WHEREAS the meeting of the Legislature of the Province of Ontario, stands prorogued to the NINETEENTH day of the month of DECEMBER instant; nevertheless, for certain causes and considerations, we have thought fit to prorogue the same to WEDNESDAY, the THIRD day of the month of JANUARY, in the year of our Lord one thousand eight hundred and seventy-seven, and we do will that you and each of you, and all others in this behalf interested, that on WEDNESDAY, the THIRD day of the month of JANUARY next, at Our City of Toronto aforesaid, personally, you be and appear for the DESPATCH OF BUSINESS, to treat, act, do and conclude upon these things which in Our Legislature of the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained—HEREIN FAIL NOT.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Our said Province of Ontario to be hereunto affixed: WITNESS, The Honourable DONALD ALEXANDER MACDONALD, Lieutenant-Governor of Our Province of Ontario, at Our Government House, in Our City of Toronto, in Our said Province, this FOURTH day of DECEMBER, in the year of our Lord one thousand eight hundred and seventy-six, and in the fortieth year of Our Reign.

By Command,

Wednesday, 3rd January, 1877.

3 o'clock P.M.

This being the first day of the second meeting of the Third Parliament of Ontario for the Despatch of Business, pursuant to a Proclamation of Donald Alexander Macdonald, Lieutenant-Governor of the Province of Ontario, and the House having met, the Lieutenant-Governor entered the House and, having taken his seat on the Throne, was pleased to open the Session by the following gracious Speech:

Mr. Speaker and Gentlemen of the Legislative Assembly—

I have much pleasure in welcoming you again to your annual duties in connection with the legislation and government of the Province.

I rejoice to have it in my power to announce that the learned Commissioners for the Consolidation of the Statutes have completed their important and laborious undertaking, and that the result is ready to be submitted to you. I hope that it will be found practicable to give to the people of the Province at your present Session the benefit of this work with such amendments in the existing laws as your wisdom may suggest or approve. Bills embodying various amendments which have the recommendation of the Commissioners will be laid before you.

A measure giving votes to the sons of farmers in certain cases will be submitted for your consideration. Also, a Bill for extending the Voters' Lists Act, with necessary modifications, to Municipal elections.

Further progress and improvement may be looked for in the great cause of Education, now that it has reached another stage of development under the Act of last Session, which assigned the administration of educational affairs to a responsible Department. It is proposed to ask your assistance towards improving the qualifications of teachers, and in securing to all the schools teachers properly trained in the best method of teaching.

Reports will be laid before you as to the working of the law respecting the sale of fermented and spirituous liquors under the Act of last Session. It will be seen that the Act has already had a beneficial effect in diminishing the evils against which it was directed. A Bill will be offered for your consideration, embodying some amendments which
have been suggested by experience, as calculated to advance the efficient working of the law.

An agreement has been arrived at with the Government of the Dominion for the purchase of the Rockwood Lunatic Asylum, subject to your approval and the approval of the Parliament of the Dominion. Should this agreement go into effect, the criminal lunatics now confined in this Asylum will be removed, and room will thereby be obtained for other patients; but I regret to say that it seems that still further provision must be made, at this Session, for the accommodation of the insane, if our means of receiving and caring for these afflicted persons are to keep pace with the annual requirements which, unhappily, are to be anticipated.

I regret to find also, that there is a necessity for increased accommodation for the Blind and for Deaf Mutes. The propriety of an appropriation for additions to the existing establishments for the instruction of these unfortunate classes will therefore demand your humane consideration.

Notwithstanding the large sums hitherto applied in aid of important railway enterprises, urgent applications are made on behalf of some of the unfinished, as well as of the other projected railways, for fresh grants. I commend to your prudent attention any of these applications which may be brought before you.

The safety of the Records in the Crown Lands Department being of great importance to the whole community, I invite you to consider whether there is any sufficient reason for further delay in erecting such a fire-proof building as may afford the needed security in future.

It is with satisfaction I note that, while the laborious and prudent character of our people has saved us from much of the depression which still prevails in so many countries, their energy and intelligence are opening up new markets for the produce of the Province.

I rejoice to be able, from a personal visit, to give my testimony to the success which attended the exhibition of Canadian resources at Philadelphia. Too much credit cannot be given to the great zeal and the intelligent efforts which were displayed in every department by the people of Ontario, and which largely contributed to Canada’s gaining a proud position in its rivalry with older and larger communities.

Since last Session the differences between Ontario and Quebec have continued to receive the attention of my Government. Besides some correspondence on the subject, Members of my Government met at Ottawa, by appointment, a Committee of the Government of Quebec; and, after discussion, a course of action, to obtain, without further loss of time, an authoritative decision as to the Award of 1870, was mutually arranged; such a decision being found to be essential to either an acceptance of the award, or any settlement of the important matters embraced in it.

For the determination of the Provincial Boundaries by the agreed method of an Arbitration, the appointment of a new arbitrator on behalf of the Province recently became necessary, the distinguished judge who was to occupy that position having requested to be relieved from it. Meanwhile, a provisional line had been mutually determined upon, in terms of the resolution of the Legislative Assembly at a former session; a considerable amount of additional materials for the ascertainment of the ultimate boundaries had been collected; a new and an exhaustive statement of the case of Ontario had been prepared; and a considerable part of the documentary and other evidence affecting the questions at issue had been printed. Almost everything is now ready for the final decision, within a few months, by able and competent Referees, of questions which for two centuries have given occasion to keen controversy, and often to fierce conflicts, between the Nations, as well as the great Public Bodies, who have from time to time claimed portions of the disputed territory.

I have given directions that the Public Accounts for 1876 shall be laid before you. The Estimates for the various branches of the public service for the present year have been prepared, and will be submitted to you. You will find that they have been framed with every regard to economy as well as efficiency.

I trust that your deliberations will receive the Divine blessing, and will result in advancing the prosperity and happiness of all classes of the people.

The Lieutenant-Governor was then pleased to retire.
Mr. Speaker informed the House, That he had received from the Judges selected for the trial of Election Petitions pursuant to the Controverted Elections Acts, a Certificate and Report relating to the Election for the Electoral District of the County of Prince Edward; and the said Certificate and Report were then read by the Clerk at the Table, as follows:—

PRINCE EDWARD ELECTION.

Controverted Elections Acts, 1871, 1873 and 1876.

ABRAM HUYCK, Petitioner; GIDEON STRIKER, Respondent.

We, the undersigned, two of the Judges on the rota, sitting together in pursuance of the provisions of the Election Act of 1876, to try this Petition, in which corrupt practices were alleged, do hereby certify to you in conformity with the provisions of sixteen and seventeen of the Controverted Elections Act of 1871, that this trial was commenced before us, at the Court House at Picton, in the County of Prince Edward, on the thirteenth day of March last, and continued on the two following days, and was then adjourned to Osgoode Hall, till Monday, the fifteenth day of May instant, and was then further adjourned until the following day, when we did adjudge and determine that the said Gideon Striker was duly elected and returned at the election for the said County of Prince Edward, holden on the eleventh and eighteenth days of January.

We do further certify that it has not been proved before us that any corrupt practice has been committed by, or with the knowledge and consent of either of the candidates at the said election.

We further certify that in our opinion one John Sobey was proved guilty of corrupt practices; but he was not shown to be an agent of Robert Clapp, the other candidate at the said election.

We have no reason to believe that corrupt practices did extensively prevail at said election,—on the contrary, it appeared to us, on the evidence, that the contest had been carried on with freedom from corrupt practices.

And we do further adjudge and determine that as the charges of corrupt practices and the recriminatory charges have not been sustained in evidence, there shall be no costs on either side in respect of so much of the petition as relates to such charges, but that all costs, charges and expenses of and incidental to the scrutiny of ballots and votes, and so much of the petition as relates thereto, shall be paid by the Petitioner, the said Abram Huyck.

We further certify that, appended hereto, is a copy of our notes of the evidence taken in the matter of the said petition.

Dated at Osgoode Hall, this sixteenth day of May, 1876.

Geo. W. Burton,
One of the Judges on the Rota to try this Petition.

S. H. Blake,
One of the Judges on the Rota to try this Petition.

To the Honourable,
The Speaker of the House of Assembly Of the Province of Ontario.

Ordered, That the foregoing Report and Certificate be entered on the Journals of this House.

Mr. Speaker informed the House, That he had received the following notification of a vacancy which had occurred in the representation of the Electoral District of the South Riding of the County of Wellington; and that he had issued his Warrant for a new Writ for the Election of a Member to serve in this present Parliament for the said Electoral District:—
The Honourable the Speaker of the Legislative Assembly of the Province of Ontario:

I, Peter Gow, Member for the Electoral District of the South Riding of the County of Wellington, hereby declare that it is my intention to resign, and I do hereby resign my seat in the Legislative Assembly of the Province of Ontario, for the said Electoral District.

Given under my hand and seal, at Guelph, in the presence of two witnesses, this first day of September, A.D. 1876.

Witnesses: D. Stirton, Dan. Guthrie.

Mr. Speaker also informed the House, That James Massie, Esquire, had been elected as Member for the South Riding of the County of Wellington.

James Massie, Esquire, Member for the South Riding of the County of Wellington, having previously taken the Oaths, and subscribed the Roll, took his seat.

Mr. Speaker reported that, to prevent mistakes, he had obtained a copy of the Speech of the Lieutenant-Governor, which he read.

On motion of the Honourable Attorney-General Mowat, seconded by the Honourable Mr. Pardee, the following Bill was introduced, and read the first time:

Bill (No. 1), intituled, "An Act to provide for the Administration of Oaths of Office to persons appointed as Justices of the Peace."

On motion of the Honourable Attorney-General Mowat, seconded by the Honourable Mr. Pardee,

Ordered, That the Speech of the Lieutenant-Governor to this House be taken into consideration To-morrow.

Ordered, That the Votes and Proceedings of this House be printed, having been first perused by Mr. Speaker, and that he do appoint the printing thereof, and that no person but such as he shall appoint do presume to print the same.

Resolved, That Select Standing Committees of this House, for the present Session, be appointed for the following purposes: 1. On Privileges and Elections; 2. On Railways; 3. On Miscellaneous Private Bills; 4. On Standing Orders; 5. On Public Accounts; 6. On Printing; which said Committees shall severally be empowered to examine and inquire into all such matters and things as shall be referred to them by the House, and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

Resolved, That if anything shall come in question touching the return or election of any Member, he is to withdraw during the time the matter is in debate; and all Members returned upon double returns are to withdraw until their returns are determined.

Resolved, That if it shall appear that any person has been elected and returned a Member of this House, or endeavoured so to be, by bribery, or any other corrupt practices, this House will proceed with the utmost severity against all such persons as shall have been wilfully concerned in such bribery, or other corrupt practices.

Resolved, That the offer of any money or other advantage to any Member of this House, for the promoting of any matter whatsoever depending, or to be transacted in Parliament, is a high crime and misdemeanor, and tends to the subversion of the constitution.

Mr. Speaker communicated to the House, A Report from the Librarian of the Legislative Assembly on the state of the Library of Parliament, which was read. (Sessional Papers, No. 6.)

The House then adjourned at 4 P.M.

5. That we thank His Honour for the intimation that Reports will be laid before us as to the working of the law respecting the sale of fermented and spirituous liquors under the Act of last Session; that we are gratified at His Honour's assurance that the Act has

10. That we unite in the satisfaction expressed by His Honour in noting that, while the
laborious and prudent character of our people has saved us from much of the depression

new markets for the produce of the Province.

11. That we learn with satisfaction the testimony which His Honour is able, from
a personal visit, to give to the success which attended the exhibition of Canadian re-
sources at Philadelphia, and we concur with his Honour's observation that too much credit
cannot be given to the great zeal and the intelligent efforts which were displayed in every
department by the people of Ontario, and which largely contributed to Canada's gaining a

12. That we are glad to learn, that since last Session the differences between Ontario and

13. That we thank His Honour for informing us that, for the determination of the
Provincial Boundaries by the agreed method of an Arbitration, the appointment of a
new arbitrator on behalf of the Province recently became necessary; the distinguished
judge who was to occupy that position having requested to be relieved from it; that
meanwhile, a provisional line had been mutually determined upon, in terms of the reso-
lution of the Legislative Assembly at a former Session; a considerable amount of addi-
tional materials for the ascertainment of the ultimate boundaries had been collected; a
new and an exhaustive statement of the case of Ontario had been prepared; and a con-
siderable part of the documentary and other evidence affecting the questions at issue
had been printed; that almost everything is now ready for the final decision, within a
few months, by able and competent Referees, of questions which, for two centuries, have
given occasion to keen controversy, and often to fierce conflicts, between the Nations, as
well as the great Public Bodies, who have from time to time claimed portions of the dis-
puted territory.
14. That we thank His Honour for the assurance that the Public Accounts for 1876 shall be laid before us.
15. That we thank His Honour for the information that the Estimates for the various branches of the public service for the present year have been prepared, and will be submitted to us, and for his assurance that they have been framed with every regard to economy as well as efficiency.
16. That we unite with His Honour in trusting that our deliberations will receive the Divine blessing, and may result in advancing the prosperity and happiness of all classes of the people.

The several paragraphs of the proposed Address, from one to twelve inclusive, having been read the second time, were agreed to.

On motion of the Honourable Attorney-General Mowat, seconded by the Honourable Mr. Crooks,
Ordered, That the consideration of the remaining paragraphs be postponed till Tomorrow.

The fifteenth paragraph was then agreed to.

The sixteenth paragraph, having been read the second time, was agreed to.

Resolved, That an humble Address be presented to the Lieutenant-Governor, thanking him for his gracious Speech at the opening of the Session.

Resolved, That the above Resolution be referred to a Select Committee composed as follows:—The Honourable Attorney-General Mowat, The Honourable Mr. Crooks, and Messieurs Miller and Massie, with instructions to prepare and report an Address to the Lieutenant-Governor, in conformity therewith.

The Honourable Attorney-General Mowat, from the Select Committee, reported an Address, which was read as follows:—

We Her Majesty's dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, in Parliament Assembled, humbly thank Your Honour for your gracious Speech at the opening of this Session, and tender to you our acknowledgments for the pleasure you express in welcoming us again to our annual duties in connection with the legislation and government of this Province.

We thank Your Honour for the announcement that the learned Commissioners for the Consolidation of the Statutes have completed their important and laborious undertaking, and that the result is ready to be submitted to us; we unite with Your Honour in hoping that it will be found practicable to give to the people of the Province at our present Session the benefit of this work, with such amendments in the existing laws as may be suggested or approved; and we shall give our best attention to the Bills which are to be laid before us, embodying various amendments which have the recommendation of the Commissioners.

We shall carefully consider any Bills that may be laid before us containing provisions for giving votes to the sons of farmers in certain cases, and for extending the Voters' Lists Act, with necessary modifications, to Municipal Elections.

We join with Your Honour in the opinion that further progress and improvement may be looked for in the great cause of Education, now that it has reached another stage of development under the Act of last Session, which assigned the administration of educational affairs to a responsible Department; and assure Your Honour that we shall give our best consideration to any measure for improving the qualifications of teachers, and securing to all the schools teachers properly trained in the best method of teaching.

We thank Your Honour for the intimation that Reports will be laid before us as to the working of the law respecting the sale of fermented and spirituous liquors under the Act of last Session; and we are gratified at Your Honour's assurance that the Act has already had a beneficial effect in diminishing the evils against which it was directed; and that we assure Your Honour that the Bill which is to be offered for our consideration, embodying some amendments which have been suggested by experience as calculated to advance the efficient working of the law, will receive our best attention.

We thank Your Honour for the information that an agreement has been arrived at with the Government of the Dominion for the purchase of Rockwood Lunatic Asylum, subject to our approval and the approval of the Parliament of the Dominion, and that should this agreement go into effect, the criminal lunatics now confined in this Asylum will be removed, and room will thereby be obtained for other patients; and we regret with Your Honour that still further provision for the accommodation of the insane should be necessary to be made at this Session, if our means of receiving and caring for these afflicted persons are to keep pace with the annual requirements which unhappily are to be anticipated.
We concur with Your Honour in regretting the necessity for increased accommodation for the Blind and Deaf Mutes, and assure Your Honour that the propriety of an appropriation for additions to the existing establishments for the instruction of these unfortunate classes, will receive our best attention.

We learn with interest that, notwithstanding the large sums hitherto applied in aid of important railway enterprises, urgent applications are made on behalf of some of the unfinished as well as of the other projected railways, for fresh grants; and we shall give our prudent attention to any of these applications which may be brought before us.

The safety of the Records of the Crown Lands Department being of great importance to the whole community, we shall avail ourselves of Your Honour's invitation to consider whether there is sufficient reason for further delay in erecting such a fire proof building as may afford the needed security in future.

We unite in the satisfaction expressed by Your Honour in noting that, while the laborious and prudent character of our people has saved us from much of the depression which still prevails in so many countries, their energy and intelligence are opening up new markets for the produce of the Province.

We learn with satisfaction the testimony which Your Honour is able, from a personal visit, to give to the success which attended the exhibition of Canadian resources at Philadelphia, and we concur with Your Honour's observation that too much credit cannot be given to the great zeal and the intelligent efforts which were displayed in every department by the people of Ontario, and which largely contributed to Canada's gaining a proud position in its rivalry with older and larger communities.

We are glad to learn, that since last Session the differences between Ontario and Quebec have continued to receive the attention of Your Honour's Government, that besides some correspondence on the subject, Members of the Government met at Ottawa, by appointment, a Committee of the Government of Quebec, and that after discussion, a course of action to obtain without further loss of time an authoritative decision as to the Award of 1870, was mutually arranged, such a decision being found to be essential to either an acceptance of the award, or any settlement of the important matters embraced in it.

We thank Your Honour for informing us that, for the determination of the Provincial Boundaries by the agreed method of an Arbitration, the appointment of a new arbitrator on behalf of the Province recently became necessary; the distinguished judge who was to occupy that position having requested to be relieved from it; that meanwhile, a provisional line had been mutually determined upon, in terms of the resolution of the Legislative Assembly at a former Session; a considerable amount of additional materials for the ascertainment of the ultimate boundaries had been collected; a new and an exhaustive statement of the case of Ontario had been prepared; and a considerable part of the documentary and other evidence affecting the questions at issue had been printed; that almost everything is now ready for the final decision, within a few months, by able and competent Referees, of questions which, for two centuries, have given occasion to keen controversy, and often to fierce conflicts, between the Nations, as well as the great Public Bodies, who have from time to time claimed portions of the disputed territory.

We thank Your Honour for the assurance that the Public Accounts for 1876 shall be laid before us.

We thank Your Honour for the information that the Estimates for the various branches of the public service for the present year have been prepared, and will be submitted to us, and for your assurance that they have been framed with every regard to economy as well as efficiency.

We unite with Your Honour in trusting that our deliberations will receive the Divine blessing, and may result in advancing the prosperity and happiness of all classes of the people.

The Address, having been read a second time, was agreed to.

Ordered, That the Address be engrossed, and presented to the Lieutenant-Governor by such Members of the House as are of the Executive Council.
On motion of the Honourable Mr. Crooks, seconded by the Honourable Attorney-General Mowat,
Resolved, That this House will on Tuesday next, resolve itself into a Committee of Supply.

The Committee have examined the following Petitions, and find that the Rules of the House have been complied with therein:—

Of the Huron and Quebec Railway Company, praying that an Act may pass to amend their Act of incorporation.

Of Robert Dennistoun and others, of Peterborough, praying that an Act may pass to incorporate the William Hall, Peterborough, Protestant Poor Trust.

Of the Rector and Churchwardens of St. Paul’s Church, in the City of Toronto, praying that an Act may pass authorizing them to mortgage certain church property for the benefit of said church, and also to declare valid a certain mortgage now existing.

Of John A. Campbell and others, of East Hawkesbury, praying that an Act may pass to divide the Township of East Hawkesbury into two municipalities.

Of J. L. Russ and others, of Drayton, praying that an Act may pass to incorporate the Conference of the Christian Church in Canada.

Of the Town Council of Brantford, praying that an Act may pass to incorporate the Town of Brantford as a City.

Of the Lord Bishop of the Diocese of Ontario, praying that an Act may pass authorizing the Rector and Churchwardens of St. Paul’s Church, Almonte, to mortgage the Rectory lands.

Of the Municipal Council of the Corporation of the Town of Dundas, praying that an Act may pass empowering them to pass a by-law exempting the Canada Screw Company from taxation for twenty-one years.

Of the Canada Company, praying that an Act may pass to confirm and legalize a new survey in the Townships of Bosanquet and McGillivray.

Of the Rector and Churchwardens of St. Marks Church, Niagara, praying that an Act may pass to enable them to sell certain church lands.

Of the Corporation of the Town of Belleville, praying that an Act may pass to incorporate the said Town as a City, and also to consolidate the debt of the said Town.

Of H. S. Crawford and others, of Hamilton, praying that an Act may pass to incorporate the Standard Fire and Marine Insurance Company.

Of W. J. Parkhill, John White and others, praying that an Act may pass to incorporate the Loyal Orange Association of Western and Eastern Ontario.

Of the Canadian Literary Institute of Woodstock, praying that an Act may pass to amend their Act of incorporation, and to authorize them to mortgage certain property.

Of the Right Reverend the Bishop of Niagara, and others, praying that an Act may pass, authorizing the sale of certain lands for the benefit of Saint Paul’s Church, Mount Forest.

Of the County Council of Grey, praying that an Act may pass to re-unite the North and South Ridings of Grey for registration purposes.

Of the Stratford and Huron Railway Company, praying that an Act may pass to amend their Act of Incorporation, and for other purposes.

Of the Whitby and Port Perry Extension Railway Company, praying that an Act may pass to amend their Act of incorporation.

The Committee have also examined the Petition of the Trustees of the Presbyterian Church, Orillia, praying that an Act may pass to authorize the sale of certain lands by the Trustees of the Orillia Presbyterian Church; also the Petition of the Port Hope Harbour Commissioners, praying that an Act may pass to enable them to consolidate their debt; and
find that in each of these cases the Notices have been published only five times in the *Ontario Gazette* and in the local papers; but the Committee recommend the suspension of the Rule requiring six weeks' notice in each case, as they are of opinion that all parties interested have been sufficiently notified.

The Committee have also examined the Petition of Robert Jaffray and others, of Toronto, praying that an Act may pass to incorporate the Metropolitan Street Railway Company, and find that the local notices have been published in accordance with the Rules of your Honourable House; but that through some error one insertion of Notice was omitted from the *Ontario Gazette*. The Committee recommend the suspension of the Rule in this case.

The Committee have also examined the Petition of Wm. E. Idsardi, of St. Thomas, praying that an Act may pass authorizing his admission as a Provincial Land Surveyor, and find that the full term of Notice has been given in the local papers, but that such application has only appeared five times in the *Ontario Gazette*; the Committee, however, recommend the suspension of the Rule therein.

The Committee have also examined the Petition of the North Simcoe Railway Company, praying that an Act may pass to amend their charter, and find the Notice, as published in the *Ontario Gazette*, sufficient; a Notice relating to the Railway has appeared in the local papers for more than the prescribed time; such Notice has, however, been altered so as to cover more distinctly the prayer of the Petition now before the Committee, and such amended Notice has appeared but five times in said local papers; under the circumstances, however, the Committee recommend the suspension of the Rule in this instance.

The Committee have also examined the Petition of Henry Paffard and others, of Niagara, praying that an Act may pass to incorporate the Niagara and St. Catharines Railway and Steamboat Company, and find that so far as the application for the incorporation of a Railway Company is concerned, the Notices as published in the *Ontario Gazette* and in the local papers are regular, but that such Notices do not include the words "Steamboat Company."

Bill (No. 27), intituled "An Act to incorporate the Loyal Orange Association of Ontario West, and the Loyal Orange Association of Ontario East."—Mr. Merrick.<br>Referred to the Committee on Private Bills.

Mr. Deroche, from the Standing Committee on Standing Orders, presented their Third Report, which was read as follows:

The Committee have examined the following Petitions, and find that the Rules of the House have been complied with therein:

Of the Toronto House Building Association, praying that an Act may pass to change their name to that of the Toronto Loan and Land Company, and for amendments to their Act of incorporation.

Of John McAllister and others of Hamilton Township, praying that an Act may pass authorizing B. McAllister to convey to D. McAllister, certain lands in the Town of Cobourg, and in the Township of Hamilton.

Of the Right Reverend the Bishop of Toronto and others, praying that an Act may pass authorizing them to sell certain lands for the benefit of St. Paul's Church, Newmarket.

Of Geo. Russell and others, praying that an Act may pass to incorporate the Leamington, Comber and Lake St. Clair Railway Company.

Of W. P. Howland and others, of Toronto, praying that an Act may pass to incorporate the Canadian Industrial Exhibition Company.

Of the Honourable Wm. McMaster and others, praying that an Act may pass to alter the survey of certain lots in the Town of Collingwood, and authorizing the Registrar of the County of Simcoe to register the same.

Of the Township Council of Caledon, praying that an Act may pass to confirm a survey in the Township of Caledon.

Of the Municipal Council of the Village of Port Elgin, praying that an Act may pass authorizing them to sell certain lands.

Of Edward William Harris and others, of London, praying that an Act may pass to incorporate the London Real Estate Association.

Of the Corporation of the City of Toronto, praying that an Act may pass to amend the Municipal Assessment and Toronto Water Works Acts.

Of the Cobourg, Peterborough and Marmora Railway and Mining Company, praying that An Act may pass to amend their Charter.

Of the Town Council of Barrie, praying that an Act may pass legalizing a certain By-law of Simcoe.

The Committee have also examined the Petition of the Town Council of Windsor, praying that an Act may pass to legalize a By-law for the issue of Debentures, and find that through an error the notice was omitted in several issues of the local paper in which it had been ordered to be published; five insertions have, however, appeared, and considering that evidence has been produced before the Committee showing that action has been taken by the Municipal Council in the matter, the record of which proceedings were duly published in the local papers, the Committee consider that all parties concerned have had sufficient notice, and recommend the suspension of the Rule in this case.

The Committee have also examined the Petition of Hugh Wilson and others, praying that an Act may pass to amend the Act organizing the Municipality of Shinniah, and find that the full term of notice of such intended application has been given in the Ontario
Gazette; from the difficulty of winter communication with Prince Arthur's Landing, the place at which the local paper is published in which the local notices were inserted, the full number of such notices have not been produced before the Committee. The Committee have, however, been informed that such notices have been published the requisite number of times, and therefore recommend that the Rule be suspended in this case.

The Committee have also examined the Petition of the Credit Valley Railway Company, praying that an Act may pass to extend the time for the completion of the Railway and for other purposes, and find that the proper number of notices, as required by the Rules of your Honourable House, have been published in the Ontario Gazette, and in the Toronto Daily Leader, but that such notices have not been published in any other paper in any of the counties through which the said Railway runs; the Committee, however, recommend the suspension of the Rule in this case.

The Honourable Mr. Fraser, from the Standing Committee on Private Bills, presented their First Report, which read as follows:—

The Committee have examined Bill (No. 22), Respecting the Roman Catholic Episcopal Corporation of the Diocese of Hamilton, and report the Bill [without amendment.

The Committee have also examined the following Bills, and have prepared certain amendments thereto respectively:

Mr. Deroche, From the Standing Committee on Standing Orders, presented their Fourth Report, which was read as follows:—

The Committee have examined the following Petitions, and find that the Rules of the House have been complied with therein:—

Of the Bothwell Land and Petroleum Company, praying that an Act may pass to provide for the winding up of the affairs of the Company.
Of the Hamilton and North Western Railway Company, praying that an Act may pass to amend their Act of Incorporation, and to make valid certain By-laws granting aid to said Railway.

Of Pickering Harbour and Road Company, praying that an Act may pass to authorize them to issue Debentures.

The Committee have also examined the Petition of the Peel General Manufacturing Company, praying that an Act may pass to amend their Act of Incorporation, and find that no notices of such intended application have been published in the Ontario Gazette, and but one notice in the local paper; the Committee, however, deeming it a matter of no public importance, and not affecting any private or vested rights, recommend the suspension of the Rule therein.

The Committee have also examined the Petition of the Corporation of the City of Toronto, praying that an Act may pass declaring the validity of a certain By-law of the said City, and confirming the same, the Committee find that the full term of notice has not been given, either in the Ontario Gazette, or in the local papers; but considering that the matter has been before the ratepayers, and voted on by them, the Committee are of opinion that sufficient publicity has been given to the same, and recommend the suspension of the Rule in this case.

The Committee have also examined the Petition of the Corporation of the City of Toronto, praying that an Act may pass amending the Toronto Street Railway Act, and Acts amending the same; the Committee find that notice of the intended application has been inserted five times in the Ontario Gazette, once in the Toronto Daily Globe, and three times in the Toronto Daily Mail; the Committee consider this a matter in which the full term of notice, as required by the Rules of the House, should be given, and, therefore, report that the Rules of your Honourable House have not been complied with in the matter of the foregoing Petition.

On motion of the Honourable Mr. Cameron, seconded by Mr. Bell,

Ordered, That that portion of the Fourth Report be referred back to the Committee on Standing Orders, with instructions to report the publication of notice in the Ontario Gazette and local papers regarding the Act of the City of Toronto amending the Toronto Street Railway Company Act as sufficient.

with certain amendments.

Of the Corporation of the City of Ottawa, praying that an Act may pass authorizing the Corporation to change the names of certain streets in the City.

Mr. Speaker resumed the Chair; and Mr. Clarke (Wellington) reported, That the Committee had come to several Resolutions; and, That the Committee had directed him to ask leave to sit again.

Ordered, That the Report be received on Monday next.

Resolved, That this House will again resolve itself into a Committee of Supply on Monday next.

The House then adjourned at 11.10 P.M.
Monday, 22nd January, 1877.

3 o'clock, P.M.

Mr. Speaker informed the House, That the Clerk had received from the Judges appointed to inquire into, and report on, Estate Bills their Reports in the following cases:

Bill (No. 63), Respecting the Presbyterian Church at Orillia.
Bill (No. 24), Relating to St. Mark's Church, Niagara.
Bill (No. 45), To enable the Synod of Niagara to sell certain lands in Arthur.
Bill (No. 49), Respecting St. Paul's Church at Newmarket.
Bill (No. 25), To enable Bernard McAllister, a Trustee, to convey certain lands.
Bill (No. 21), Respecting the Village of Port Elgin.

The Reports were then read by the Clerk at the Table, as follow:

To Charles T. Gillmor, Esq.,
Clerk Legislative Assembly.

The undersigned, two of the Commissioners appointed to report respecting Estate Bills, in relation to Bill (No. 63), referred to the said Commissioners, beg to report: That, assuming the allegations contained in the Petition on which the Bill is founded, to be correct, they think it reasonable that the Bill do pass into a law, with the amendments which they suggest thereto, and which they have noted on the margin of the Bill, being on the second page, line 41, the insertion of the word "due" before "publication," and at the end of section 2, "And the said remains shall be re-interred decently and in order, and, so far as reasonably may be, with a due regard to the wishes and desires of any friends of the deceased as to the manner of such removal and re-interment;" And at the end of line 23 on page 3, "of the share of the said congregation," and on line 25, after the word "purposes," "of a permanent nature for the benefit of the Congregation."

J. G. Spragge, C.,
W. Proudfoot, V.C.

To Charles T. Gillmor, Esq.,
Clerk Legislative Assembly.

The undersigned, two of the Commissioners appointed to report respecting Estate Bills, in relation to Bill (No. 49), referred to the said Commissioners, beg to report:—

The undersigned are not furnished with a copy of the Trust Deed to the late Bishop of Toronto and others, referred to in the petition.

Assuming that the Trust is for the uses and purposes set forth in the Petition, it remains to be shown that the Trust is now duly vested in the Petitioners, by the appointment of the present Bishop, involving the fact of such appointment, and the authority to make it under the Trust Deed.

They are of opinion that, before any disposition is made of the land comprised in the Trust Deed, the sense of the congregation of the Church, on whose behalf the Petition is presented, should be taken at a meeting duly called for that purpose; and further, that the donor of the land, if living, or if dead, those representing him by heirship or devise, should be notified.

It appearing by the Petition that the land in question is under lease, the rights of the lessee should be saved, unless his consent to the proposed sale be first obtained.
They observe that it is proposed to apply a portion, not exceeding one-half of the proceeds of sale, in the erection of a parsonage. It does not appear that the religious body in question possess any land upon which such parsonage may be erected.

One of the trusts upon which the land was conveyed is for the site of a burial ground to be attached to the proposed church. It does not appear whether or not any part of the land conveyed has been appropriated for that purpose, and if so, whether or not there have been any interments therein. Further, it does not appear that the religious body in question possess any cemetery, either of their own, or in common with others. If it does not, we are of opinion that one of the trusts of the proceeds of the proposed sale should be the purchase of land for a cemetery, and provision should be made in case of their having been any interments on the land proposed to be sold, for the due and orderly removal of the remains of those interred there to another cemetery, and we recommend that the like provision in respect thereof be enacted as we have recommended in the case of the proposed cemetery of the Presbyterian Congregation at Orillia.

The Congregation may think it desirable to except from sale a portion of the land in question, and to appropriate the same for the purposes of a cemetery. We conceive that it would be well to give them a discretion to do so if they think fit.

J. G. Spragge, C.
W. Proudfoot, V. C.

The undersigned, two of the Commissioners to whom was referred Bill (No. 45,) beg leave to report as follows:

(1) There is nothing to show any consent to the proposed legislation on the part of the congregation immediately interested, or of the Synod of the Diocese of Niagara, in which body the Petition, presented as the basis of legislation, states the premises to be vested. We think the consent of these bodies should be obtained before the desired Act is passed. The Religious Institutions Act, 36 Vic., cap. 135, shews the care taken in procuring the assent of congregations before their property is dealt with.

(2) As the land—the subject of the Bill—was originally granted by the Crown for the benefit of the Church in question, it is for the Attorney-General, on behalf of Her Majesty, to say if those at present interested in the land, consent thereto; whether it shall be diverted from the original trust as a site for a Church burial ground, and parsonage in one locality, to the building of a parsonage merely in another.

J. G. Spragge, C.
S. H. Blake, V. C.

Osgoode Hall, 20th January, 1877.

The undersigned, two of the Commissioners to whom was referred Bill (No. 24), beg leave to report as follows:

(1) We have not before us the conveyance wherein the trusts on which the lands in question were conveyed, appear; if they are correctly set out, it would not seem reasonable that these premises, devoted to a burial ground by the grantors, should now be turned into a church endowment. The use of these premises for the purpose for which they were granted being now prohibited by competent authority, a sale of them would appear to be advisable, but we conceive that the proceeds of the sale should be applied to a purpose of the same character, as far as circumstances admit of it, as that for which the grant was made, and a scheme for that purpose should be laid before the House.

(2) We are not informed whether there have been any interments in the premises in question. If there have been, and if the Attorney-General, on behalf of Her Majesty, as representing the original grantors, “The principal officers of Her Majesty’s Ordnance,”
approves of the disposition of the premises as defined in the said Bill, then the Commissioners think that some such provisions as those set forth in 39 Vic. cap. 99, secs. 2, 3 and 4, should be inserted in the Bill before it pass into law, in order to the due protection of those who may have used the ground for the purposes for which it was set apart.

To Charles T. Gillmor, Esq.,
Clerk of the Legislative Assembly.

Dated 20th January, 1877.

In the matter of Bill (No. 25.)

The undersigned Commissioners, to whom was referred a Bill founded on the Petition of John McAllister and others, beg leave to report as follows:—

That, in their opinion, it is not reasonable that this Bill should pass into law. Any relief to which the Petitioners are entitled, as to any portion of the property improperly included in the trust deed, can be obtained from the ordinary tribunals of the land, if necessary to apply to them. The revesting the land in the settlor, as asked by him, is a demand which it is prima facie highly unreasonable for him to make, and with which no Legislature would comply, except on the clearest evidence of its absolute necessity, or to prevent some positive wrong.

JOHN H. HAGARTY, C. J.
S. H. BLAKE, V. C.

OSGOODE HALL,
January 20th, 1877.

The undersigned, two of the Commissioners appointed under the 34th Vic., c. 7, to report on Estate Bills, in reference to Bill (No. 21), intituled, "An Act respecting the Village of Port Elgin," referred to the said Commissioners, beg to report:—

That it does not appear either in the petition for the Bill, nor in the recitals of the the Bill itself, whether the Squares and Reserves with which it is proposed to deal were originally reserved by the Crown for the general use of the public, or for some specific purpose, or were dedicated by private owners, or, if granted or conveyed to the Corporation, whether any trust was annexed to the gift.

In either case it is quite possible that parties have acquired rights by purchasing property abutting upon them, on the faith that they would be continued open, and it might be unjust to those parties to comply with the prayer of the Petition.

From the materials before us it is impossible to say whether it is or is not reasonable that the Bill should pass into a law. We should, therefore, recommend that further information should be furnished to the House upon the points to which we have called attention, and especially whether any parties have purchased or built upon lots abutting on the said Squares, or showing (if the fact be so) that all the owners of property abutting thereon are assenting parties to the proposed legislation.

We would beg further to call attention to the circumstance that, although in the preamble it is alleged that certain Squares and Reserves are not required, the Bill proposes to give power to the Corporation to dispose of all the Squares, with three exceptions.

The Petition refers to the obtaining of similar power to close and dispose of a lane or alley, which is not mentioned eo nomine in the Bill, but it is manifest that although the public generally may have no interest in the keeping it open—both as regards it and the squares, private individuals may have rights, which it would be foreign to the spirit of our institutions to deprive them of by a vote of the majority of the Municipal electors, without their consent.

OSGOODE HALL,
20th January, 1877.

J. G. SPRAGGE, C.
S. H. BLAKE, V. C.

Bill (No. 13), Respecting the Diocese of Huron.
Bill (No. 92), Respecting the Township of Adelaide.

The Reports were then read at the Table, as follow:—

The undersigned, two of the Commissioners to whom were referred Clause Eleven of Bill (No 44), beg leave to report as follows:—

They do not think it reasonable that the present Cemetery, called Mount Hope Cemetery, should be disposed of, or dealt with otherwise than as a Cemetery until all the bodies therein interred be removed, and decently re-interred in another burying ground, to be procured by the Corporation of the City of Brantford.

The Commissioners consider it proper that provisions similar to those contained in Sections Two and Three, 39Vic., Chapter Ninety-nine, be embodied in the Bill in question before it passes into law.

JOHN H. HAGARTY, C.J.
S. H. BLAKE, V.C.

Dated Osgoode Hall,
25th January, 1877.

The Commissioners, to whom were referred Bill (No. 9,) beg leave to report as follows:—

From the Petition, the basis of the Bill in question, it appears that the premises sought to be affected are vested in the Reverend Jol; Givns, the Incumbent of St. Paul's
Church, upon certain trusts which are not defined in the papers presented to the Commissioners. Without information as to the nature of these trusts it is impossible to say whether or not it is reasonable that this Bill should pass into law.

The trusts specified do not, it is presumed, permit a mortgage, or the present application to the Legislature would be unnecessary.

It may be that all that is sought by this Bill could be obtained under the Religious Institutions Act, 36 Victoria Chapter 135, in which case the proposed legislation is not reasonable.

To
C. T. Gilmor, Esq.,
Clerk Legislative Assembly,
Toronto.

The undersigned to whom, with other Judges of the Superior Courts of Law and Equity Commissions have been issued to report in respect of any Estate Bills or petitions for Estate Bills, which may be submitted to the Legislative Assembly of Ontario, have the honour to state in reference to the Bill (No. 13), and the Petition of the Incorporated Synod of the Diocese of Huron, that, assuming the allegations contained in the Preamble to be proved, it is, in their opinion, reasonable that the same do pass into law, and that the provisions thereof are proper for carrying its purposes into effect. They beg, however, to suggest that it would be well not to limit the sum, to be applied towards the erection of a parsonage house, to one-fifth of the proceeds of the sale of the piece of land proposed to be sold, as provided by the third section of the Act, but to leave the sum to be so applied out of the proceeds of such sale to the decision of the vestry that may hereafter decide upon the erection of a parsonage.

The undersigned have accordingly altered the third section of the Act to meet their view of what is proper in that respect.

J. G. Spragge, C.

The Honourable Mr. Crooks moved, seconded by the Honourable Attorney-General Mowat,

That this House will To-morrow resolve itself into a Committee to consider a certain proposed Resolution relative to the School of Practical Science.

The Honourable Attorney-General Mowat, by command of the Lieutenant-Governor, acquainted the House that the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends the same to the consideration of the House.

Resolved, That this House will To-morrow resolve itself into a Committee to consider the following Resolution:—

That this House doth approve of the Order of the Lieutenant-Governor in Council, dated the third day of February, 1877, respecting the School of Practical Science, which Order and the accompanying memorandum therein referred to, are as follows:—

The Committee of Council have had under consideration the annexed memorandum of the Honourable the Minister of Education, respecting the School of Practical Science, dated the 30th day of January, 1877, in which, under the circumstances there-in mentioned, he recommends that, with the approval of the Legislative Assembly, your Honour will be pleased to sanction the sale of the property acquired by the School of Practical Science, to the Toronto Mechanics' Institute, for the purposes of the Institute, for the sum of twenty-eight thousand dollars, in cash, and that out of the proceeds the sum of twenty thousand dollars be applied in building a physical laboratory near the
University, and that the residue, being the sum of eight thousand dollars, be applied for
the purchase of the necessary apparatus, and that the annual appropriation of the Legis-
lature for the maintenance of the School of Practical Science, (not exceeding $5,600,) be applied towards the salaries of the proposed instructors in engineering, the assistant in
chemistry, the attendant in mineralogy, and for incidental expenses.

The Committee beg to advise that the said recommendation be approved of by Your
Honour, and that the further recommendations and suggestions contained in the memoran-
dum aforesaid, for the conduct of the said School of Practical Science, be also approved
of by Your Honour.

Certified,

J. G. SCOTT,
Clerk Executive Council, Ontario.

5th February, 1877.

MEMORANDUM.

Respecting the School of Practical Science.

The objects sought by the establishment of this School were: (1) To encourage the
more practical study of the physical sciences; (2) To afford professional training to such as
desired to become engineers (civil, mining or mechanical), after a regular course of instruc-
tion; (3) To improve the knowledge of artisans, by evening classes, and (4) To diffuse
physical and scientific information generally, through popular lectures. The Act 36 Vic.
cap 30, A.D. 1873, was passed to more clearly define these objects and regulate the
School.

The Mechanics' Institute Building, purchased by the former Government, had been
repaired and altered, with the view of making it suitable for this purpose. The under-
signed, in his Report of the 16th June, 1873, to the Lieutenant-Governor, repre-
sented that the attempt to establish the School in the then building, with its de-
iciencies, unsuitable location, and imperfect appliances, would not only result in present
failure, but operate prejudicially on the School, if established under proper and satisfac-
tory conditions. The undersigned therefore recommended that the present building and
lands should be offered for sale, and the School established as soon as possible in a
building specially adapted for its work, on a site in close proximity to the Provincial
University.

The undersigned had the opportunity, in July, 1873, of examining the working of
the Royal College of Practical Science in Dublin, as well as the Schools of Science and
Art at Kensington, and the Museum of Practical Geology, in Jermyn Street, London. He
was confirmed in his opinion that in Technical Schools there is generally a departure to-
wards subjects of general instruction, and that the establishment and maintenance of any
School of this nature entails a large expenditure of money.

It was accordingly considered desirable not to proceed with the project of erecting a
new building, but to continue the school in its then temporary state, until a definite con-
clusion could be arrived at.

The subject was referred to James Louden, Professor of Mathematics and Natural
Philosophy in University College, and Lecturer on Natural Philosophy in the School.
In his Report of the 17th December, 1875, to the Honourable the Provincial Secretary
(See Sessional Papers, 1876, Vol. VIII., No. 27), Mr. Louden, after reviewing the whole
question, expresses his conclusions thus:

"To meet the educational requirements of the country at large it was proposed,
"1st.—To supply instruction in the various branches of Engineering, and in Chemis-
try as applied to the Arts and Manufactures: and,
"2nd.—To encourage a more practical study of the Physical Sciences.
"These two subjects constitute the main features of the scheme, and are, it may be
remarked, perfectly definite and entirely distinct from one another. Under the first head
comes the wide subject of Engineering, embracing the sub-divisions of Civil, Mechanical, and Mining Engineering. With regard to these and all other professional subjects, I hold that where the demand is sufficiently large for such training, it is best to provide a Separate School, independent, that is to say, of the control of an Art faculty. The functions of such a School, at the beginning of last year, were described by me in a communication to the press, in which I took occasion to point out that there ought to be at least, five Professors on the staff of such an Institution. These would be required to give instruction in such subjects as Drawing, Mathematics, applied Mechanics, Surveying, Assaying, Metallurgy, Civil Engineering &c. The question of the existing need for such an independent School I have never discussed; but I think that, before undertaking such a burden as its support would involve, the country should be clearly informed that the immediate outlay required for mere outfit would be very large, whilst the cost of maintenance would be at least $15,000 per annum. Such an expenditure ought not to be incurred unless the demand for trained Engineers is very large indeed. It must, moreover, not be forgotten that the above outlay would be incurred solely for the teaching of Engineering and applied Chemistry, whilst the still more important object—the promotion of the practical study of the Physical Sciences—would remain to be provided for. Such provision ought certainly to be made in connection with the University of Toronto, where, by a moderate outlay for necessary additions, the country could be placed in possession of a good physical laboratory in which students could receive that practical instruction which makes the teaching of Science really effective. Until such additions are made, and the Library and Museums placed on a proper footing, the Physical Sciences will not have received the encouragement which the times require."

Mr. Loudon proceeds to offer the following practical suggestions:

1st. To appoint a Professor of Civil Engineering in University College, who should give the necessary instruction in Drawing, Surveying, applied Mechanics, and Civil and Mechanical Engineering.

2nd. The present Professor of Mineralogy and Geology with an assistant and a small laboratory could supply, besides general instruction, the requisite practical training in subjects of Mining Engineering, such as Assaying and Metallurgy.

3rd. The present Professor of Chemistry, if furnished with a skilled assistant and additional accommodation and apparatus, could meet the demand for instruction in qualitative and quantitative analysis, in the Department of Chemistry.

Sufficient accommodation for the purposes does not exist in University College, and the sum annually appropriated out of the Income Fund of the University endowment is required for the maintenance of the present staff of Professors and Lecturers. Mr. Loudon in his report proposes that a less sum ($5,200) than that now annually appropriated by the Legislature for the maintenance of the School, (5,800) should be applied for carrying his suggestions into effect. While the amount required for additional laboratory and further accommodation and apparatus would be much less than the amount to be realized from any sale of the present Mechanics’ Institute Building.

With reference to the other objects of the proposed School, viz: the education of Artizans, and popular Lecturers on Science, Mr. Loudon expresses these views:

Many persons fail to distinguish between the scientific training of an Arts or Engineering Student, on the one hand, and the education of the Artizan classes, and the teaching of popular Science on the other. The latter constitute entirely different questions, whose solution depend in no way upon that of the former. Where there is a large Artizan class, I am free to admit that it is well to furnish those whose early education has been neglected, with facilities for improving themselves. Such classes, however, form no necessary adjunct to a School of Science, although they may be carried on in conjunction therewith. Under any circumstances, the Mechanics’ Institute is the proper place for such instruction to be given. With regard to the question of popular Science Lectures on the other hand, Legislation can do almost nothing. It is only in a very large community that we may expect to find a sufficient number of individuals to take a permanent interest in such subjects; and even those appreciative audiences are more easily obtained than successful Lecturers. I entertain the hope that something will be done ere long, towards establishing, in a small way, a few short courses of such lectures in connection with the Canadian Institute. Established, as that Institution is, for the promotion of original
research in Science, it is, I conceive, at the same time the proper place to which we should look for the best popular Lecturers that the country can produce. Whilst, however, the Canadian Institute is worthy of every encouragement the Government can bestow, so far as the promotion of original research and the publication of its Journal are concerned, I consider that any scheme for establishing such lectures there, should be supported by the citizens of Toronto, and not by the Province at large.

The undersigned is satisfied that there is no such demand in this Province for a distinct and separate Professional School for the training of Engineers, as would justify the large expenditure both in capital account and for annual maintenance, which would be required; and he agrees that the study of the physical sciences would be much promoted by the proposed plan of utilizing the Professors (1) of Chemistry, (2) of Natural Philosophy, (3) of Geology and Mineralogy, and (4) of Natural History and Botany in University College.

The services of these Professors can be obtained without expense; and it will only be necessary to pay for a skilled assistant to the Professor of Chemistry, and an ordinary attendant for the Professor of Mineralogy.

The subjects taught by the Professors of these four Departments include so much of the range of Physical Science, that, with the proper apparatus, a physical laboratory and appliances, the means of obtaining a complete theoretical and practical training would be secured for these pursuits in which physical science is the ground work, and with the addition of an Instructor in Engineering, the original objects of the School would be preserved, and carried into full effect. The training which would be thus afforded is intended to be available both to the University student pursuing his regular course, and to all others who may desire instruction in these special branches of knowledge.

Since it was understood that the position of the School in this building was temporary, the Directors of the Mechanics' Institute have expressed a desire to purchase back their property, and have offered the sum of twenty-eight thousand dollars, in cash, for the same. Considering the different estimates of the present saleable value of this property, and the objects for which the Mechanics' Institute desire to regain the full possession thereof, the undersigned deems it in the public interest, that this offer should be accepted. Having regard, therefore, to the foregoing circumstances, the undersigned would respectfully recommend that His Honour in Council, with the approval of the Legislative Assembly, may be pleased to sanction the sale of the property acquired for the School of Practical Science to the Toronto Mechanics' Institute, at the price mentioned, of twenty-eight thousand dollars in cash, to be held for the purposes of the Institute, and that out of the proceeds the sum of twenty thousand dollars be applied in building a Physical Laboratory near the University; and that the residue, being the sum of eight thousand dollars, be applied for the purchase of the necessary apparatus; and that the annual appropriation of the Legislature for the maintenance of the School of Practical Science (not exceeding $5,600) be applied towards the salaries of the proposed Instructor in Engineering, the Assistant in Chemistry, the attendant in Mineralogy, and for incidental expenses.

The Fiftieth Resolution, respecting Unforeseen and Unprovided Expenses, having been again read, the Honourable Mr. McDougall moved, seconded by the Honourable Mr. Cameron, that the sum be reduced to Twenty thousand dollars, so that the large sum of Fifty thousand dollars may not be left to be expended at the sole discretion of the Executive Government.

Mr. Hodgins moved in amendment, seconded by Mr. Bethune—

That all the words in the motion after "That" be struck out, and the following substituted therefor, "this House is of opinion that the experience of former Governments of this Province shows that the sum now to be granted is required by the Public Service, and that the said Resolution be concurred in."

And objection having been taken by the Honourable Mr. Cameron to the amendment as merely affirming the original Motion; Mr. Speaker, referring to a case which occurred in 1873, where, upon a motion for the third reading of a Bill, an amendment to an amendment was moved concluding with the words "and that the Bill be now read a third time," decided that if such an amendment were carried it would preclude all further amendment. Such a motion differed in no way from the "previous question," and even that motion could not be moved upon an amendment. Mr. Cameron's objection must therefore prevail.

The Amendment, having been put, was lost on the following division:—

The Fiftieth Resolution was then agreed to.

The House then adjourned at 11.15 P.M.
Thursday, 15th February, 1877.

3 o'clock P.M.

The following Petition was brought up, and laid upon the Table:—

By Mr. Wilson—The Petition of the County Council of Elgin.

The following Bill was introduced and read the first time:—

Bill (No. 117), intituled "An Act to amend the Act respecting Master and Servant."

—Mr. O'Donoghue.

Ordered, That the Bill be read the second time on Monday next.

The following Bills were severally read the third time, and passed:—

Bill (No. 29), To incorporate the Metropolitan Street Railway Company of Toronto.
Bill (No. 7), To extend and define the limits of the Town of Orillia.
Bill (No. 80), For the encouragement of Agriculture, Horticulture, Arts and Manufactures.

The Order of the Day for the third reading of Bill No. (103), To give the right of voting to Farmer's Sons in certain cases, having been read,

The Honourable Mr. Fraser moved,
That the Bill be now read the third time.

The Honourable Mr. Cameron moved in amendment, seconded by the Honourable Mr. McDougall,

That all the words in the motion after "That" be struck out and the following substituted therefor, "while farmers sons, from their intelligence, and personal qualifications, are as well entitled to the elective franchise as any other class not possessing the requisite property or income qualifications, still to confer upon them this privilege, solely in right of their father's property, and without the qualification that would entitle the sons of any other of Her Majesty's subjects to right of voting, would be to confer special privileges upon them and to discriminate between different classes of the people contrary to the genius and spirit of our Constitution, and in derogation of the equal rights of all."

The Honourable Mr. Crooks raised the question of order, and urged that no amendment could be moved to the third reading of a Bill, except an amendment relating to time. The House had ordered the Bill to be read the third to-day, and no question touching the merits of the Bill could now be raised.

The Speaker referred to May, p. 487, and decided, That it is competent for any Member, who desires to place on record any special reasons for not agreeing to the second or third reading of a Bill, to move as an amendment to the question a resolution declaratory of some principle adverse to or differing from the principle of the Bill, or otherwise opposed to its progress. There are numerous modern instances of such amendments. The amendment is therefore in order.

And the House having continued to sit until Twelve of the Clock Midnight.

FRIDAY, 16th February, 1877.

The Amendment, having been put, was lost on the following division:—

YEAS.

Messieurs

Baker, Boulier, Cameron, Creighton,

The Honourable Mr. Fraser took objection to the Bill as containing conditions in excess of the original notices, and asked Mr. Speaker to refer the Bill back to the Committee on Standing Orders for the purpose of reporting as to the sufficiency of the notice.
Mr. Speaker doubted whether he had power to make an arbitrary order of that sort, but even if his power were undoubted, he would hesitate to exercise it at this late period of the Session, unless forced upon him by clear and distinct authority. He should prefer to follow the course adopted in a case which is reported in the Journals of Canada, 1865, page 242; where upon a similar objection being taken, it was by direction of the Speaker moved as an amendment, That the Bill be referred back to the Committee on Standing Orders, with instructions to report, &c. That is also the course adopted in many other cases reported in the Journals. In this way the matter is fully discussed and the House has no difficulty in arriving at an intelligent decision. It is open to any member to make a similar motion in the present case by way of amendment to the motion which has been put from the Chair.

The Honourable Mr. Fraser then moved in amendment, seconded by Mr. Deacon, That all after the word “That” in the motion be struck out, and the following inserted in lieu thereof:—“the Bill be referred back to the Committee on Standing Orders, to report as to the propriety of the suspension of Rule No. 53, in respect to section one of the proposed Bill.”

That, as the Reports brought down to this House have shewn that the pupils attending the School of Practical Science were principally residents of the City of Toronto and Village of Yorkville, and that the advantages, if any, are purely of a local character, and as it is proposed to sell the property now owned by the Province and used for the purpose of said School of Technology, and which cost in the year 1871, $35,000 to the Mechanics' Institute of the City of Toronto, for the sum of $28,000, and incurring a loss to the Province of $7,000 in said sale, and devoting a large portion of the proceeds thereof to the erection of a new building upon the University Grounds, and involving the continuance of the maintenance of said School of Practical Science, therefore be it resolved—that the payment of any sum be struck out.

The Fifty-ninth Resolution, respecting the School of Agriculture, having been again read,

That this House will To-morrow resolve itself into a Committee to consider certain proposed Resolutions relating to Railway Aid.

The Honourable Attorney-General Mowat, by command of the Lieutenant-Governor, acquainted the House that the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolutions, recommended the same to the consideration of the House.

Resolved, That this House will To-morrow resolve itself into a Committee to consider certain proposed Resolutions relating to Railway Aid, as follows:—

Resolved, That, subject to the conditions hereinafter mentioned, aid shall be granted out of the Consolidated Revenue Fund to the undermentioned Railway Companies, for the construction of the portions of Railway hereinafter mentioned, as follow, that is to say:

The Victoria Railway Company, from Kinmount Village to Haliburton, a distance of about twenty-two miles, at the rate of six hundred and ninety-two dollars and sixteen cents per mile, per annum, payable half-yearly for twenty years;

The Whitby and Port Perry Railway Company from Port Perry to Lindsay, a distance of about twenty-seven miles, at the rate of one hundred and seventy-three dollars and four cents per mile, per annum, payable half-yearly for twenty years;

The Prince Arthur's Landing and Kaministiquia River Railway Company, from Prince Arthur's Landing to Fort William, a distance of about six miles, at the rate of one hundred and seventy-three dollars and four cents per mile, per annum, payable half-yearly for twenty years;

The Kingston and Pembroke Railway Company, from the Mississippi River to the Madawaska River, a distance of about thirty miles, at the rate of six hundred and ninety-two dollars and sixteen cents per mile, per annum, payable half-yearly for twenty years;

The Credit Valley Railway Company, from Toronto to Ingersoll, and its branches, from Streetsville to Alton, and from Catarac to Elora, being in all a distance of about one hundred and fifty-two and a half miles, at the rate of eighty-six dollars and fifty-two cents per mile, per annum, payable half-yearly for twenty years, such last mentioned aid being in addition to former grants to this Company;

The Montreal and City of Ottawa Junction Railway Company, from the boundary line between Ontario and Quebec, to or near the City of Ottawa, a distance of about sixty-six miles, at the rate of eighty-six dollars and fifty-two cents per mile, per annum, payable half-yearly for twenty years, such last mentioned aid being in addition to former grants to this Company.

The payment of such aid under this Resolution shall be computed in manner following, that is to say:

(a.) If the portion of the railway for which payment is made has been completed be-
between the first day of January and the first day of July, the payments shall be computed as commencing on the first day of January of the preceding year;

(b.) And if the portion for which the payment is made has been completed between the first day of July and the thirty-first day of December, the payments shall be computed as commencing on the first day of July of the preceding year.

Resolved, That all of the said grants of aid are to be respectively subject to the following conditions:

(1.) The Lieutenant-Governor in Council may require any railway company so aided to enter into an agreement or agreements with any other railway company or companies, containing such terms and details as the Lieutenant-Governor in Council may approve of, in order to secure running powers or rights of user to such company or companies over the line or portion of line of railway of the company aided under this Resolution, or former Acts, or in the discretion of the Lieutenant-Governor in Council, for the haulage thereover of the cars and traffic of such other company or companies upon such terms as in default of agreement between the respective companies, may be settled upon by the Lieutenant-Governor in Council.

(2.) No payment shall be made to any of the said companies in respect of the said grants of aid for any portion of their Railway, until the Commissioner of Public Works shall have reported to the Lieutenant-Governor in Council, that such company has completed the portion of its road in respect of which payment is to be made (including such sidings and station-houses as the Commissioner may think necessary for the accommodation of the public), within the period for completing the Railway or portion thereof named in the Acts relating to the company, or such other period as may by any other Act be fixed for such purpose.

(3.) Payments may be made as portions of the Railway, not less than ten continuous miles, are completed as aforesaid; and in cases where the whole distance aided is less than ten miles, then for such distance.

(4.) After a Company has complied with the conditions necessary, and the Commissioner has reported as aforesaid, scrip or certificates may be issued for and in respect of the said grant; and when signed by the Treasurer of this Province and the Accountant in his department, and countersigned by the Auditor, every such certificate shall be valid and binding on the Province, according to its tenor and effect; and it shall not be necessary for any transferee, in good faith, of such certificate to inquire into, or obtain proof of, any facts stated therein, all of which shall be deemed conclusive as against the Province, in favour of such transferee.

(5.) The conditions contained in section six of the Act of last Session, intituled "An Act respecting Aid to certain Railways, and for other purposes," shall also apply to all Companies receiving aid under this Resolution.

(6.) Each of the said Companies shall furnish such information of the progress of the works on the Railway of the Company as may from time to time be required by the Commissioner of Public Works; and also such statistical or other details, accounts, and information as from time to time may be required from them by the Commissioner after completion of the Railway.

(7.) The location, grades, the widths, and slopes of cuttings and embankments, the plans of bridges, culverts, buildings, and other structures, the weight and section of iron rails, and other details of proposed construction of the Colonization Railways hereinafter mentioned, shall be subject to inspection and approval by the Government Engineer before the commencement of the works, as well as after completion.

(8.) In order to secure the continuous running of the Railways aided by this Act, the iron or steel rails laid from time to time by any of the said Railways are not to be removed by the Company, or by the authority of the Company, without the consent of the Lieutenant-Governor in Council, obtained on the recommendation of the Commissioner of Public Works.

(9.) The appropriation heretofore made to the Kingston and Pembroke Railway for that portion of the Railway from the River Mississippi northward, not yet under construction is hereby cancelled.

The Honourable Mr. Pardue moved, seconded by the Honourable Mr. Crooks,
That this House will To-morrow resolve itself into a Committee to consider certain proposed Resolutions relating to a Railway Land Subsidy Fund.
The Honourable Attorney-General Mowat, by command of the Lieutenant-Governor, acquainted the House that the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolutions, recommended the same to the consideration of the House.

Resolved, That this House will To-morrow resolve itself into a Committee to consider a certain proposed Resolution relating to a Railway Subsidy Fund—which Resolution is as follows:—

Resolved, That inasmuch as the construction of Colonization Railways will promote the settlement and increase the value of certain unsettled lands in the Free Grant Territory of the Province; and inasmuch as it is desirable that a portion of the said lands should be set apart and sold for the purpose of forming a fund to recoup the Province in respect of moneys expended in aiding Railways; a tract of land is therefore set apart for the purpose of being sold, and the proceeds thereof applied to form the fund aforesaid, that is to say, a tract of land at least ten miles in width on each side of the present projected line of the Victoria Railway, or on each side of the line of the said Railway as the same may be hereafter finally located and established, which tract shall extend from the northern boundary of the Townships of Ayr and Clyde to the River Ottawa at or near the mouth of the Mattawan River;

That the said lands so set apart, shall be sold at such price, not less than two dollars per acre, and on such terms and conditions otherwise, as the Lieutenant-Governor may from time to time determine;

That the moneys arising from the sale of the lands so set apart, shall constitute a fund to be called “The Railway Subsidy Fund, 1877,” and a separate account of the same shall be kept by the Treasurer of the Province;

That the Railway Subsidy Fund shall be applied as follows:

(a) The cost and expenses of the collection of the said fund shall form and be the first charge thereon.

(b) The remainder of the said fund shall be applied in or towards payment of the moneys by any Act of this Session granted, or which may hereafter be granted in aid of Railways;

That all pine trees upon the said lands shall be reserved from sale, and the proceeds of the sale of the said trees shall form no part of the said Railway Subsidy Fund;

That in case, after the said lands are placed in the market, the Commissioner of Crown Lands reports in writing that any particular portion or portions of the lands so set apart, is or are not worth two dollars per acre, it shall be lawful for the Lieutenant-Governor in Council to reduce the said price, and the same may thereafter be sold at such reduced rate;

That, notwithstanding anything herein contained, the Lieutenant-Governor in Council may dispose, by way of free grant, of any of the lands so set apart as aforesaid, for the right of way of any railway, or for railway stations workshops, or lands necessarily required for constructing or working any railway, or any other lands required for public purposes, and of which the Lieutenant-Governor in Council may deem it to be in the public interest to make free grants.

The Honourable Mr. Cameron, proceeding to speak to the Resolutions, an objection was taken, and the Speaker having been appealed to decided, That if any motion be made in the House involving a charge upon the people, the debate shall not be presently entered upon, but shall be adjourned until a future day.

The House, according to Order, proceeded to take into further consideration the Resolutions reported from the Committee of Supply on Tuesday, the fifteenth day of February instant, the consideration whereof had been postponed.

Resolved, That the Committee have leave to sit again at the Second Sittings of this House To-day.

Mr. Clarke (Wellington), from the Committee to whom was referred certain proposed Resolutions relating to Railway Aid and to the Railway Land Subsidy Fund, reported the Resolutions as follow:—

Resolved, That, subject to the conditions hereinafter mentioned, aid shall be granted out of the Consolidated Revenue Fund to the undermentioned Railway Companies, for the construction of the portions of Railway hereinafter mentioned, as follow, that is to say:

The Victoria Railway Company, from Kinmount Village to Haliburton, a distance of about twenty-two miles, at the rate of six hundred and ninety two dollars and sixteen cents per mile, per annum, payable half-yearly for twenty years;

The Whilby and Port Perry Railway Company from Port Perry to Lindsay, a distance of about twenty-seven miles, at the rate of one hundred and seventy-three dollars and four cents per mile, per annum, payable half-yearly for twenty years;

The Credit Valley Railway Company, from Toronto to Ingersoll, and its branches, from Streetsville to Alton, and from Cataract to Elora, being in all a distance of about one hundred and fifty-two and a half miles, at the rate of eighty-six dollars and fifty-two cents per mile, per annum, payable half-yearly for twenty years, such last mentioned aid being in addition to former grants to this Company;

The Montreal and City of Ottawa Junction Railway Company, from the boundary line between Ontario and Quebec, to or near the City of Ottawa, a distance of about sixty-six miles, at the rate of eighty-six dollars and fifty-two cents per mile, per annum, payable half-yearly for twenty years, such last mentioned aid being in addition to former grants to this Company.

The payment of such aid under this Resolution shall be computed in manner following, that is to say:

(a.) If the portion of the railway for which payment is made has been completed between the first day of January and the first day of July, the payments shall be computed as commencing on the first day of January of the preceding year;

(b.) And if the portion for which the payment is made has been completed between the first day of July and the thirty-first day of December, the payments shall be computed as commencing on the first day of July of the preceding year.

Resolved, That all of the said grants of aid are to be respectively subject to the following conditions:

(1.) The Lieutenant-Governor in Council may require any railway company so aided to enter into an agreement or agreements with any other railway company or companies, containing such terms and details as the Lieutenant-Governor in Council may approve of, in order to secure running powers or rights of user to such company or companies over the line or portion of line of railway of the company aided under this Resolution, or former Acts, or
in the discretion of the Lieutenant-Governor in Council, for the haulage thereover of the cars and traffic of such other company or companies upon such terms as in default of agreement between the respective companies, may be settled upon by the Lieutenant-Governor in Council.

(2.) No payment shall be made to any of the said companies in respect of the said grants of aid for any portion of their Railway, until the Commissioner of Public Works shall have reported to the Lieutenant-Governor in Council, that such company has completed the portion of its road in respect of which payment is to be made (including such sidings and station-houses as the Commissioner may think necessary for the accommodation of the public), within the period for completing the Railway or portion thereof named in the Acts relating to the company, or such other period as may by any other Act be fixed for such purpose.

(3.) Payments may be made as portions of the Railway, not less than ten continuous miles, are completed as aforesaid ; and in cases where the whole distance aided is less than ten miles, then for such distance.

(4.) After a Company has complied with the conditions necessary, and the Commissioner has reported as aforesaid, scrip or certificates may be issued for and in respect of the said grant ; and when signed by the Treasurer of this Province and the Accountant in his department, and countersigned by the Auditor, every such certificate shall be valid and binding on the Province, according to its tenor and effect; and it shall not be necessary for any transferee, in good faith, of such certificate to inquire into, or obtain proof of, any facts stated therein, all of which shall be deemed conclusive as against the Province, in favour of such transferee.

(5.) The conditions contained in section six of the Act of last Session, intituled "An Act respecting Aid to certain Railways, and for other purposes," shall also apply to all Companies receiving aid under this Resolution.

(6.) Each of the said Companies shall furnish such information of the progress of the works on the Railway of the Company as may from time to time be required by the Commissioner of Public Works; and also such statistical or other details, accounts, and information as from time to time may be required from them by the Commissioner after completion of the Railway.

(7.) The location, grades, the widths, and slopes of cuttings and embankments, the plans of bridges, culverts, buildings, and other structures, the weight and section of iron rails, and other details of proposed construction of the Colonization Railways hereinafter mentioned, shall be subject to inspection and approval by the Government Engineer before the commencement of the works, as well as after completion.

(8.) In order to secure the continuous running of the Railways aided by this Act, the iron or steel rails laid from time to time by any of the said Railways are not to be removed by the Company, or by the authority of the Company, without the consent of the Lieutenant-Governor in Council, obtained on the recommendation of the Commissioner of Public Works.

(9.) The appropriation heretofore made to the Kingston and Pembroke Railway for that portion of the Railway from the River Mississippi northward, not yet under construction is hereby cancelled.

Resolved, That inasmuch as the construction of Colonization Railways will promote the settlement and increase the value of certain unsettled lands in the Free Grant Territory of the Province; and inasmuch as it is desirable that a portion of the said lands should be set apart and sold for the purpose of forming a fund to recoup the Province in respect of moneys expended in aiding Railways; a tract of land is therefore set apart for the purpose of being sold, and the proceeds thereof applied to form the fund aforesaid, that is to say, a tract of land at least ten miles in width on each side of the present projected line of the Victoria Railway, or on each side of the line of the said Railway as the same may be hereafter finally located and established, which tract shall extend from the northern boundary of the Townships of Ayr and Clyde to the River Ottawa at or near the mouth of the Mattawa River;

That the said lands so set apart, shall be sold at such price, not less than two dollars per acre, and on such terms and conditions otherwise, as the Lieutenant-Governor may from time to time determine;

That the moneys arising from the sale of the lands so set apart, shall constitute a
fund to be called "The Railway Subsidy Fund, 1877," and a separate account of the same shall be kept by the Treasurer of the Province;

That the Railway Subsidy Fund shall be applied as follows:

(a) The cost and expenses of the collection of the said fund shall form and be the first charge thereon.

(b) The remainder of the said fund shall be applied in or towards payment of the moneys by any Act of this Session granted, or which may hereafter be granted in aid of Railways;

That all pine trees upon the said lands shall be reserved from sale, and the proceeds of the sale of the said trees shall form no part of the said Railway Subsidy Fund;

That in case, after the said lands are placed in the market, the Commissioner of Crown Lands reports in writing that any particular portion or portions of the lands so set apart, is or are not worth two dollars per acre, it shall be lawful for the Lieutenant-Governor in Council to reduce the said price, and the same may thereafter be sold at such reduced rate;

That, notwithstanding anything herein contained, the Lieutenant-Governor in Council may dispose, by way of free grant, of any of the lands so set apart as aforesaid, for the right of way of any railway, or for railway stations workshops, or lands necessarily required for constructing or working any railway, or any other lands required for public purposes, and of which the Lieutenant-Governor in Council may deem it to be in the public interest to make free grants.

The Honourable Mr. Pardee moved,
That the Resolution be now agreed to.

Mr. Meredith moved in amendment, seconded by Mr. Patterson (Essex),
That all the words in the Motion after "That" be struck out, and the following inserted in lieu thereof, "the Resolutions be not now agreed to, but be forthwith re-committed with instructions to strike out the paragraph thereof, which provides for the granting of aid to the Credit Valley Railway Company."

And a Debate having arisen,
Ordered, That the Debate be adjourned.

The House then adjourned at 6 P.M.

7.30 P.M.

The following Petitions were severally brought up and laid upon the Table:
By Mr. Ferris, Two Petitions of the United Counties of Northumberland and Durham.

The Order of the Day for resuming the Debate on the reception of the Report from the Committee on the Resolutions respecting Railway Aid, and the Railway Land Subsidy Fund, adjourned at Six of the clock To-day, having been read,
The Debate was resumed.

And the proposed Amendment, having been put, was lost on the following division:

YEAS.

Messieurs

Baxter, Hardy, Massie, Rosevear,
Boultr, Haigraft, Meredith, Ross,
Broder, Ha kin, Merrick, Snetsinger,
Creighton, McDougall, (Mid-
Currie, dlessex), Patterson (Essex),
Grange, McMahon, Preston,

Wills—21.
Mr. Creighton then moved in amendment, seconded by Mr. Lauder,
That the following be added to the Resolutions:—

"This House regrets that the Government has not recommended for the consideration of the people’s representatives the expediency of granting further aid to the Toronto, Grey and Bruce Railway Company, in respect of the portion of the line between Weston and Orangeville, which portion has not heretofore received Government aid."

Mr. Speaker said, That this was an abstract Resolution, tending to an appropriation of part of the Public Revenue. The question of this right of private members to move abstract resolutions of a certain character seems to have been decided in a case reported in the Journals of this House, 1868–9, p. 67, where a motion, that it was expedient to attract immigration into this Province by granting certain privileges as to cutting and disposing of timber, was ruled out of order, not only by the Speaker but, on appeal, by the House. By a reference to the Globe report, it will be found that the question of abstract Resolutions upon matters affecting the Revenue was fully discussed. See also 7 Jour. Ont., 255; 8 Ib., 125; see also 1 Todd, p. 252; May, p. 585 161 Han., 1448; 205 Ib., 394. The form of the present motion—expressing regret, &c.—differs from those referred to, and perhaps involves other considerations. At all events, the matter was one of so much importance that, with the permission of the House, he would postpone the further consideration of it until the third reading of the Bill, when the same amendment could be moved.*

The original Motion, having been then put, was carried, and the Resolutions, having been read the second time, were agreed to.

The following Bill was introduced, and read the first time:—

Bill (No. 123), intituled, "An Act respecting aid to certain Railways, and the creation of a Railway Land Subsidy Fund."—The Honourable Mr. Pardee.

Ordered, That the Bill be read the second time, at the First Sitting of this House To-morrow.

The Order of the Day having been read for the House to resolve itself into a Committee to consider a certain proposed Resolution respecting the Rockwood Asylum,

The Honourable Attorney-General Mowat, by command of the Lieutenant-Governor, acquainted the House that the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends the same to the consideration of the House.

The House accordingly resolved itself into the Committee; and, after some time

* The amendment was not moved at the third reading, and no decision upon the question of order was therefore given.
spent therein, Mr. Speaker resumed the Chair; and Mr. Clarke (Wellington), reported, That the Committee had come to a Resolution.

Ordered, That the Report be received forthwith.

Mr. Clarke (Wellington), from the Committee, reported the Resolution as follows:—

Resolved, That this House doth ratify an agreement relating to the purchase by this Province, from the Dominion of Canada, of the Rockwood Asylum property, which agreement is in the words following:—

THIS AGREEMENT, made the day of in the year of Our Lord one thousand eight hundred and seventy-seven, between Honourable Alexander MacKenzie, as Minister of Public Works of Canada, and the Honourable Christopher Finlay Fraser, as the Commissioner of Public Works of the Province of Ontario

Whereas, by the Act of the Parliament of Canada, 34 Victoria, chapter 26, after reciting that it may be found expedient to sell or lease Rockwood Asylum and its appurtenances to the Province of Ontario; and that it appears that the Commissioner of Public Works for that Province has been authorized to treat for the purchase or lease thereof, it is enacted as follows:—“I, the Governor in Council, may authorize and instruct the Minister of Public Works to treat with the Commissioner of Public Works for the Province of Ontario, for the sale or lease of Rockwood Asylum, and the land appurtenant thereto, and if the said Minister and Commissioners agree upon the terms of such sale or lease, and such terms are approved by the Governor in Council, the necessary measures may be adopted for giving effect to such agreement, subject to the approval of Parliament at its then next session;”

And whereas, the Commissioner of Public Works for Ontario has been authorized to treat for the said purchase;

May it please your Excellency:—

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Excellency at the close of our labours with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Excellency's acceptance a Bill intituled "An Act for granting to Her Majesty certain sums of money to defray the expenses of Civil Government for the year 1877, and to provide for certain sums expended for the Public Service in the year 1875," thus placing at the disposal of the Crown the
means by which the Government may be made efficient for the service and welfare of the Province.

To this Bill, the Clerk of the House, by command of the Lieutenant-Governor, did say:—

"The Lieutenant-Governor doth thank Her Majesty's dutiful and loyal subjects, accept their benevolence, and assent to this Bill, in Her Majesty's name."

The Lieutenaut-Governor was then pleased to deliver the following Speech:—

Gentlemen of the Legislative Assembly:—

It is now my pleasing duty to relieve you from the labours of the Session, and to thank you for your assiduous attention to, and careful consideration of, the various measures which at the opening of the Session I thought fit to bring to your notice.

The results of your work cannot fail to have a beneficial influence in the promotion of the best interests of the Province; and the measures that you have passed indicate emphatically the valuable functions of the Local Legislature, which brings so much prudence and knowledge to bear upon questions materially affecting the welfare of the people of Ontario.

The body of Statute Law which you have revised will, within a short period, be issued in as perfect a form as is possible; and I have to congratulate you on the completion of a work which is of the utmost importance to our whole community. All concerned with public, municipal, legal or educational affairs, will in future be able to readily inform themselves on the subjects of law provided for by these statutes.

The amendments which you have made in the law respecting the sale of fermented and spirituous liquors will, I trust, promote the more efficient administration of that law, and tend to diminish the evil of intemperance, which has so baneful an effect upon the progress and civilization of our country.

The important improvements made by the Act respecting Education, will, doubtless, conduce to perpetuate and encourage the beneficial influence of education upon the whole youth of the Province.

You have shown your appreciation of the value of Railway facilities in increasing the material prosperity of the Province, by your prudent consideration of applications made for aid from Provincial sources, and by your recognition of those Railways whose construction will encourage the settlement of the large area of Provincial territory which is still unoccupied.

I am glad that you have not overlooked the claims upon our humanity, which required further provision for the accommodation of those classes who are unfortunately unable to care for themselves; and I am pleased to find that my recommendations on this subject have been so well carried out by you.

The extension of the franchise to the sons of farmers will remove some prevalent abuses, as well as infuse a further element of patriotism into the consideration of public affairs.

I perceive with satisfaction that you have not overlooked the important bearing which the pursuits of agriculture, and of the different arts, have upon the progress of the Province.

I have to congratulate you on the other important measures to which I have given my sanction.

I thank you for the supplies which have been granted for the service of the current year, and which it will be my duty to see applied with due economy, having regard to the efficiency of the public service.

The Honourable Mr. Fraser, Commissioner of Public Works, then said:—

Mr. Speaker and Gentlemen of the Legislative Assembly:—

It is the Lieutenant-Governor's will and pleasure that this Legislative Assembly be prorogued until Wednesday, the Fourteenth day of April next, to be then here holden; and this Legislative Assembly is accordingly prorogued until Wednesday, the Fourteenth day of April next.
APPENDIX.

No. 1.—Reports of the Committee on Public Accounts, in Sessions of 1875–6 and 1877.
REPORT

OF THE

COMMITTEE ON PUBLIC ACCOUNTS.

To the Honourable the Legislative Assembly of the Province of Ontario.

The Standing Committee on Public Accounts beg leave to present the following as their

FIRST REPORT.

Your Committee report that at its Session of To-day (18th January, 1876), the following Resolution was adopted: “That inasmuch as some of the members of the Committee have met on three or four occasions, but have been unable to proceed, the quorum being fixed at the number of nine, and that number not being present, it is, therefore, resolved, That the Chairman be requested to ask the House to reduce the number necessary to form a quorum, to the number of seven.” Your Committee therefore recommend its confirmation by your Honourable House.

All which is respectfully submitted,

Peter Gow,
Chairman.

Committee Room,
18th January, 1876.

To the Honourable the Legislative Assembly of the Province of Ontario.

The Standing Committee to whom was referred the consideration of the Public Accounts beg leave to present the following as their

SECOND REPORT.

Your Committee have thoroughly examined the Public Accounts for the year ending 31st December, 1874, and made special enquiry into those in connection with the Central Prison and Colonization Roads; they have carefully compared the whole of the vouchers in these matters, and taken evidence upon such points as they deemed necessary, and submit it, with a record of their minutes of proceedings.

Your Committee were unable to make a complete investigation into the Public Accounts of 1875, as the statement laid before them was for nine months of the year, and was not in detailed form. This arises from the fact that it is impossible to bring down the detailed statement for the year until the month of February, or at a time when the
labours of the Session are generally closed. To obviate this difficulty the Committee recommend for the consideration of the Legislature such a change in the Financial year as would cause it to commence on the first day of July and close on the thirtieth day of June in each year. A temporary inconvenience would arise from this alternative, but the increased facility for investigation of matters still fresh in the public mind would more than counterbalance it, and in the opinion of the Committee warrant the proposed change.

Your Committee find that, wherever practicable, the system of tender and contract has been fully carried out, and that where it was impossible to adopt it, a strict supervision has been exercised over expenditure.

All which is respectfully submitted,

Committee Room,
4th Feby., 1876.

PETER GOW,
Chairman.

Mr. Hay appeared at the request of the Committee, to explain what they were inclined to think was an overcharge in this account, viz.: an item of $115.00 for curtains for Mr. Speaker’s rooms, and an item of $90.00 for recovering and restoring furniture. Mr. Hay explained to the satisfaction of the Committee, that those prices charged were the same as charged to private individuals, for the same class of goods, and that in no case did he charge the Government any more for furnishing, than he charged any other of his customers.

Considered.—Thomas Short, Expenses re-transfer of prisoners to Central Prison........................................ $2,306 94

Mr. Langmuir appeared at the request of the Committee and explained the mode and cost of conveying prisoners to the Central Prison. He said the average cost of transferring each prisoner was $5.70 per head—this includes all prisoners, those from the City of Toronto, as well as those from outside said city.

It was moved by Mr. Lauder, and seconded by Hon. Mr. Macdougall, that sub-committees of this Committee be appointed to investigate all accounts and payments connected with the Central Prison, and the expenditure on Colonization Roads for 1874 and 1875.
It was moved in amendment by Mr. Clarke, and seconded by Mr. Ferris, to strike out first “that” and substitute “the matters connected with the Central Prison and Colonization Roads involve not only questions of account, but also questions on which the Committee may be required to offer recommendations as to any future policy or proceeding, and that in view of these special circumstances it is expedient that the Committee delegate their functions in these cases to a sub-committee.”

This Amendment was lost on the following division:—

Hon. Mr. Macdougall,

Mr. Ferris moved, seconded by Mr. Clarke, in amendment.—That the reference to any sub-committee that may be appointed be of items of account only where no policy is involved, but on questions where principles are involved, such as the Central Prison and Colonization Roads expenditure, should have the fullest investigation by the whole Committee.

The chairman rules this amendment out of order.
Mr. Ross moved in amendment, seconded by Mr. Hay, that the following be added to the motion.
“‘And report the evidence as to fact to this Committee.’”

Mr. Clarke moved in amendment to the amendment, seconded by Mr. Gibson, that all the words after “that” be struck out and the following substituted:—“It is not necessary or advisable to appoint sub-committees for the consideration of the Public Accounts until it has been shown that there is not sufficient time for a full investigation of the most important items of such accounts, but that this Committee do at once proceed.
to an enquiry into the items under the heads of Colonization Roads and Central Prison.'

The amendment to the amendment was carried on the following division. It being a tie, the chairman voted with the yeas:—

On a suggestion from the Chairman it was agreed that the Committee meet to-morrow at 10 o'clock a.m., and proceed to the Central Prison, with a view of getting as much knowledge of construction &c., as possible, in order to facilitate the investigation.

Committee then adjourned at 1.10 p.m., until to-morrow, Wednesday 22nd, at 10 a.m.

Page 84 Considered.—COLONIZATION ROADS.

Mr Bridgland, at the request of the Committee, explained the mode of doing the work on these roads; he said part was done by contract, and part of them by days' work. They often found it more advantageous to do the work under overseers by days' work, as in many cases when they called for tenders, the tenders were at such high figures that they could not accept them, but the principal work done by days' work was repairing. As to the mode of getting supplies for the men sent out, Mr Bridgland explained that they went round to the different merchants and got prices from them of what they would furnish certain supplies for, and they gave it to the lowest offer.

Mr Bridgland was requested to produce before the Committee to-morrow, all accounts for supplies, also a statement showing the wages paid each overseer and the men under them.

PETER GOW, Chairman.

The following Report was presented to the House this day:—

To the Honourable the Legislative Assembly of the Province of Ontario.

The Special Committee for the consideration of Public Accounts beg to report, That at its Session of to-day the following resolution was adopted:—

"That inasmuch as some of the members of this Committee have met on three or four occasions, but have been unable to proceed, the quorum being fixed at the number of nine, and that number not being present, it is therefore resolved that the Chairman be requested to ask the House to reduce the number necessary to form a quorum to the number of seven."

Your Committee would therefore recommend its confirmation by your Honourable House.

(Signed) PETER GOW, Chairman.

TREASURER'S OFFICE,
WEDNESDAY, 19th January, 1876.

Committee met.

Present:

Hon. Mr. Gow—Chairman.
Hon. Messrs. Crooks and Wood,
" Clarke (Wellington),
" Ferris,
" Gibson,

Messrs. Hay,
" Ross,
" Striker.—9.

Mr. Bridgland appeared before the Committee and produced copies of contracts, pay lists, accounts for supplies, &c., in connection with Colonization Roads.

Mr. Bridgland explained that the overseers were paid from $1.50 to $3.50 per day, according to their ability and the work they were intrusted with. Previous to 1875, some of the overseers were paid as high as $4, but the Commissioners reduced the amount to $3.50.

Mr. Bridgland agreed to have prepared for the Committee a tabular statement showing:

1st. The name of the work.
2nd. The name of the overseer.
3rd. The amount per diem paid overseer.
4th. The average rate paid foremen.
5th. The average rate of wages paid labourers.
6th. The amount expended.
The rate to include that for the year 1874 as well as 1875.

Mr. Bridgland here produced, at the request of the Committee, a synopsis of tenders received for supply of groceries purchased and used by the men working on the roads done by day’s work.

Mr. Bridgland further explained to the Committee, that in no case did they pay men that were hired by the day for any days they might lose through bad weather, or by any other reason. Men with teams that are engaged drawing supplies, are never furnished with board either for themselves or horses. I am in favour of giving out these works by contract where it can be done beneficially, but as a rule, except on new roads, it cannot be done as well nor as cheaply by contract as by days’ work. We are guided a good
deal in doing this work by the reports we get in the Department from the localities where
the work is to be done. These matters are always brought before the Commissioner.
There is a great deal of this work that is impossible to get done by tender, such as repair-
ing, &c.; such jobs can be done much more efficiently by days' work. The bulk of the
work cannot be done by contract.

All vouchers, &c., asked for at a previous meeting were produced.
Committee adjourned at 12.54, until to-morrow, Thursday, 20th January, at 11
o'clock, A. M.

Consideration of accounts, vouchers, &c., connected with Central Prison, proceeded with.

Accounts of George Harding, Plumbing, Gas-fitting, Lock-smithing, &c.
Mr. Tully gave an explanation with regard to an account of Mr. Harding, for extra work, amounting to $263.75, which he said was for a better class of pendants that were put up in the Warden's apartments. The Warden did not seem to be satisfied with the pendants to be put up according to Mr. Harding's contract, and the Commissioner and Mr. Langmuir went down to Mr. Harding's establishment, and chose a better class of pendants for his (the Warden's) apartments only, and Mr. Harding merely charged as extra the difference between those according to contract, and those that were put up.

Another account of Mr. Harding's, amounting to $3,740.00, was, Mr. Tully explained, that this amount includes the steam apparatus for all the additional heating for the upper tier of cells in the two wings. It took about 5,000 additional feet of piping for extra coils. Mr. Harding was paid at the regular trade prices for such work.

The following account explains the whole of Mr. Harding's transactions, at the Central Prison:

Architect.
The accounts of Thomas Lalor & Sons, for plumbing, gas-fitting lock-smithing, &c., amounting to $3,425.26, were examined. Accounts, vouchers, &c., were found correct and passed.

These accounts were for a contract, Messrs. Lalor & Sons had for putting the Simultaneous Locking Patent, &c., on the prison doors; also, making iron doors and shutters.

Accounts, vouchers, &c., of Hugh Hennessy, were next produced, for iron work, amounting to $2,361.70.

Mr. Tully explained, that Mr. Hennessy's contract was, for to make the locks and put them in. Account produced, amounting to $356.00 for extra days' work, Mr. Tully said, was for days work in cleaning and oiling locks that had been delivered by Mr. Hennessy, as part of his contract, but in consequence of being delivered before they were required, they were boxed up and got rusted, so they required to be cleaned and oiled. He had to send men to fit them in here. His contract was to fit them in Hamilton, this is the reason he was allowed it.

The locks charged for at $14.00 each, were extra locks, and were more complicated; they had to open from both sides; they were more expensive than the contract locks.

Another account of Mr. Hennessy, amounting to $413.80, 198 days, putting plates on cells doors and freeing doors, Mr. Tully said the Department supplied the doors, and some of them were not perfectly true, and he had to make them to fit easy, and put a plate on the inside so as the prisoners could not put their hands through, to tamper with the lock. This was recommended by the Inspector.

Accounts passed.

D. S. Keith, account for Cooking Range, &c., amounting to $1,175.00, examined and passed.

Accounts of George Bingham, amounting to $1,153.54, for Iron-work, was next examined.

Mr. Tully said that Mr. Bingham had a contract, and some items charged as extra work were charged at the ordinary price for such work.

Mr. Tully further explained, that it was originally intended that the roof of the third tier of cells should be brick arched, but were afterwards changed to wood ceiling joice, and covered with sheet iron. The iron was purchased from Rice Lewis & Co., by tender, (their tender being the lowest) and Mr. Bingham's accounts were for putting on the iron.

Accounts passed.

M. O'Conner, Painting, Glazing, &c., amounting to $2,884.46. This was also done by contract, and the extra work charged was done at the trade price, as published by the painters of Toronto.

Accounts passed.

Neil Currie & Co., Iron-work, accounts produced amounting to $1,100.00.

Mr. Tully explained, that $1,000 of this sum was for balance of contract for putting in Tanks, &c., and the extra $100, was for putting up and taking down scaffolding used for raising the four cupolas of the building. The cupolas were found to be too low and had to be raised some four or five feet to prevent danger of fire. The $1,000 balance of contract was the 15 per cent. retained by the Government from the firm, until the Tanks were made tight to the satisfaction of the Government.

Accounts passed.

George Evans, Tinsmithing, &c., amounting to $171.59.

Examined and passed.

John Duckworth, Plastering, &c., amounting to $1,224.90. To stand until next meeting of Committee.

Committee adjourned at 1.10 o'clock, until to-morrow, Friday, 21st January, at 11 o'clock, A. M.

Page 73. Considered—Sundry accounts for furnishings, as follows, which were produced by Mr. Harris, Accountant, Treasurer’s office.

A. R. McMaster & Brothers ................................................. $242 88

Mr. Langmuir, Inspector of Prisons and Asylums, appeared at the request of the Committee, and explained the different accounts.

As to the mode of procuring these supplies of dry goods furnished by Messrs. McMaster & Co., Mr. Langmuir said a requisition is made out to the Government shewing the articles that are required, and instructions were given to him (Mr. Langmuir) to purchase these things wherever he could do so to the best advantage. We go to several places and get samples as to colours and quality of goods we require, and we purchase at the cheapest place. The accounts are all sent to his (Mr. Langmuir’s) office to be certified
to before being paid. This class of goods could not be purchased by tender, as in the first place the sheeting they require is an extra width, 45 inches, and has to be ordered specially from the old country as that width is not made here. And, for instance, such as towels, you cannot describe in a specification exactly what kind of an article you want. We purchase at as low rates as any wholesale merchant can purchase, we being cash purchasers. If we undertook to purchase dry goods by specification there would be a great deal of trouble deciding what was the best goods. I am sure it would be very unwise to ask for tenders for dry goods based upon specifications. In all matters of supplies where we can invite tenders, it has been done.

Accounts Passed.

The following accounts were then examined and passed:

E. Remington & Sons, Furnishings........................................ $188 12

This was for rifles, revolvers, &c., for the guards.

Hunter, Rose & Co., furnishings ....................................... 317 45

Mr. Langmuir explained that this was for printing forms and requisitions. They were given to Messrs. Hunter, Rose & Co., because they were the Government printers.

William Scott, furnishings ........................................ $93 88
Connor, Webb & Co. ..................................................... 92 47
John Fensom ........................................................................... 85 78
John McDonald & Co. .......................................................... 63 00
W. H. Sparrow ....................................................................... 52 40
R. Wilkes & Co. .................................................................. 48 90
Thomson & Burns ................................................................... 58 20
F. W. Unit .............................................................................. 34 80
E. J. Burnham ......................................................................... 70 51
N. L. Piper & Son .................................................................... 62 35
Adam, Stevenson & Co. ...................................................... 184 81

Mr. Langmuir explained that this account was also for books for Prison Library. The books for the library were all purchased from those two firms, Messrs. Copp, Clark & Co., and Messrs. Adam, Stevenson & Co. They were all subject to a trade discount of 25%.

Mr. Langmuir further explained that it was only when a prisoner's conduct for the week was good, that they allowed them a book to read and a candle in their cell.

Lugsdin and Bennett, furnishings .......................................... $26 00
Nelson & La Fort, ................................................................... 14 55
Standard Laundry Machinery Co ............................................. 438 96
Thos. Short, sundries .......................................................... 234 57

Mr. Langmuir explained that Mr. Short was Bursar of the Prison, and there were always small items to be paid for cash, such as freight and express charges, and sundry other such items, and the Bursars of the different institutions were each furnished with an accountable warrant for $250, and they had to send in a statement of what they paid out, accompanied by the vouchers, at the end of every month.

A. Montgomery, sundries .................................................. $ 4 85
T. K. Rogers, ......................................................................... 202 36

Mr. Langmuir said this account was for hay and straw furnished while the Government had horses working at the prison.

Mr. Langmuir next explained the items on page 122 of Public Accounts for 1874 as follows:—
Appendix

Mr. Langmuir said this was for a supply of medicine purchased for the prison by Dr. Aikins, it was purchased from Messrs. Lyman & Co. and Hugh Miller.

Butcher's meat, fish, &c ......................................................  $2,530 39

This Mr. Langmuir said was supplied by contract. Tenders were advertised for. 5½ cents per lb. was the contract price for the meat.

Flour, bread and meal ..........................................................  $2,888 35

Also, contract. $5 26 was the price paid for flour. They use one-third fall, and two-thirds spring wheat.

Groceries and vegetables ......................................................  $3,274 39

The groceries are purchased in the same way as the dry goods. Mr. Langmuir said that they had found out from experience that this was a much better mode of purchasing groceries than by contract.

Bedding and clothing ............................................................  $3,596 60

Purchased in the best markets.

Fuel ................................................................. $6,149 97

Contract. Tenders called for.

Light ......................................................... $332 86

Laundry, soap and cleaning ...............................................  $461 06

This was for washing clothes and cleaning cells, &c. This amount was for material only, the labour was done by the prisoners.

Stationery, advertising, printing, postage, &c ..................................  $435 65

Mr. Langmuir said a requisition was sent to the Queen's Printer for what stationery was required for the prison. The advertising was for advertising for tenders for certain supplies. Mr. Langmuir further said that where tenders were called, they invariably gave the contracts to the lowest tenders.

Libraries, schools and lectures ...........................................  $79 00

Mr. Langmuir explained that this item was for cab hire for the clergy and teachers in Sabbath Schools, which they had in the chapel every Sabbath. They had both a Protestant and a Roman Catholic clergyman preaching there for the instruction of the prisoners, and some of the citizens of Toronto go up and teach in the Sabbath School.

Furniture and furnishings ..................................................  $314 61

Mr. Langmuir said that in every institution of this kind they were always requiring some little things that had been omitted when furnishing.

Repairs .................................................................  $217 60

This was for repairs to building and furniture. The sum of $500 was voted each year for this service.

Unenumerated ...............................................................  $459 01

Mr. Langmuir said this was for some items that could not be very well put under any heading.

Deaf and Dumb Institute, Belleville, was the next subject taken under consideration.

Mr. Langmuir explained what the different accounts were for as they were brought up, as follows-

D. S. Keith, on account of contract .......................................... $2,633 15

John Forin, do ............................................................. 300 00

Lewis Kerr, do lumber ....................................................... 209 97

Mr. Tully said that Mr. Christie was Bursar of the Institution, and this amount was for sundry disbursements made by him, for which he returned vouchers to the Department.

Mr. Langmuir further explained the mode of procuring supplies of groceries for the different Institutions. He said the Bursar of each Institute made out a requisition of what he required for three months in advance, and the goods were either purchased by Mr. Langmuir himself, or purchased by samples sent to the Department by the Bursar, and approved of as to quality and price. He, Mr. Langmuir, made all the purchases for the different Institutions in Toronto himself, but sometimes he had to make the purchases for some of the Institutions outside of Toronto, as he said, by samples sent from the different Bursars. Mr. Langmuir further said that he did not think they could be purchased to advantage by tender, as they had found out by experience that when they had given out tenders the goods delivered were not always as per specification—there would always be an inferior tea, or something else shoved on to them. Mr. Langmuir further said that the cost of maintaining a lunatic seven years ago was $150 per annum, and now, when everything is higher, it is only $128. As to coal, Mr. Langmuir said they got it very cheap by advertising for tenders in the spring. He said they had soft coal delivered to them as low as $1 80 per ton in Toronto, and had had it delivered in London as low as $4 90. He said he always sent specification to the coal dealers in the States.

ASYLUM FOR THE INSANE, TORONTO.

Page 114.—By deposited to the credit of the Treasurer $16,048 06

Mr. Clarke (of Wellington) asked Mr. Langmuir to explain what this amount was for.

Mr. Langmuir said it was principally the amount received from paying patients and for some stock that was sold.

Mr. Notman, Accountant and Queen’s Printer, was then called to explain mode of procuring stationery, &c.

Mr. Notman said it was all supplied by contract. Tenders were advertised for every year, and the lowest tender was accepted. He said that everything was bought in the Canadian market. The reason the change was made of buying here, instead of importing as formerly, was because certain of the dealers here made complaints to the Government that they thought it was hardly right to take the trade out of their hands here, when they could furnish the stationery at as low prices as it could be imported for. The rates now are as cheap as in former times. It is very surprising the low rates at which they tender. It is all imported paper that we use. Mr. Notman further stated that it was their intention to get a cheaper paper next year, as it was represented to him that if he got a better class of paper than he had been in the habit of supplying the different departments they would use less, but he had found out by experience that they used more. The stationery is furnished the different departments on a requisition from the Deputy Head, and he, Mr. Notman, kept all those requisitions, and could show at any time where every sheet of the paper went.

Page 74.—Mr. Harris produced all pay-sheets for Central Prison amounting to $37,378 16.

Dr. May, of the Education Office, was ordered to be notified to appear before Committee to-morrow.

Committee adjourned at 12.35 o’clock, until to-morrow, Wednesday, at 11 o’clock, A.M.

PETER GOW,
Chairman.

COMMITTEE ON PUBLIC ACCOUNTS.

TREASURER’S OFFICE,

“ Messrs Crooks and Wood,
   “ Boulter,
   “ Clarke (Wellington),
   " Messrs. Gibson,
      “ Hay,
      “ Striker.—8.

All Accounts, vouchers, &c., in connection with expenditure on account of the Education Department were produced.

Dr. Hodgins and Dr. May were also present to make such explanations as the Committee might require in reference to these accounts.

Page 53.—H. J. Morgan, maps, books, &c $300 80

Dr. Hodgins explained that this was for pamphlets, &c., got from Mr. Morgan in connection with a History of Canada they were getting up. He further said that Mr. Morgan had a lot of these rare pamphlets, &c., that they required, and they exchanged with Mr. Morgan and allowed him this three hundred dollars difference in the exchange. Mr. Morgan, he said, was quite a collector of such things, and this was a very valuable collection indeed. They will be accessible to the public in a short time, as some of them have 26
been bound, and the balance would shortly be bound also, as the Treasurer had given them a small grant this year for that purpose.—Account passed.

This Mr. Spencer had been exhibiting them, and when he came to us first he asked something like $600 for them, but of course we could not think of giving any such price, and we afterwards bought them from him for this sum, $150. It is a very unique and valuable collection. Dr. May further said that the Legislature voted them $3,000 per annum for library and museum.

Dr. Hodgins here explained that they manufactured globes now in the Department, and that they had done them much more correctly than they found those that were imported. They manufactured more than were manufactured in England, Ireland, and Scotland together.

</table>

Dr. May explained that this last item of $950.15 was for colouring maps. The rate paid was decided by the Superintendent of Education. The colouring was never so satisfactorily done as at the present time. Tenders were called for in the first place, and the Superintendent allows me the contract price as he prefers having it done by some one connected with the Department. The tender is so much per map. As to the globes it is very hard to get them coloured properly. An artist asked five dollars each for doing them and they are done now for one dollar each.—Passed.

J. G. Hodgins, Re-constructing Maps ........................................ $458.50

Dr. Hodgins explained, That in the time of the Sandfield Macdonald Administration, after I had my salary reduced, Hon. Mr. Macdonald ordered the Chief Superintendent to give me this work to do provided I would be satisfied to take half the price that had been previously paid to outsiders who had the contract. Tenders had been called for in the
usual way, and I was to take half the price of the lowest tender. I accepted, as I was anxious to try to make up to a certain extent for the reduction of my salary, but as yet have not succeeded in making my salary including this extra work come up to what it was previously. I am quite willing to do this work free provided my salary is raised to the former rate. It is very necessary to have these maps correct up to the present time, and I spend my evenings at this work. My salary has not yet been brought back to what it was in 1868. I have represented to the members of the Government that I would be willing to do this work free if my salary was increased to the same rate as it was in 1868. With regard to a certain map that we wanted we applied to the Commissioners of Crown Lands for it, and he said it could not be got up less than $1,200. I afterwards got it up myself for $400.—Passed.

COUNCIL OF PUBLIC INSTRUCTION.

The only item that information was asked for under this head was on page 57.

Educational Depository—Books................................. $69 85

Dr. Hodgins explained that this item was for text books for the Council.—Passed. Dr. Hodgins further explained, in answer to a question from a member of the Committee with reference to the purchase of medals for competition, that they were purchased through Mr. Potter in London, and cost only about 2 what they would have to pay for them here.

Page 52.—COUNTY EXAMINATION OF TEACHERS WAS NEXT CONSIDERED.

Dr. Hodgins explained that the amount which appears against each of the examination committees is for this extra service. Each of these gentlemen devote their holidays to this work. The Government have agreed to allow them an additional allowance for this year. Dr. Hodgins further remarked that it has always been their aim to keep down the expense as much as possible in this Department. In every case where tenders could be called for any particular work it was always done and given to the lowest tender invariably. It is surprising the amount we have saved in this way.—Passed.

Page 87.—CONSIDERATION OF CROWN LANDS.

Forest Ranging.

Mr. Cooper, of the Crown Lands Department, was called before the Committee to explain the mode of paying, and the kind of work these wood Rangers were employed at.

Mr. Cooper said there were what they called three different staffs of Rangers for the Province. One man was put in charge of each district, and he had to do with all these subordinates under him. It is the Ranger's duty to keep a close look out upon the lumber operations going on in his district, and protect the Government from trespass. The lumberman, or his clerk furnishes the different Rangers with a statement of the number of feet of timber, or number of saw logs he has taken out, and if the gauger has any suspicion that all is not right, he goes to work and makes a measurement of all the timber, &c., over again, at the expense of the lumberman who has furnished him with the return. Mr. McWilliams is engaged at a salary of $2,000 a year, and he pays all his own expenses. He is in charge of the Peterboro' district. If we wish him to go and make a special survey we pay him his railway fare only. He lives at Peterboro'. All the expenses of Rangers are more than compensated for by the amount of trespass we collect. In my opinion it would be a much better system for the Government to have a staff of sworn cullers instead of these Rangers. A regular staff of cullers and a supervisor same as they have at Quebec. All timber is measured through the cullers' office there. There is a collector for our Province at Quebec. There is nothing cut yet in Georgian Bay District. I think it is a great mistake that the cutting of square timber should not be stopped, as the best of the timber is left in the woods. It could be cut in logs of any length required, and sawn and sent to the old country the size it was required and thereby have the labour done in this country where it is now done in the old country.

A draft report was presented by the Chairman, and after being read twice, was carried unanimously.
Committee adjourned at 10.55 o'clock.

The following report was presented to the House this day:

To the Honourable the Legislative Assembly of the Province of Ontario.

The Committee to whom was referred the consideration of the Public Accounts, beg to present the following as their second and final report:

The Committee have thoroughly examined the Public Accounts for the year ending 31st December, 1874, and made special inquiry into those in connection with the Central Prison and Colonization Roads; they have carefully compared the whole of the vouchers in these matters, and taken evidence upon such points as they deemed necessary, and submit it with a record of their minutes of proceedings.
The Committee were unable to make a complete inquiry into the Public Accounts of 1875, as the statement laid before them was for nine months of the year, and was not in detailed form. This arises from the fact that it is impossible to bring down the detailed statement for the year until the month of February, or at a time when the labours of the session are generally closed. To obviate this difficulty, the Committee recommend for the consideration of the Legislature such a change in the Financial year as would cause it to commence on the first day of July and close on the thirtieth day of June in each year. A temporary inconvenience would arise from this alternative, but the increased facility for investigation of matters still fresh in the public mind, would more than counterbalance it, and, in the opinion of the Committee, warrant the proposed change.

The Committee find that, wherever practicable, the system of tender and contract has been fully carried out, and that where it was impossible to adopt it, a strict supervision has been exercised over expenditure.

All which is respectfully submitted.

PETER GOW,
Chairman.

REPORT
OF
THE SELECT COMMITTEE
ON
PUBLIC ACCOUNTS---1877.

To the Honourable the Legislative Assembly of the Province of Ontario.

The Select Standing Committee on Public Accounts beg leave to present the following as their

FIRST REPORT.

Your Committee report that at its Session of to-day (30th January, 1877), the following resolution was adopted:—

"That inasmuch as some members of the Committee have met on several occasions but have been unable to proceed at the hour appointed for the meeting of the Committee, the quorum being fixed at the number of nine, and that number not being present; and considerable loss of time having resulted therefrom, it is therefore resolved, That the Chairman be requested to ask the House to reduce the number necessary to form a quorum to the number of Seven," Your Committee therefore recommend the reduction of the quorum of the Committee to Seven members.

All of which is respectfully submitted,

CHARLES CLARKE,
Chairman.

Committee Room, January 30th, 1877.

The Select Standing Committee on Public Accounts beg leave to present the following as their

SECOND REPORT.

Your Committee have made a full examination of the Public Accounts for 1875, in so far as they relate to Legislation and Colonization Roads, and herewith submit the evidence taken before them, and a copy of the record and minutes of their proceedings to the present date, and of documents placed before them during their investigations.

All of which is respectfully submitted,

CHARLES CLARKE,
Chairman.

Committee Room, February 9th, 1877.
The Select Standing Committee on Public Accounts beg leave to present the following as their

THIRD REPORT.

Your Committee have taken evidence as to the system followed in obtaining supplies for the maintenance of the Public Institutions of the Province, and submit it here-with for the consideration of the Legislature.

Your Committee have also taken evidence relative to the mode of auditing the Accounts of the County Treasurers for the Administration of Criminal Justice, and present it, together with the Minutes of Proceedings to this date.

All which is respectfully submitted,

CHARLES CLARKE,

TREASURER'S OFFICE,
17th January, 1877.

Committee met.

Present:
Mr. Clarke (Wellington) Chairman, Hon. Messieurs Crooks and Wood,
Messieurs Deacon, " Merrick,
" Ferris, " Ross,
" Gibson, " Striker,
" Hardy, " Williams,
" Hay, " Wil s,
" Lauder.

The minutes of last meeting were read and confirmed.

The following memorandum from Mr. J. G. Scott, of the Attorney General's Office, was read in reply to the order of yesterday, for the production of Mrs. Helen Crawford's Lease. "There is no lease. We are tenants from year to year. There were negotiations for a lease, but the matter was never settled."

Lists of the newspapers received in several Departments were produced and laid before the Committee.

Moved by Mr. Ferris, seconded by Mr. Gibson, and resolved—"That the list of newspapers for the several departments seems to be beyond the requirements of the Public Service, and this Committee recommend that the number be reduced."

In reference to the item of $37.67 (page 28), F. C. Law, for services, it was explained that he had retired from the service on the 18th May, and was allowed his salary until the end of the month.

In considering the printing account of Messrs Hunter, Rose & Co., Mr. Notman, Queen's Printer, was called, and gave an explanation to the effect that the Government printing was done by an arrangement made between the firm of Hunter Rose & Co. and the Government, in the fall of 1868. The contract would expire next year. The printing was done under the contract up to the time of the printer's strike, in 1873, by which public business was very much delayed, and the matter for printing accumulated in the hands of the printers. The contractors offered to pay the forfeit and give up the contract, but the Printing Committee finding that the work could not be done so cheaply anywhere else, empowered their chairman to make arrangements for the printing of 1873, at the rate of forty cents per thousand ems, instead of twenty-eight cents, the contract price. The Committee refused an increase in the price of the press work, but increased the price of binding to twenty-two cents. The arrangements of the Committee were sanctioned by the House. The increased prices had not been paid for 1875, as an order to that effect had not been made, and payments for 1873 and 1874, had been made on Orders in Council. He did not think Hunter, Rose & Co. were losing money, but they complained a great deal about the price.

(The Chairman remarked that they were willing to give up the contract.)
Mr. Notman further said, that before the printer's strike they were paid twenty-five cents a thousand ems, but since that, Hunter, Rose & Co. had paid them thirty-three and a third cents. The work for which forty cents was paid, would cost fifty cents anywhere else.

Mr. Notman explained as to the method adopted in the purchase of stationery, for which Tenders were annually called, and contracts invariably given to the lowest tender, and said that the amount held from Hunter, Rose & Co., being the difference between original contract prices, and the prices demanded by them, was about four thousand dollars.

Mr. Notman also said that he had repeatedly brought the matter under the notice of the Government, and had not yet received final instructions as to the payment of the balance claimed by Messrs. Hunter, Rose & Co.

The items for printing were then adopted.

The following accounts were produced and passed:

Messrs. Blake, Kerr & Boyd................................. $104 37
"Edgar, Fenton & Ritchie........................................ 60 00

Mr. J. Morphy, Postage clerk, Crown Lands Department, being called relative to item of $300 (on page 39), for postage, explained that the increase of postage in 1875, over 1874, was caused by all postages having to be prepaid in 1875.

Mr. Langmuir appeared before the Committee and explained the item of $650, for travelling expenses (page 41).

The Committee ordered that Mr. Robert Jaffray, and Mr. John Carroll, be summoned to give evidence to-morrow.

Moved by Mr. Ferris, seconded by Mr. Gibson, and resolved—"That a statement be prepared by the proper officer to be submitted to this Committee, showing the cost of the Central Prison, from the commence ment of the works thereon to the 31st December, 1876, and giving under separate heads the amounts expended for land, buildings, machinery, furniture, and improvements of grounds."

The minutes of last meeting were read, corrected, and signed by the Chairman.

Mr. Robert Jaffray, grocer, Toronto, being called and sworn, gave evidence as follows in reference to supplies furnished to the Government for Colonization Roads:—

I reside in Toronto. I have supplied the Government with groceries for Colonization Roads since May, 1874. I was asked by the Crown Lands Department to furnish a list of prices, and to tender for the groceries required. I do not recollect of any advertisement for tenders. I received the letter from the Crown Lands Department in reference to groceries. I sent in my tender. I may have the letter from the Crown Lands Department, and, if so, can find it. I sent my tender to the Crown Lands Department. I received an order on the 15th May, 1874. I had no other communication then from the Crown Lands Department; only received an order for so much. I cannot state the amount of the order, but the usual
amounts of such orders are from $60 to $120. The order was likely signed by T. H. Johnson, Assistant Commissioner of Crown Lands.

I furnished goods under the same arrangement in 1875. I modified the prices myself somewhat, without any intervention of the Government. The Department did not refrain from complaining when there was any reason for it. There were complaints as to the quality of pork, but not as to prices. I furnished goods in 1875 to the amount of $7,891 under the old arrangement. During the past season parties claimed that they could furnish teas cheaper than I could, but I found, on comparison, that my teas were better value. I still continue to supply goods, such as teas, coffee, sugar, syrup, beans, dried apples, &c. I do not usually supply pork, but did supply a small quantity, when the quantity tendered for was not sufficient.

I furnished goods in 1874 to the amount of $6,920.37, and in 1876, the amount of $2,846.45.

I am a supporter of the present administration; have been chairman of the Hon. Mr. Crooks' Election Committees, and have taken an active part in politics.

There was no written agreement with any official of the government for the supply of goods.

I am a wholesale and retail grocer, but my wholesale business is much the largest. I furnish goods to the Government at wholesale prices. I have no memorandum of prices. It is scarcely possible to take tenders for such goods. I did reply, and sent a list of prices to Crown Lands Department. There was no other agreement except tender. I ship the goods, and send the invoices to the foremen on the Colonization Roads.

In reply to question as to whether Messrs. W. Griffith, F. Smith & Co., P. G. Close & Co., John Smith & Co., R. J. Griffith, and Geo. Michie & Co., had tendered for supplies, the witness said:

I was aware that most of the prominent merchants of Toronto had been asked to tender.

(Evidence continued).

I do not know as a matter of fact whether my tender was the lowest, but I believe it was.

The following synopsis of tenders received for supplies in 1874 was then read to the witness:

Witness.—I think my tender lower than those just read.

(Tenders here handed to witness for examination.)

Witness.—Taking the average prices throughout, I think my tenders were the most favourable.

It would depend on the quality of the goods ordered, and the goods furnished.

Mr. Cashman frequently inspected the goods before they were shipped. I furnished no tea as low as 20c. nor as low as 40c. per lb., unless this year. I did not furnish any syrup as low as 32c. The quality of syrup furnished was as required by the Department.
Syrups in 1875 were higher, and my prices were raised by arrangement with Mr Cashman.

I had no information of a specific character from the Department as to the quality of goods to be furnished, neither had I any intimation that any 20c. tea was required. The contract price of soap was 5c. per lb., and 7c. were charged on account of a better quality being required. I supplied green tea at 60c. and black at 55c. per lb. I also furnished some rice to the Department at 5c. per lb. I was paid by cheque on the Department on the evidence of Mr. Johnson, Assistant Commissioner, or of Mr. Bridgland. I think I furnished tea at less than 55c. These increased prices were by arrangement with Mr. Cashman. There were no arrangements or writings with the Commissioner or the Department. I would have had a greater percentage of profit on the 20c. tea than on the higher priced tea. It is impossible to classify syrups, as names and qualities change. The quality of soap is more easily ascertained and classified by the factory where it is made, and by the brand. The quality of soap sold at 7c. per lb., was a higher grade than tendered for. My reason for saying that my tenders are the lowest, is that my minimum prices are lower, and my maximum prices lower also on an average. I do not believe that any merchant could furnish goods to the Department at a lower rate. The prices of teas sold at the time would range about, as quoted in the tender, or about 60c. I considered my tea as good as any sold in Canada; I do not think we would charge any one 70c. for it wholesale. The tea sold at 60c. would be about the best; that sold at 55c. not quite so good. These teas would retail at about 75c. and 80c. The sugar furnished was of medium quality. The syrup was of the best ordinary quality. The teas furnished was Young Hyson and Black tea of the best quality, but not fancy teas. My profits would be about ten per cent. My tenders are as specific as others. I furnished supplies for different roads. The superior quality of soap was sent by order of the Department through Mr. Cashman. I charged wholesale prices for all.

Mr. Jaffray's examination resumed.

Mr. Cashman, and one of the foremen came to me and complained of the quality of soap for which they had paid 7 cents per lb. to the party who had supplied them previous to 1874. They selected the quality of soap for which I charged 7 cents wholesale. I made less percentage of profit on the soap supplied than I would have done by supplying the article that was mentioned in my tender. By furnishing the higher priced soap the additional expense to the Department would be about $36 per annum. I believe the best quality is the most economical. I cannot account for the difference in the qualities supplied in 1875 and 1876. I know positively that there is a modification of prices in 1876 in teas, but cannot say whether there was any modification in 1874 or 1875 with regard to the other goods. I cannot tell the brand of the soap delivered throughout, but the quality would be about equal to what is known as gold and silver bar.

(Signed) Robert Jaffray.

On the motion of Mr. Lauder it was ordered,—That the Tenders for supplies and a synopsis of the accounts for 1874 and 1875, giving prices and quantities of goods furnished by Mr. Jaffray, be recorded in the minutes.

It was also ordered,—That Mr. J. W. Bridgland and Mr. C. Cashman be summoned to give evidence to-morrow.

TREASURER'S OFFICE,
TUESDAY, 23rd Jan., 1877.

Committee met.

Present:

Mr. Clarke (Wellington), Chairman.
Hon. Messieurs Cameron, Crooks, and Wood,
Messieurs Deacon,
  " Ferris,
  " Gibson,
Messieurs Merrick,
  " Striker,
  " Williams,
  " Meredith.—11.

The minutes of the last meeting were read and confirmed.
Mr. C. Cashman, of the Crown Lands Department, was called, sworn and examined in reference to supplies furnished the Department for Colonization Roads.
Cornelius Cashman being sworn, deposed:— (Examined by Hon. Mr. Crooks.)
I am an officer in the Colonization Road Branch of the Crown Lands Department.
The present system in ordering supplies to persons on the road is by advertising for known brands of such as flour and pork; other goods are bought in market after inspection. We advertise for known brands of goods. Articles that are variable are bought at the best value of medium and serviceable goods, such as teas, rice, soaps, syrups and goods of that description. The supplies are bought to supply the workmen, beginning 1st May and ending in November. We make an estimate of pork and flour at the beginning of the season, and buy such quantities of other articles as are required for about half the season, because they are perishable, and there are no places but shanties to store them in. The goods are bought in larger quantities when the distance to railways is greater. We have the tenders for supplies for our branch for 1875—such as to throw light on my state—
Appendix (No. 1.)

A. 1877

I produce synopsis of the prices. We advertised last year for mess pork and a particular brand of flour. I produce the tenders for pork supplies in 1874; they were not advertised for, but I went around to dealers, and got the tenders now produced. I don't know that we advertised in 1875. I have not the tenders for 1876. I do not produce all the accounts of 1874. I can't say that we advertised for pork and flour before 1876. All the articles we advertised for tender for were pork and flour; the other articles can't well be advertised for, because they are not branded in such a way that you could tell the quality of them when advertising. I inform myself of prices of these goods by visiting houses in the City. In syrups, teas, &c., I judge of quality in buying. I find by the quotations given me and the quality shown, who can supply these goods as cheap as I can get in the market. The synopsis of tenders for supplies, 1874, show the result of my proceeding. I have been engaged in this work of the Department since October, 1873. This particular duty was done before by Mr. Bridgland himself, I think, the Superintendent. The goods were bought mostly in Toronto, but in some places, such as back of Ottawa we obtained from persons in Pembroke the price of pork and flour. We found flour could be bought cheaper there than here, and sent only pork. Wherever groceries run short, in almost every instance from 25 per cent to 60 per cent more has to be paid in other parts of the country than in Toronto. We find Toronto the best place to buy general groceries, and even pork, except in one instance—Parry Sound—where we should be able to buy American pork to the same advantage. I have been a grocer since 1852; part of the time on my own account. The goods are sent to the overseer of the particular road by the person from whom we buy; and he sends us invoice and duplicate—railway or steamboat receipt, as the case may be—and he ships them. We arrive at the cost of an article at any place but Toronto by adding to the price the freight. There is scarcely a point on our roads but Toronto is the centre for purchasing. We can get goods from Montreal to Toronto, as cheap as from Montreal to Ottawa, and so far, except back of Ottawa, Toronto is the cheapest place to buy. My instructions in buying, were to get the best medium, and if I could, buy to as good advantage from Mr. Jaffray to do so. I judged Mr. Jaffray's prices by comparing them with those of P. G. Close, from whom I got samples of Teas; John Smith—(teas), and Frank Smith & Co. (teas). The latter I visited once. I don't think there have been over five or six barrels of sugar used in five years. As to syrups, in 1874 we could have arrived at the quality of syrup, as Redpath made brands of syrups, but since he is out of the market it can be got at any price, and the only way to judge, is to test it. I judged Mr. Jaffray's syrups by getting quotations from the parties named, and also from a broker named Stewart. As to rice, the price fluctuates but very little, five cents has been the highest; it has gone down to four and a half cents. In 1875 and 1876 it was as low as four and a half cents. These were the ruling prices. Mr. Jaffray got all the purchases of that class of goods. He first tendered in 1874, and the first purchases were made then, through me. The prices were given me by him. Mr. Jaffray gave me quotations and after the items were submitted, Mr. Bridgland told me if I could buy from Jaffray as cheap as anywhere to get them there. In 1873 R. G. Griffith, corner Church and Front Streets, was supplying goods. I went to him in 1874, as I was told to get tenders from leading wholesale men. Mr. Jaffray got the contract because I reported that on the whole his goods were cheapest. [Hon. Mr. Cameron thought the Committee would have to have Mr. Griffith's accounts of 1872 and 1873. Hon. Mr. Crooks requested witness to make synopsis of them, which Mr. Cashman agreed to do.] Mr. Cashman continued—There were tenders for certain quantities of pork and flour. We didn't go to Jaffray, for he didn't deal directly in them. When the amount was distributed and we wanted more, we permitted Mr. Jaffray to complete a bill sent in by an overseer when it would be a small quantity. In 1874 Gardner and Ramsey got the contract for pork and flour. I could show the difference in prices, but pork varies. In 1874 I got offers from Gardner & Ramsay, Bailling & Grainger, J. Herson, Neil Johnson, D. Cowan, Morrison, Taylor & Co., and that of Gardner & Ramsay was accepted, for they agreed to deliver Canadian pork, and the others would not, and it is worth from 50c to $1.50 a barrel more than other pork. In 1875 we either took the same method or advertised; I don't know. The same people got the supply. In 1876 R. A. Ramsay & Co. got the supply. They were publicly advertised for. In 1874 flour was got in the same way as the pork. I think, but am not prepared to say, either Mr. Ramsay or Mr. Jaffray got
the flour, I think. In 1875 the same process was followed with flour as to pork. Mr. Jaffray or Mr. Ramsay got the supply.

[The witness agreed to give a list of persons for 1874, 1875, and 1876, offering to supply, and also a synopsis of tenders.]

In 1876 we advertised, and R. H. Ramsay got the supply of flour.

[Hon. Mr. Cameron suggested that witness should make out a memo. of prices paid Mr. Jaffray; also a statement of flour and pork actually purchased from Mr. Jaffray and prices paid for it.]

Witness to Mr. Cameron:—Mr. Jaffray had a contract for flour in one year. Previous to coming into the Crown Lands Department in 1873, I was engaged in the grocery trade. I had been winding up the estate of, and travelling for, the late Jas. Stock. I was first in the Land Branch. About the middle of October, 1873, I entered the Colonization Branch. I entered the Government service in 1872. I thought I was to be permanently engaged, but found I was not. I was afterwards put on the permanent list. The Superintendent knows by the invoices whether they agree with the tenders or not. He is not furnished with information from the Department as to the price and quality of goods to be supplied other than the merchant’s invoice. He gets a duplicate of the goods that are sent. The overseers are furnished with the Department with a duplicate invoice of the goods. In ordering supplies the prices agreed upon would govern. When ordering a chest of tea we agree on the price with the seller, and anything extra would be specially agreed on. In 1875, in the account of Mr. Jaffray, I would not say as to the order for Young Hyson. In selecting the teas we select these qualities as being the best medium priced teas, so as to get the best value for the Department and the men. In giving the order for tea I made the selection of prices from 20c. to 60c. I referred the price to the Superintendent, who agreed to buy teas at 55c. to 60c. The arrangement was made with Mr. Jaffray’s foreman. I didn’t see Mr. Jaffray half a dozen times. I made the arrangement at the commencement of our purchases from Mr. Jaffray’s foreman, that he was to always furnish tea at 55c. to 60c. unless otherwise ordered. The foreman’s name is Mr. Ryan. The arrangement was made with him. I told him to never depart from these prices and qualities unless otherwise ordered. I don’t consider Mr. Robert Griffith’s teas at 30c. to 50c. of the same grade in proportion to price as Mr. Jaffray’s at 20c. to 60c. I don’t think I compared Mr. Griffith’s 50c. tea with Mr. Jaffray’s 55c. Whenever there was to be a change made I consulted with Mr. Bridgland, who frequently decided in accordance with my judgment. Mr. Jaffray’s prices varied in 1875 on account of fluctuation in the market. His teas never exceeded 60c. Black tea is one price and green another; but some of the men like it mixed, and we try to please them. In ordering goods I gave them as good an idea as I could; e.g., in teas I would say we want medium; in syrup, I would say we want the best golden. It did not strike me as odd that Mr. Jaffray should tender for syrup at 34c. to 52c. Mr. Wm. Griffiths makes only one price—45c.—but I know he couldn’t buy it and lay it down for the money. I was as well posted in the prices as the dealers. Robert Griffith quoted 47c.; Frank Smith & Co. put it at 52c.; Close & Co., put it at 40c. to 52c. Mr. Jaffray’s prices would average lower by ranging from the lower to the higher price, and striking the average. In ordering goods we sometimes do it in writing. Where we didn’t go and order them, we would write. We have all the invoices on file. On goods delivered to the Northern Railway there is a charge for cartage, but in the G. T. R. and G. W. R. there is not. Mr. Jaffray charges only cartage to Northern and Nipissing railways. We make arrangements that pork and flour are to be delivered. We don’t do this with other goods; if we did we would have to pay for it in some other way. I handed the tenders to Mr. Bridgland. It was by instructions from him that I bought from Mr. Jaffray. I was not called in with him to the Commissioner to consult as to these prices. I think flour and pork were to be supplied at the current market price. We send the duplicate of the invoices to the overseer, and he certifies it. It is included in his account at the end of the year, and the goods are counted against the appropriation for his share of the road. When a bill comes in it is examined, brought before the Assistant Commissioner, and a requisition made for the amount. The bills are paid on the receipt of the railway bill if asked for, without any immediate checking as to whether they reached their destination, other than the railway receipt. As a rule we have had no complaints of the goods. Mr. Bridgland
estimates the supplies we want. I know the basis of those for flour and pork. A bbl. of pork would be required for every $200 of appropriation under overseers. I think that is the estimate. He does not ascertain the staff of men first. There is no estimate of teas, &c., made up, as of pork and flour. If there is, say, $3000 or $4000 of an appropriation, there would be about 40 men working, who would require about 60 lbs. of tea. We cannot estimate what is to be used, but we send what we think will do in the meantime. When the accounts come in we examine the amounts used. I can’t say, but I have collection that a man consumes from one-eighth to one-half oz. tea per day. Stores left over are sold by the overseer at the works or near them, or amongst the men. He swears to his account of goods thus sold.

To Mr. Meredith:—I told Mr. Jaffray I wanted good medium goods. He could not supply good medium tea at 20 cents. The teas supplied, were, in my judgment, the best qualities for the money. I think I made an estimate as to who gave the lowest tender. I do not know how I made it. I concluded as to the syrups by their actual quality. I understood that the tenders showed what goods would be supplied for. The term “market prices” means that the tenderer would furnish the goods at the market price on the very date the order was given. For variable goods they were not to be bound as to price. In 1874 flour and pork were asked for. I cannot say whether the lowest tender was accepted. The reason for accepting Ramsay’s was, I think, because he said he would furnish Canadian fed pork. I think his price was 10c. higher. The quotations obtained would serve as a guide to the Commissioner as to the prices. I don’t know why Herson’s or Neil Johnston’s tender was not accepted. I never informed the Commissioner of the political views of tenderers. I was never asked as to the political views of any of them, and don’t know how the Government got any information. I cannot say on whose recommendation Gardner and Ramsay’s tender was accepted [tender produced and read]. The word “accepted” is in Mr. Bridgland’s writing. There was no record made in the Department of the change in price of syrup and soap. Mr. Judd, I think, an overseer, came in and wanted to select some hardware, such as pickaxes. I went with him to Mr. Hewitt’s and he selected the articles wanted. He then complained of the soap which had been supplied the previous year at 7c., and I told him I didn’t think he could get any better, for the present contract was for 5c. We went to Jaffrey’s, and I selected a 7c. article, and we saw the Superintendent who saw the Commissioner, and we afterwards ordered 7c. soap to be sent. I think the overseer’s name was Judd. I did not communicate to any of the other foremen the change I had made.

Mr. Cashman was instructed to prepare and submit to the Committee a synopsis of tenders and accounts for supplies for Colonization Roads. Also, a statement of pork and flour actually bought from Mr. Robert Jaffray.

Mr. Cashman was ordered to appear for further examination to-morrow.

Mr. Bridgland and Mr. R. H. Ramsay were also requested to be present to-morrow.

Committee adjourned.

CHARLES CLARKE,
Chairman.

MEMO.—By Resolution of the House, this day, the name of Mr. Ballantyne was substituted for that of Mr. Hay on the Committee on Public Accounts.

WEDNESDAY, Jan. 24, 1877.

Mr. Cashman’s examination continued from yesterday:—

To Mr. Crooks.—I produce synopsis of maximum and minimum prices paid in 1874, 1875, and 1876, on articles specified: syrup, tea, rice, soap, sugar, apples, flour, beans and pork (c); also prices paid for supplies in 1872 and 1873—same articles (d); also synopsis of tender of pork for 1876, prepared by the Superintendent for the Commissioner. The Commissioner’s initials show what were approved of by him. The
tenders came in in response to an advertisement. Most of the articles vary in prices. I could not say to-day what they would be from three to six months hence; but in pork and flour the prices advanced towards the end of the season.

To Mr. Deacon.—The advertisements for tenders in 1876 were published by poster. I am not certain that it was advertised in papers; I think it was in the Globe and Mail. I know that the posters were put up. I saw them around the city. The advertisement in the papers would be like the poster. [Document F put in.] The posters were put up about four days after the date on them. I saw the posters up about four days after being given to the printer, which I think was the 11th of February, 1876. I left the copy on the messenger’s table, I think, on the 11th of February. I could not swear positively about the date. I can swear I made out the poster.

To the Chairman.—Pork and flour are generally bought through the winter, as they are then the cheapest. The other goods are bought through the season, as wanted. I am accustomed to informing myself of the prices current published in the Globe and Mail, and comparing them with the prices asked for goods. [File of Toronto Globe of Thursday, May 28th, 1874, produced.] Young Hyson tea, medium, is quoted from 60c. to 75c. I doubt if we got any sugar at this date from Mr. Jaffray. [The Globe, of June 26th, 1874, could not be found on the file.]

To Mr. Hardy.—The tea quoted at 60c. to 75c., we were paying Mr. Jaffray 55c. to 60c. for.

Witness continued.—On May 28th, 1874, teas were quoted in the Globe, medium to choice, 65c. to 75c. ; Syrups, Golden, 60c. to 62½c. That was the quality I purchased from Jaffray. Standard Syrup is 57½c. to 58c. We never sent out Standard Syrups. [File of Toronto Mail produced.] On May 18th, 1874, Young Hyson, 36c. to 40c.; superior to fine, 50c. to 60c. On May 20th, 1875, medium to good seconds, 48c. to 58c.; Young Hyson, medium to good, 70c. to 80c.; Young Hyson, common, 32c. to 38c. The best grade of medium would be 48c. to 58c.; standard syrups, 53c. to 55c.; golden, 55c. to 59c.

To Mr. Hardy—We were getting goods from Jaffray less than quoted prices; but I think they can, in some instances, be bought less than quoted prices for cash.

To Mr. Merrick—Medium tea, 60c. to 75c., quoted in the Globe, May 28th, 1874, was the quality bought by me for 55c. to 60c. I could buy tea for 55c. that would be quoted for 60c. All such quotations are understood to be credit prices, three, four or five months. Cash and credit prices vary from one-and-half to three per cent. Tea is considered four months’ goods, and subject to a discount of two-and-half per cent. The lower quotation of the medium in the Globe at 60c. would be about the goods we purchased, and is subject to two-and-half per cent discount. I cannot say that the goods would correspond exactly with the quotation in the Globe at 60c. There were tenders for pork in 1874; none, I think, in 1875. In 1874 the price accepted was $18.50. The quantity named was 150 barrels. We purchased about 50 or 60 more than the contract—about 210 barrels in all. We paid from $21 to $26 for the extra 60 barrels. The contract was made early in the spring; the extra barrels were bought as wanted. We estimated approximately as to the pork required. We supposed 150 barrels would be all we would want. The price was $18.50 delivered any time during the year. Pork advanced almost every week from the making of the contract. In 1875 there was a contract, but not a public one. The arrangement was made by Mr. Bridgland.

To Mr. Ferris—I am acting under Mr. Bridgland, and am not a responsible officer of the Department. I am acting as an accountant in the Department, and a part of my business is as an expert as to prices, and to find if the goods purchased are worth the prices paid. The quotations of teas and syrups are to the trade; goods run into each other in all grades. I try always to get the best value. I would not buy the same quality of syrup as I would for family use. I have a good idea of what is needed, because formerly I had similar accounts in my own trade. The tenders for pork, 1874, run from about $18.40 to $19.25.

To Mr. Crooks—It was the Commissioner’s duty to decide on these matters. I reported to the Superintendent, and the decision finally rested between him and the Commissioner. I had no power myself to decide on a selection.

Memo:

DEPARTMENT CROWN LANDS.

With reference to the purchase of Canadian Pork, I am satisfied from enquiry, that the offer of “Gardner & Ramsay” to furnish the same, store, and deliver, through the season, is the lowest possible remunerating figures that it can be had for.

Indeed it is so close that you will see as below it is a question whether they can save themselves on the contract.

DEPARTMENT CROWN LANDS.

I have made enquiry in the matter of groceries and flour to be furnished and shipped for the use of road works during the present season, and am quite satisfied Mr. Jaffray’s prices are as low (for the articles referred to) as any in this city, taking the quality of the articles into consideration.

I therefore recommend that our supplies in the above line, needed for the works of the season, be ordered from Mr. Jaffray, Grocer &c., of Yonge street.

DEPARTMENT OF CROWN LANDS.
COLONIZATION ROAD BRANCH,
TORONTO, 9th March, 1875.

GENTLEMEN.—The Department will accept your offer to supply 200 barrels of Canadian Pork (Mess) at $20.75 per barrel, provided you agree to keep the same in good order, free of storage, Insured from loss by fire or otherwise, and delivered in such quantities and at such times as may be ordered by this Department.

Your obedient servant,
(Signed) J. W. BRIDGLAND,
Superintendent of Colonization Roads.

The above terms accepted.
(Signed) GARDNER & RAMSAY.

Mr. J. W. Bridgland's evidence given this day is as follows:

TORONTO, Tuesday, Jan. 30, 1877.

James W. Bridgland, being sworn, deposed:

To Mr. Crooks— I am Superintendent of Colonization Roads in the Crown Lands Department. I have held the office for about thirteen years. I have been in the employ of the Crown Lands Department 21 years. I was previously Senior Surveyor. I am a Provincial Land Surveyor by profession. In road making I have 13 or 14 years experience, and in reference to building bridges. My duties have been, during the 14 years, those of managing and repairing roads, by making preliminary arrangements, &c. I first make a general report of the roads wanted. This is laid before the Commissioner, and is considered, as well as suggestions from outside. We make our estimates from these suggestions and applications from outside. We have made from 50 to 60 colonization roads since I have been Superintendent. The roads are generally suggested by the wants of the country, having reference to the tracks of back country that are being opened for settlement. The late David Gibson, P.L.S., was Superintendent of Colonization Roads doing outside work before I was appointed Superintendent. New roads were first located and surveyed under my own written instructions, subject to revision by the Department. The road was sometimes let by contract; sometimes an overseer was appointed, and instructed how it was to be built; he was allowed generally to purchase his own supplies—that was the first method. The overseer was obliged to report on the road at times, and the road was examined once or twice a year by myself. The only important change of mode has been in providing supplies for carrying on the work. We found in some cases the cost of boarding the men was very great, and in about 1864, I recommended advertising for tenders for boarding the men. 1867 was the last year we tried that plan,—we did not find it reduced the cost of supplies. The board was, on an average, $3 to $3.50 a week. The result was not satisfactory. After 1867 I proposed to purchase supplies myself from the best dealers, securing them on the lowest terms, and sending them out. This plan was pursued till 1874, except in some few cases. I purchased the supplies myself, without any tenders. Before that the only tenders were from persons to board and lodge the men. In 1874 it was decided to ask tenders for main supplies, flour, pork, &c. The tenders were in the shape of offers from leading Toronto firms, who were asked to send prices. I saw some of the parties, but as my clerk was a grocer, I sent him personally, except where I saw some parties myself. The proposed tenders for supplies were decided by me. My clerk, Mr. Cashman, had not power to decide. He submitted them to me,
and I reported my views to the Commissioner. The Commissioner approved of my suggestions. In 1875 we did not take tenders. Satisfaction was given by the parties in the first year, and we purchased from the same parties. In 1874 flour was not tendered for, we purchased according to current market prices. In 1875 we purchased 300 bbls from Mr. Jaffray at the lowest figure, same quality. The quantity did not last us all year, and Mr. Jaffrey supplied balance at market price. I recommended the plan of buying flour in the spring, of 1875, because flour was down that year to $4.50 per bbl. In 1874 Gardner & Ramsay had supplied pork, and in consulting prices of 1875 we found they gave us low rates, and purchased from them. I produce the Report of this purchase, (Appendix G.) which I gave to the Commissioner and which was approved. I produce Report as to groceries and flour (Appendix H). Also Mr. Jaffray's offer (Appendix I); also acceptance of Gardner & Ramsay's offer (Appendix K). In 1876 we asked, by letters, for tenders for pork and flour. The replies were reported upon. I produce the report (Document E). It is a synopsis of tenders, with my remarks thereon, and the Commissioner's decision. In 1876 general groceries were bought of Mr. Jaffray. Mr. Cashman went and selected such articles as he thought were good and sound, according to my instructions. I called myself and exercised my judgment. I believe we got the best goods at the lowest prices. In 1874, 1875 and 1876, we had occasional complaints from overseers, but very little. Pork is subject to be damaged in transport over long roads, and if particular care is not taken, it will suffer. We may have had three or four complaints as to pork. In 1874—and in all the years—there were no substantial complaints that would have inclined us to change the parties. In previous years we may have had occasional complaints. As to soap, in 1874, we had some complaints, but sent a suitable article. I always considered it my duty to attend personally to the supplies, I do not see any better method of obtaining supplies than we pursued. It would be very difficult to obtain offers for all the small articles of general groceries. We could not obtain satisfactory tender of any articles but from flour to pork, because they are standard staple articles, subject to inspection and were always inspected, but the others are not. I am satisfied that our present mode of supplying the men is more economical than that of tenders for boarding the men. I am able to state this as a matter of fact, for we make an analysis of the cost, and the results prove the economy of the present course. Board ranges at $2.25 to $2.50 under the present system, while by tender it was $3.00 to $3.50. There is thus a difference in the cost of the road per mile. From time to time we are also making other improvements in connection with unproved specifications. Latterly we have had two Inspectors—one east and one west—who are on continual travel, and are reporting continually. We have had one Inspector employed since 1866. Since 1872-1873 we have had two. They also manage the location of roads, under instructions, and save the cost of a surveyor. They report to the Commissioner through me. I am thus able to know what is wanted on every road and to give instructions. The Inspectors visit companies of workmen, and embody in their reports anything wanted by the men, and in what condition the supplies are. The party who supplies goods sends us duplicate invoice and shipping bill. One copy of the invoice is mailed to the overseer, and he checks his supplies by it when they arrive. He does not specially report unless something is missing, when he would call the attention of the Department to it. At the end of the season the un consumed supplies are generally sold by the Inspectors, or if the roads are contiguous we put the remnants together and instruct him to sell them as well as possible. In some things there is a sacrifice; if not damaged, the food supplies generally produce the cost. Tools are used up generally at the close of the season and we dispose of them for what we can get, we retain those fit for service the following year.

To Mr. Wills.—Tea at 20c. would not be the standard we wanted tendered for. In 1874 we did not advertise. We had no samples sent with tenders, which were judged by themselves, and the qualities inspected separately. The prices were judged as a whole. We judged Mr. Jaffray's tender to be as low as any other, taking all things into consideration. Mr. Robert Griffith's tender for syrup was 47c. We did not inspect it. Mr. Griffith had supplied soap previously at 7c. I had heard a complaint in one particular instance of the quality of the soap by an overseer, through Mr. Cashman, but cannot say positively from whom that soap was purchased. We accepted Mr. Jaffray's tenders and inspected his articles. It was the firm of W. & R. Griffith, who had formerly supplied
We used sugar very little—seven barrels in three years. Mr. Jaffray furnished us the best quality of golden syrup for 55c. We ascertained it could not be bought in the market for less. We did not get samples with the tenders. I did not examine the goods of the several persons who tendered. I did not compare Mr. Griffith's and Mr. Jaffray's teas, or any other articles, one with another. In comparing prices, we considered the prices as a whole. Mr. Jaffray's lowest price for tea was lower than Mr. Griffith's, and his highest price for tea was higher than Mr. Griffith's. We, therefore, got from Mr. Jaffray a greater range.

To Mr. Ross.—In looking at the synopsis of the tenders produced, I find that some of Mr. Jaffray's prices are lower than Mr. Griffith's.

To Mr. Wills.—We did not always want the lowest priced goods, as the quality was not good enough. This was the case with soap. A good reliable dealer and an examiner of the articles will guarantee the best satisfaction. During the past season the most intelligent overseers testify, without inquiry, that all the supplies have been better than previous years.

To Mr. Ross.—Asking for tenders in 1874 was an experiment. We have found since that in such articles as we want our present plan is the best.

To Mr. Wills.—We were perfectly satisfied with Messrs. Griffith's goods. It was W. & R. Griffith.

To the Chairman.—I think our rate of board last year has been less than any previous year.

Crown Lands Department,

Bought of Gardner & Ramsay,

150 barrels of Mess pork, @ $18.50. $2,775.00.

(M.)

Toronto, 25th April, 1874,

J. W. Bridgland, Esq.,
Crown Lands Department,

DEAR SIR,—Please find enclosed invoice of 200 barrels mess pork in store, and subject to your order at any time.

Yours respectfully,

GARDNER & RAMSAY.

Department of Crown Lands,

Bought of Gardner & Ramsay,

March 9th, 1875, 200 barrels Canadian Mess pork, @ $20.75. $4,150.00.

TORONTO, January 31, 1877.

Mr. R. H. Ramsay was called and examined. Being sworn, he deposed:

To Mr. Lauder.—I was a member of the firm of Gardner and Ramsay in 1874-75. We commenced to supply the Ontario Government in 1874. I think an officer of the Department called and asked our prices for a certain quantity of pork, and in '74 I tendered for 150 bbls. of mess pork. It was about the last of April or first of May. The price asked was $18.50 per bbl. The quality was to be first-class mess pork. My offer was accepted. The pork was shipped from time to time as the orders were sent from the Department. We received orders usually from Mr. Bridgland. After buying the pork the Government send orders for it. I furnished duplicate invoices. There was no inspection; there is no legal inspector in the city. I shipped it on my own responsibility, according to order. The only order I had in 1874 was 150 bbls. In 1875 I supplied, under the same arrangement, I believe, as in 1874. It was a written tender I sent in 1874; I don't know whether I sent a written tender in 1875. In '75 I furnished 200 bbls. at $20.75, about the first week in March. I also furnished 4 bbls. extra. I charged $21.50 for them, because that was the value. I must have had an agreement to get $20.75 in '75. I shipped the pork in '75 the same as in '74. There was no inspection. In '76 I tendered in answer to a poster. I am not aware that I got a poster in '75. I tendered for 200 bbls. in '76, at $23 per bbl. The Government did not inspect the pork, and nobody for them. I filled the order on my own responsibility. I have been a pretty staunch supporter of the Government for a number of years. I supplied 200 bbls. of flour in '76, tendered for on receipt of poster. It was inspected by the flour inspector. I charged $3.50, and received notification that my tender was accepted. I think the poster
was sent me by mail. I think it was sent to all the houses in the city. I saw it on the fences afterwards. I charged for the 4 bbls. pork $21.50 per bbl. The prices had gone up. I suppose an order was sent from the Department for the 4 extra bbls. I charged market value for the extra bbls. because the tender had expired. In '74 the amount of supplies furnished by me was $2,775; in 1875 it was $4,236.40. In 1875 there was nothing supplied but pork. In 1876 the amount of my account was about $5,700.

To the Chairman.—I was aware that I tendered against other parties in 1874. In 1875 I knew that there was competition.

To Mr. Gibson.—Mess pork is the best pork, there is a difference between it and prime mess pork of $1.50 to $2 a barrel.

To Mr. Deacon.—The pork in 1874, 1875 and 1876 never was inspected by a duly licensed inspector. It was branded by ourselves. I determined myself the quality of the pork. The pork was inspected by ourselves.

To Mr. Lauder.—In 1875 the party who asked for my tender told me he was getting prices from others. I am not aware of any public advertisement.

To Mr. Gibson.—In 1874 and 1875 I furnished pork to other parties. I was largely engaged in the trade. We would sell in a season about 2,000 or 3,000 barrels of pork.

To Mr. Lauder.—My bill in 1874 was dated 25th April; in 1875 it was March 9th. I think the supplies for flour and pork in 1876 was 1st March.

To Mr. Deacon.—I could not tell the largest number of barrels sold to any one but the Government in 1874. We generally send a carload at a time—from 60 to 66 barrels. We have sold 2 carloads at a time. In May our average price per barrel was $18.75. In 1875 I can’t recollect that we sold 100 or 150 barrels to any other person than the Government.

To Mr. Ferris.—In 1874 in May the average price for mess pork was $18.75; in June, $19.50; in July, $21.00; in August, $24 to $26; in September, about the same. In 1875, in March, $20.75. On April 25th, 1874, I offered at $18.75 to furnish pork, delivered at any station in this city. If I had held it I would have got the larger price. I have not the memo. of the dates of delivery. The pork was not all taken in April.

To Mr. Ross.—The pork was paid for after the contract was made.

To Mr. Gibson.—I never heard complaints of the pork.

To Mr. Ferris.—In 1875 I tendered for 200 barrels at $20.75. It was to be kept by me on the same terms as in 1874, subject to my risk from damage by rust, fire, &c. In April, 1875, my average price was $21.50; in May, $22; in June, $21; July, $21.50; in August, $22; in September, $23. The pork is usually re-pickled in June and July, and has to be constantly watched in case of spoiling. The pork was at my risk while I held it. [Mr. Ferris was asking witness as to the risk of holding pork.]

To Mr. Deacon.—Objection to the question as to holding over pork, contending that the pork in question was not held over till August.

To Mr. Ferris.—It would be worth from $1 to $1.50 per bbl., holding pork over for a few months. The tender in 1874 and 1875, had a reference to future risks. The signature on Mr. Bridgland’s letter of 9th March, 1875, is mine. (App. .) In 1876, we supplied 200 bbls. pork, and 200 bbls. flour. The arrangement was similar to the previous years.

To Mr. Lauder.—I have pork in store all the time. The Government pork was kept by itself in 1875, after the tender was accepted. The reason I did so was, that I did not want to run short of Canadian pork when it would be ordered. In 1874, the Government was supplied from the general stock. There is no special risk on the Government pork, any more than other pork. Wm. Davies & Co. are about the largest exporters to Europe in pork in the city. Witness being asked if he could account for their price being $21.50, while his was $23, he replied in the negative, unless the difference was in Canadian pork. I was to supply Canadian pork. I presume Davies deals in both Canadian and Western (or Chicago) pork. I did not hear about their tender, or any one else’s. My sureties were J. B. Smith and Robt. Jaffray. Have no doubt Davies could get securities.

To Mr. Ross.—The bulk of the Pork comes in in February and March. The price after that is regulated by the quantity offering. As a general rule, the price rises. The risk during the summer, and the demand from Europe, adds to the value.
To Mr. Ferris.—It is always more difficult to get Canadian mess pork than Western mess pork.

To Mr. Gibson.—I hold there is a good deal of difference between Canadian and Chicago pork. The latter won't go so far as the former, as it is fed on corn while Canadian pork is fed on peas.

To Mr. Ferris.—I think lumbermen generally prefer Canadian pork.

To Mr. Lauder.—The average prices quoted were those of supplies to lumbermen, &c., from 10 to 30 bbls. The price on a small quantity would be higher than on 200 bbls. transactions.

To the Chairman.—I would take less if the whole of the pork were delivered at once.

To Mr. Deacon.—I was paid after the purchase and before the pork was delivered. After I had been notified that my tender was accepted, I made out my bill and sent it to the Department, and received the cheque a few days after.

To Mr. Ferris.—This would be after I put in my securities for the faithful fulfilment of the contract.

To the Chairman.—The delivery of pork extended over several months.

To Mr. Deacon.—The greater part of the pork that was set aside for the Government, in 1875, was re-pickled and salted before being sent out.

To Mr. Lauder.—The Government pork was not treated differently from other pork.

To Mr. Ferris.—In view of this fact, the price of contracts for future delivery, are generally higher than for immediate delivery.

To Mr. Lauder.—I have no recollection of being surety for Mr. Jaffray.

Minutes of last meeting read and confirmed.

Mr. P. G. Close, Grocer, Front Street, Toronto, being called, was sworn and examined in reference to prices of Groceries, in 1874.

(See Appendix D to this day's minutes).

On motion of Mr. Lauder, it was ordered that Mr. John Sloan, of P. G. Close & Co., be summoned to give evidence to-morrow, in reference to prices of teas, sugars, syrups &c., during the years 1874 and 1875.

Mr. Close's evidence was read to, and signed by him.

Mr. C. Cashman being called, was sworn and further examined as to prices paid, and method of obtaining supplies of groceries for Colonization Roads.

(See Appendix E to this day's minutes.)

Adjourned until 11 o'clock, A.M. to-morrow.

CHARLES CLARKE,
Chairman.
him the quantity he wanted, and was going to get samples, but Mr. Cashman told him they were not necessary. He had asked for teas, sugars, syrups, &c., and Mr. Sloan told him it would be necessary to have samples. I asked him if he could give the order, and he said not. I asked him if he could tell who would get the contract. He said not to trouble about samples, for he was afraid it was a foregone conclusion who would get it. I asked him who would get the contract. He said he was not at liberty to tell, but he feared I was on the wrong side to get it. We gave him the quotations, but took no further trouble about it, because Mr. Cashman gave us the impression that we could not get it. I have heard nothing of it since. I saw no advertisement for tenders. I was on the lookout for such. It would not be of any use to get quotations without samples, for tea ranges from 35cts. to 90cts. per pound. There is fully 20cts. difference per gallon in syrups. It does not amount to anything when a tender is given without samples for teas or syrups. Syrups are known by different names—amber, golden, &c., which are all standard brands. The price is known from the name; but there are different makers, whose syrups differ in quality though called by the same name. If we tendered for tea at 20cts. to 60cts. I would expect that the Department would have to get samples when ordering five or ten chests—the same applies to syrups and sugar. Sugars are in grades from the very dark to yellow; also white.

To the Chairman.—Mr. Cashman did not ask for any particular quality of tea. I am not certain whether he named the price wanted. It was between Mr. Sloan and Mr. Cashman the transaction took place. Our quotations were given by Mr. Sloan, and the range in price was for different qualities.

To Mr. Lander.—There were no orders given.

To Mr. Ferris.—I was present all the time, but I may not have been there when Mr Cashman asked about the price. The conversation took place either in the office or in the sample-room; I am not sure which. I knew Mr. Cashman before, and that he had been a grocer for a number of years. He ought to understand the business. The prices of tea from 35cts. to 80cts. would take in from a pretty low medium to a very fine article. The quality of syrup can be more easily determined. The brands of golden syrup we had were Redpath and De Castor, of Montreal, and we are in the habit of getting from New York makers. Sometimes there were differences of 3cts. or 4cts. in the same brands. Could not tell now which is the best. Sometimes we would get a better golden from one maker and sometimes not so good; so that by specifying brands we have not a guarantee of the quality without specifying it. I asked Cashman to do what he could for us if our goods were as good as others. He said seriously that we had no show for the contract. I asked him to use what influence he had in our favour. He told me that he could not finally decide. There is always a variety in soap, sugar and rice. Soap rules from 24cts. to 7cts. It may have been higher in 1874.

To Mr. Gibson.—Cashman meant to say, as I understood, that we had no chance; that from knowledge he possessed he knew that we would not get it. I considered it was a mere sham for him to call.

To the Chairman.—He conveyed that impression. He did not use the word "sham."

To Mr. Gibson.—He hadn’t the slightest idea of getting the contract.

To the Chairman.—In politics I am a Conservative; I don’t know Cashman’s politics.

To Mr. Gibson.—I never had a Government contract. When my friends were in power I was not in a position to tender.

To Mr. Ferris.—I know Jaffray; he is a respectable grocer. I believe he does a very good general trade. I never heard anything against his commercial reputation.

To Mr. Lander.—I could not tell from memory what best golden syrup would range at. It has varied in two or three years. It would be necessary to have the date.

To Mr. Lander.—Sometimes syrups have a value relatively above, and sometimes below, sugars.

To the Chairman.—I am not in a position to swear positively that we gave samples to Mr. Cashman. Mr. Sloan would know.

To Mr. Wills.—It was before the prices were given that Cashman told us we could not get the contract.
To Mr. Lauder.—My impression is that no samples were given; but, I may have
gone out before Cashman left.

To Mr. Ferris.—The samples would be within reach if it was necessary to test them,
when Mr. Cashman was in.

P. G. CLOSE.

TORONTO, Feb. 1st, 1877.

Mr. Cashman, recalled:
To the Chairman.—I have some recollection of the interview between Mr. Close and
Mr. Sloan. I called on them and told them that Mr. Bridgland had instructed me to get
list prices of some of their goods, and asked for prices of certain brands; told them as near
as I could, the quality required. I could not say whether it was in the office or sample-
room. I think Mr. Sloan or Mr. Close were present, probably both. I am not clear on
that. They asked me the quality of goods required; I named the brands. In those days
we could name brand in golden syrup, for Redpath had certain brands. I am under the
impression that either Mr. Close or Mr. Sloan was present part of the time; both were
not present all the time. I told them we would require the best quality of medium teas,
and he showed samples. There was not much said about sugars, as we did not expect
to want much. I did not bring back sample of teas. There was not a word said about
them getting the contract. I can't say that Mr. Close asked me to do what I could for
him. My sympathies were in his favour. I am not aware of making use of an expres-
sion that would leave him to think that he would not get the contract. I said after I got
his figures that I feared he would not get the contract, because I had the quotations from
others. I may have said in jest that he was on the wrong side of politics. I could not
say that I did or did not say so. If I did it would be by way of jest, knowing him to
be a conservative. My sympathies were with him as knowing him longer than any
others.

To Mr. Ferris.—I had done business for some years quite near Mr. Close, and
knew him.

To Mr. Striker.—The reason why I intimated that Mr. Close would not get the con-
tract was on account of the other figures I had got, and thought he was too high.

To the Chairman.—I reported to Mr. Bridgland in favour of Mr. Jaffray, because
his figures were the lowest. Though I did not have samples, I judged after intimating
the quality wanted, that Mr. Jaffray's prices were lowest. If I could conscientiously
have reported in favour of Mr. Close, I would have done so.

To Mr. Striker.—I did not think Mr. Close's politics would have prevented him
from getting the contract.

To Mr. Deacon.—I called personally on all the parties the same day. The lists of
prices were delivered to me before I left the premises. I think Close was the last man I
called on. I did intend, if it were possible, conscientiously to report in Mr. Close's fav-
our. Either Close or Frank Smith would be the last man called on. I looked over the
lists as soon as I got them. It was after getting Close's list and comparing it with the
others, that I told him I feared he would not get the contract. My sympathies were with
Close, because I was well acquainted with him. I called first on Griffiths—either one of
the Griffiths' or Jaffray. I did not intimate to Close what other quotations I had. I may
have intimated to Griffiths or some others, in a jocular way, that they would not get the
contract. I don't recollect intimating it to any one but Close. I had instructions from
Mr. Bridgland to buy from Jaffray if his prices were as low as the others. After setting
all the quotations before Mr. Bridgland, I understood he and the Commissioner believed
Jaffray's tender to be the lowest, and he instructed me to buy from Jaffray if his prices
were the lowest. Mr. Bridgland, as I understood, had reported to the Commissioner
what I had said to Bridgland. I had reported to Bridgland in favour of Jaffray on the
whole. Bridgland reported to me the Commissioner's decision in favour of Jaffray. The
quotations I would not precisely call tenders. I didn't know that Jaffray was the fav-
ourite competitor. The preference was given to him if his prices would be as low. I had
no idea till after the decision of the Commissioner, who would get the contract. If Close's tender had been exactly as low as Jaffray's, I don't know how the Commissioner would decide. I knew Jaffray was a supporter of the Government, and that Close was not.

To Mr. Lauder.—I knew nothing officially of the preference of the Department for Mr. Jaffray. My private opinion was that Mr. Jaffray should have the preference, everything being equal, because he was a supporter of the Government.

To Mr. Striker.—I never heard from the Government that the supplies were to be given to political friends.

[The witness volunteered the information, that his politics now are—that if there are good men all will be right.]

To the Chairman.—I had voted before entering the Department, on the Conservative side principally. Political feeling did not influence me in any way in submitting Mr. Jaffray's quotations—neither my own nor any other.

To Mr. Ferris.—When I was sent out to get prices, I understood that it was because I had a previous knowledge of the trade. The memorandum of prices that I got from the several houses were got after conversation with the grocers as to the qualities of goods. There was a great deal more information involved in the conversation with the grocers than what would be in the bare figures. In submitting the figures to Mr. Bridgland, I gave him the other information I had obtained. I gave my opinion in favour of Jaffray's tender. After this I got instructions to purchase from Jaffray, and it was understood I was to continue buying from him if the prices were as low as I could get elsewhere. I had some slight personal acquaintance with Jaffray when I went out for prices. My sympathies were with P. G. Close & Co. It was my judgment in opposition to my sympathy that made me tell him I feared he would not get the contract.

To Mr. Wills.—My duties are to keep the accounts with the overseers, see to the shipping of goods, and compare the accounts at the end of the year, and the choosing of supplies.

**CHARLES CLARKE,**

*Chairman.*

---

**TORONTO, Feb. 2, 1877.**

John Sloan being sworn, deposed:

To Mr. Launder: — I am a member of the firm of P. G. Close & Co. I was a member in 1874. I remember a messenger—Mr. Cashman—coming from one of the Depots. He said he wanted quotations of groceries. I saw him myself. I think Mr. Close was present. I gave Cashman some quotations. He said to me, that to be honest with us, he did not believe we had any chance to get the order, for it was a foregone conclusion a member of the party would get the contract. I don't think he asked for samples. I did not show him any. I was with him all the time he was there. I don't think he asked for any particular class or brands of goods, but he asked generally. I was amused at his statement. I did not ask him who would likely get the contract. He did not volunteer information. I gave him some quotations. The quotations produced are not in my writing, I think it is the book-keeper's. I think it would be impossible to tell which is the lowest tender without having samples. The quotations we gave were ranges of prices without mention of quality. I don't think either Jaffray's quotation for tea at 20c to 60c or ours at 35c to 80c, amounts to anything. Teas, sugars, syrups and groceries can be tendered for, but it would be necessary to have samples. They are bought and sold by sample. In the case of syrups, Redpath made a few brands for a while, so that the price would be determined within a few cents a gallon. I understood Cashman to say that he was favorable to giving us the contract as he was acquainted with us. He said he did not think there was any chance. He said something about politics. In case of a contract like Jaffray's, the person giving the order for tea should fix the quality.

To Mr. Hardy: — It was about 1874. I think it was 1874, from reading the papers. As well as I remember anything it was 1874. I think Mr. Close was present and the book-keeper, Mr. Porter. I don't remember the words Cashman used. "It was in the spring of 1874. I can't say whether it was in the month of May. I remember the conversation pretty well; I could not give the exact words. I could not say whether Mr. Close in his evidence used the words "foregone conclusion." I have a distinct recollection of the words used. Mr. Cashman came in and said he wanted to get quotations for the Department. The words he used were: "To be honest with you, I don't think you have any chance to get the contract." I don't swear positively that he used the words "foregone conclusion." He used words having that meaning. I don't know how Mr. Close and I used the same words. I can't tell any other man that was in the store that day, and I can't remember any other man who was in that month, whose conversation I remember. This man came in on particular business. We never tendered for the Government before, and were never asked for any. I have been in business for five years. I was clerk for Mr. Close in 1868. I never saw any advertisement of tender in Sandfield's time. I can't remember at the moment conversation with any other man but Cashman who came that spring; if I had time I might. Cashman may have looked at samples; I don't think he did. I had known Cashman intimately three or four years before that. I don't know his politics. I am something like Conservative. I supported the Dominion Government at
last election, but am sorry for it. It is difficult to tell from the tenders produced which are lowest. I could not say without seeing samples whether the range of 35c. to 80c. is as low as 28c. to 60c. Tea at 60c. would be a fine tea. I suppose it would not be too good for ordinary use. 60c. is the price of a fine tea and 30c. to 35c. is a common tea. In our quotation 35c. to 80c. we did not mean anything but a range of prices. If I meant any business at all, I would not have given the quotation in that way. I did not expect to get the contract, because Mr. Cashman said so. I could not say whether he said this before or after he got our prices; I believe it was before.

To Mr. Gibson.—In 1874 tea was higher in price than now.

To the Chairman.—Cashman seemed to be in good humour. I did not think he was joking when he said we had no chance of getting the contract. If he said he was joking I think he would be saying what was untrue.

To Mr. Merrick.—I judged from what Cashman told that it would be no use for us to tender. He took no samples, and I don't think he examined any. I think it is impossible for a man to judge teas by price without samples. I am a Conservative, but supported the Dominion Government at last election. I don't know whether I voted. My sympathies and support were with the Dominion Government in last election. I think it was May, 1874, when I was asked for these prices. Redpath was manufacturing brands of syrups at that time. There might be a difference in the quality of Redpath's syrups of the same brand.

To Mr. Gibson.—I entered into partnership with Mr. Close in 1871. Five years expired at the end of last year. Previous to going into partnership I was salesman for Close. He was doing a business of about $3,000 a month in 1868; as far as I can recollect, he was in the retail trade and till 1870. I could not say whether he could have supplied a Government contract at that time.

To Mr. Lauder.—We would not be in a position to compete with wholesale houses at that time.

To Mr. Hardy.—Mr. Jaffray is a strictly honourable man. I have known him for several years. I can't say the Government would have been better served if we had supplied them, than if Jaffray had supplied them. At the elections since the general election I don't know who I supported. To the best of my belief I have always voted Conservative.

To Mr. Lauder.—The reason why I said the Government would be as well served by Mr. Jaffray as by our house, because I have known him to be a strictly honourable man. I could not impeach Mr. Jaffray's honesty because I could not. There is no cheque upon Mr. Jaffray by the Department that I can see.

To Mr. Wills.—If I were asked for a medium quality of teas, the price would come to a price between 35c. to 80c.; 35c. to 80c. is from a rather low medium to the finest quality, and 35c. to 70c. black tea, is from low medium to finest. We have teas as low as 20c. Golden syrup might mean from a very dark syrup to one about as clear as water. In April and May, 1874—golden syrups—we sold syrups from 48c. to 75c. What we sold @ 48c. is described as extra golden. That was the lowest price for which we sold syrup in April and May so far as I could see. All through the year prices ranged about the same. Some sales of golden were made as low as 44c. and 45c. It is described as golden syrup.

To Mr. Hardy.—West India molasses is worth about 30c.

To Mr. Striker.—I would not say whether we kept Redpath's golden syrup in 1874. I presume the prices would be about the same as others.

To Mr. Hardy.—In syrups there is no real standard.

To Mr. Ballantyne.—The name does not indicate the quality.

To Mr. Hardy.—Golden syrup might mean anything from 35c. to 60c.

To Mr. Lauder.—In January, 1875, we sold syrups from 48c. to 77c.; in November, 1875, we sold syrups from 45c. to 60c.; in May, 1875, golden syrups would be about the same as in January.

To Mr. Wills.—There is no lower grade of syrup than golden.

To Mr.—Lauder.—If I was buying syrups for men working on the roads in Muskoka, I should think golden syrup would be good enough.
To the Chairman.—Golden syrup would range from 35c. to 60c.
To Mr. Lauder.—We generally send golden syrups to the merchants in the back country, and sometimes amber. The price in 1874, and 1875, would be about 48c. I should judge. The syrup is described as extra golden in our sales book, and I should judge it would be a good quality.
To Mr. Hardy.—We did not complain for not getting this contract.
To Mr. Gibson.—I don't recollect asking Mr. Cashman to use his influence to give us the contract.

"The Committee desires answers on the following points:—On what terms were goods furnished by your firm to the Government, commencing with the year 1868, whether by tender, or whether tenders were asked for in the years 1868, 1869, 1870,
1871, 1872, 1873, and 1874, or whether there was any difference in the mode of furnishing supplies for Colonization roads, from that to other Departments of the Government; the amount supplied for the several years above named, distinguishing between the goods supplied by tender and the goods furnished at current rates," and a discussion arising on the adoption thereof, the yeas and nays were called for and taken down as follows:—

Williams.—6.

So it passed in the affirmative.

On motion of Mr. Lauder, it was resolved that the memorandum of Mr. Ferris be furnished to the witness, and that he be allowed to answer the same in writing.

On motion of Mr. Ferris the following was added to Mr. Lauder's motion:

That notwithstanding any statement so put in, the witness shall be notified to appear to give *viva voce* evidence to-morrow.

On motion of Mr. Deacon it was ordered, that the account of Messrs. Blake, Kerr and Boyd, under the head of "Legislation" and found on pages 40 and 43 of the Public Accounts of 1875, and amounting respectively to $104.37 and $346.43, be entered in detail on the minutes.*

On the motion of Mr. Lauder, Mr. John Morrison, Grocer, Toronto, was ordered to be summoned to give evidence to-morrow.

On motion of Mr. Wills, it was ordered that the tenders for pork, for the years 1875 and 1876 be produced.

On motion of Mr. Gibson it was ordered that any tender or list of prices furnished the Department by Messrs. W. & R. Griffith in the years 1868, 1869, 1870, 1871, 1872, 1873, and 1874 be produced to-morrow.

Ordered, that Mr. Langmuir be notified to appear before the Committee to-morrow. Adjourned till 10 o'clock, A.M., to-morrow.

CHARLES CLARKE,
Chairman.

*(Paper marked N.—Tender for Pork.)*

Toronto, March 1st, 1876.

HON. T. B. PARDEE,

Sir,—We hereby offer 150 barrels mess pork at $21.50 (twenty one dollars) per barrel. It will not suit our purpose to hold it and deliver at any time and place you may require, but will deliver into warehouse to be stored for you; but we should require prompt cash on presentation of warehouse receipt.

This pork can be inspected in Toronto by any person you may appoint, the charge for that will have to be paid by purchaser. We must have twenty-one dollars, net.

For the performance of the above we offer as security Messrs. James Scott, Dry Goods Merchant, Thomas Lailey, Wholesale Clothier, both of this city.

Waiting your reply,

We are Yours respectfully,

(Signed) WILLIAM DAVIES & CO.

Wm. Davies, sworn, deposed:

To Mr. Lauder.—I carry on pork business in Toronto. I tendered for Government supplies last year at $21.50. The pork asked for in the bill was Canadian mess-pork. I

* See Papers O and P.
offered to supply 150 barrels. I had not the balance of the 200 barrels by me. The memo. in document E. opposite my name is not correct. I meant Canadian pork. I would have supplied the pork at $21.50 on certain conditions. I was prepared to deliver at any warehouse mentioned by the Government, and wanted the money as soon as I delivered the warehouse receipt. If I had been asked to store it and deliver it as the Government wished it, I think it would have cost about 50c. a barrel more between the terms of the contract and my tender. I would guarantee it to be in good quality for two months for $22 a barrel.

To Mr. Ferris.—The conditions of the tender (F) were, that it was “to be delivered in good sound order and condition, in such quantities and at such times throughout the year as may be ordered, free of storage, cartage, insurance, and all other expenses, on board of any of the railway cars in this city, as directed. Tenders to be accompanied by the names of two solvent sureties in the sum of $1,500 each, for the due performance of contract.” I put in my tender on March 1st, 1876, in answer to the poster. In the tender I did not guarantee to keep it in good condition for the year. It would be worth 50c. per barrel more. According to the usage of the trade, I think 50c. per barrel extra would cover all the conditions of the advertisement. I prefer closing up all my transactions at once. The terms of my tender were in accordance with our usual rules of business, and were different from the terms asked for by the Government. 50c. per barrel would not cover the expense of repacking the pork, but I would not repack it. The expression “net cash,” mentioned in my tender, means that the purchaser would have to pay inspection and expenses outside of delivery at any warehouse they would name. It was to be at their risk. I know Davison & Scott. They are wholesale provision merchants and commission merchants as well. We have no legally-appointed pork inspector in the city. The Statute lays down the qualities to be known by the several names, so that a good packer would know. The pork might be light or heavy. The bulk of Canadian mess is heavy. My tender did not specify Canadian mess. There is a preference among consumers for Canadian over Western mess. I think the Canadian is sold a little below the Western, after the duty on the latter is paid. Canadian would get the preference in my warehouse, though I have not done much in mess pork for a few years, being principally engaged in the export trade. If I had both Canadian and Western mess pork in my warehouse I would consider the former the best. Canadian mess is not mentioned in my tender, though Canadian mess was an ingredient in the notice. I supposed the pork would be paid for when delivered. The advertisement called for 200 barrels. I only offered 150 barrels, and proposed to deliver all in one lot.

To Mr. Merrick.—Although not mentioned in my tender, Canadian Mess Pork is what was intended to be supplied. I did not comply with the requirements about delivery at various times. 50c. per bbl. would cover insurance, storage and cartage, &c. The cost of inspection is not included in the 50c. I don’t know the cost of inspection; I am my own inspector. Anything I put my name on would pass without inspection. The pork offered was our own putting up. It would stand inspection by any inspector. I don’t think it would be necessary to repack the pork. I never had any inspected in Toronto. The pork was put up for summer use. I think if properly packed, it would keep perfectly well during the summer.

To Mr. Ross.—I don’t know what the usual price of storage is per bbl. Delivery, shipping, and cartage for lots of five bbls. would be from 50c. to 60c. Insurance in a warehouse would be 3 per cent. per annum, or about 15c. per bbl. I don’t know what is charged in Montreal for inspection. I would not undertake, on any terms, to have pork delivered in small lots in a peddling way. It would be worth 50c. a bbl. for guaranteeing the good quality of pork to be delivered during any time of the year. If I had to deliver any time during the year, the risk of keeping and guaranteeing delivery in good order, I think 50c. would be little enough. A complaint might come after the pork was sent to the country, and I would have to re-send five or six barrels.

To Mr. Ferris.—As a matter of fact, I would not care to do such a kind of business at all at any price.

To Mr. Crooks.—My price was based on the understanding that I was to deliver the 150 barrels at once.
To Mr. Williams.—I would guarantee it if it remained in the store for six months, but not after it left the city where it could not be seen.
To Mr. Lauder.—I am still of the opinion that 50c. extra per barrel on my tender would be enough to comply with the conditions asked by the Government.
To Mr. Wills.—The 50c. per barrel extra on my offer, would be about what it would be worth to fill the tender.
To the Chairman.—To keep it good throughout the year would be worth fifty cents more.
To Mr. Lauder.—If the pork were to be examined in Toronto, I think it would cost about 50c. per barrel for the risk and storage.
To the Chairman.—I would not undertake at all to comply with the tender, because I don’t do that kind of business.
To Mr. Ross.—There is a Government Inspector in Montreal. Chap. 49 of 30 Vic. enacts that 20c. per barrel shall be charged for inspection. I think a fair estimate for storing 150 barrels, to be delivered in small lots and shipped by the warehouseman, would be 25c. to 30c. a barrel. The cartage and delivery about 12c. a barrel. The insurance about 15c. a barrel. The risk of keeping the pork about 50c. per barrel, making a total of $1.07 to cover all risks and charges.

WILLIAM DAVIES.

TORONTO, 23rd September, 1875.

SIR,—I have the honour to request you to give the necessary directions for the payment of the enclosed accounts of Messrs. The Chairman read a memorandum from Mr. J. W. Bridgland in reply to Mr. Gib-
son's motion of yesterday, as follows:

MEMO (A). "Messieurs William and Robert Griffith never to my knowledge sent in
Tenders to the Crown Lands Department for supplies for Colonization Roads except in
the year 1874, which last are in the hands of the Committee now, neither were any price
lists furnished at any time to my knowledge."

Committee Room, 8th February, 1877.

Toronto, Thursday, February 8th, 1877.

J. W. Bridgland, recalled, deposed:

To the Chairman.—I received a requisition from the Committee, yesterday, for any tenders or lists of prices in connection with supplies furnished to the Department by W. & R. Griffith for Colonization Roads, in the years from 1868 to 1874, inclusive. The memo. produced is my reply, as follows:—

MEMO.

Messrs. William & Robert Griffith never, to my knowledge, sent in tenders to the Crown Lands Department for supplies for Colonization Roads, except in the year 1874, which last are in the hands of the Committee now; neither were any price-lists furnished at any time to my knowledge.

J. W. BRIDGLAND,  
Supt. of Col. Roads.

8th February, 1877.
Before 1874, supplies were obtained by my personal examination and enquiry of each article, commencing in 1868. In 1867 I called at one or two other establishments besides Griffith's. In some instances there was a comparison of prices. There was no competition up to 1868, except with some supplies for the Colonization Roads in 1867. In all the years from 1868 to 1874 there was no competition. Up to 1867 there was no competition between Griffith's goods and others. When buying I examined articles or samples. We sent orders as we required them. When orders were sent we did not re-examine goods, except when something new was ordered. We relied on the person supplying to send the quality wanted. There were a few complaints from the roads about goods. The merchants would in such cases send a better article afterwards.

To Mr. Gibson.—Up to 1874 from 1868 the same system was pursued. 1867 was the first year I made any important purchases; previous to that the overseers supplied themselves.

To Mr. Meredith.—I was instructed by the Commissioner to change the mode in 1874. It was not from any representations I made. The overseers sent in their bills and vouchers for payment of supplies when they selected the supplies themselves. That was previous to 1867.

To Mr. Hardy.—The change I refer to in 1874, is asking for tenders.

To the Chairman.—The overseers were instructed by the Department what kind of supplies to purchase. This system was in operation from 1864 to 1867. They would supply themselves from any convenient place where they could purchase. Previous to 1867 if articles were known to be purchased which were not allowed by the Department they would be condemned and the men themselves would have to pay. If the price of an article was found to be exorbitant, the party supplying was written to. The price was judged by what the article could be got for here.

To Mr. Lauder.—I have tried to make improvements in the operations of the Department since 1867.

To the Chairman.—We are still making improvements.

To Mr. Hardy.—I don't think there is any advantage in obtaining tenders for groceries if the officer who buys be a person of capacity and integrity.

To Mr. Ross.—My opinion as to the present mode is based on past experience.

To Mr. Hardy.—I regard Mr. Cashman as an expert in the purchase of groceries, and a man of capacity and integrity.

J. W. BRIDGLAND.

R. J. Griffith, called, sworn, deposed:

To the Chairman.—I was a member of the firm of W. & R. Griffith. They have supplied government contracts. In 1869 we supplied to the following amounts: In 1868, $810.15; 1869, $1592.20; 1870, nothing; 1871, $924.48; 1872, $4,226.60; 1873, $7,775.75; 1874, $784.96.

I think we tendered in 1869, the government officers called every year and solicited prices. I think we sent in a tender, but am not positive. I think at the beginning of the year we gave prices. I am not positive we furnished samples. They would be examined in the warehouse. In 1872, 1873 and 1874, we furnished samples, I believe. I think in 1869, tenders were not asked for by advertisement. We were always aware that we were competing with other houses. I don't think there was a change of mode in furnishing supplies. I don't think there is much gained in the long run by advertising. We supplied the government at close prices, as we would do with any respectable dealer. Prices of tea and syrup fluctuate a good deal. The brands of syrups furnished to colonization roads change. The brands supplied were a good medium syrup. The syrup supplied in 1873 at 55c. would be good medium quality. Young Hyson, 60c.; Soap, 7c. a pound, we made a rule of giving everything good.

Rice we furnished at 4½ cts. per pound. My politics are pretty well known as a conservative. There was no change in our dealings with the government, when the change...
of government took place, until I think the spring of 1874. In 1873 we had the whole supply. I would be afraid to speak now of the price of syrup in 1875; I don't recollect that it was as low as 48 cts. If we had quoted the Toronto price of an article unless we had a heavy stock and it was a part of a general order, the price the article cost us would not be considered an ordinary fair quotation; we never did give a cost quotation.

To Mr. Ferris.—We furnished a price list and samples to the Government, I think.

To Mr. Deacon.—I could not give more explicit information to-morrow than I can now, as to the manner in which supplies were furnished by us.

**Toronto, February 8th, 1877.**

R. J. Griffith, recalled, deposed:

To the Chairman.—The only tender we gave was a price list; not a tender called for by advertisement. This was previous to 1874. We understood that the officers of the Government were soliciting price-lists from other houses. They conveyed the impression to us that they were doing so, and we acted accordingly.

To Mr. Ferris.—I received the memo, from the Commissioner. I did not bring the figures from my books as to the amount of goods sold to the Government in 1868. The goods were all supplied according to quotations furnished to the Government officers or samples shown to them. There was no formal tender called by advertisement. As far as I can recollect, the quotations were submitted generally at the beginning of the year, at which time we would get the order, supposed to supply the greatest part of the year. We subsequently got orders and supplied them without sending quotations. In each year this course was pursued. That would be the index of the prices at that particular time. If prices would advance or decline during the year, the Government would be treated as any other good cash customer, and the goods would be taken without any further test beyond seeing that they agreed with the current market rate. I presume there was more care in this respect shown by the Government than by any other customer. I know Cashman slightly. I don't remember submitting goods to him. I think Mr. Bridgland was one, and going a good many years further back, some of the foremen or overseers would come in and examine, and note prices and select goods, and as between these parties and our house the price would be fixed. There was no change until the change in the spring of 1874, I have referred to, when the head of the Crown Lands Department was changed. It was then, I think, Cashman first came for a tender. I have a distinct recollection of Mr. Bridgland coming to our house. The change I refer to was that Cashman came to the office to get tenders, which we gave him. I considered those tenders more formal than the quotations we had previously given. Cashman told us that tenders were required. I think there was a form made out, and we tendered. Cashman first took the tenders in the spring of 1874. In 1874 our supplies were $784.96; in 1873, $7,775.75. It was in the spring of 1874 the change took place in the mode of tendering, when I understood the Head of the Crown Land Department was changed. I did not know Cashman before he went into the Crown Lands Department. It was only through this Department that I knew anything of him at all. I don't remember knowing him when he was in the trade. The old quotations were only written out. I think the tenders Cashman wanted were printed. I don't see that there was much difference in the mode of doing this. The greatest difference was that we didn't get the orders. I don't know that a better method of getting supplies could be suggested. I think Government always got as well supplied as any other customer. I know Jaffray very well. He is a man of respectable standing in the trade. Beyond the inspection by Bridgland, or the overseers, of the goods we furnished, I don't know that there would be any inspection at the Department. The goods went to the Government the same as to any other customer. Their complaints were very seldom; there was nothing serious, and we always tried to make things right if there were complaints. I would not be able to say very well without seeing the goods, whether Jaffray's prices for syrups, in 1874, and for teas, 60c., were right. The transactions would be between Mr. Jaffray and the Government agent, if it was left to that officer. We understood purchases were left to them. We knew nothing of any one other than them having control.
To Mr. Meredith.—In each year we gave quotations. Samples were examined by the Government officer, and the prices referred to the samples, so that he knew what goods we could supply for certain prices. After 1867 I am doubtful that overseers bought anything. As far as my recollection goes, they did not buy after 1867. The orders were always put in writing, and I think the overseers brought memorandums of what they wanted. We do all our business by sample. It would not be possible to give same tea all the year round. An equal value and grade could be got. The same applies to sugars and syrups. The samples are generally kept. It would not be unusual for a grocer to agree to supply goods of an equal grade, at a fixed price. I cannot account for the increase of supplies of 1872 over 1871, or 1873 over 1872, except there was more work going on and more men employed. I am not aware that other persons beside ourselves were supplying. I cannot tell why we did not supply in 1870. We made no enquiries as to whether anyone else was supplying. In 1874 Mr. Cashman called for prices. There was nothing of a special nature that I could name in the interview with Cashman, to give me the impression that we could not get the order. I formed the impression, but could give no definite reason why. There had been no complaint of our supplies, and our dealings with the Dept. were quite satisfactory so far as we knew. Our business is larger than Mr. Jaffray's. I should think we would be in a better position to supply than he would. He retails and also does a jobbing trade. [Synopsis of tenders produced, and shown to witness.] These tenders bear out that, I think, ours was the fairest price there. A merchant could easily form an idea as to the correctness and fairness of these tenders. He could not very well compare one with another without examining the goods. A merchant would form an opinion without looking at samples e. g., tea at 20c to 60c. and at 30c to 50c. Now tea at 20c. we would not send at all, every merchant knows it is the lowest grade, in fact, it was rare at that time to find tea at 20c. at all. The freight charges would be the same on a low grade as on a good grade of goods. We always thought the Government should supply the men with a good grade. We would send tea at 50c to 60c. I don't think there is any guide to some of these figures, unless samples were put before them. There was no tea at 20c. a lb. that we would think fit to send to anybody. My minimum price for tea is 30c to 50c. At that time considering it was a cash customer, we might put in a fair grade of tea. I should think we could give better quality of tea than Jaffray, whose prices are 20c. to 60c. Jaffray's minimum price for syrup is 34c. mine is 47c. I don't think it possible to supply such syrup as we sent for 34c. We could not send medium quality for that or anything like it; syrup is very heavy, and the freight heavy, and we go on the principle of sending a good article. Prices cannot be determined by any rule.

To Mr. McDougall.—There are only three or four grades of sugars, and a merchant could easily understand what should be sent, and what the price should be. The prices quoted show the judgment of the merchants themselves as to what quality of article should be sent. I don't think Close ever had any experience as to the goods required by the Government; Frank Smith had supplied, and his price for sugar is ½c. over me. Mr. Jaffray's prices may have been the first he ever submitted. He could buy to as good advantage as we could.

To Mr. Gibson.—I think we supplied the Colonization Roads previous to 1867.

To Mr. Ferris.—A merchant or expert who had examined the goods and made a memorandum of his book would be able to judge as to which price list would give him the best value. It would not be unusual for a merchant to agree to furnish to a Government or contractors, to give the same grade and value, at a stated price for a particular period, after samples had been examined.

To the Chairman.—Among merchants, that is not a usual way of dealing, but with contractors it is not the way to do it.

To Mr. Ferris.—I have been in business about 15 years. I don't know that we ever had a written contract of the kind which I have described as not unusual. We contract with the Government for a specified quality according to sample. In what we have done, the quantities were usually mentioned. I don't know that we ever had a contract with Government or any one else without the quantity being specified or being pretty well understood. We never had a contract to furnish goods of a certain quality at a stated
price in unlimited quantities. Merchants don't do business of that kind without having an idea of the quantity wanted.

To Mr. Hardy.—Before 1874 we never sent in to the government a quotation of what we would furnish goods for. Usually in a day or two after we would get an order for goods.

Our sugars are $\frac{3}{4}$ of a cent per pound lower than Mr. Jaffray in the tenders for 1874. Our tender is lower throughout, but tea. Sugar is 8 cts., our tea is 30 to 50 cts., syrup is 47 cts. I think this would be suitable to send. It would be good medium syrup at a low price. We charged 55 cts. in 1873 for syrups. I assume that it was then higher. I am not sure it was. Sugars were higher. I would not at present swear they were higher. We charged 9 1/2 cts. Tea in 1873 we charged 60 cts. Teas changed. Our account is dated June 13th, 1873. We would send the goods to the nearest station and send duplicate bills to the Department. We sent shipping bills sometimes to Mr. Bridgland. In 1871 we had no uniform way of sending our shipping bills. Mr. Bridgland gave instructions regarding shipping. The invoices are made out to the Department, and sent there. We always considered Mr. Bridgland the officer of the Department. I don't remember communicating to the heads of the Department. The letter of August 25th, 1871, was sent to Mr. Cameron, because we were glad to see him appointed. The letter is in my own handwriting, as is follows:—

ONTARIO CHAMBERS,
August 25th, 1871.

M. C. CAMERON, Esq
Commissioner Crown Lands.

DEAR SIR,—It gives us very great pleasure to acknowledge the receipt of yours of the 18th instant, being the first kind favour from you in your new Department.

We are respectfully,
(Signed) W. & R. GRIFFITH.

I think it refers to the first order we got for goods after Mr. Cameron's appointment to the head of the Department. Mr. Cameron is an old personal friend, and I was very proud of his appointment.

To the Chairman.—I think we showed Mr. Cashman samples in 1874. If he asked for samples we showed them, and I think he did ask for them. Previous to 1872, the goods were not always personally inspected by persons ordering them. He did not compare them with the samples given at the beginning of the year. I have not been able to find the price of golden syrup in 1875. I could not speak of Mr. Jaffray's syrups furnished in 1874, from 52 to 55 cts., 60 cts. is not too high for good tea. It ought to be good tea at that. Previous to 1874, Mr. Bridgland came with a memorandum and got our quotations. He looked at the samples at the same time in the beginning of the year.

Question by the Hon. Mr. McDougall.—From your experience as a merchant, do you consider that the so-called tenders asked from merchants by the Crown Lands Department were of any advantage to the government in respect to the quality and price of the goods ultimately furnished.

A. I don't think there is much advantage gained. It depends a great deal on the respectability of the house. Tenders may be asked for and unfair prices might be given, and any loss might be made up to the house on subsequent orders, so that I don't think the government would gain much. I look upon the tender produced (synopsis of tender) as a formal tender. This tender would not be repeated in every case, and throughout the year I don't think the gain would be great enough to pay for advertising.

Q. By Hon. Mr. Macdougall.—If the agent of the Department examined the goods without reference to the tenders at the time of purchase, would not that examination be a better security to the government than to rely on tenders without such examination?

A.—I think it would, assuming of course, the individual knew something of the goods, and was accustomed to buy.

To Mr. Hardy.—I have known Mr. Jaffray 15 or 20 years. He stands well in the trade, and bears the reputation of an honourable dealer.

80
Q. By Mr. Meredith.—Do you think that it would be of advantage, assuming that the Department dealt with houses of respectability, to require tenders for the supply of groceries for a fixed period, at a fixed price, for goods equal to the grade sample furnished with the tender.

A. Still assuming that they were dealing with a respectable house, it might be an advantage that it would be a guide if they had the samples. There might be advantage there if a government officer would get samples of just the kind of goods and kind of grades he wanted, and if a respectable house would keep up with the sample, each having duplicates, at fixed prices; assuming also that the officer understood the goods.

Q. By Mr. Ferris.—Would it not depend on whether the goods went up or down the market.

A. No, I am assuming it is a respectable house, and if they agree to give a certain grade of goods they would do so. If the price went down, the government would have to suffer; but I think it would gain, taking all things into account. I never suggested that plan to the government during the years I was dealing with them.

To the Chairman.—If the government had certain samples at the beginning of the year, and both government and merchant would have samples, I think an annual contract with a respectable house, at fixed rates, would be an advantage.

ROBERT J. GRIFFITH.

(K.)

TORONTO, Friday Feb. 9th, 1877.

J. W. Langmuir, being called and sworn, deposed:

To Mr. Hardy.—I am Inspector of Asylums, Prisons, and Public Charities. I have been nine years in that position, commencing in 1868. I was the first occupant under the Act after Confederation. The purchases of supplies for public institutions made by me are under the instruction and authority of the Provincial Secretary. When I took office, almost everything was submitted to tender—certainly all groceries, provisions, and stores. I don’t think dry goods were. The same system is in operation now. Perishable supplies, such as butter, flour, oat meal, corn meal, pot barley, pork, meat, &c., are now tendered for. The following is the complete list of articles of supply that is tendered for: butcher’s meat, flour, oat meal, barley, pork, hams and bacon, butter, cordwood and coal.

Everything but these are bought in the open market. We do not call for tenders for groceries and dry goods, because I find it better not to do so, and have so reported. I found, when first appointed, that teas, sugars, groceries were asked for by tender. The offers were then almost exclusively confined to retail men under the system referred to, viz.: by public tender accompanied by samples. I found at my quarterly inspection that the goods were not those tendered for, and of which samples had been shown. It is very obvious the goods can’t be the same, if a certain class of stores are asked for, and the tenders of retail traders are accepted, because they cannot keep the same class of goods always in stock. On many occasions the goods were not so good as samples. For instance, young hyson tea would be asked for, the best that could be given, for say, 60 cents a lb., and if, say 100 cheats were required to be delivered at various times during the year, we found the contractor did not supply the same quality as he would have, had it been delivered at once. We were dealing with retail groceries, and very generally paid retail prices. When first appointed to office, I was not attached to any minister of the Crown, but consulted with Mr. Sandfield Macdonald, the Premier. I reported to him and he represented to the Government of the day, that we were paying retail prices and not getting the benefit that should attach to cash purchases. On page 27 of my second annual report (1869), my remarks on this point are to be found. The tender system in regard to groceries was abolished in 1869, I think.

To Mr. McDougall.—We changed from the tender system to purchasing dry-goods and groceries in the open market. We generally buy from the local dealers where the institutions are situated, but when we find we are not getting value, we withdraw our trade to another quarter, as we have done in London twice.

To Mr. Hardy.—A requisition for supplies is made by every institution at the beginning of every quarter of the year, and transmitted to me. I consult with the officers of Toronto institutions as to the quality of goods they want, and I frequently proceed to the various dealers, and buy the goods just as a merchant in good standing would. They deliver the goods immediately. In London and Toronto, we have store-houses, and buy the quarter’s supply at once, so that a bill large enough to make it important to wholesale houses is obtained. The prices under our present system are very much lower than before, and the quality now is just what we buy and pay for. Upon the whole, the result of the change is most satisfactory. We get the very goods that we buy at a very much lower price than before, and at the lowest wholesale rates. Formerly the competition
The result of the change has been that the cost of maintaining the patients per head has been reduced. The reduction in maintenance is not altogether due to that, because the greater the number in the public institution, the cost per head would be less, but we have reduced the cost by the new system not less than $10 or $11 per head per annum. In 1868, the year that I based my recommendation on, the cost per head was $155 in the Toronto Lunatic Asylum, last year it was $132, I think, in London, and $128 in Toronto, and this in the face of the fact, that groceries, flour and provisions have advanced, and the dietary list of the patients has been considerably improved.

To Mr. McDougall.—I think that it is infra dig. for wholesale men to send samples and give tenders, unless they have a retail shop attached to their business. The supply of Public Institutions got to be looked upon as a retail trade, and wholesale dealers would not tender; e.g., in the case of a purchase of 100 chests of tea, the delivery would be spread over the whole year, so that the orders would be small. We have retained many of the accounts the Institutions had in 1869; of course we have taken on new ones. I think the accounts are very fairly distributed between the old and new accounts. In some cases the new ones have been pretty large. I rely entirely on my own judgment in purchasing goods. The minister is not responsible for the quality of the goods and prices, but when requisitions are sent in I consult with him as to whom the goods should be bought from. The cost of Public Institutions for 1874 and 1875, two years, was $552,166.49. The amount of goods tendered for, in round numbers, was $200,000. The groceries and dry-goods—bought in open market—amounted to $93,509. The wine, beer, and spirits are placed under the control of the Medical Superintendents, who purchase them. These supplies in the two years amounted to $10,249. Salaries and wages amounted to $178,870, other services such as light, laundry, repairs, &c., amounted to $69,235. The only thing that could be submitted to tender in addition to those named, would be groceries and dry goods. I submit schedules of purchases of supplies, for 1874, (C1), and 1875, (D1).

The goods tendered for are advertised for in the last of December of each year in every town where there is a Public Institution.

To Mr. Meredith.—The papers are Government papers, except in Toronto, where we advertise in the Mail.

To Mr. Hardy.—The tenders are sealed up, and put in a locked box of which I have the key. At noon of the last day, they are opened and entered in a book numbered, which I submit to the minister in charge, with my recommendation for acceptance. I have always recommended the lowest tender, and it has been invariably accepted, except in one case where an old contractor who gave satisfaction was only one cent per 100 lbs. higher on beef than a new man.

To Mr. Meredith.—The lowest tenders were accepted, under all governments under whom I have served.

To Mr. McDougall.—The tenders are given on a definitely stated quality of goods. These specifications I produce.

To Mr. Hardy.—The purchases in open market, are made in many cases from persons with whom we have dealt. Some are Conservatives and some Reformers. When I render my quarterly requisitions, Mr. Wood has asked me if I could not buy a certain line of goods from so and so. I would report that I could do so in certain lines, if I found I could do so, and the order would be given to the party for those certain lines.

To Mr. Ferris.—No minister under which I ever served has attempted to induce me to give a larger price to particular persons.

To Mr. Hardy.—The purchases at London are made by the bursar, who gets offers, price-lists and samples from the several houses. If I could not visit London at the time myself, I ask him to send the samples down for examination, before I sanction any purchases. I have about 200 samples now in my room, from different places. In London some years ago, I think the merchants would not offer groceries and particularly dry-goods, as low as I could get quotations here. I told the bursar there to call upon the merchants and tell them that the purchase would be paid for to within 10 or 12 days, and give their quotations accordingly. I was not satisfied with them, and bought in Toronto,
that year. Since that the London merchants give better quotations, and we buy from them now altogether.

To Mr. Meredith.—Wherever there has been a departure from the acceptance of the lowest tender, I give my report on the tenders in writing. My reports are usually given orally. In case of a tender for coal and wood, if the coal was higher and the wood lower than prices quoted in other tenders, we are governed by the lowest total of the whole. Coal and wood merchants know this. Recommendations are made orally, with regard to goods purchased in open market. I very frequently don't go near the minister at all, except when the January bills, which are large, come in. In Toronto I visit the merchants myself. In other places I get samples at the beginning of the year. I have recommended the purchase of an annual supply at one time if goods are low and we have store-houses attached. The London bursar sends price-lists and samples quarterly. I hold myself entirely responsible as to the quality and price of the goods. I leave the purchase of smaller lots of goods to judgment of the Bursars. I do not always instruct as to from whom the Bursar shall buy, but I select the prices and qualities wanted. Mr. Wood never interfered with me in regard to London purchasers, and he has sometimes given me the name of a wholesale dealer in Toronto, and purchases would be made from him if he offered as low as others. In 1874 we bought upwards of $6,000 of groceries from Frank Smith & Co.; in London we bought from Elliot Bros.; also from others. In every case we got good value. Dry-goods we bought in Toronto that year. Next year we bought entirely in London. I am not aware that the purchases were changed from London to Toronto in 1874 in consequence of representations made by a wholesale house. None such were made to me. We buy about the same class of goods in groceries as would be suitable for a good respectable farm-house. I dare say it would be advantageous to buy all government supplies through one officer, on account of the quantities required. I find considerable uniformity of prices among large wholesale merchants here. I think the principle adopted by a good respectable country merchant is a good one for Government institutions. The purchases in London have been as low as in any part of the country, taking freight, etc. into account.

To Mr. Hardy.—We have regular contractors for the Blind Institute in Brantford. At present they are:—For butcher's meat, Touse; for butter, Forbes; for fuel, Mann; for wood, Ford & Son. We don't contract for groceries. We get groceries from George Watt, other supplies from Foster & Turner. We buy there from month to month, or quarterly, for we have no storehouse there.

To Mr. Lauder.—Groceries have been purchased in Toronto for outside institutions. In one instance, in 1874, I found the London offers were not as good as we got here, and I bought that year upwards of $5,000 or $6,000 from Cramp, Torrance & Co., by auction. We bought very low, at a trade sale. The supplies were sent to London and Belleville. I have bought groceries and dry goods in Toronto for Orillia. John Waldy has been the contractor for butter for five years for many of the Public Institutions. He lives at Wellington Square. He has tendered every year I have been in office. Last year he supplied butter to Belleville, Brantford, and Toronto. He furnished flour one year. Mr. Waldy got the contract first many years ago. In 1876, we sent groceries from Toronto only to Orillia. I may have sent blankets, bought at a very low rate from the Cornwall Manufacturing Company, to Hamilton. We have sent almost all the groceries from Toronto to Penetanguishene. The small things we bought there. We never bought at Barrie. We buy for the Hamilton Asylum almost exclusively at Hamilton. Sheetings bought from England—a particular width—were sent to Hamilton from here. In 1869-70, we chiefly bought groceries from Michie & Co. During 1875-76, we have been buying from Mr. John Morison. One year—1874—we supplied teas, bought at auction, to outside places. In 1876-77, we bought the whole year's supply of teas, as we thought they would advance during the year, and I recommended that plan. I suppose we will buy and have bought 300 chests, taking December purchases into account. The teas vary in quality. I get good value in uncoloured Japans, which give the best satisfaction. The December purchases were made from J. C. Fitch & Co., John Morison, Fulton & Michie, and John Baxter. I can't now give you the amounts, as I have not prepared the statement for 1876.

TREASURER'S OFFICE,

Committee met at 10 A.M.
Present:
The Chairman,
Messieurs Merrick,
Merrick,
Ross,
Striker,

Minutes of last meeting read and confirmed.

Mr. John Morison, Wholesale Grocer, Toronto, called, sworn and examined, relative to groceries supplied by him for Public Institutions, and the general mode of furnishing such supplies.

Evidence read to and signed by witness, who was then discharged.

(See Evidence Appendix I. to this day's Minutes.)

On motion of Mr. Merrick, it was Resolved,—That the Committee meet at 11 A.M. to-morrow.

Ordered, that Mr. Langmuir be summoned to appear before the Committee to-morrow.

Adjourned.

CHARLES CLARKE,
Chairman.

TORONTO, Feb. 14th, 1877.

John Morison sworn, deposed:

To Mr. Lauder,—I am a wholesale grocer in Toronto. We have furnished supplies to the Government. 1875 was the first year we supplied. Mr. Langmuir was the first to come into our store. Mr. Short came afterwards, and said he wanted to look at some groceries. The first order was for $147.05 in July, 1875. In 1875 we supplied $634.69 worth of goods to the Central Prison. They were all ordered by Mr. Short, Bursar. We supplied goods first in 1875, to the Lunatic Asylum. Mr. Langmuir came into my office and wanted to see groceries. I did not know him when he came in. I had not seen Mr. Wood or any other member of the Government on the subject of supplies. We have supplied the Lunatic Asylum since. Their account is open at present. I think last
December we sent a few hundred dollars worth to Orillia—no other place outside of Toronto, to my knowledge. I knew the supplies were for the Government. Mr. Langmuir, I think, always buys goods himself when they are over a few hundred dollars. Sometimes we send goods by order—small quantities. We always showed samples in selling. The order to Orillia, including ten boxes of tea in December, amounted to about $800. The total amount of our sales for 1875 to the Government was $4,590.18; for 1876, $5,609.76. These were direct sales out of my own warehouse. I have had no other sales. We do no selling to the Government except from our own store. Mr. Langmuir looks at samples before buying.

To Mr. Ferris.—Mr. Langmuir opened the account for the Asylum; Mr. Short for the Central Prison. I knew nothing about their coming till they came.

To the Chairman.—We never solicited the account at all. A cash buyer could not have done any better by us than the Government did.

To Mr. Wills.—Mr. Langmuir generally buys when he comes in. Sometimes he takes a price list, and orders before buying.

To Mr. Gibson.—I don't think the Government would be supplied cheaper by contracting at the beginning of the season at fixed prices for what would be required. Groceries have no regular brand. I take the Government to be in the position of a merchant buying $40,000 or $50,000 a year, and owing to the fluctuations in prices, it would not pay the merchant or Government to advertise. It would be far better to come in, look at the goods, take their chances, and buy as they require. The item of interest on a large order would be saved by not buying at once.

To Mr. Ferris.—The Government pursues the universal practice of the trade.

To Mr. Gibson.—I would place the Government in the position of a retail merchant. I think it better for a merchant or the Government to buy about once in three months. Assuming that my last argument holds good, I don't think a dollar would be gained by advertising and getting samples at the same time, because I presume the person who buys now would buy after the advertisement, and the samples would be of no more use in his office than they would in the stores, where he could see them.

To Mr. Ferris.—The Government, by their expert, transact their business in the same manner as a retail merchant.

To the Chairman.—I consider Mr. Langmuir and Mr. Short keen buyers, and fully efficient for the duty of purchasing.

To Mr. Lauder.—The system I would recommend would not apply to books. The argument is not analogous. Tea fluctuates; I have never, in all my experience, been able to duplicate exactly an order for tea.

To the Chairman.—Coal is brought here by vessels, and is delivered to the purchaser's place.

To Mr. Ross.—I don't believe our best houses would trouble themselves to tender for groceries. The sample of tea that might be tendered for at the beginning of the year, would not be in stock at a subsequent time, and the quality of the second quantity might be poorer than that ordered.

To Mr. Ferris.—I have sometimes seen 120 or 140 chests of the same tea. They would run from 20 chests to 170 chests of a line. A particular line of tea can be furnished to the extent of the quantity of the particular line; it is the same as with butter; when the quantity supplied by one farmer is exhausted, the quality of that supplied by another farmer would probably not be the same. There is a fixed standard by which flour can be known and purchased.

To Mr. Lauder.—There are no brands of syrups. There is no such thing as inspection, like flour inspection.

To Mr. Merrick.—Amber syrups vary in price 10c. to 15c. a gallon. There is no number by which they are known. We had a refiner in Montreal up to a few years ago. He had regular brands, and we generally purchased from him at that time; but even then his brands were not always the same quality, and sometimes would make an allowance of three cents. It has paid us within the last few years to import from New York, except during the war.

To the Chairman.—I have supplied syrups to the Government.
To Mr. Lauder.—I am not in favour of advertising for tenders for groceries. I don't think the Government would gain anything by it. The Government can buy now, the same as any other cash customer, at 5 per cent. to 7 per cent. over cost for cash, at any wholesale house in the city. I don't think they could do better than that.

To the Chairman.—I always believed that we were competing with other parties when Mr. Langmuir called on us.

To Mr. Ferris.—When Mr. Langmuir gave one order, we never knew that he was coming back again.

To Mr. Merrick.—Mr. Langmuir gave us the order for large quantities, like ten chests of tea or two or three hogsheads of sugar. We commenced furnishing goods to the Government in 1875. Mr. Short stated what kind of goods he wanted. He asked to see samples and get prices of certain grades of groceries, and purchased there and then. I am aware that the Government advertised for pork and flour. The prices vary. I don't think a merchant would ask for tenders for even pork. I put the Government in a similar position. I see by advertisements that the Government asks for tender for pork and flour. The same rule regarding value of pork and flour does not apply to groceries, which have no brand. We know rice upon seeing it, by comparing quality. We know soap by certain grades. We can buy lines of tea up to certain quantities, about 170 chests. The average lines are 50 to 80 chests; 170 chests was the largest quantity of one line I ever bought. If I were purchasing I would go around, get prices, and compare samples. Without comparison of samples, prices are of no value. I don't think it is a proper way to give price lists without samples.

To Mr. Ross.—It would not be necessary to send samples if the purchaser saw the samples when asking for prices.

To Mr. Merrick.—I think wholesale houses would not tender, because they and importers very seldom tender. If the purchaser wanted to buy the whole stock of tea, for instance, in a particular line, it would be legitimate for the wholesale dealer to sell; but they would not bind themselves to supply the same grade all through the year. Groceries are not inspected like flour, and the tendering system is open to be abused.

To Mr. Ross.—The government could be imposed upon by a dishonest dealer.

To Mr. Merrick.—In politics I am a supporter of the present administration.

To Mr. Gibson.—My opinion is most decidedly opposed to advertising for groceries at all, on account of the small profit on groceries and fluctuation in prices.

To the Chairman.—The purchase of Mr. Short was made after that made by Mr. Langmuir, for the Lunatic Asylum. When Mr. Short asked for prices, we believed he did so for the purpose of comparison with prices already in his book. Mr. Langmuir asked for prices and looked at our goods.

To Mr. Lauder.—Mr. Langmuir purchased there and then.

To the Chairman.—The whole of a long line of teas is not often bought by a retail merchant. I don't consider it advisable in our own business to buy a whole year's stock in advance. I know of no one who does. The practice is not common.

J. Morison.

Treasurer's Office,
Thursday, 15th February, 1877.

Committee met at 11 o'clock, A.M.

Present:

The Chairman,
Hon. Messieurs Crooks and Wood,
Messieurs Ferris,
Gibson,
Lauder,

Messieurs Ross,
Striker,
Williams,
Wills.

Minutes of last meeting read and confirmed.

Mr. Langmuir being absent from the city, the Chairman read the following explanatory telegram:

88
HAMilton, February 14th, 1877.

C. Clarke, M.P.P., Chairman Public Accounts Committee:

"Cannot reach Toronto before 1 P.M. to-morrow, unless I leave my work undone in London.

The Committee proceeded to the further consideration of the Public Accounts of 1875, page 49, under the head of "Administration of Justice."

Mr. Wills asked for papers showing in detail the expenditure in the Counties of Brant, Elgin and Hastings, for the administration of Criminal Justice.

Mr. Gibson asked for similar papers for the County of Huron. Papers produced in both cases.

The Committee decided to call Mr. Henry Totten, Audit Clerk of Criminal Justice Accounts, to give the necessary explanations in regard to the items asked for, and being called was sworn, and gave evidence touching the matter of inquiry.

(See Appendix M. to this day's Minutes.)

Evidence read to and signed by the witness.

On motion of Mr. Williams, it was ordered that the papers relative to the Administration of Criminal Justice in the County of Wentworth, and the City of Hamilton, for the years 1873 and 1876 be produced.

The Chairman was authorized to make another application to the Public Works Department for the statement of expenses incurred in the construction of the Central Prison, as asked for by resolution of 17th January last.

Mr. Langmuir was ordered to be summoned to give evidence to-morrow.

Adjourned until 11 o'clock A.M., tomorrow.

Charles Clarke,
Chairman.

Henry Totten, sworn, deposed:

To Mr. Wills.—I am the auditor of the Criminal Justice accounts (account of J. Cockshutt's, Brantford, of April, 1875, for $110.90 produced.) I consider all of this account a proper charge upon the Administration of Criminal Justice. (Account of Francis T. Fox, Brantford, April 1st, 1875, produced.) This account also would be a proper charge upon the Administration of Criminal Justice. The accounts of the Sheriff and Constables are paid in full by the Government. Supplies are paid by the Government in the proportion of 533 to 585 in Brant County for March quarter, 1874.

To Mr. Wood.—The Government pays the whole of the accounts for Sheriffs, Clerks of the Peace, County Attorneys, so far as they relate to Criminal Justice, all Coroners' accounts for items mentioned in the tariff. Constables are paid by Government. The salary of the Gaoler, the Gaol Surgeon, the Turnkey and the gaol supplies are paid in the proportion which the criminal prisoners bear to the whole. For instance, if 833 should represent the number of days of criminal prisoners confined, and 3,154 the civil prisoners, the Government would then pay a proportion of 533 to 585. The accounts are sent to the Department by the County Treasurers, after being audited by a local board of audit. We are guided in auditing the accounts by the tariffs. The tariff relating to Sheriffs was passed in 1868; that of the County Attorney was established by C. S. U. C. chap. 106, and by an Order in Council passed May 31st, 1861, and by the tariff relating to County Judges Criminal Court; that of the Clerk of the Peace, by a tariff established by the Judges of the Superior Court, in 1862, and by the tariff relating to County Judges Criminal Court; that of the Coroner, by a tariff established by the Judges of the Superior Court, in 1845; that of the Constables by an Order in Council, approved July 24, 1874;
that of the Crier was established in 1845. After auditing the accounts, I recommend payment thereof to the Governor in Council. Where deductions are made, an abstract of them and the reasons therefor are sent to the County Treasurer. On my recommendation a cheque is issued in favour of the County Treasurer.

To Mr. Lauder.—We sometimes have complaints from County Treasurers, who claim that we should pay a greater proportion than we do for Constables, Coroners, and sometimes for gaol maintenance, but principally for Constables. We have had no official complaints—only those of the Treasurers. We find no difficulty in settling disputes. We treat all County Treasurers alike in regard to taxations and deductions.

To Mr. Wood.—There is hardly a county where there is no grumbling.

To Mr. Ross.—Under Chap. 120 C. S. U. C., certain payments are to be made out of the Consolidated Revenue Fund. Some County Treasurers claim that the meaning of the statute is that the Government shall pay the whole of the expenses in connection with criminal justice. Under Chap. 121 C. S. U. C., the whole of the expenses in connection with the administration of justice were payable out of the district funds. Subsequently to the passing of that Act, Chap. 120 was passed, which provided that in 1846 one-third of the expenses in connection with criminal justice should be paid by Government; and in 1847 two-thirds, and subsequently the whole. These proportions were arrived at by paying the whole out of the district funds, as provided by Chap. 121, and claiming the one-third and two-thirds from the Government. It was subsequently held in the case of Bousett v. the County of Lambton, 21 U. C. Reports 80, that the intention and effect of Chap. 120 C. S. U. C. is that the county shall be paid or re-imbursed by the Government all such expenses as come within that statute and have been audited by the proper auditors, according to the regulations of the Government, and not that the Clerks of the Peace, Coroner, Constables and Criers are to make out several accounts against the County Government for such services; and in a recent case of the Sheriff of Lincoln v. the Treasurer of the Corporation of Lincoln, 31 U. C. Rep. 1, the question to be decided was whether the County Treasurer was right in refusing to pay the Sheriff's account, audited and allowed by the County Board of Audit, until it had also been allowed and audited and the amount of it paid over by the County Government to the County Treasurer. Mr. Justice Wilson decided—"The Treasurer, after the county audit, is without further authority to pay such an account as the one in question, unless he can show that the items in question were so inadmissible and illegal that if they were paid the money could be recovered again from the person receiving it, the auditing and accounting with the Government is a matter alone between the Government and the county. The auditing by the County Board is a matter between the claimant and the County Treasurer."

To Mr. Lauder.—I think the accounts in connection with the Court of Queen's Bench are paid on the requisition of Mr. Dalton, who sends the items. I examine and audit all the accounts for the District of Algoma, Thunder Bay, etc.

To Mr. Wills.—The proportion of the account of J. Cockshutt, Brantford, paid by the Government, was 3/4. We take it for granted that the whole of the expenses of the Gaol are sent in, and we strike the proportions. The distinction is between prisoners confined upon indictable offences and all others.

To Mr. Lauder.—The accounts for Crown prosecutions, miscellaneous justice, and special services are audited in the Attorney-General's office.

HENRY TOTTEN.

TREASURER'S OFFICE,
Friday, 16th February 1877.

Committee met at 11 o'clock A.M.

Present: Messieurs Ross, Williams, Wills.

The Chairman, Hon. Mr. Wood, Messieurs Ferris, Gibson,
Minutes of preceding meeting read and confirmed.

Mr. H. Totten produced papers asked for yesterday by Mr. Williams, relative to expense of Administration of Criminal Justice in the County of Wentworth, and the City of Hamilton, and gave the required explanations, for which see his evidence, marked N, appended to this day's minutes.

Mr. Langmuir, having read and corrected his evidence of the 9th instant, it was read over to the Committee, and, there being no further questions put, the witness signed his deposition and was discharged.

A draft Report was submitted, and being read by the Chairman, it was adopted, and the Committee ordered it to be presented to the House this day.

Committee adjourned, subject to the call of the Chairman.

__________________________
Chairman.

The following Report was presented to the House this day:
To the Honourable the Legislative Assembly of the Province of Ontario.
The Standing Committee on Public Accounts, beg leave to present the following, as their

THIRD REPORT.

Your Committee have taken evidence as to the system followed in obtaining supplies for the maintenance of the Public Institutions of the Province, and submit it herewith for the consideration of the Legislature.

Your Committee have also taken evidence relative to the mode of auditing the accounts of County Treasurers, for the Administration of Criminal Justice, and present it, together with the minutes of proceedings to this date.

All which is respectfully submitted.

CHARLES CLARKE,
Chairman.

Committee Room, February 16th, 1877.

TORONTO, February 16th, 1877.

Henry Totten, recalled:

To Mr. Williams.—The amount of the account of the Wentworth Clerk of the Peace for December quarter, 1874, was $594.23; the deductions amounted to $378.21, as being properly payable by the Co. The items should not have been included in the bills. I also deducted $86.66 as the amount to which the Clerk of the Peace was not legally entitled from the Government. I do not know whether the account had been paid by the Co. Treasurer. It was properly audited. The account of the County Attorney amounts to $320.30 for the same quarter. That is his own private bill, and does not include fees for constables, etc. I think the practice by the County Treasurer is to pay these accounts after they are audited by the Local Board. The deductions on this bill amounted to $62, $20 of which were overcharges, $40 were charges payable by the County. A special charge of $92 for services at the Assizes was deferred and subsequently allowed.

In March quarter, 1875, the account of the Clerk of the Peace amounted to $169.41, of this amount $87.86 was deducted as being payable by the County. The County Attorney's account for the same quarter was $224.17, from which $4.50 were deducted as being improper charges, and $54.89 special charges, the authority for which he did not produce, and I believe he has not done so, though required to do so.

In June quarter, 1875, the account of the Clerk of the Peace amounted to $222.52. Of this amount, $22.70 were deducted as being illegal charges; $46.50 were doubtful charges, the authority for which was asked, and $46.86 were amounts chargeable against the County. The amount for doubtful items, $46.50 has not been paid yet. In case of doubtful items which are sometimes for duties performed by instruction from the Attorney General, if the authority for such items does not come with the account, I defer for
such authority. The deductions on the accounts of the present Clerk of the Peace and County Attorney are very much in excess of those of the former County Attorney and Clerk of the Peace.
