### The Seven Grandfather Teachings

There were Seven Grandfathers. The Creator gave them the responsibility to watch over the Earth's people. They saw that life was not good, so they sent a helper, the Oshkabaywis, to walk among the people. The spirit was to bring them someone they could teach how to live in harmony with Creation. The Oshkabaywis tried to find someone worthy six times but failed each time.

On the seventh journey to Earth, the Oshkabaywis travelled to each of the four directions. The spirit finally came to a village and heard about a baby boy. The Oshkabaywis realized the baby was the one he should take to the Seven Grandfathers, because his mind was innocent. The Oshkabaywis took the baby back. The Seven Grandfathers were happy with his choice. But, the baby was too weak to hear their message. So they told the Oshkabaywis to take him to see all of Creation. They said when he returned to them, he would be ready to understand and share their message with the rest of humankind.

It took seven years for the Oshkabaywis and the baby to visit all corners of Creation. When they returned, the baby was a little boy of seven years old with a sharp and curious mind. The Seven Grandfathers each gave the child a gift – a teaching – to share with the Earth's people. They asked the otter to help the little boy get back to Earth. Along the way, the otter and the boy met seven spirits. The spirits taught the boy that for each gift, there was an opposite. They told him he would have to be careful teaching humankind how to use the teachings correctly.

His journey took a long time. The boy grew into an adult, and by the time he reached his village, he was an old man. All the people gathered around him, and he told them of his journey to the Seven Grandfathers. Then he gave them the seven gifts. He explained the dangers that came with each gift, and how to use them properly. With these gifts, the people of Earth built up the strength to face life's hard tasks. They developed a balance to live in harmony with all of Creation.
