figures given in the public accounts. Of course that is all I have to judge from.

A. Well, I do not think the bulk of the work necessarily falls on him any more than any other person about the place.

Q. I will try to explain further. You see the school realized for simply making butter some \$4,449?

A. Yes, sir.

Q. Whereas for making cheese there was only received the sum of \$491?

A. Yes, sir.

Q. Therefore it appears to me there was considerably more work entailed in making butter than there was in making cheese. Could not, for example, the instructor in cheese-making perform the work done there by Mr. Crealy, who I think you said was the assistant cheesemaker?

A. Yes, I understand your position now and I think I can explain it. In the first place we make cheese three months and butter twelve. I think that will explain that part. The second part might be explained in this way: the cheesemaker could not undertake any other work in connection with our business for the simple reason that he is closely at his work from early morning until late at night. He could not leave his department to attend to any other work, even although he be not, in a sense, very hard worked. Still it could not be left.

Q. Of course, I cannot speak as a practical cheesemaker, but I can as a practical butter-maker, and I confess that to me the difficulties do not seem insurmountable. It does seem to me that the cheesemaker could perform both these tasks.

A. I don't know how I could further explain it to you. I am convinced my position is tenable.

Q. You feel it is necessary to have these two men employed?

A. I did, or they would not have been there.

Q. What is the greatest number of students that the instructor in cheese-making would have under his control at any one time? Would they be in the form of classes, or would the whole of the students in the institution attend?

A. They would come and go in classes. Some would be coming and some would be going and so a class would vary. Probably there would not be more than eight or ten.

Q. How do you account for the fact that there has not been a larger attendance at the school?

A. Well, I really cannot answer that question.

Q. There is no way you can account for it? Would the proximity of the Agricultural College at Guelph have any deteriorating effect?

A. I presume probably it would.

Q. It is rather close to the Agricultural College at Guelph, is it?

A. I presume it would be affected in that way.

Q. Is there any other reason that you think might affect the attendance?

A. Well, really, I don't know what might or might not affect the attendance at the place. I presume a number of things might affect it. What has affected it in the essence I am not prepared to say.

Q. Is that section of the country a dairying section where they would be likely to get students?

A. Not as much as some.

Q. Is not that section of the country more devoted to stock-raising for beef purposes and that sort of thing? Do they not go more into beef? Is it very much of a dairying section?

A. Well, I think as far as I can see of it—of course I have not been all over the country—it is both.

Q. Then is it because the people there do not desire instruction along these lines?

A. It would seem that they do not, perhaps.

Q. Well, in view of the results attained, do you think it would be advisable to continue the institution in that section of the country? It has now been in operation some

four years, and in that time the people should have learned its value because, speaking for myself, I believe these institutions are a good thing. Do you think there is much use in continuing it? Is there any hope of a larger attendance at the institution?

A. Well, really sir, I am not sure that I can answer that question what the possibilities are.

Q. Considering the outlook, from the experience you have, is there any prospect that there will be a larger attendance?

A. I don't know, I am sure, what the possibilities are.

Q. Don't you think the result to the Province would be better if the institut on were moved to some other section where there was more dairying carried on?

A. Well that's a problematical question with me, sir, I could not answer that. I could not say that it would not or that it would.

Q. Well, is there any demand for the school in that section?

A. There is a demand; yes.

Q. As shown by the attendance?

A. Well, of course, the attendance, perhaps the results may not hardly be judged from what will appear from that standpoint. I am not sure that there is any better place for it.

By Mr. MATHESON.—Q. Well, the result then is that there appears to be no demand for the school in the vicinity? Is there? Is the school required?

A. Well, sir, I don't think I am in a position to answer that question.

Q. How many months is the school running?

A. The school proper—the instruction runs about five months or a little over that.

Q. And how does it run otherwise?

A. It runs in an ordinary factory way.

Q. How long?

A. For the remainder of the year.

Q. For the remainder of the year?

A. Yes.

Q. Did it for the first year run as an ordinary factory?

A. No, sir.

Q. Well during the past year?

A. Yes, at the same time we were open to students the year round.

Q. But, as you said, you have had an average in the three years of thirty students for courses running from two to eight weeks. Is that correct?

A. That is correct.

Q. And this last season of 1898-99 you have had twelve or thirteen?

A. Yes, sir.

Q. Would you look at page 283 of the Public Accounts. How much is put down there as paid for salary and wages in the Public Accounts for 1898? \$3,125, is it not?

A. Yes, sir.

Q. And how much did you pay for wood, the next item?

A. It appears for wood and ice \$928.

Q. How much of that was for wood? \$714?

A. Something of that kind, seemingly, or nearly \$700. There is an item of cold storage.

Q. \$690 was for wood?

A. Presumably something in that neighborhood.

Q. What was that wood used for?

A. Supplying the boiler for the heating room and the apparatus.

Q. What did you pay for it the year previous. Did you pay any more?

A. I cannot tell you, sir.

Q. Have you got it in hand?

A. I cannot tell you what we have on hand accurately. I presume, perhaps in the neighborhood of 20 cords. I cannot tell you accurately. I did not take any notice of it.

Q. It might be more?

Q. Might there be a hundred?

A. No, sir.

A. It might be a little more.

Q. What price did you pay for wood this last year?

A. That is for 1898, I presume, you refer to?

Q. During the year 1898?

A. I paid from \$1.50 to \$3 50 as I recall it.

Q. \$1.50 for soft wood?

A. Yes, sir.

Q. Would there be as much wood required as was bought last year?

A. Yes, sir. But not for the one year. Simply allow me to explain that that wood was not bought for one year only.

Q. It is not bought for one year?

A. No, sir.

Q. What is it bought for?

A. I was out of wood in the fall of 1897. I had to buy for immediate requirements, and I had to buy for the following year and until such time as I might reasonably expect to get wood the following winter, which, from a good common sense business standpoint, I would say would not be before the middle of January anyway. I bought with that understanding. Perhaps that will explain that.

Q. All your purchases were in January and February last year, were they not ?

A. No, sir, they were paid for then largely and from that time forth.

Q. Then the general result is that the school has been running during a portion of the winter months, not exceeding five months. Would there be any time during that five months that you had no students ?

A. Not generally.

Q. How many would there be on an average at a time ?

A. Oh, I could not answer that question. They would run from 5 or 10 up to 15.

Q. And altogether about 30 were received ?

A. Yes.

Q. And during this past year, during 1898 99 how many were there at a time ?

A. I don't think we ever had more than 5 at any one time.

Q. And what would be the longest time that any of those would stay.

A. I think about three months.

Q. And what would the average be ?

A. I could not answer that.

Q. Would some of them be there three weeks ?

A. Yes.

Q. How many ?

A. I don't know.

Q. Would three-quarters of them be under a month ?

A. As I recall it, no ; but I cannot answer the question without my book.

Q. But the session that is just over, surely you would remember how long they were there ? How many of them were there more than a month during the past session, of the twelve or thirteen. Were any, except one ?

A. Oh, yes.

Q. According to your recollection, were two of those twelve or thirteen students there more than one month ?

A. As I recall it there were four.

Q. You ran that school as a butter factory for six or seven months in the year, did you not, according to your evidence ?

A. Yes, sir.

Q. Look at the accounts at page 285.

A. Yes, sir.

Q. The total expenditure was how much ? \$7,840, was it not in round numbers ?

A. I presume that is it as far as I understand these accounts.

Q. And the receipts were \$4,948 ?

A. Yes, sir.

Q. And of these receipts \$1,449 were received from the patrons for making butter for them?

A. Yes, sir.

Q. That is where the school was used as an ordinary butter factory?

A. Well, I could not say that it was used as an ordinary butter factory.

Q. And you sold cheese made to the amount of \$491.75?

A. Yes, sir.

Q. And deducting the receipts from the expenditure, the net cost of the school was \$2,892?

A. Yes, sir, as I understand these accounts.

Q. Nearly three thousand dollars? Now, considering that during this past session there were thirteen or fourteen students, four of whom were there less than a month, do you think it is proper or advisable or would you recommend the Government to continue the school at an average cost of \$200 per student or over?

A. Well, honourable sir, I don't know that that is a question that I have any right to offer an opinion on.

By Mr. AULD.—Q. I see some big items in these accounts. It appears that you have been building something or replacing machinery. There is an item R. Whitelaw, repairs to apparatus, and there is another item replacing machinery, \$59, on page 284. There is another item of \$400. That is for some new plant, is it not?

A. Yes, sir.

Q. Is there the same staff now as there was last winter?

A. No, sir.

Q. Is Miss Shuttleworth your assistant?

A. She is my assistant. She is an instructor in home dairy work. Of course this our first season in that Department as we have it now, and we have not had much chance for development.

Q. Don't you think it gives a great deal more confidence to the farmers' daughters to attend with Miss Shuttleworth there?

A. Well, it has done so already.

Q. Do you think this institution is properly advertised?

A. I certainly think it would be to its advantage if it were advertised, perhaps.

Q. You made the statement here that you did not think it was a dairying section. You will tell me where there is a better dairying section in the Province of Ontario to develop?

A. Well there are better dairying sections but they have been longer in their development.

Q. Certainly, that's it. Take for instance the townships of Adelaide and Caradoc, and when you go into the County of Lambton do you not think there is material there to develop the dairy interest?

A. It is developing now very rapidly.

Q. Well, then, do you not think the school is situated in its proper place?

A. I don't know a better place.

Q. The farmers would not send their daughters because there was no lady teacher. Do you not think that was the case?

A. That is my opinion.

Q. And you find better results since Miss Shuttleworth is there?

A. We had more students there in that department than we had last year, but as I said, the possibility is not developed yet.

Q. You are down in the evidence as saying that it is not a dairy section. I do not agree with you.

A. I did not say it was not a dairy section.

Q. You said it went more to beef.

A. Excuse me. I did not say that, sir.

By Mr. McNISH.—Q. Dairying has not been made a specialty in that district?

A. Not as it is in other districts.

Q. Mixed farming is carried on?

A. Yes, sir.

Q. And consequently the farmers in the neighborhood have not taken the same interest in the dairy schools that they have in the other schools?

A. Yes, sir, that is quite true.

Q. But the fact that you have now added home buttermaking to the other teaching at the institution leads you to suppose that the institution will be more patronized in the future than it has during the past year by the addition of Miss Shuttleworth to the staff of teachers?

A. That would be my opinion.

By Mr. CARNEGIE.—Q. You have now employed a lady instructor, have you?

A. Yes, sir.

Q. When was she employed?

A. At the beginning of the present session.

Q. How many ladies have you now in attendance?

A. We have not any.

Q. I suppose it was pretty well known the instructress was about to be employed, was it?

A. It was as well known as our funds would permit us to make it known, I presume.

Q. I suppose when this institution was started it was pretty well equipped with dairy appliances, was it?

A. For its immediate work at that time, fairly well equipped.

Q. I find that last year dairy appliances and machinery and cheese boxes and things of that nature which you bought cost \$1,982. Why should the expenditure have been so large last year?

A. Well, all the cheese boxes and butter boxes are bought to sell again.

Q. But they are only a very small proportion of the amount. There was other expenditure for machinery. How do you justify such an expenditure as that last year?

A. Well, I presume that you being a buttermaker will understand that the business is one of development. We are new as buttermakers in this Canada of ours. We are not old buttermakers. In consequence our machinery is developing with very great strides and in order to keep reasonable pace with that this expenditure has been made.

Q. Along what lines was it necessary to make this expenditure—were there new departments?

A. New separators, chiefly, and pasteurizing apparatus.

Q. New separators; what separators?

A. Well, we put in, for instance, a new Reid separator. Then we put in a big pasteurizing outfit and that is the main portion of that expenditure.

Q. In 1897 your expenditure over income would amount to nearly \$4,836. Of that amount \$791 was applied for capital purposes, which reduces the expenditure on the school proper to \$4,045. If there were 28 students in attendance that would be over \$140 as the cost of each student to the Province for that year. Do you think the result justifies this?

A. I presume that is correct as to the number of students.

By Hon. Mr. HARCOURT.—Q. Is it from January to December that that number of students is enrolled?

A. No. The season begins at the end of the year and continues until April the following year.

Q. What is the number you had enrolled from the beginning of 1897 to the last of the year?

A. I cannot answer as to that.

Q. More than 28?

A. I do not calculate it on that basis.

Q. Take the Public Accounts for 1897. You were in this same position in 1897.

Q. How much was paid for salaries in the institution in that year—that is for teaching?

A. If I am correct in my figures, \$2,856.86.

Q. That is the total amount paid for teaching proper, for salaries? For what purpose was the rest of the expenditure made in 1897? For apparatus and appliances?

A. Yes, sir.

Q. For supplies and repairs to machinery?

A. Yes, sir.

Q. You see \$924.71 carried out on page 288 ?

A. Yes, sir.

Q. Then is it the case that for ice, for wood, for cheese boxes, for butter boxes and for packing cases, \$924.71 were spent ?

A. Yes, sir.

Q. Is it the case that for promiscuous dairy supplies and appliances \$378.15 were spent ?

A. Yes, sir.

Q. Is it the fact that for paints, oils, boiler compounds, \$88.48 were spent ?

A. Yes, sir.

Q. Do you not find it to be the fact that \$530 were spent for printing and stationery, express charges, cartage and similar small charges ?

A. Yes, sir.

Q. It is a fact also, that \$159.71 were paid for the travelling expenses of Prof. Mills and other directors and Mr. Sleightholm ?

A. Yes, sir.

Q. In what way were these travelling expenses incurred ?

A. Well, as far as Dr. Mills is concerned, in looking after the direction of the school

Q. He is a director ?

A. He is a director of the school.

Q. What were your bills for ?

A. Well, for instance, getting supplies, frequently to confer with Dr. Mills as to the work, and all such like things.

Q. Getting supplies of what ?

A. Any kind of supplies, more particularly apparatus, which it is not advisable to buy without seeing.

Q. Then, under the head of dairy supplies, explain some of the items, G. N. Haldane, \$77 ?

A. Chiefly for butter paper, wrapping paper, for boxes and prints.

Q. I find that \$181.20 were paid to Firstbrook Bros. for butter boxes ?

A. Yes, sir.

Q. All these items that you have named, and some other items, what do they total up to ?

A. \$,011.68.

Q. That item includes salaries ?

A. Yes, sir. It includes everything, I presume.

Q. What was the revenue in that year, do you find ?

A. \$4,966.30.

Q. And the total balance including salaries is ?

A. \$4,045.38.

Q. As to revenue, what do you find the main items to be ? For the sale of cheese you obtained \$1,286.51 ?

A. Yes, sir.

Q. What do you mean by sundry cash sales ? Is that butter.

A. Yes, sir ; I presume all such little items.

Q. Well, add those two. In that year out of butter you realized \$2,399.

A. Yes, \$2,399.

Q. How many students had you in 1897 ?

A. In the immediate neighborhood of thirty.

Q. Revenue deducted, I find that the cost per student for 1897 to be \$134.

A. Yes, sir.

Q. Have you visited other dairy schools ?

A. Yes, sir.

Q. Do you consider your school has done useful work ?

A. I believe it has.

Q. The matter of the attendance of students of itself does not settle that the school has not done useful work ?

A. I think not.

Q. Compared with the other schools, is yours conducted on similar lines ?

A. Quite similar.

Q. Up-to-date methods ?

A. I believe so.

Q. Up-to-date teaching ?

A. Yes, sir.

Q. And you say you visited other schools ? Do you mean in this Province only, or have you visited some in the States ?

A. Yes, I have visited one in the States ; two in our own Province, Kingston and Guelph.

By Mr. CARNEGIE.—Q. Where was the other ?

A. At Madison, State of Wisconsin.

By Hon. Mr. HARCOURT.—Q. As a matter of fact, do you know that these schools are increasing in number in the United States ?

A. Dairy schools ?

Q. Yes. Are they increasing in numbers in the United States ?

A. I believe they are.

Q. They are considered to be in an agricultural way a great educational need in the United States?

A. Yes, they are evidently.

Q. Has your institution been visited by members of the House?

A. Yes, some of them were there.

Q. When did Miss Shuttleworth go there?

A. The beginning of this season.

Q. And you had not one before?

A. No.

By the CHAIRMAN.—Q. A good deal has been said about the small quantity of butter produced there. I presume that is not the object?

A. No, that is not the object, whatever, with my part of this work; it is not its object.

Q. The object is to teach how to make butter?

A. Yes, sir. I presume, so far as quantity is concerned, there is no other dairy school in the upper part of the continent that makes so much.

By Hon. Mr. HARCOURT.—Q. Is the main object and aim of the institution educational?

The committee then adjourned.
