3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

Before reviewing our immediate circumstances and outlining the commitment of my Government to the renewal of our economy and the enrichment of our way of life, let us gratefully acknowledge that this is a year of special celebration and re-dedication.

This is the 200th anniversary of the first major settlement in Ontario and it is appropriate to take some time to reflect on our heritage—to mark our achievements—to celebrate together—and to express our appreciation. Our communities are strong and blessed with people who have journeyed from around the world to build one, vigorous and tolerant society.

Our citizens have embraced this event with genuine enthusiasm. Indeed, as one giant fair, this summer all across Ontario, close to 790 municipalities, Indian bands and service districts will participate in community celebrations to mark our Bicentennial.

Throughout, the Province will emphasize the importance of community and the generous contributions of all those who built Ontario; from the first Native and French Canadian settlers, from the Loyalists to the waves of new settlers ever since.

My Government is particularly pleased that our Sovereign, Her Majesty Queen Elizabeth the Second, and His Royal Highness the Duke of Edinburgh, will be with us to help celebrate our Bicentennial.

The monarchy is at the heart of our democratic system. The presence of the Queen, in our Province will bring life and meaning to that fact while giving Ontarians an opportunity to display the loyalty and affection that we feel toward the Royal Family.

De plus, nous aurons le privilège de recevoir cet automne la visite de Sa Sainteté le Pape Jean-Paul II, événement d'une importance considérable pour des millions de Canadiens. Sa présence nous rappellera, non pas nos réalisations, mais les obligations que nous partageons avec le reste de l'humanité à l'égard de la vie et de la paix.

As well, our Province will be graced this fall with the visit of His Holiness Pope John Paul II, whose presence will be of deep significance for millions of Canadians. He will remind us, not of our unique accomplishments, but the obligation we share with all humanity to cherish life and to work for peace.

#### *Our Circumstances:*

In my address last year, I indicated there were signs the economy was beginning to emerge from recession. Indeed, it is now evident Ontario led the Canadian recovery in 1983. For instance, manufacturing shipments rose by 10.7 per cent compared with 7.0 per cent across the rest of Canada. Similarly, retail sales expanded by 9.6 per cent in Ontario versus 6.6 per cent in the rest of the country and, most encouraging, was the 5.2 per cent increase in employment since December 1982.

The automotive industry has played a key role in driving Ontario's recovery. In fact, almost half of the growth in manufacturing shipments in 1983 were secured by the transportation equipment industry. This experience demonstrates the ongoing importance and underlying resilience of this base industry. Also, it confirms the importance my Government attaches to helping our firms adjust to new global circumstances. As well, it strengthens our determination to encourage off-shore auto manufacturers to increase significantly, investment in North America. We expect to see concrete results this year.

Of comparable importance to Northern Ontario, our mining industry is extremely robust. Last year, for instance, exploration activity doubled and, with the completion of the new gold mining and milling facility at Hemlo, 800 full-time jobs will be secured and Ontario will again take the lead as Canada's largest gold producer.

Across our Province, the recovery will expand in 1984. Strong United States growth is expected to continue, offering wider export opportunities. As well, the European economies, along with most others where performance has lagged behind the North American recovery, are now growing again providing further opportunities for trade. And within Ontario, healthy growth in real incomes, along with an improved mortgage market, should result in a good increase in housing starts in 1984.

A renewed spirit of confidence in ourselves and in our circumstances will assist us in our important work. However, the fear born of deep and painful recession cannot be replaced by complacency or neglect. Indeed, while our challenges can now be more confidently addressed, our responsibilities remain great and have not diminished.

The upturn of a severe business cycle will alleviate much of the hardship our people have experienced. Nevertheless, without responsible leadership and co-operative action, it cannot assure just and secure growth with decent opportunities for all our citizens.

We should be encouraged that Ontario made a leading contribution to employment recovery last year. Furthermore, employment expansion will continue. However, while the unemployment rate has declined sharply, it remains too high and will stay too high without a fresh commitment to serve the nation-wide employment goals we enjoyed in the past.

As well, while economic growth is underway, we are witnessing a major transformation of the economy and, thus, we must prepare to meet new tests and new risks. Traditional patterns of employment, skill requirements, investment and industry growth are changing dramatically. These changes raise social, as well as economic questions which cannot merely be answered by traditional economic policies. Nevertheless, if they are addressed directly, with supportive and sensitive measures, they can be overcome.

So, the central task before our Province is to take full, fair and durable advantage of the recovery presently underway. Before proceeding on the agenda ahead, however, my Government emphasizes that our goals cannot be reached by forcing the rate of growth, generally, or exceeding the financial and practical limits of Government.

Hard lessons were learned during the fight against inflation. It is well understood that inflationary deficits do not create genuine growth and long term employment. Rather, they can cost jobs. At the same time, inflation always imposes a heavy tax on the less powerful and those on fixed incomes. Clearly, it is essential that profits are turned into productive investments and that wage claims are disciplined by the realities of world competition.

My Government is determined to extend its efforts to ease and encourage adjustment. However, while Government can be the friend of positive change, it cannot fully control the processes. Indeed, it is precisely at times of rapid adjustment that private enterprise and individual entrepreneurs make their greatest contribution: seeking out new opportunities and setting aside old ways of doing things.

From that perspective, my Government will undertake selective and supportive measures and will maximize its efforts by working in co-operation and in partnership with all those elements of the economy committed to meet the challenge.

It must be noted, that the leadership of the Government of Canada is in transition and consequently, the general direction of national economic policy may be uncertain for some time. Nevertheless, my Government re-confirms its willingness to work with the Government of Canada on important specific tasks. Bearing in mind their fresh interest in technology, innovation and industrial adjustment, many opportunities exist to improve the effectiveness of our efforts through more systematic and concrete co-operation. The distance between our senior Governments, even when they are not differing, is a real tax on Canada's vitality—a tax our major competitors do not pay.

For our part, the Government of Ontario will carry its share of the challenge. My Ministers and, particularly, the Treasurer in his Budget, will place before you a range of initiatives to help Ontario advance in the year ahead. In order to maximize for all Ontarians the benefits of the present recovery, my Government's actions will be guided by three fundamental and timely goals. It is within our capacity and it is our obligation to:

- improve access for young people and women to the benefits of economic growth and challenging work;
- re-inforce the ability of industries and mature workers to meet and master change; and
- ensure steady improvement in our quality of life and in the quality of Government services.

#### *Employment Growth:*

Last year, public support for youth employment creation was increased dramatically. In light of the continuing dimension of the challenge, my Government will extend substantially this priority commitment. To countenance for long, massive youth unemployment would be unconscionable and would diminish Ontario's future vigor. Simply, economic renewal without meaningful work for our young would be a cruel illusion.

We should appreciate, however, that the economy created 49,000 new jobs for our young people during the past year and that a strong economy will make the greatest contribution to expanding genuine employment. That is our overriding responsibility. In addition, we can and will increase our direct support to help provide employment for young people.

Along with an increase in funds for the Ontario Career Action Program, our Youth Employment Counselling Centres will be expanded significantly. In order to assure clear access to the array of initiatives across our Ministries, a consolidated one-window approach will be introduced with one responsible Minister. To enhance critical skill requirements in our small and medium-sized enterprises, and as well, to introduce graduates to potential careers, my Government will broaden its export apprenticeship program to critical fields in the applied sciences. Also, the Government will extend access for young people to entrepreneurial opportunities.

Along with efforts to improve women's rights and opportunities in the marketplace, my Government will undertake a significant reform of its own manpower policies in order to enhance management and employee flexibility and, consequently, increase career opportunities in Government, particularly for women. From now on, to provide wider access to improved rights and benefits, the Civil Service will include employees who work on a regular part-time basis.

Furthermore, many initiatives designed to maintain and extend our social capital and basic services will create worthwhile employment. For instance, my Ministries will assist small communities upgrade police and fire stations, and will support the growth of recreational boating and help develop new marinas. Our support for local measures to protect our water resources will be broadened and, of course, the construction of the Natural Resource Centre at the University of Toronto and the extension of the Go-Transit Lakeshore line will be of significant benefit. Along with the Federal Government, we will provide funds for the design and manufacture of bi-level railway cars to strengthen employment and transportation in Northern Ontario.

Further initiatives will help the private sector create employment. For instance, we will work with our tourist industry to create Tourism Co-operatives to help unemployed tradespeople find jobs, strengthening our richly diverse tourist resources. In addition, we will intensify our efforts to attract American tourists to Ontario.

Increased long-term job creation in our service sector, along with a healthy broadening of our vital financial community, will most certainly take place following our decision to create a self-governing and self-financing Insurance Exchange in Toronto.

#### *Industrial Development:*

It is acknowledged universally that industrial transformation, inevitably destroys some jobs. But it can also create many more. The key to emerging from this period of adjustment with full employment and a strong, prosperous and competitive economy is investment, and investment must accelerate now before it is too late.

The high level of under-utilized plant capacity in our economy does not excuse inaction. In this period of fundamental change, the measure of competitive world-class investment is not merely the dollar value of plant capacity, but the quality of our performance in *manpower training, technology adaptation, trade development* and *teamwork*. These four goals require and will receive intensified action by my Government.

With the growing mobility of capital and technology, our people will be the critical arbitrator of our well-being. Furthermore, if adjustment is to be accepted and not resisted, workers must have reasonable access to new skills and new technology. Good Government cannot protect our working people from change, itself, but it can equip them with the ability to change and to continue to enjoy rewarding, valued employment.

Consequently, the Government will introduce a substantially expanded training and re-training program which will support new initiatives in the workplace and in

educational institutions. Also, it will create a province-wide network of training and business development consultants to assist industry in upgrading their human resources. The Government intends to consult shortly with the Government of Canada on this shared area of responsibility.

In addition, we are preparing initiatives, based primarily on the review of the Sheltered Workshop Program, to widen work and training opportunities for handicapped persons in our society, and to improve the business marketing acumen of these industries.

To enhance the focus, co-ordination, access and public understanding of our training priority, the Government will take all necessary steps to co-ordinate the efforts of local training councils, develop training software and facilitate the process of industrial adjustment and skills development.

With continuing high real interest rates in Canada, the introduction of competitive "state of the art" technology is not simply a consulting problem—which our technology centres are addressing vigorously—but a cost problem, as well, for many of our best small and medium-sized industries.

Two-thirds of all new jobs are created by enterprising men and women who start small businesses. Their success now depends on their ability to use up-to-date technology. Thus, the Ontario Development Corporations, in concert with our Technology Centres, will change their loan programs to simplify financing for new ventures, help small companies acquire high technology equipment and develop new uses for Canadian high technology products in the service sector. Also, the Government will continue to encourage a closer working relationship between our financial community and the higher-risk innovation requirements of our industrial base.

As indicated in previous statements to this Assembly, the development of new and expanded facilities in higher education will henceforth be selective and related to those programs that best serve the interests of the Province and Nation as a whole. In this regard, funds will be directed toward the expansion of facilities for the Institute of Computer Research and related activities at the University of Waterloo, where such programs have already earned a world-wide reputation. We are confident this investment will not only produce graduates with skills and knowledge required for the years ahead, but will create incentives for industry to expand their efforts within related fields of excellence.

In addition, unique measures to meet unique assignments will be designed for such key areas as the re-tooling of our winning Canadian autoparts firms and the modernization of small food processors.

The future well-being of our agriculture industry will be assisted by creating a widely representative Advisory Council on Agriculture. It will provide independent advice to the Government on all matters affecting agriculture's future prosperity.

Beyond intensifying our efforts to export our agriculture products to the American market, the Government will set up a Commercial Crop Development Fund to support research on new crops with commercial potential in Ontario. Crop research and production initiatives will also be undertaken to support the further development of agriculture in Northern Ontario.

World trade almost doubled in the 1970's and is expanding once more. If Ontario is to prosper and maximize its potential, we must share fully in this adventure. In the past year, our export performance strongly contributed to economic recovery and job creation. It is crucial that this momentum continue and broaden. My Government reaffirms its commitment to exports and accordingly, further action will be undertaken.

For instance, the Export Success Fund will be reinforced and the Ontario International Corporation and the Ontario Educational Services Corporation will be integrated and strengthened to accelerate the export of our highly-regarded professional and public-sector services. Also, support will be provided to take advantage of our world recognized competence in mobile communications and electro technology.

The Board of Industrial Leadership and Development will co-ordinate these investments in training, technology and trade, while the marketplace will serve as the best allocator of precious resources in the private sector. Nevertheless, if our collective efforts are to be mobilized to best effect, we must match our competition in teamwork, as well.

Successful industrial jurisdictions avoid interfering with the swift decision-making ability of the entrepreneur. However, they have come to understand that if the state nurtures common goals and a spirit of shared investment in change, then, in fact, more is accomplished on time. My Government has long held this to be a national priority, has expressed its views to the Royal Commission on Economic Union and Development Prospects for Canada, and will respond positively when the Government of Canada chooses to lead.

However, the 1980's are well underway and bearing in mind the urgency of the task, my Government, under the stewardship of the Premier, will convene, primarily with business and labour, a *Conference on Ontario's Economic Future* and its competitive position in the world economy. Working with the strategic directions outlined in this Address and in the Treasurer's upcoming Budget, my Government will help lead our economic partners in Ontario to a shared appreciation of the basic questions underlying our investment in the future.

Specifically:

- Do we agree on the goals which can bring us together?
- What are our significant and separate responsibilities?
- What are the critical obstacles?
- How best can we help each other?

*Serving the Community:*

The ability, along with the obligation, of any Government to set new directions while maintaining public trust, largely depends on the care it takes in maintaining basic services and in advancing community concerns. This is well understood by my Government and during this Session the Government will be active in both of these fundamental fields.

In order to preserve the quality of our future and the diversity of our rich heritage, my Government will undertake further initiatives to sustain our natural resources and protect our environment. A Canada-Ontario five-year agreement is being developed to strengthen the management and renewal of our forests.

To secure the future for our commercial fishing industry, we are implementing a new licensing and management system. Furthermore, the Government will convene a Water Resources Conference this June, representing all responsible Canadian and American Governments, as well as scientists and technical experts, to assess the conflicting demands on, and the future quality of our Great Lakes system.

Beyond the Government's firm commitment to reduce sulphur dioxide emissions by 50 per cent by 1994, my Government remains ready to stand together with the Government of Canada in pursuing serious co-operation on the part of the United States.

While we remain vigilant in the protection of Ontario's birthright—the environment—we are prepared to reform, from experience, the processes in our regulatory framework. For instance, in some cases mediation may be a more sensible means of resolving disputes than existing administrative or judicial processes. Consequently, experimental mediation procedures will be initiated with the Environmental Assessment Board. Also, in close consultation with environmental groups and other interested parties, we will explore whether, indeed, this is the time to review, not the intent, but the costly complexity of the procedures now mandated by our Environmental laws.

Our Government-wide responsibility to streamline, modernize and prune Government regulations will be pursued energetically this year. Also, the Government looks forward to the recommendations of the Thom Commission of Inquiry into Residential Tenancies. In improving our rental review procedures, the Government will hold to its commitment to protect the legitimate interests of both tenants and landlords in Ontario.

My Government has resolved, in the face of increasing pressure on and opportunities in the financial sector, to determine the necessary measures to ensure the health and competitiveness of the financial institutions operating in Ontario including the banks, trust companies, investment dealers and insurance firms. Towards this end, the Government will establish a Task Force to advise us on the organization and operation of the financial community in Ontario.

Following careful and extensive consultations, the Government will be introducing in this Session, reforms to the Workers' Compensation System, ranging from the benefit structure to improved labour and business representation on the Corporate Board.

Along with our determination to advance the just interests and rights of women in our programs generally and in the community at large, specific actions will be undertaken. Building on our own extensive program, the Government will provide leadership in the field of positive affirmative action. Crown agencies, school boards and municipalities will be asked to join with us in setting up effective affirmative action programs. Beyond the 245 private companies which have made similar vol-

untary commitments to date, the Government will continue to encourage further participation in the private sector.

The Government will proceed with amendments to the Employment Standards Act to strengthen provisions for equal pay, and pregnancy and adoption leave. Also, we will review access to and the quality of child care in Ontario, with particular reference to the needs of families in both urban and rural areas.

In serving our society, my Government will undertake a series of initiatives in the social and justice fields. They are not inspired to extend the reach of Government, but to enforce and enhance the rights of the individual in this civilized and decent Province.

In light of arguments before the courts on the legal framework of the Ontario Censor Board, my Government firmly restates its conviction that it is this Assembly's obligation to uphold our community values and provide reasonable and clear-cut protection against exploitive film and video productions. Required Legislative changes will be introduced swiftly.

One true measure of a society's respect for the individual is its attention to the needs of its elderly citizens. Accordingly, the Treasurer will pursue, with other senior Governments, pension reforms to increase benefits for single elderly, and the disabled, along with inflation protection and improved portability for private pensions.

Significant further resources will be provided to fight violence against women and children in the home. Funding will be increased for transition houses and Northern Family Resource Centres and associated services to encourage greater community involvement in addressing this intolerable social problem.

To improve the framework of services to children, the Government will proceed with the proposed Child and Family Services Act. In order to maintain the integrity of the Family Law Reform Act, amendments will be proposed and as well, a strict enforcement of family maintenance Orders will be instituted. In addition, the definition of family property will be reviewed.

Drinking and driving, tragically and wastefully, remains a major killer in Ontario. Consequently, my Government will intensify its efforts to combat this menace. While looking forward to action by the Parliament of Canada to strengthen the criminal law, my Government will continue its leadership in heightening public understanding, extending community-based programs, and enforcing our rights to reasonable safety on the highways.

As well as strengthening law enforcement and the efficient management of our Courts system, the Government will improve the services and programs designed to help victims, witnesses and other innocent citizens who come into contact with the justice system. Enabling legislation will be introduced to provide for provincial administration of the Young Offenders Act. Furthermore, building on our tradition of community concern and action, we will continue to encourage communities to set up Neighbourhood Watch Committees, as an invaluable and effective means to enhance the safety of our citizens.

The Government is determined to maintain, for the people of Ontario, what we believe is the finest health care system in the world. Our success will depend on the continuing co-operation of the medical profession, our public hospitals and all those involved in the delivery of health care.

New measures will be required and will be undertaken this year. For instance, the introduction of teaching health units will advance the public health sector. Emphasis on community-based care, for the elderly and the mentally ill, will allow the vast majority to remain in familiar surroundings. The Government will continue to provide additional institutional facilities for those who will best benefit from such care. Additional chronic and nursing home beds will be built and changes in the living environment within existing facilities will be based on the expressed desires of residents.

Le ministère de la Santé accroîtra l'accès aux méthodes les plus à jour dans le but de prévenir les maladies rénales et de les traiter. De plus, les services d'urgence seront élargis afin de faciliter aux malades l'accès à l'hôpital le plus approprié, et une nouvelle loi sur les services d'urgence sera soumise à l'Assemblée législative. En outre, nous allons entreprendre des programmes visant à augmenter le personnel francophone dans le domaine de la santé et voir à une meilleure répartition de ces services dans les régions francophones.

The Ministry of Health will increase access to the most up-to-date methods to prevent and treat kidney disease. Also, emergency services will be expanded to enhance patient access to the most appropriate hospital centre and, at the same time, a new Emergency Health Services Act will be introduced. In addition, we will undertake programs to increase the supply of French-speaking health care workers and a better distribution of health services in French-speaking areas.

As our society evolves and advances, your Government will continue reform and innovation necessary to maintain our high investment in education. For instance, this year remote secondary schools in the North will receive special funds to deepen their curriculum and upgrade their capital facilities.

In consultation with the Council of Ontario Universities and the Ontario Teachers' Federation, the Government will work to design a province-wide testing program necessary to assess the effectiveness of our curriculum and the performance of our students. The teacher in the classroom is the cornerstone of excellence in education, and, to a great extent, the promise of Ontario. However, to assist the Government in meeting its responsibilities, and parents in participating in their children's education, such tests will help all of us maintain the high quality of our education system.

Consistent with our previous commitments to minority-language education rights in our Province, my Government will re-introduce early in this Session amendments to the Education Act:

- to recognize the right of every French or English-speaking pupil to an education in his or her own language;
- to enable the Minister of Education to resolve situations in which a school board or the Language of Instruction Commission of Ontario may disagree on an appropriate course of action.

As well, legislation will be introduced regarding the governance of minority-language education along the lines proposed in the Ministry of Education's White Paper, as refined by the current consultation process with the school boards and associations concerned.

To help new immigrants become full and confident members of our community, the Government will extend its Ontario Welcome House program and continue to improve its support for special English language training. To widen access to our highly regarded TV Ontario network, provision for additional transmitters in Eastern Ontario will be initiated this year. Progress in building and extending access to Ontario's culture excellence will be maintained. In the long haul, the calibre of our society and, indeed, its economy, will be shaped significantly by our commitment to the arts and the artist.

Further to the recent first Ministers' Conference on the Constitution, my Government restates its determination to work with other governments to confirm aboriginal rights in our Constitution, consistent with the economic development goals of all citizens of Ontario.

My Government anticipates that this Assembly will agree that the initiatives we present will be of general and timely benefit to Ontario. However, we wish to re-assert that our continuing ability to meet new opportunities will not be borne by a diminished private sector, but primarily by careful management of our resources and significant productivity gains in our services.

While our growing population has increased the need for services, public sector employment has steadily declined and public sector wages have risen responsibly. Consequently, our productivity has clearly increased: much to the benefit of the public at large and much to the credit of our employees.

The burden of Government spending and our deficit is the lowest per capita in Canada. However, productivity is an ongoing responsibility and further measures will be taken to enhance the value of services for each tax dollar. Also, we will work closely with the agencies which receive Provincial funds to consider value-for-money in their operations. Approximately 75 per cent of our expenditures are transfer payments. The autonomy enjoyed by these agencies carries with it the responsibility for effective financial and administrative stewardship, through modern management practices such as value-for-money auditing.

Honourable Members, I am most pleased to acknowledge the appointment of a new Governor General and indicate that we look forward to welcoming her officially to Ontario. Also, it is appropriate to point out that the Government will support the United Nations' choice of 1985 as International Youth Year, with the theme: Participation, Development and Peace.

Those principles are the signature of a youthful heart. Truly, they were well expressed in the courage and energy of the builders of Ontario we honour this year.

It is my Government's confident expectation that the directions we will now undertake will help provide a future of opportunity and fulfillment for the spirit of youth which still charges this great province.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God Bless the Queen and Canada.

His Honour was then pleased to retire.

Bill Pr18, An Act to revive Zeta Psi Elders Association of Toronto. *Mrs. Scrivener.*

Bill Pr41, An Act respecting the City of Hamilton. *Mr. Charlton.*

Mr. Charlton moved, seconded by Mr. McClellan that, pursuant to Standing Order 34(a), the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:

The lack of financial and political accountability revealed by Ontario Hydro's decision to commit power consumers to pay \$700 million to replace the pressure tubes in Pickering nuclear generating station units one and two without any possible review of either the appropriateness of the expenditure or the causes of the problems which led to that expenditure, a decision which will expose Hydro maintenance employees to additional health and safety risks because of Hydro's determination to proceed with the re-tubing of the reactors before special remote handling devices have been developed.

By unanimous consent the debate proceeded to conclusion.

The debate was resumed, and, after some time,

Mr. Peterson moved, seconded by Mr. Conway,

That the motion be amended by adding the following thereto:—

This House, however, regrets that the Speech from the Throne fails to recognize and adequately respond to the fundamental changes in Ontario society and the problems currently facing it, and condemns the government for the following:

- A total lack of government initiative leadership and policy necessary to vigorously attack the concerns of youth unemployment in the Province of Ontario;
- Continuing a dismal decade long policy of neglect in the areas of education and of skills training as a means of providing jobs for today and tomorrow;
- Permitting the erosion of universal access to quality health care, post-secondary education and public housing as a result of ongoing provincial underfunding of these systems;
- Failing to enact legislation guaranteeing equal pay for work of equal value, and failure to provide an overall day care strategy for the Province of Ontario;
- Responding too slowly to the urgent needs of Ontario's pensioners and for the lack of appropriate care in administering the pension funds of this province;
- Pursuing a shameful policy of ignoring the continuing crisis in the agricultural community, preferring to study the problem rather than take any direct initiative;
- Failing to make Ontario Hydro adequately accountable for its actions and decisions;
- Ignoring on a routine and regular basis its own rules to safeguard the administration of public funds;
- By allowing the ongoing deterioration in the capital infrastructure of this province, including roads;
- Failing to adequately protect the public interest in monitoring the affairs of provincially regulated companies and not ensuring adequate and equitable compensation for people affected as a result of the government's regulatory failures;
- The continuing neglect of the needs of Northern Ontario, particularly in the failure to provide adequate educational and health care services, and to safeguard adequately our natural resources, in particular, our forests;
- Ignoring the legitimate aspirations of Ontario's multicultural communities to participate in the decision-making process;
- Therefore, this House declares its total lack of confidence in the government.

- The inadequacy of its efforts in affirmative action and in particular its failure to require affirmative action programs for all employers of 20 or more people;
- Continuing to ignore the need for strong legislation on plant closures requiring full disclosure and public justification of closure decisions and protecting fully all workers affected;
- The continued failure of the government to provide for early retirement for older workers;
- Its failure to begin the major reform of the social security system that is needed to cope with the devastating economic changes taking place in the province, and in particular, its failure to advocate a major expansion of the public pension system in Ontario and in Canada, including the C.P.P.
- Its total neglect of the problem of poverty and of the need for tax reform, causing extreme hardship for growing numbers of families and individuals;
- The lack of any commitment on the part of the government to community economic development and to generating new forms of social capital for investment in job creation;
- Producing a plan for the Niagara Escarpment which completely retreats from the principle of protecting this unique resource in areas like the Beaver Valley;
- Failing to follow the example of other provinces in introducing a red meat stabilization program;

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Tuesday, March 27th the Member for Oshawa rose on what he considered to be a point of order with respect to Bill 142, An Act respecting the City of Barrie and the Township of Vespra. He submitted that the Committee to which the Bill had been referred in the last Session no longer existed and therefore the Chairman of the last Session had no authority to report the Bill.

I should point out that this whole procedure of extending the life of Standing Committees into the Recess between Sessions for the purpose of considering Bills is a very recent innovation and no very clear cut rules have been laid down as to the pro-

cedure to be followed when the new Session has opened. However it seems obvious to me that if a Bill has been referred to a Committee for consideration in the Recess it must be reported, and surely the Committee best in a position to report the Bill is the Committee which considered it, particularly as the new Committee had not been appointed. Therefore it appears to me that the Bill was properly reported by the Committee which considered it and is properly before the House.

I now come to the further point raised by the Member for Oshawa on Tuesday, April 3rd. He stated that the Minister, in a letter to the Mayor of the City of Barrie said "as I understand it the schedule reflects a further refinement to the boundary in the Little Lake area". The Member for Oshawa said that if this letter is correct the Bill which was dealt with in the Committee was altered by the Minister prior to its presentation to the House.

I have been advised that the metes and bounds description of the boundary in question was inserted by the Legislative Counsel on instructions from the Committee at its last meeting and therefore the reprint is the Bill as amended by the Committee, as it indicates. If this is not so the Minister should take whatever action is necessary to correct the description.

---

The Attorney General paid tribute to William Belmont Common, Q.C., former Deputy Attorney General, recalling his long service to the Province in many areas, the last being his term, after his official retirement, as Acting Assistant Clerk of the Legislative Assembly from 1968 to 1971 inclusive.

FOURTEENTH DAY

FRIDAY, APRIL 6TH, 1984

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker ruled as follows:

Following the discussion of yesterday respecting the question of one Member accusing another Member of lying or making a statement which is untrue, and the reference that was made to the incident of last Tuesday April 3rd, during the speech of Mr. Martel the Member for Sudbury East, I have carefully examined the Hansard reporting that incident. That whole first portion of Mr. Martel's speech was with reference to a letter signed by Gerry M. Lougheed Jr. President of the Sudbury P.C. Association and the statement that the Member for Sudbury East referred to as being untrue was a statement contained in that letter, not made by the Member for Sudbury, Mr. Gordon. Therefore it was not a case of one Member accusing another Member of an untruth.

I have also carefully read the statement of the Minister of Labour yesterday and the reply of the Member for Rainy River. It appears clear to me that when the Minister used the phrase "rather than treating this as a Committee matter the Honourable Member has used it for the purpose of questioning the integrity of Dr. Wolfson both in the House and with the media" he was in fact imputing an improper motive to another Member. Furthermore, I find that the use of the phrase by the Member for Rainy River in his reply "I believe some of the statements he has made are blatantly untrue" I suggest that the use of the word blatantly makes it clear that the Member was accusing the Minister of a deliberate falsehood. I must therefore ask both the Minister and the Members for Rainy River to withdraw those two statements I have cited.

However, having said that and having carefully read the relevant incident in Hansard and clause 10 of subsection (d) of S.O. 19 which states that it is out of order if a Member charges another Member with uttering a deliberate falsehood, it appears to me that the Member for Ottawa East has raised a very valid point. While there is no doubt that one Member may not say to another Member "you are a liar" or "that's a lie", if he simply says "that is untrue" it seems to me after due consideration that in the latter case it depends entirely on the context. If it is said in such a way as to imply that the Member has committed a deliberate falsehood then it is of course out of order; but I can conceive of occasions when one Member may be referring to information which he has received and another Member says "that is untrue". He may be simply disagreeing with the statement without intending to imply that the other Member is uttering a deliberate falsehood. When this expression is used it is in my opinion a matter of judgement by the Speaker as to the context in which the allegation is made.

The debate was resumed, after some time, the amendment to the amendment as follows:

That the amendment to the motion be amended by adding the following immediately before the last line.

and further condemns the government for:

- Following the example of the Liberal government in Ottawa in cutting back on funding for social housing, education and health care programs;
- The inadequacy of its efforts in affirmative action and in particular its failure to require affirmative action programs for all employers of 20 or more people;
- Continuing to ignore the need for strong legislation on plant closures requiring full disclosure and public justification of closure decisions and protecting fully all workers affected;
- The continued failure of the government to provide for early retirement for older workers;

- Its failure to begin the major reform of the social security system that is needed to cope with the devastating economic changes taking place in the province, and in particular, its failure to advocate a major expansion of the public pension system in Ontario and in Canada, including the C.P.P.
- Its total neglect of the problem of poverty and of the need for tax reform, causing extreme hardship for growing numbers of families and individuals;
- The lack of any commitment on the part of the government to community economic development and to generating new forms of social capital for investment in job creation;
- Producing a plan for the Niagara Escarpment which completely retreats from the principle of protecting this unique resource in areas like the Beaver Valley;
- Failing to follow the example of other provinces in introducing a red meat stabilization program;
- Its failure to eliminate extra billing by doctors;
- Its failure to shift resources to a not-for-profit model in the provision of nursing home care and its refusal to require any genuine accountability on the part of private nursing home operators for either the quality of care or the expenditure of public funds;
- Its refusal to provide for lifetime indexed pensions for non-occupational losses such as pain and suffering resulting from compensable injuries under Workers' Compensation;

The amendment to the motion as follows:

That the motion be amended by adding the following thereto:—

This House, however, regrets that the Speech from the Throne fails to recognize and adequately respond to the fundamental changes in Ontario society and the problems currently facing it, and condemns the government for the following:

- A total lack of government initiative leadership and policy necessary to vigorously attack the concerns of youth unemployment in the Province of Ontario;
- Continuing a dismal decade long policy of neglect in the areas of education and of skills training as a means of providing jobs for today and tomorrow;
- Permitting the erosion of universal access to quality health care, post-secondary education and public housing as a result of ongoing provincial underfunding of these systems;
- Failing to enact legislation guaranteeing equal pay for work of equal value, and failure to provide an overall day care strategy for the Province of Ontario;
- Responding too slowly to the urgent needs of Ontario's pensioners and for the lack of appropriate care in administering the pension funds of this province;

- Pursuing a shameful policy of ignoring the continuing crisis in the agricultural community, preferring to study the problem rather than take any direct initiative;
- Failing to make Ontario Hydro adequately accountable for its actions and decisions;
- Ignoring on a routine and regular basis its own rules to safeguard the administration of public funds;
- By allowing the ongoing deterioration in the capital infrastructure of this province, including roads;
- Failing to adequately protect the public interest in monitoring the affairs of provincially regulated companies and not ensuring adequate and equitable compensation for people affected as a result of the government's regulatory failures;
- The continuing neglect of the needs of Northern Ontario, particularly in the failure to provide adequate educational and health care services, and to safeguard adequately our natural resources, in particular, our forests;
- Ignoring the legitimate aspirations of Ontario's multicultural communities to participate in the decision-making process;
- Therefore, this House declares its total lack of confidence in the government.

## SIXTEENTH DAY

TUESDAY, APRIL 10TH, 1984

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

Since yesterday I have been giving further thought to the difficulty that arose last week with respect to the statement of the Minister of Labour concerning which the Member for Rainy River was given unanimous consent to make a statement last week and again yesterday. The suggestion was made that this matter should be referred to the Procedural Affairs Committee so that some provision might be made for a Member to have an opportunity to reply under similar circumstances. With this suggestion I inclined to agree, however on further thought and study of the Standing Orders I have come to the conclusion that the matter is amply covered by the Standing Orders as they exist.

Difficulty arose from allegations made by the Minister of Labour concerning the Member for Rainy River in his ministerial statement and I draw the attention of the House to Standing Order 26 (a) which says "Statements may be made by Ministers relating to Government policy, ministry action and other similar matters of which the House should be informed". This sets out very clearly the restrictions on such statements and I suggest precludes any allegation against another Member. The question of a Member having a right to reply would then not arise. The statement by the Minister even if answering a previously asked question as provided by Standing Order 27 (a) should confine itself strictly to a statement of the facts and should not make allegations concerning another Member. Any disagreements between Members should be dealt with in debate and not by way of a Minister's statement.

---

On motion by Mr. Wells,

*Ordered*, That, the following substitutions be made in the order of precedence for Private Members' Public Business:

Mr. McClellan for Mr. Samis as Number 18.

That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial finan-

cial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

And a debate arising at 4.30 p.m. further proceedings on the motion were reserved until 5.50 p.m.

Mr. Havrot then moved, seconded by Mr. Pollock,

That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled "Ethical Reflections on the Economic Crisis". Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all, guaranteeing special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shut-downs; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. This requires, among other things, immediate steps to redress the historic exclusion of labour from an ongoing role in effective industrial decision-making and ownership in the workplace.

Pursuant to Standing Order 64 (e) no objection having been made to the putting of the question on the motion for Second Reading of Bill 32, An Act to provide for a Basic Residential Power Rate Applicable to the Essential Energy Needs of Residential Households in Ontario.

The debate was resumed, and, after some time,

Mr. Reid (Rainy River) moved, seconded by Mr. Nixon, that the motion that this House approve in general the Budgetary Policy of the Government be amended by deleting the words following "That" and adding thereto the following:—

this House deeply regrets that the 1984 budget fails to recognize the most serious and fundamental problems facing Ontario today and condemns the government for:

ignoring the desparate plight of the 443,000 unemployed people in the Province of Ontario, and in particular, perpetrating a cruel hoax on the 169,000 unemployed youth of this province, by offering them nothing more than re-packaged programmes and hopes of private sector job creation;

continuing to collect exorbitant tax revenues from the citizens of Ontario, while at the same time refusing to rein in provincial government spending, and in particular, refusing to end such wasteful government expenditures for such excesses as the Suncor purchase, the land banks, Minaki Lodge, self-congratulatory government advertising, unnecessary government polling, the prolific use of expensive consulting services, among others;

introducing measures requiring expenditures by municipalities and school boards, while at the same time restricting transfer payments to those levels;

failing to provide tax relief to the tourism industry at a time when the provincial tourism deficit has reached a record level due to government controlled tax and cost increases;

ignoring the special needs of women, and further, for continuing to impose upon them an unjustified and sexist tax on essential products;

further punishing low-income earners by increasing yet again OHIP premiums;

ignoring the plight of the Ontario farmer who continues to face the very real prospect of bankruptcy;

refusing to deal with the problem of very serious shortages of affordable rental housing in numerous communities across the province;

continuing to cut back for environmental protection, at a time when concerns regarding the quality of the air we breath and the water we drink are at their highest;

continuing to neglect the essential need for a comprehensive and coherent economic strategy to guide the development of the province in an era of technological transition;

Therefore, the Government lacks the confidence of this House.

The debate continued, and, after some time,

And after some time, at 9.10 p.m., further proceedings were reserved until 10.20 p.m.

Mr. Grande moved, seconded by Mr. Breugh,

That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years, thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Tuesday last, I undertook to consider the points raised by the Honourable Member for Halton-Burlington (Mr. Reed) and other members concerning the right

of a committee considering Estimates to request the attendance of civil and public servants.

By convention, it is the responsibility of a minister to defend the expenditure proposals of, and the policy implied in, the Estimates of his ministry. However, civil and public servants have attended Estimates committees to personally assist their ministers, and, in recent years, there has been a gradual movement toward more direct participation of civil and public servants in the Estimates process. It has become the practice of many ministers to make their officials available to the committees to provide factual and background information on ministry expenditure proposals and to explain the administration of ministry policy. Traditionally, such witnesses have not been asked to state their own views on, advocate or defend government policy or political matters or to reveal confidential or privileged matters.

On April 2nd, 1984, the House, by order, established the committees for the current Session with the "power to examine and inquire into all such matters as may be referred to them by the House, with power to send for persons, papers and things, as provided by section 35 of the *Legislative Assembly Act*". Accordingly, a committee considering a ministry's Estimates may, on motion adopted by a majority of the committee, invite or request a civil or public servant to appear before the committee. The failure of a civil or public servant to answer a committee's invitation or request could result in a report to the House asking the House to authorize the Speaker to issue his Warrant to compel an official to attend the committee and give evidence. With the concurrence of the majority of the Assembly, civil servants and public servants may be compelled, pursuant to section 35 of the *Legislative Assembly Act*, to attend a committee to answer any question and deliver any document required by the committee so long as the committee is acting within its terms of reference. Whether or not the witness is a competent witness who should be heard by an Estimates committee, is a matter on which the Chairman of a committee should rule.

Finally, I would like to reiterate what I have ruled on a number of occasions. Procedural difficulties which arise in standing and select committees ought to be settled in the committee and not in the House. It is clearly established that matters alleged to have arisen in committee, but not reported by the committee, may not be brought to the attention of the House as a question of privilege and the opinion of the Speaker may not be sought on such matters.

---

Mr. Speaker ruled as follows:—

I have had an opportunity to review the Report of the remarks of the honourable member for Huron-Middlesex (Mr. Riddell) made during the proceedings following oral Question Period on Tuesday.

The Standing Orders contain specific prohibitions against the use of words which may be judged to be offensive or disorderly. The determination as to whether words used in the House are offensive or disorderly rests with the Speaker and the Speaker's judgment depends on the nature of the word and the context in which it is used. I remind the House that all members are judged to be honourable members and the Speaker cannot be expected to judge which member is telling the truth.

In this case I find that the remarks of the honourable member were offensive and disorderly and I would ask the member to withdraw the words.

The member for Huron-Middlesex then withdrew the words.

---

Mr. Kolyn from the Standing Committee on Administration of Justice reported the following Resolution:—

*Resolved*, That Supply in the following amounts and to defray the expenses of the Ministry of the Solicitor General be granted to Her Majesty for the fiscal year ending March 31st, 1985:—

## SIXTY-THIRD DAY

FRIDAY, JUNE 22ND, 1984

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

Yesterday the Leader of the Opposition requested that I ascertain what authority the Speaker has to require Ministers of the Crown to table information which they have undertaken to present to the House as well as reports of various commissions for the production for which there is no statutory requirement. I can find no authority in the Standing Orders, precedents of the House of anywhere in parliamentary law which gives the Speaker any means of forcing Ministers to honour these commitments.

Similarly, with respect to answers to questions, oral or written, the Speaker can only call the attention of the Minister to the Standing Orders. It is up to the Minister in question to obey the Standing Orders but again I can find no authority or precedents by which the Speaker can force the Minister to reply other than by pointing out to him that he is in breach of the provision of the Standing Orders. This is particularly so in view of Standing Orders 27 (i) and 81 (d) which expressly provide that the Minister may if he wishes decline to answer at all.

The Leader of the Opposition also made reference to the annual statement of Members' expenses. I have endeavoured to find the authority for or the requirement for tabling this statement of the Members' expenses. At the moment the only reference that we have turned up is on page 3769 of Hansard, July 8th, 1975 which reads: "*Mr. Speaker:* Before the orders of the day I beg to inform the House that as directed by the Board of Internal Economy, I have tabled the statement of the members' expenses for the fiscal year 1974-1975". The Leader of the Opposition suggested that the Speaker include in the statement the expenses that Ministers incur as Ministers. I know the House will realize that the Legislative Assembly accountant's office has only the record of the expenses of all Members as Members. It has no record of Minister's expenses as Ministers. These are matters within the ambit of the Executive Council and the Speaker has no authority whatsoever in that area.

Mr. Barlow from the Standing Committee on Resources Development reported the following Resolution:—

*Resolved,* That Supply in the following amounts and to defray the expenses of the Ministry of Municipal Affairs and Housing be granted to Her Majesty for the fiscal year ending March 31st, 1985:—

## MINISTRY OF MUNICIPAL AFFAIRS AND HOUSING:

Ministry Administration Program .....	\$ 18,247,000
Community Planning Program.....	37,720,000
Real Estate Program.....	18,689,000
Community Housing Program .....	188,235,000

Municipal Affairs Program..... 771,581,000

---

The following Bill was introduced and read the first time:—

Bill 113, An Act to amend the Drainage Act. *Mr. Swart.*

---

On motion by Mr. Wells, seconded by Mr. Nixon and Mr. Rae,

*Resolved,* That the Government of Ontario express to the authorities in the Soviet Union, on behalf of the people of the Province, its deep concern for the health and safety of Yuri Orlov and Anatoly Shcharansky, its complete opposition to the continued imprisonment of Drs. Orlov and Shcharansky, and its support for the International Campaign—Orlov and Shcharansky, which has been joined by Nobel laureates, scholars, scientists, organizations and individuals from around the world in its fight to free two prisoners of conscience.

Bill 66, An Act respecting Conveyancing Documents and Procedures and Recording of Title to Real Property.

Bill 74, An Act to authorize the Raising of Money on the Credit of the Consolidated Revenue Fund.

Bill 75, An Act to amend the Labour Relations Act.

Bill 99, An Act to amend the Workers' Compensation Act.

Bill 104, An Act to amend the Farm Products Payments Act.

Bill 105, An Act to amend the Farm Products Grades and Sales Act.

The following Bill was read the second time and *Ordered for Third Reading*:—

---

The following Bill was read the third time and was passed:—

Bill Pr22, An Act respecting the Ontario Association of Certified Engineering Technicians and Technologists.

The following Bills were read the second time:—

Bill 84, An Act to amend the Executive Council Act. *Ordered for Third Reading.*

Bill 85, An Act to amend the Legislative Assembly Act. *Ordered for Committee of the Whole House.*

Mr. Miller (Haldimand-Norfolk) moved, seconded by Mr. Riddell,

That in the opinion of this House, the Government recognize that economic pressures continue to force many farmers in this Province out of the agriculture industry and that in order to give our farmers a sense of security in the future of this vital industry, the Government take immediate steps to set up short - and long-term financial programs at eight per cent interest rates so that the agriculture industry will remain viable, grow, prosper and compete equitably with agricultural financial assistance programs in other provinces.

And after some time, at 4.35 p.m., further proceedings were reserved until 5.50 p.m.

Mr. Di Santo moved, seconded by Mr. Riddell,

That pending expansion and enrichment of the Canada Pension Plan to provide adequate early retirement pensions to older workers, Ontario should establish an Early Retirement Fund to enable voluntary early retirement for two categories of older workers, those who work in heavy labour occupations and those whose employer agree to hire younger workers to replace workers retiring before age 65. This fund would pay benefits equal to 50% of the average industrial wage and would be funded by a payroll tax. This tax would be paid by employers and would have no ceiling on earnings subject to tax, but would exempt firms established less than five years, those with a high proportion of younger employers and those with company pension provisions enabling early retirement with full benefits.

On motion by Mr. Wells,

*Ordered*, That estimates of the Ministries of Agriculture and Food and of Labour be transferred to the Standing Committee on General Government.

Mr. Bradley moved, seconded by Mr. Elston,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely: The province-wide community college teachers' strike, which has deprived hundreds of thousands of college students of instruction; The impact of this strike on students who were expecting to complete their terms within the next few weeks, and the effect this strike will have on their immediate employment prospects; The failure of this Government to encourage and facilitate the bargaining process, resulting in a breakdown of negotiations and ultimately, the strike action; and the failure of this Government to adequately fund the college system, thereby forcing the colleges to place greater workload demands on the part of its teachers, a consequence which will have a direct and negative effect on the quality of education offered by our province's colleges.

## EIGHTIETH DAY

THURSDAY, OCTOBER 25TH, 1984

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Tuesday evening at the normal adjournment hour of 10.30 the adjournment debate for which the Member for Windsor-Sandwich had given notice under Standing Order 28 took place following which the Members for Renfrew North and Sudbury East rose to criticize the fact that no Members were present on the government side of the House for the debate and asked me to take some action and made reference to the quorum rule.

There is nothing in the Standing Orders which requires the Minister to reply unless he so wishes or even to be present. It was earlier established in the House of Commons of Canada that the time provided for these adjournment debates was strictly limited to the Members concerned and that no points of order, matters of privilege or quorum calls could be raised during that time. If the full allotted time is not taken up the remainder lapses and does not permit the raising of points or other matters. This practice has been reinforced by ruling of the Speaker on April the 30th, 1964 when he stated "There can be no point of order or question of privilege raised at this time under the terms of the standing order governing this debate" and by a further ruling on May 15th of the same year in which the Speaker stated: "I think at this stage I might clear up the point which has just been raised by saying that the period allotted between 10.00 p.m. and 10.30 p.m. is for the purpose of dealing with three questions raised by three honourable members. If those honour-

able members do not utilize the full time of 30 minutes, the remaining time lapses. The 30 minute period does not allow for the raising of other points.”

Even if the alleged point of order had been a valid one, the precedents make it clear that no point of order is permitted with relation to these adjournment debates.

Consultation has revealed that in the House of Commons of Canada the maximum attendance during adjournment debates is almost always six, the three Members who have given notice, the Ministers or their Parliamentary Assistants if they wish to respond. In this House, since this procedure has been introduced there has never been a quorum.

The Member for Sudbury East raised a hypothetical question of what would I do if no opposition Members were present in the House on Thursday. Investigation and consultation has indicated that, as in the House of Commons of Canada, as long as there was a quorum the business of the House would proceed. The Members are required to attend the service of the House and if they do not do so it is their responsibility. The Speaker has no authority to adjourn the House as long as there is a quorum.

If one Member whose ballot item is to be considered is present that ballot item would be proceeded with, for up to half the available time before 6.00 o'clock, after which the House would revert to such other business as the House ordered; if both Members whose ballot items are scheduled are absent then the House would immediately proceed to other business as ordered.

## NINETY-SECOND DAY

TUESDAY, NOVEMBER 13TH, 1984

PRAYERS

2.00 O’CLOCK P.M.

On motion by Mr. Wells,

*Ordered*, That, notwithstanding Standing Order 65 (g) respecting the publication of notice of an application for private legislation, a private bill respecting the Town of Iroquois Falls may be introduced and given first reading and the bill may be considered by the Standing Committee on Regulations and Other Statutory Instruments upon the applicant filing proof with the Clerk of the Assembly that notices have been published at least three times in *The Ontario Gazette* and in a newspaper having general circulation in the Town of Iroquois Falls.

---

The following Bills were introduced and read for the first time:—

Bill 137, An Act to amend the Health Protection and Promotion Act, 1983. *Mr. Norton.*

Bill 138, An Act to amend the Immunization of School Pupils Act, 1982. *Mr. Norton.*

Bill 139, An Act to amend certain Acts respecting the Health Professions. *Mr. Norton.*

Bill 140, An Act to revise the Metropolitan Police Force Complaints Project Act, 1981. *Mr. McMurtry.*

Bill 143, An Act to amend the Law Society Act. *Mr. McMurtry.*

Bill 144, An Act to amend the Powers of Attorney Act. *Mr. McMurtry.*

Bill 145, An Act to amend the Courts of Justice Act. *Mr. McMurtry.*

---

Pursuant to Standing Order 63 (a), in the absence of Mr. Rae, Mr. Foulds moved, seconded by Mr. McClellan,

That the Government lacks the confidence of this House because of its hasty, ill-considered and short-sighted reaction to the evaluation of this Province's credit rating by Standing and Poor's of New York, in particular:

- the decision of the Government to place a greater weight on the views and priorities of a New York bond rating agency than on the needs and priorities of this Province
- the Government's decision to cut back further on education, health and social services spending which is critical to the future of our Province, rather than to bring the spending and borrowing plans of Ontario Hydro under control
- the confusing explanations given by the Treasurer of Standard and Poor's rating review process, as reflected in the following statements of the Treasurer and Standard and Poor's:

Standard and Poor's:

“The fiscal 1985 budget projects a third year of operating deficits and a budgetary deficit exceeding 12% of revenues. However, stronger than expected economic growth appears likely to result in a lower budget deficit this year, and further improvements in fiscal 1986 are anticipated. Improved budgetary results in fiscal 1985 and 1986 are expected to reduce the debt burden.” (Standard and Poor's, *International Credit Week*, Third Quarter, 1984);

## The Treasurer:

“The rating agencies are retrospective. They simply look at what has occurred. They do not look into the future and try and figure out what one is likely to do next year, or get any assurance with regard to what one is likely to do because they do not see that as their job vis-a-vis the province, the people they rate or the people who buy bonds based on that. All they are asked to do by the people who buy bonds is to look at the performance to date and assess that against other performance. Having done that, as I indicated last week the entire discussion is retrospective”.

And a debate arising after some time the motion having been put was lost on the following division:—

That, Pursuant to Standing Order 34 (a) the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:

The decision by the Steel Company of Canada to close its iron ore mining operations at the town of Ear Falls in Northwestern Ontario; the fact that the decision was made unilaterally by the company without any public consideration of alternatives; the fact that the loss of 283 jobs at the Griffiths Mine will literally destroy the economic base of the town; the fact that the Ear Falls closure is the sixth iron ore mine closure since 1977; and the lack of any plans or policies in the government to deal with the issue of the economic vulnerability of one-industry towns despite the fact that a cabinet committee has supposedly been dealing with the issue since 1977.

## ONE HUNDRED AND SECOND DAY

TUESDAY, NOVEMBER 27TH, 1984

---

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

This year, as we approach the Christmas season and turn our thoughts to giving gifts to families and loved ones, I know that all will feel awareness of the wider world family and their need. Therefore, it would seem particularly appropriate that the Legislative Assembly as a whole, demonstrate that we are ready to sacrifice some of our Christmas pleasures to help those whose lives hang so precariously in the balance.

In order to reflect that heartfelt concern, I have decided that instead of spending funds on the Speaker's Christmas party which traditionally takes place each year, these funds should be forwarded instead to one of the major international relief agencies to send assistance to Ethiopia.

I am well aware that many hundreds of people have come to enjoy the Speaker's party,—families and friends—as well as Members and those employed in the Legislative Building. However I am confident that all will respond to this tangible expression of our concern.

Accordingly I am directing that a sum of \$10,000 be forwarded to UNICEF CANADA, The United Nations International Childrens Emergency Fund, and be designated for the purchase of food and blankets for Ethiopian relief, and that this donation be made on behalf of the Legislative Assembly of Ontario.

---

The following Bills were introduced and read the first time:—

Bill 152, An Act to amend the Royal Ontario Museum Act. *Mr. Grande.*

Bill 153, An Act to amend the Public Vehicles Act *Mr. Mackenzie.*

---

Mr. McGuigan moved, seconded by Mr. Kerrio,

That, Pursuant to Standing Order 34 (a), the ordinary business of the House be set aside to discuss a matter of urgent public importance, namely:

The release of new information resulting from the Niagara River Toxics Committee Report that indicate the presence of a serious threat to the water quality of Lake Ontario which provides drinking water for more than four million Ontarians;

The findings by Environment Canada officials which state, among other things, that, "clearly, the Niagara River and Lake Ontario are poisoned ecosystems in which all media including people, containing varying amounts of boicides, or chemicals, produced specifically to kill biota...the concern then, is about the health of the Niagara River and Lake Ontario ecosystems themselves, and not just a matter of the number of human cancers caused by drinking the water";

The fact that both the provincial and federal governments are reducing their environment budgets, and cutting programs that could, if kept, help slow and even reverse the chemical contamination of the Niagara River and Lake Ontario.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House, which question was decided in the negative on the following division:—

Pursuant to Standing Order 63 (a), Mr. Conway moved seconded by Mr. Sweeney,

—That the Government lacks the confidence of this House because of its record in relation to all matters affecting education in this Province, where through the Ministries of Education and of Colleges and Universities, all educational institutions have been systematically undermined, and sabotaged, have suffered relentless cut-backs in financial resources, have become victims of divisiveness engendered among educational constituencies, have been compelled to implement programmes by confrontational and intransigent policies and have been subjected to an ironhand of increasing centralization and loss of autonomy, in particular:

- the decision of the Government to withdraw from its commitment to share the costs of public education with local municipalities in a ratio of 60 to 40, to the extent the Government now contributes less than 49 per cent of such costs;
- the unarticulated policy of this Government that, as a consequence of its perception that the provincial university system was overbuilt during the decade 1960-70, it has so diminished its support to universities that the viability and quality of the system is in peril;
- the position of the Government in the face of the recent strike by community college teachers, whereby it denied legitimacy to the central concern, namely the quality of education;

- the failure of the Government to provide the necessary resources to programmes of special education throughout the Province, whereby the legitimate needs and expectations of thousands of children with exceptional educational needs will remain unmet;
- the destructive predilection of the Government to appoint commissions and committees to inquire into the state of our universities, whose numerous recommendations have all been substantially ignored;
- the failure of the Government to respond to the growth and popularity of the community college system, as it refuses to plan for, or fund any expansion of the system and refuses to disclose reports which evidence the need for expansion of the college system;
- the intransigence of the Government in requiring implementation of the new OSIS high school curriculum without providing prerequisite course curricula, in-service training and financial support and without regard for the many caveats expressed by members of the constituency affected;
- the failure of the Government to make timely, reasonable and necessary provision for French language governance among school boards where the francophone population is entitled to such representation;
- the dismal record of the Government to make even modest provision to the universities of the Province for maintenance and repair of their buildings and capital plant;
- the decision by the Government to abruptly reverse its position on the extension of funding to the separate school system, without debate or consultation and with the consequence of confusion and hostility among all members of the post-secondary school system;
- the announcement by this Government in the Speech from the Throne in March of 1984 that there would be a return to province-wide assessment in the school, which announcement was immediately and substantially contradicted by the Minister responsible;
- the pursuit by the Government of a plan to restructure the distribution of local commercial and industrial property and business tax assessment, through the means of the “Martin Proposal”, without full disclosure of alternative proposals, or any commitment to raise per pupil expenditure ceilings and without meaningful consultation;
- the policy of the Government to permit admission to up to 50 per cent of community college programmes by means of a random selection, “lottery” process, without regard to student merit or performance;
- the proposal by the Government to impose a structure, to be known as a College of Teachers, on over 100,000 teachers in the Province, without significant prior consultation, and in the face of opposition from the recognized teacher federations;

- the refusal by the Government to provide support for co-operative education high school programmes, although such programmes have demonstrated extraordinary success and require only very modest financial support;
- the policy of the Government to refuse to provide capital funds to school boards for the building of school facilities in those areas of the Province where overcrowding and the use of portables are at a crisis stage;
- the policy of the Government whereby hundreds of non-credit continuing education programmes were eliminated or curtailed by local schools because funds previously provided were cut off;
- the practice of the Government to make appointments to governing bodies of community colleges on the basis of the appointees' association with the Government party;
- the policy of the Government to sharply increase the tuition fees paid by foreign and visa students, with a consequent and serious decline in foreign student enrolment, imperilling Ontario's role in the world academic community;
- the failure of the Government to encourage and make necessary provision for research and development activity at provincial universities, insofar as research grants do not cover overhead expenses, and often strain existing university resources and discourage faculty research efforts; and
- the policy of the Government which curtailed or eliminated successful adult upgrading programmes, notably those offered by the Prescott-Russell Board and the Niagara Region Board, by virtue of Memo B:9 of 1983, which operated retroactively on those Boards.

and a debate arising after some time the motion having been put was lost on the following division:—

*Ordered*, That notwithstanding the previous order of the House, on Thursday afternoon, December 13th, Private Members' Ballot Item No. 30 be taken up at 5.00 p.m. and the provisions of Standing Order 64 will apply with respect to the debate and voting.

---

Mr. Laughren, moved seconded by Mr. Foulds,

That, pursuant to Standing Order 34 (a) that the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely:

The decision a month ago by the Steel Company of Canada to close its iron ore mine at Ear Falls in April of 1985; the fact that the Premier met with Stelco officials on Thursday, December 6, 1984 and to date no report has been made on the results of that meeting to the workers concerned, the Legislature or even apparently the Minister of Northern Affairs; the fact that the decision was made unilaterally by the company without any public consideration of alternatives; the fact that the loss of 283 jobs at the Griffiths Mine will literally destroy the economic base of the town; the fact that the Ear Falls closure is the sixth iron ore mine closure since 1977; and the lack of any plans or policies in the government to deal with the issue of the economic vulnerability of one-industry towns despite the fact that a cabinet committee has supposedly been dealing with the issue since 1977.

After hearing the arguments of the mover and the representative of the order parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House, which question was decided in the negative on the following division:—

Mr. Lupusella moved, seconded by Mr. Stokes,

That, in view of the faltering economic recovery now occurring in Ontario and, in particular, the lack of new, real long-term opportunities for young workers and older workers, this House supports an employment security initiative which:

- facilitates the replacement of imports with domestically-produced goods and services. It should target those goods and services—everything from thumb tacks to computer-controlled machinery—and find ways of producing them locally;
- introduces programmes such as early retirement with full pensions, shorter working time and paid educational leave, to allow workers to share in the benefits of new technology and provide younger workers with a way into the work force;
- rethinks the role of public sector job creation. At present there is too little work in the private sector and too much work to do in the public sector, especially in important but neglected areas such as programmes to keep seniors independent, child care, recreation and culture, environmental clean-up and housing;
- relies less on the *Financial Post* 500 companies and more on new forms of production, such as community enterprises and co-operatives. Support should be increased for existing and new small businesses;
- guarantees every young person, under a Youth Employment and Training Act, the opportunity to participate in literacy, educational and vocational skills training and bring the scattered fragments of the skills training system under a single legislative umbrella;
- reforms the provision of post-secondary school education, apprenticeship and other vocational training to eliminate the redundancy, wasteful expenditure, bureaucratic complexity and inflexibility which characterize many current programmes; and
- requires the payment of severance pay where the employment of an employee with one or more years' service is terminated and the termination is caused by the permanent discontinuance or reduction of all or part of the business of the employer at an establishment.

Pursuant to Standing Order 64 (e) the following members signified their objection to the putting of the question on Mr. Lupusella's Resolution (*No. 41*) and accordingly the question was not put.

That the amendment to the motion be further amended by adding after the word “transition”, and before the words, “Therefore, this Government lacks the confidence of this House”, the following:

and this House condemns the Government for its failure to support an employment initiative which:

- facilitates the replacement of imports with domestically-produced goods and services. It should target those goods and services—everything from thumb tacks to computer-controlled machinery—and find ways of producing them locally;
- introduces programmes such as early retirement with full pensions, shorter working time and paid educational leave, to allow workers to share in the benefits of new technology and provide younger workers with a way into the work force;

The amendment to the motion as follows:—

That, the motion that this House approves in general the budgetary policy of this government be amended by deleting the words following “That” and adding thereto the following:—

“this House deeply regrets that the 1984 budget fails to recognize the most serious and fundamental problems facing Ontario today and condemns the government for:

- Ignoring the desparate plight of the 443,000 unemployed people in the Province of Ontario, and in particular, perpetrating a cruel hoax on the 169,000 unemployed youth of this province, by offering them nothing more than re-packaged programmes and hopes of private sector job creation;
- Continuing to collect exorbitant tax revenues from the citizens of Ontario, while at the same time refusing to rein in provincial government spending, and in particular, refusing to end such wasteful government expenditures for such excesses as the Suncor purchase, the land banks, Minaki Lodge, self-congratulatory government advertising, unnecessary government polling, the prolific use of expensive consulting services, among others;
- Introducing measures requiring expenditures by municipalities and school boards, while at the same time restricting transfer payments to those levels;
- Failing to provide tax relief to the tourism industry at a time when the provincial tourism deficit has reached a record level due to government controlled tax and cost increases;
- Ignoring the special needs of women, and further, for continuing to impose upon them an unjustified and sexist tax on essential products;
- Further punishing low-income earners by increasing yet again OHIP premiums;
- Ignoring the plight of the Ontario farmer who continues to face the very real prospect of bankruptcy;
- Refusing to deal with the problem of very serious shortages of affordable rental housing in numerous communities across the province;
- Continuing to cut back for environmental protection, at a time when concerns regarding the quality of the air we breathe and the water we drink are at their highest;
- Continuing to neglect the essential need for a comprehensive and coherent economic strategy to guide the development of the province in an era of technological transition;

Therefore, the Government lacks the confidence of this House.”

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

The Government’s priority during this fourth session of the thirty-second Parliament of Ontario has been to encourage an economic transformation that will benefit all Ontarians. The 1984 Budget presented a blueprint for economic progress with special emphasis on youth employment and skills training.

The Government’s commitment to an Ontario Youth Opportunities program is well under way with the appointment of a Youth Commissioner and with ten initia-

tives currently helping disadvantaged young people find jobs. The Government has committed 150 million dollars to the job retraining programs and employer assistance to help our existing workforce meet the new challenges of the future.

During this year, Ontario's economic growth has outpaced the Government's budget projections and our Gross Provincial Product is now expected to rise above five per cent this fiscal year. More than 133,000 new jobs have been created and the deficit has been cut by 223 million dollars.

In addition to these measures to stimulate growth and development, my Government undertook a series of initiatives responsive to current needs within the Social and Justice fields.

The Government outlined a new course for the educational system in Ontario by extending financial support to secondary Roman Catholic schools. A Commission was established to guide and advise on the implementation of this reform. In addition, the Education Act was amended to ensure that *every* French-speaking pupil now has the right to instruction in French. We feel this path will contribute to the progressive and harmonious development of our educational system.

The protection and well being of our children has been of paramount concern to the Government of Ontario. In keeping with this objective, legislation was passed to consolidate, streamline and update various Acts in order to support the autonomy of the family unit and to ensure the protection and best interests of children.

As well, the responsiveness of the Justice system to current needs was enhanced by the Courts of Justice Act, which accomplishes the first major re-organization of the Courts of Ontario in over 50 years. The Act establishes French as an official language of the courts and streamlines their organization, in order to provide equitable and efficient service. Similar responsiveness to current needs was demonstrated in legislation which will accommodate provincial laws to the needs of young people.

Nineteen eighty-four has been an exceptional year. We have been honoured with the visits of His Holiness Pope John Paul II, Her Majesty Queen Elizabeth the Second and His Royal Highness the Duke of Edinburgh. It has been a year to celebrate the rich heritage we all share in Ontario.

Our Bicentennial has provided us with an opportunity to experience the strength of spirit and depth of conviction, that makes this province the land of which we can be truly proud.

In closing, may I take this opportunity to wish you a safe and pleasant holiday season.

Au nom de notre Souveraine, Je vous Remercie,

In our Sovereign's name, I thank you.

Je declare cette session prorogée.

I now declare this session prorogued.

The Government House Leader then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
