THURSDAY, NOVEMBER 29, 2007
SECOND DAY

2:00 P.M. 14 H

The Members having assembled:­

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne.

The Speaker addressed His Honour as follows:

"May it please Your Honour,

The Legislative Assembly has elected me as their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration."

The Government House Leader said:­

"Speaker, I am commanded by His Honour the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's Person and Government and, not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction."

His Honour the Lieutenant Governor was pleased to open the First Session of the Thirty-ninth Parliament by making the following gracious Speech:­
Mr. Speaker, Members of the Legislative Assembly, people of Ontario.

Today, it is my privilege to deliver this government’s third Speech from the Throne.

This is a first for me — as Ontario’s new Lieutenant Governor — and I want to take this opportunity to wish all members of this Assembly well in your work.

And I want to extend a special welcome to those of you who are, like me, new to the Assembly.

Whatever its flaws, parliamentary democracy represents many of humankind’s highest ideals.

The notion that no person is deemed to be better than his or her neighbour, the rule of law is clearly superior to the whim of dictators, debate is preferable to distemper, and collective wisdom has far more value than individual impulse.

May you be inspired by these ideals — and by the work done by those who came before you.

Since the last Speech from the Throne, nine former MPPs have passed away.

I ask you to remember Fred Burr, Doug Ford, Anthony Grande, George A. Kerr, Bert Lawrence, Robert MacQuarrie, Robert Mitchell, Ian Scott and Mel Swart.

The people of Ontario are grateful to them for dedicating a portion of their lives to our democracy.

And we are inspired by those who risk their lives in defence of the principles that sustain that democracy.

I speak of the brave Canadians who are standing up for freedom today in Afghanistan, and those who have fallen in its defence in conflicts throughout our history.

Together, we pledge that their sacrifice, and the sacrifice of all of our veterans — commemorated recently at Remembrance Day and by Ontario’s Tribute to the Fallen, and enshrined permanently along Ontario’s Highway of Heroes — will not be forgotten.

As well, we recall the sacrifice and service of our police, firefighters and emergency workers, who put their lives on the line each day to protect Ontario families.

Finally, we recognize the efforts of the people you have pledged to serve — the people of Ontario.

Children, whose wonder knows no bounds.

Parents, whose love knows no limits.

Seniors, whose work built this province.

The volunteers who take on the thankless tasks, the health care workers who comfort the sick, the educators who share their knowledge, the entrepreneurs who take the risks, the employers who provide the jobs, and the workers who lift us all up.

The hard-working men and women of Ontario who, together, make this the finest province in the best country in the world.

While it is as beautiful as any of its sisters to the east or west, Ontario knows its true grandeur lies not in its landscapes or lakes, but in the diversity of its people.

Our people speak every language, embrace every culture, and have ties to every corner of the globe, but they share a common goal — to build a better life for themselves and their families, predicated on a belief in opportunity for all.

From our proud First Nations to our courageous new arrivals, Ontarians seek to build a strong and caring society, sustained by a strong and prosperous economy.

Ontarians are a positive people, sober-minded about the challenges before us, yet optimistic about the opportunities available to us.

Your government shares that optimism.

It shares your goals.
And it understands that, over the next four years, you want to move forward the Ontario way: by working and building and dreaming, together.

**A Better Educated, More Highly Skilled Ontario**

And that is why it is so committed to improving the knowledge and skills of our people.

When we improve the quality of public education, when we provide our young people in particular with the skills they need to succeed, we get the best workers, who land the best jobs, who in turn build the strongest economy, which funds everything we want to do together.

But this virtuous circle encompasses far more than material gain.

At its very best, education instills in our children the understanding that we are in this together, that they must take responsibility for themselves, their families and their communities, that we are all connected, and that we share a responsibility to look out for one another, to help one another and to build something greater than ourselves.

Ontarians sent a clear message this past fall: they want our children to come together, learn together and grow together.

So your government is committed to making publicly funded education the very best it can be.

It will continue to work with parents and educators to improve student achievement, ensure more and more of our young people graduate from high school, and make it possible for more of them to keep learning beyond high school in a university, college or apprenticeship program.

Your government will strive to ensure still more of our children meet the provincial standard in reading, writing and math, so that we are assuming our shared responsibility to equip them to succeed in the hyper-competitive global economy of the 21st century, and to measure their progress.

If our children are to succeed in the knowledge economy, ours must be a learning society.

And so your government will work to phase in full-day learning for four- and five- year-olds.

Progress towards that goal has already begun, with the appointment this week of an early learning advisor.

Your government knows Ontario can take on the world and win, but only if every Ontarian is at his or her best, and every child can reach his or her full potential.

So your government will work to reduce the barriers facing students in at-risk communities by dramatically expanding the successful Pathways to Education initiative.

To ensure every student can get help when they need help, your government will make expanded homework help available online and after school.

Your government will work to improve graduation rates in our high schools, and ensure more young people keep learning beyond high school.

To ensure higher education is more accessible, your government will introduce a special distance grant for students from the north and remote areas who must commute long distances.

To ensure it is more affordable, your government will deliver a new textbook and technology grant of $300 for university and college students to help them get started each year at school.

And to ensure that our publicly funded schools have the resources they need to help our students succeed, your government will continue to improve the funding formula, investing an additional $3.1 billion annually by 2011 and requiring that the formula be reviewed by 2010.

The true test of this generation’s leadership will be the next generation’s success.

And your government will invest in that success, every day.
A More Prosperous Ontario

Ontarians are capable of taking the long view and focusing on the task at hand at the same time.

So your government also has a plan for today’s economy — a plan for today’s jobs.

Good, high-paying jobs fund our schools and hospitals, and put food on our families’ tables.

But they do even more than that.

They allow a mom or dad to go home after a day’s work and look into the eyes of their child with pride; they allow a community to look to the future with confidence.

So your government is working with business and labour to attract, retain and create good, high-paying jobs for Ontario families and communities.

Like Ontarians, your government is clear-eyed about the challenges posed by a high dollar, high commodity prices and the always intense — and sometimes intensely unfair — competition faced by our manufacturers, foresters and farmers.

At the same time, it is optimistic that Ontario is uniquely equipped to succeed in a world that values hard work, high productivity and relentless innovation.

In sectors ranging from financial services to biotechnology to digital media and other advanced technologies, Ontarians are experiencing growth that far outpaces that of our closest competitors.

As the Finance Minister will outline in his upcoming fall economic statement, the bottom line is maintaining a strong fiscal position for Ontario supported by a growing economy that is as strong and resilient as Ontarians themselves.

The proof of that is the fact that Ontario has 420,000 more good, high-paying jobs now than it had just four years ago, and Ontario has the lowest level of unemployment in five years.

Your government will follow the five-point economic plan endorsed by Ontarians this past fall.

It includes:

1. Major investment in the education and skills of our people.

2. Keeping our taxes competitive, which includes phasing out the capital tax.

3. Supporting innovation and the good, high-paying jobs of the future through, for example, the new $165-million Ontario Venture Capital Fund.

4. Accelerating the largest investment in the province’s infrastructure in 50 years, including MoveOntario 2020, a historic expansion of public transit.

5. Forming key partnerships, such as those formed through the Automotive Investment Strategy, which is helping to leverage more than $7 billion in new auto investment, and the new Next Generation Jobs Fund, which will create new good, high-paying jobs by developing new clean and green technologies.

Your government will deliver an agriculture risk management program to help our grain and oilseed farmers cope with internationally subsidized competitors, increase support for the rural economic development fund by 50 per cent, encourage more people and businesses to buy food grown in Ontario, and continue to support supply management.

It will help the tourism sector by conducting a comprehensive competitiveness study, increasing funding for festivals and events around Ontario, and expanding marketing initiatives to promote Ontario destinations.
Your government will work with manufacturers to support new and advanced technologies, and with the forestry industry through initiatives like the Forest Sector Prosperity Fund.

What’s more, your government will work, through Employment Ontario, to ensure there is more help for displaced workers, and that help is delivered faster, with expanded training and support initiatives.

Your government will bolster regional economic expansion and jobs in northern Ontario by increasing the Northern Heritage Fund to $100 million, and in eastern Ontario by creating a new Eastern Ontario Development Fund.

Your government understands that we are all in this together and, even though job creation in Ontario is far outpacing job loss, one lost job is one too many.

So it will continue to press the federal government to be fair to Ontario when it comes to fiscal policy, and to become a true partner with Ontario, especially when it comes to fairness in Employment Insurance and support for sectors facing challenges.

In particular, Ontario calls on the federal government to help keep goods and people moving by giving municipalities the equivalent of one percentage point of the Goods and Services Tax to invest in infrastructure and public transit.

Your government understands that communities are engines of economic growth and hotbeds of innovation. Your government will do its share by building on the progress it has already made in working with municipalities.

The government will upload Ontario Drug Benefit costs in 2008 and then begin uploading disability support program costs in 2009 — costs that had been downloaded by the previous government. And it will continue to work through the provincial-municipal review to put our cities and towns on a firm financial footing.

Opportunity For All

To truly succeed as an economy, and as a society, we need everyone at his or her best.

That’s what opportunity for all is all about.

It does not mean more prosperity for some and more poverty for others.

Study after study, including a report from the United Way of Greater Toronto just this week, has underlined that we all share a responsibility to work towards lifting more families out of poverty. Your government will continue to assume its responsibility to provide these families with better opportunities.

A new cabinet committee will begin work developing poverty indicators and targets and a focused strategy for making clear-cut progress on reducing child poverty.

The strategy includes a plan that would provide dental benefits to low-income families, and builds on measures already in progress. These include boosting the minimum wage to $10.25 by 2010, increasing child care spaces and providing more affordable housing. Your government will also fully implement the new Ontario Child Benefit, raising it to $1,100 per child.

Opportunity for all means opportunity that is accessible to all.

During its first mandate, your government worked with Ontarians with disabilities, Ontarians of tremendous strength and determination, to introduce the Accessibility For Ontarians With Disabilities Act.

During this second mandate, it will work with all Ontarians to phase in positive changes made possible by the act, to improve and expand accessibility throughout the province.
A Healthier Ontario
Just as we can measure an economy’s progress by how it treats those who have fallen behind, we can measure a society’s depth by how well it treats those who have fallen ill.

We can be proud in Ontario of a system of medicare that treats all people on the basis of need — not because of the size of your bank account or your station in life, but simply because you’re one of us.

But that pride must fuel progress, not stand in the way of it, especially when our population is growing older, and the capacity of medical science to prevent, diagnose and treat illness and disease is growing every day.

When a child is diagnosed with diabetes, when a father suffers a heart attack, when a mother faces breast cancer, when a family rushes to the emergency ward, we share a responsibility as Ontarians to respond with compassion, care and commitment.

Your government — all Ontarians, in fact — have responded by training more doctors, hiring more nurses and reducing wait times for key procedures, but there is much more to do.

To ensure that more Ontarians get the care they need, when they need it, your government will expand its progress on wait times to more services such as emergency room visits, children’s surgery and general surgery.

To help more Ontarians receive that care closer to home, your government will strive to ensure that 500,000 more Ontarians have access to improved family care from doctors, nurses and other health care professionals, working together.

Your government will hire 9,000 more nurses, work towards its goal to have 70 per cent of nurses working full time, guarantee jobs for new nursing graduates, invest in healthy work environments for nurses, and establish 25 more nurse-led clinics.

Your government believes we need to do more to help seniors who want to stay in their own homes. It will broaden the services available to seniors through home care and provide a caregiver grant to those caring for elderly family members.

For those who require more assistance, it will take action to improve the level of care in long-term care homes by building 35,000 long-term care beds over 10 years, and 2,000 new nurses will provide care in long-term care homes.

And because more Ontarians are struggling with diabetes, your government will introduce a new comprehensive diabetes strategy.

Your government will do more to prevent illness by introducing legislation that would ban trans fats from all school cafeterias, prescribe a healthier menu that conforms to the Canada Food Guide and create an Ontario Fitness Challenge program to fight childhood obesity.

A Greener Ontario
Your government understands that we cannot claim to own the air or the water or other precious resources.

We simply hold them in trust for our children and their children.

Here, on the only planet we know of that sustains life, we have an obligation to preserve that which sustains us.

We know the challenges are large, even global, but Ontarians want to do their part.

Your government will move forward with Ontario’s plan to combat climate change by working towards meeting Ontario’s goal of reducing the emissions that contribute to climate change by six per cent below 1990 levels by 2014, 15 per cent below by 2020, and 80 per cent below by 2050.

It will achieve this, in part, by making our energy cleaner and greener, moving forward with the province’s first long-term electricity plan in a generation.
Your government will replace coal, double renewables, double conservation and modernize our nuclear capacity.

Ontarians understand that we don’t have to choose between the environment and the economy — that in fact, we can grow our economy by making it greener.

There are good, high-paying jobs that will go to the places that develop the most innovative green technologies, including the next generation of clean cars, and Ontario will work to seize those opportunities through our Next Generation Jobs Fund.

Your government has already begun work on MoveOntario 2020, the largest transit expansion in Canadian history.

Your government will introduce tough new toxic reduction legislation that would reduce pollution. It would inform and protect Ontarians from toxic chemicals in the air, water, land and consumer products. New legislation would also ban the cosmetic use of pesticides in our cities and towns.

Your government will also move to protect our water and natural areas that make Ontario a beautiful place to live.

It will take strong action to protect Lake Simcoe’s water quality for future generations.

And it will work with northern and native communities in Ontario’s far north to implement a plan that protects the boreal forest — a key contributor in the fight against climate change.

A Strong Ontario for a Strong Canada

Ontarians care about our planet.

And we love our country.

Ontarians are strong Canadians.

We are patriots.

Working with our fellow Canadians, we have built a country that we are proud to call ours, and a province that we are proud to call home, at the same time.

And we continue to work together with our fellow Canadians, from coast to coast to coast, and in countless ways, for the betterment of all Canadians, including Canadians living in Ontario.

But the foundation of that work together must be basic fairness for all Canadians, including Canadians here in Ontario.

And your government will continue to speak up — and stand up — for Ontario when that basic fairness is undermined.

It stood up, for example, when newcomers to Ontario were not receiving their fair share of services.

It stands now with Ontarians who deserve their fair share when it comes to Employment Insurance, and support for our manufacturers, forestry workers and farmers.

And it will continue to stand up to the federal government when it comes to fair representation in the House of Commons.

An Ontarian is a proud Canadian, no less proud than other Canadians, and certainly no less entitled to the same representation in Parliament.

It’s important that we work together to keep our communities safe. To do that, we must be tough on crime and tough on the causes of crime.

Your government will continue to push the federal government to honour its commitment to provide an additional 1,000 police officers in Ontario, just as this government delivered 1,000 new police officers during its first mandate.
Your government will stand up for Ontario because we love Canada, because we understand a strong Ontario means a stronger Canada.

**A Stronger Relationship**

A Throne Speech traditionally paints the big picture — laying out plans for the next session or mandate. So not every initiative could be included within this one frame. There is more your government will do. And it is traditional to use a wide brush, to paint with broad strokes, with the broadest of them all reserved for the conclusion of the speech.

Your government, however, chooses to end this speech by speaking directly to one group in particular. They do not constitute the largest group or the most powerful. They are, however, and profoundly, the first people to call this place home.

This government seeks to forge a stronger, more positive relationship with Ontario’s First Nations.

Creating a better life for our Aboriginal communities and opportunities that all can access is exemplified by a small agency serving Aboriginal youth. 7th Generation Image Makers employs and trains native youth to create commercial murals.

This company and Adam Garnet Jones, its coordinator, who is with us today in the gallery, are a powerful symbol of what we in Ontario all want to see: far greater opportunities for Aboriginal youth in our province.

As a part of the respected Native Child and Family Services of Toronto, the youth program run by Adam is a business and an example of excellence. It is a living example, in fact, of what your government hopes to accomplish in this mandate: education, training, looking to the future, creativity, respect and pride in Aboriginal arts, culture and heritage, and greater job opportunities for Aboriginal peoples.

Your government, to be sure, is not the first government to seek a better relationship with our First Nations.

But it is, perhaps, the first to have in its possession such a positive road map for progress — the Ipperwash Inquiry Report.

If striking that inquiry was the first step, your government has now taken the second, by establishing an independent Ministry of Aboriginal Affairs.

Ontario will work with you, through the new minister, to act on the report’s recommendations.

Of all the people in Ontario, you have perhaps the deepest sense of history.

So you know that Ontario cannot do this overnight, and Ontario cannot do this alone.

Ontario will continue its efforts to encourage and work with the federal government to accelerate the settlement of land claims.

But Ontario will work with you, with respect and in collaboration, to improve the quality of life and expand economic opportunities for all Aboriginal peoples in our province, both on- and off-reserve.

This progress is central to the goal all Ontarians share — to provide opportunity for all, to build a better quality of life for all, to move our province forward, and to do so the Ontario way.

By working and building and dreaming, together.

Thank you.
Monsieur le Président, Mesdames et Messieurs les députés, citoyennes et citoyens de l’Ontario.

Aujourd’hui, j’ai le privilège de prononcer le troisième discours du Trône de ce gouvernement.

C’est une première pour moi, en ma qualité de nouveau lieutenant-gouverneur de l’Ontario, et je profite de l’occasion pour souhaiter le plus grand succès à tous les membres de l’Assemblée.

Je souhaite en particulier la bienvenue à toutes celles et à tous ceux d’entre vous qui, comme moi, sont nouveaux ici.

Quelles que soient ses lacunes, la démocratie parlementaire représente nombre des plus grands idéaux de l’humanité :

En particulier, nul n’est réputé meilleur que son prochain, la loi prévaut clairement contre les lubies des dictateurs, le dialogue est préférable à la contestation et la sagesse collective a bien plus de valeur que l’impulsivité d’une seule personne.

Soyez tous inspirés par ces idéaux, et par le travail accompli par toutes les personnes qui vous ont précédés.

Depuis le dernier discours du Trône, neuf anciens députés nous ont quittés.

Je vous invite à avoir une pensée pour Fred Burr, Doug Ford, Anthony Grande, George A. Kerr, Bert Lawrence, Robert MacQuarrie, Robert Mitchell, Ian Scott et Mel Swart.

Les Ontariennes et Ontariens leur sont reconnaissants d’avoir consacré une partie de leur vie à notre démocratie.

Nous sommes également inspirés par ceux et celles qui risquent leur vie pour défendre les principes sur lesquels repose notre démocratie.

Je veux parler de nos valeureux compatriotes qui défendent la liberté aujourd’hui en Afghanistan, et de tous ceux et celles qui sont morts en service lors des divers conflits qui ont jalonné notre histoire.

Ensemble, nous nous engageons à ne jamais oublier leur sacrifice, ni celui de nos anciens combattants, que nous avons honorés récemment lors du jour du Souvenir et de la Cérémonie ontarienne d’hommage aux personnes décédées en service. Leur souvenir est à jamais gravé le long de l’autoroute ontarienne des héros.

Nous rendons également hommage au sacrifice et au dévouement de nos policiers, de nos pompiers et de tous les travailleurs d’urgence, qui mettent leur vie en péril chaque jour pour protéger les familles ontariennes.

Enfin, nous reconnaissions les efforts des personnes que nous nous sommes engagés à servir: la population de l’Ontario.

Les enfants, qui savent s’étonner de tout.

Les parents, qui portent à leurs enfants un amour incommensurable.

Les personnes âgées, qui ont bâti cette province.

Les bénévoles qui font des tâches ingrates, les travailleurs de la santé qui réconfortent les malades, les éducateurs qui partagent leurs connaissances, les entrepreneurs qui prennent des risques, les employeurs qui créent des emplois et les travailleurs sans lesquels rien ne pourrait se réaliser.

Tous les Ontariens et Ontariennes qui travaillent fort et font de notre province un endroit où il fait bon vivre, dans le meilleur pays au monde.

Si notre province est aussi belle que n’importe quelle autre contrée de l’Est ou de l’Ouest du pays, nous savons que sa véritable richesse ne vient pas de ses paysages ou de ses lacs, mais de la diversité de sa population.
Notre province, constituée d’une mosaïque de langues et de cultures, est peuplée de gens qui ont des liens avec les quatre coins de la planète, mais qui ont le même objectif : construire une vie meilleure pour eux et pour leur famille, confiants dans le principe de l’égalité des chances pour tous.

De nos fières Premières nations à nos courageux nouveaux arrivants, les Ontariennes et Ontariens cherchent à édifier une société forte et humaine, s’appuyant sur une économie vigoureuse et prospère.

Les Ontariennes et Ontariens sont des gens positifs, conscients des défis qui les attendent, mais optimistes au sujet des possibilités qui s’offrent à eux.

Votre gouvernement partage cet optimisme.

Il partage vos objectifs.

Et il comprend que, dans les quatre prochaines années, vous souhaitiez aller de l’avant à la manière de l’Ontario : en travaillant, en bâtissant et en rêvant ensemble.

**Un Ontario mieux éduqué, hautement spécialisé**

C’est pourquoi le gouvernement est déterminé à améliorer les connaissances et les compétences des citoyens de l’Ontario.

Lorsque nous améliorons la qualité de l’éducation publique, que nous donnons aux jeunes les compétences dont ils ont besoin pour réussir, nous obtenons des travailleurs hors pair, qui décrochent des emplois de premier ordre, qui contribuent à créer une économie prospère, ce qui permet de financer tout ce que nous souhaitons réaliser ensemble.

Mais ce cercle vertueux englobe beaucoup plus que des gains matériels.

Idéalement, l’école apprend aux enfants que nous sommes solidaires les uns des autres, que nous sommes responsables de nous-mêmes, de notre famille et de notre collectivité, que nous sommes tous liés les uns aux autres et que chacun a la responsabilité de veiller sur l’autre, de l’aider et d’essayer de bâtir quelque chose de plus grand que soi.

Cet automne, les Ontariennes et Ontariens nous ont transmis un message très clair : ils veulent que nos enfants apprennent et grandissent ensemble.

Par conséquent, votre gouvernement est déterminé à faire en sorte que le système d’éducation financé par les deniers publics soit le meilleur possible.

Il continuera de travailler avec les parents et les éducateurs pour améliorer les résultats scolaires et faire en sorte que de plus en plus d’élèves obtiennent leur diplôme d’études secondaires, et poursuivent ensuite leur éducation, à l’université, au collège ou dans un programme d’apprentissage.

Votre gouvernement s’emploiera à faire en sorte qu’un nombre encore plus grand de nos enfants répondent à la norme provinciale en lecture, en écriture et en mathématiques, afin d’évaluer leurs progrès et de leur donner les outils dont ils ont besoin pour réussir dans l’économie mondiale extrêmement concurrentielle du XXIe siècle, comme il en a la responsabilité.

Notre société doit donner à l’apprentissage la place qui lui revient si nous voulons que nos enfants réussissent dans l’économie du savoir.

Ainsi, votre gouvernement entend graduellement instaurer un programme d’enseignement à temps plein pour les enfants de quatre et cinq ans.

Les choses ont déjà commencé à progresser dans ce sens puisqu’un conseiller en apprentissage préscolaire a été nommé cette semaine.

Votre gouvernement sait que l’Ontario peut prendre sa place sur l’échiquier mondial, mais cela n’est possible que si tous les Ontariens et Ontariennes mettent à contribution toutes leurs capacités et si chaque enfant peut réaliser son plein potentiel.

Par conséquent, votre gouvernement s’emploiera à réduire les obstacles auxquels se heurtent les élèves des quartiers à risque, en élargissant considérablement l’excellente initiative Passeport pour ma réussite.
Afin que tous les élèves obtiennent le soutien dont ils ont besoin, votre gouvernement accroîtra l’aide aux devoirs accessible en ligne et après l’école.

Votre gouvernement prendra des mesures pour améliorer le taux d’obtention du diplôme d’études secondaires et pour s’assurer qu’un plus grand nombre de jeunes poursuivent leur éducation au palier postsecondaire.

Afin de rendre l’éducation supérieure plus accessible, votre gouvernement versera une subvention spéciale aux étudiantes et aux étudiants du Nord et des régions éloignées qui doivent parcourir de longues distances.

De plus, votre gouvernement versera une nouvelle subvention de 300 $ au titre des manuels scolaires et de la technologie à tous les étudiants et étudiantes des universités et des collèges pour leur donner un petit coup de pouce au début de chaque année scolaire.

Par ailleurs, afin que nos écoles financées par les deniers publics disposent des ressources dont elles ont besoin pour aider les élèves à réussir, votre gouvernement continuera d’améliorer la formule de financement en investissant un montant supplémentaire de 3,1 milliards de dollars par an d’ici 2011 et en exigeant que la formule soit revue d’ici 2010.

Le succès de la prochaine génération sera la preuve irréfutable de la capacité de leadership de la génération actuelle.

Votre gouvernement investira dans cette réussite, chaque jour.

**Un Ontario plus prospère**

Les Ontariennes et Ontariens sont capables de penser à l’avenir tout en se concentrant sur le travail à accomplir dans l’immédiat.

Ainsi, votre gouvernement a un plan pour l’économie actuelle, un plan au profit de l’emploi.

Les bons emplois bien rémunérés contribuent à financer nos écoles et nos hôpitaux et à nourrir nos familles.

Mais ils font beaucoup plus que cela.

Ils permettent aux parents, à la fin d’une bonne journée de travail, de retrouver leurs enfants le cœur rempli de fierté; ils permettent aux gens d’envisager l’avenir avec confiance.

Ainsi, votre gouvernement collabore avec les entreprises et les syndicats pour attirer, conserver et créer de bons emplois bien rémunérés pour les familles et les collectivités de la province.

À l’instar des Ontariennes et des Ontariens, votre gouvernement est conscient des défis associés à la vigueur du dollar, à la cherté des marchandises et à la concurrence toujours intense, et parfois très injuste, à laquelle sont confrontés nos fabricants, forestiers et agriculteurs.

Dans le même temps, il sait que l’Ontario possède les atouts indispensables pour réussir dans un monde qui valorise le travail, la productivité et l’innovation.

Dans différents secteurs, dont les services financiers, la biotechnologie, les médias numériques et les autres technologies de pointe, la province affiche une croissance bien supérieure à celle que connaissent ses concurrents les plus proches.

Comme l’expliquera le ministre des Finances dans l’exposé économique d’automne, l’important c’est que la situation financière de l’Ontario soit solide, soutenue par une économie en plein essor, aussi vigoureuse et résistante que les Ontariennes et Ontariens eux-mêmes.

De fait, il s’est créé dans la province 420 000 emplois bien rémunérés en quatre ans et le taux de chômage a atteint son niveau le plus bas en Ontario en cinq ans.

Votre gouvernement suivra le plan économique en cinq points que les Ontariennes et Ontariens ont approuvé cet automne.
Ce plan comprend :

1. un investissement important dans l’éducation et les compétences de nos citoyens;
2. des mesures pour préserver la compétitivité fiscale de l’Ontario, notamment l’élimination graduelle de l’impôt sur le capital;
3. des mesures propices à l’innovation et à la création d’emplois bien rémunérés, par exemple, le nouveau Fonds ontarien de capital-risque doté de 165 millions de dollars;
5. la création de partenariats clés, dont ceux qui ont été établis dans le cadre de la Stratégie d’investissement dans l’industrie automobile, qui permet de générer des investissements de plus de 7 milliards de dollars dans le secteur automobile, et le nouveau Fonds pour les emplois dans les secteurs émergents, qui permettra de créer de bons emplois bien rémunérés grâce à la mise au point de nouvelles technologies propres et vertes.

Votre gouvernement mettra en œuvre un programme de gestion des risques en agriculture pour aider les producteurs de céréales et d’oléagineux de la province à livrer concurrence aux producteurs subventionnés d’autres pays, accroîtra de 50 pour 100 les crédits affectés au fonds de développement économique des régions rurales, encouragera davantage de particuliers et d’entreprises à acheter des produits alimentaires cultivés en Ontario et continuera d’appuyer la gestion de l’offre.

Il viendra en aide au secteur touristique en effectuant une vaste étude sur la compétitivité, en augmentant le financement des festivals et événements qui ont lieu dans la province, et en élargissant la portée des initiatives visant à faire connaître les destinations ontariennes.

Votre gouvernement collaborera avec le secteur manufacturier afin de soutenir la création et le développement de technologies de pointe ainsi qu’avec l’industrie forestière dans le cadre d’initiatives comme le Fonds de prospérité pour le secteur forestier.

Par ailleurs, par l’entremise d’Emploi Ontario, votre gouvernement s’assurera que les travailleurs déplacés reçoivent davantage d’aide et que cette aide leur est accordée plus rapidement. Pour ce faire, il élargira la portée des initiatives de soutien et de formation.

Votre gouvernement convient que nous devons unir nos efforts car, bien que le nombre d’emplois créés soit nettement supérieur au nombre d’emplois perdus, toute perte d’emplois est inacceptable.

C’est pourquoi il continuera d’exhorter le gouvernement fédéral à adopter des politiques financières équitables pour l’Ontario et à devenir un véritable partenaire, surtout en ce qui concerne le traitement équitable des prestataires de l’assurance-emploi et le soutien accordé aux secteurs qui connaissent des difficultés.

L’Ontario demande notamment au gouvernement fédéral de faciliter les déplacements des particuliers et des marchandises en donnant aux municipalités l’équivalent de un point de pourcentage de la taxe sur les produits et services pour qu’elles puissent investir dans l’infrastructure et les transports en commun.

Conscient que les collectivités sont le moteur de la croissance économique et des foyers d’innovation, votre gouvernement fera sa part, en prenant comme point de départ les progrès qu’il a réalisés dans ses relations avec les municipalités.

Des occasions de réussir pour tous

Pour que notre économie et notre société prospèrent réellement, il faut que chacun d’entre nous mette à contribution toutes ses capacités.

Pour que tous aient des occasions de réussir.

Et non pour que certains deviennent plus prospères tandis que d’autres s’appauvrissent.

De nombreuses études, y compris celle réalisée par Centraide du grand Toronto qui a été rendue publique cette semaine, indiquent qu’il nous incombe à tous d’agir afin de sortir davantage de familles de la pauvreté. Votre gouvernement continuera d’assumer sa responsabilité d’offrir de meilleures possibilités à ces familles.

Un nouveau comité ministériel commencera à élaborer des indicateurs de pauvreté, des objectifs et une stratégie ciblée qui nous permettront de réaliser de réels progrès en vue de réduire la pauvreté chez les enfants.

Cette stratégie comprend un plan qui accorderait une assurance-soins dentaires aux familles à faible revenu. Elle renforce les mesures en place, qui permettront notamment de porter le salaire minimum à 10,25 $ d’ici 2010, d’accroître le nombre de places dans les garderies et de fournir un plus grand nombre de logements abordables. En outre, votre gouvernement achèvera la mise en œuvre de la nouvelle Prestation ontarienne pour enfants en la portant à 1 100 $ par enfant.

Pour que toute la population ait des occasions de réussir, il faut que ces occasions soient accessibles à tous.

Au cours de son premier mandat, votre gouvernement a collaboré avec les personnes handicapées, admirables par leur force et leur détermination, afin de déposer la Loi de 2005 sur l’accessibilité pour les personnes handicapées de l’Ontario.

Au cours de son deuxième mandat, il collaborera avec tous les Ontariens et Ontariennes afin d’apporter graduellement les changements positifs rendus possibles par la Loi et d’accroître l’accessibilité partout dans la province.

Un Ontario en meilleure santé

Tout comme nous pouvons jauger les progrès réalisés par une économie d’après le traitement qu’elle réserve aux personnes moins favorisées, nous pouvons déterminer la profondeur d’une société à la façon dont elle traite les personnes malades.

Nous pouvons être fiers du régime d’assurance-santé de la province, qui permet de fournir des soins à toutes les Ontariennes et à tous les Ontariens en fonction de leurs besoins, et non de leurs ressources financières ou de leur situation sociale, un régime dont on peut se prévaloir simplement parce qu’on est citoyen de la province.

Toutefois, cette fierté doit favoriser le progrès et non l’entraver. Cela est particulièrement important compte tenu du vieillissement de la population et du fait que la capacité de la médecine de prévenir, de diagnostiquer et de traiter les maladies ne cesse de progresser.

Lorsqu’on pose un diagnostic de diabète chez un enfant, lorsqu’un père souffre d’une crise cardiaque, lorsqu’une mère est confrontée au cancer du sein ou lorsqu’une famille se précipite au service des urgences, il nous incombe à tous de faire preuve de compassion, d’être attentionnés et d’agir.
Votre gouvernement et, en fait, toute la population de l’Ontario sont passés à l’action en formant davantage de médecins, en engageant davantage d’infirmières et d’infirmiers et en réduisant les temps d’attente pour des interventions clés. Mais il y a encore beaucoup de pain sur la planche.

Pour s’assurer qu’un plus grand nombre d’Ontariennes et d’Ontariens obtiennent les soins dont ils ont besoin au moment nécessaire, votre gouvernement continuera sur sa lancée et réduira les temps d’attente d’un plus grand nombre de services comme les visites aux salles d’urgence, les chirurgies pour enfants et les chirurgies générales.

Pour aider davantage d’Ontariennes et d’Ontariens à recevoir ces soins plus près de chez eux, votre gouvernement s’efforcera d’accroître de 500 000 le nombre de personnes ayant accès à des soins familiaux plus efficaces et mieux coordonnés, dispensés par des médecins, des infirmières et des infirmiers et d’autres professionnels de la santé.

Votre gouvernement embauchera 9 000 infirmières et infirmiers de plus, poursuivra son objectif de porter à 70 pour 100 la proportion d’infirmières et d’infirmiers à temps plein, garantira un emploi aux diplômés en soins infirmiers, investira dans des milieux de travail sains pour le personnel infirmier et mettra sur pied 25 autres cliniques dirigées par des infirmières et des infirmiers.

Votre gouvernement estime que nous devons aider davantage les personnes âgées qui souhaitent rester chez elles. C’est pourquoi il élargira l’éventail de soins et de services qui leur sont offerts à domicile et accordera une subvention aux personnes qui prennent soin de membres plus âgés de leur famille.

Pour les personnes qui ont davantage besoin d’aide, il prendra diverses mesures pour accroître le niveau de soins dispensés dans les foyers de soins de longue durée. Ainsi, il aménagera 35 000 lits de soins de longue durée sur 10 ans et embauchera 2 000 infirmières et infirmiers de plus pour ces foyers.

Par ailleurs, étant donné qu’un plus grand nombre d’Ontariennes et d’Ontariens souffrent du diabète, votre gouvernement mettra en œuvre une nouvelle stratégie exhaustive de lutte contre le diabète.

Votre gouvernement prendra d’autres mesures de prévention des maladies en déposant un projet de loi qui interdirait les gras trans dans toutes les cafétérias d’écoles, prescrirait un menu plus sain conforme au Guide alimentaire canadien et établirait le Défi ontarien de mise en forme afin de lutter contre l’obésité infantile.

Un Ontario plus vert

Votre gouvernement convient que nul ne peut prétendre que l’air, l’eau et les autres ressources précieuses lui appartiennent.

Nous ne faisons qu’en prendre soin pour nos enfants et pour leurs enfants.

Ici, sur la seule planète connue où la vie est possible, nous nous devons de protéger ce qui assure notre survie.

Nous savons que les défis qu’il faut relever sont de taille, voire planétaires, mais cela n’empêche pas les Ontariennes et Ontariens de vouloir faire leur part.

Votre gouvernement mettra en œuvre le plan de l’Ontario contre le changement climatique. Il s’appliquera à atteindre l’objectif de la province, à savoir diminuer les émissions qui contribuent au changement climatique afin de les réduire de 6 pour 100 par rapport aux niveaux de 1990 d’ici 2014, de 15 pour 100 d’ici 2020 et de 80 pour 100 d’ici 2050.

Pour ce faire, il prendra diverses mesures consistant notamment à rendre nos sources d’énergie plus propres et plus vertes et à mettre en œuvre le tout premier plan à long terme d’approvisionnement en électricité élaboré par la province depuis longtemps.

Votre gouvernement remplacera les centrales au charbon, doublera la production d’énergie renouvelable et la quantité d’énergie économisée et modernisera les centrales nucléaires de la province.

La population de l’Ontario sait qu’il n’est pas nécessaire de choisir entre l’environnement et l’économie et que, en fait, nous pouvons stimuler notre économie en la rendant plus verte.
De bons emplois bien rémunérés seront créés là où sont mises au point les technologies vertes les plus novatrices, comme celles permettant de produire la prochaine génération d’automobiles non polluantes. L’Ontario s’emploiera à saisir ces occasions grâce à son Fonds pour les emplois dans les secteurs émergents.

Votre gouvernement a déjà commencé à mettre en œuvre l’initiative Transports-Action 2020, le plus vaste projet d’expansion des transports en commun jamais réalisé au Canada.

Par ailleurs, votre gouvernement déposera un projet de loi rigoureux sur la réduction des substances toxiques et de la pollution. Ce projet de loi permettrait de mieux renseigner la population de l’Ontario sur les produits chimiques toxiques qui se trouvent dans l’air, dans l’eau, dans la terre et dans les produits de consommation, et de mieux la protéger contre ceux-ci. En outre, de nouvelles mesures législatives interdisent l’utilisation des pesticides à des fins esthétiques dans les villes de l’Ontario.

Votre gouvernement protégera les eaux et les zones naturelles qui font de l’Ontario un si bel endroit où vivre.

Il prendra des mesures musclées afin de protéger la qualité de l’eau du lac Simcoe pour les générations futures.

Et il collaborera avec les localités et les communautés autochtones du Grand Nord de l’Ontario afin de mettre en œuvre un plan de protection de la forêt boréale, qui joue un rôle clé dans la lutte contre le changement climatique.

**Un Ontario fort pour un Canada fort**

Les Ontariennes et Ontariens se soucient de la planète.

Et nous aimons notre pays.

Les Ontariennes et Ontariens sont des Canadiens énergiques.

Nous sommes des patriotes.

Avec nos compatriotes canadiens, nous avons bâti un pays dont nous sommes fiers de dire qu’il est le nôtre et, parallèlement, une province dont nous sommes fiers de dire que nous y sommes chez nous.

Et nous continuons de collaborer d’innombrables façons avec nos compatriotes canadiens de partout au pays afin d’améliorer la qualité de vie de tous les Canadiens et Canadiennes, y compris ceux et celles qui vivent en Ontario.

Toutefois, cette collaboration doit reposer sur le traitement équitable de tous les Canadiens et Canadiennes, y compris ceux et celles qui vivent en Ontario.

Votre gouvernement continuera de défendre les intérêts de votre province lorsqu’elle n’est pas traitée de façon équitable.

Par exemple, il a défendu les intérêts des nouveaux arrivants en Ontario qui ne recevaient pas leur juste part de services.

Il défend maintenant les intérêts des Ontariennes et des Ontariens, qui ont droit à leur juste part des prestations d’assurance-emploi, et ceux des travailleurs des secteurs manufacturier, forestier et agricole, qui ont besoin de soutien.

Et il continuera de tenir tête au gouvernement fédéral pour obtenir une représentation équitable à la Chambre des communes.

Les Ontariennes et Ontariens sont de fiers Canadiens. Ils sont tout aussi fiers que leurs compatriotes et ont droit à la même représentation au Parlement.

Nous devons unir nos efforts pour assurer la sécurité de nos collectivités. Pour ce faire, nous devons sévir contre la criminalité et nous attaquer à ses causes.
Votre gouvernement continuera d’exercer des pressions sur le gouvernement fédéral afin qu’il respecte son engagement d’accroître de 1 000 le nombre de policiers en Ontario. Au cours de son premier mandat, votre gouvernement a lui-même augmenté de 1 000 le nombre de policiers en service dans la province.

Votre gouvernement défendra les intérêts de l’Ontario parce que nous aimons le Canada et parce que nous comprenons qu’un Ontario fort est gage d’un Canada plus fort.

**Des liens plus étroits**

Traditionnellement, le discours du Trône brosse un tableau général. Il énonce les grandes lignes de la prochaine session ou du prochain mandat.

Il ne peut donc énumérer toutes les initiatives que votre gouvernement prendra.

Il est d’usage d’esquisser à grands traits, particulièrement pour conclure le discours.

Or, votre gouvernement a décidé de clore le discours en s’adressant directement à un groupe en particulier.

Il ne s’agit pas du groupe le plus nombreux ni du plus puissant.

Toutefois, les membres de ce groupe sont, fondamentalement, les premières personnes qui se sont établies dans la province.

Notre gouvernement cherche à nouer des liens plus étroits et plus positifs avec les Premières nations de l’Ontario.

7th Generation Image Makers est un bon exemple d’une entreprise qui s’efforce d’améliorer la qualité de vie dans les communautés autochtones de la province et de créer des occasions pour tous leurs membres. Cette petite entreprise emploie de jeunes Autochtones et leur apprend à créer des murales commerciales.

L’entreprise et son coordonnateur, Adam Garnet Jones, qui se trouve dans la tribune aujourd’hui, illustrent fort bien ce que nous voulons tous voir en Ontario : beaucoup plus de possibilités pour les jeunes Autochtones de la province.

L’entreprise pour les jeunes que dirige Adam, qui fait partie des Native Child and Family Services de Toronto, organisme respecté, est un modèle d’excellence. En fait, c’est un exemple concret de ce que votre gouvernement espère accomplir pendant son mandat : miser sur l’éducation, la formation, la créativité, le respect des arts, de la culture et du patrimoine autochtones et la fierté qu’ils inspirent, se préparer pour l’avenir et offrir davantage de possibilités d’emploi aux peuples autochtones.

Certes, votre gouvernement n’est pas le premier à vouloir nouer des liens plus étroits avec nos Premières nations.

Mais il est peut-être le premier à avoir en sa possession un point de départ aussi prometteur; je veux parler du Rapport de la Commission d’enquête sur Ipperwash.

Dans un premier temps, votre gouvernement a mis sur pied cette commission. Dans un deuxième temps, il a créé un ministère autonome des Affaires autochtones.

Par l’entremise du nouveau ministre, l’Ontario travaillera avec vous afin de mettre en œuvre les recommandations formulées dans le rapport.

De toutes les personnes qui vivent en Ontario, c’est peut-être vous qui comprenez le mieux l’histoire.

Vous savez donc que l’Ontario ne peut agir du jour au lendemain et qu’il ne peut agir seul.

L’Ontario n’aura de cesse d’encourager le gouvernement fédéral à accélérer le règlement des revendications territoriales et continuera de collaborer avec lui dans ce but.

Et l’Ontario travaillera avec vous, dans un climat de respect et un esprit de collaboration, afin d’améliorer la qualité de vie de tous les Autochtones de la province et de leur offrir davantage de possibilités économiques, tant dans les réserves qu’ailleurs en Ontario.
Les progrès à cet égard sont essentiels pour réaliser l’objectif que tous les Ontariens et Ontariennes ont en commun : fournir des occasions de réussir à tous, améliorer la qualité de vie de toute la population et aller de l’avant, à la manière de l’Ontario.

En travaillant, en bâtissant et en rêvant ensemble.

Merci.

His Honour was then pleased to retire.

“However, the current Speech from the Throne fails to adequately address the state of our economy which is the single most important issue facing Ontario today; and

Whereas, since the beginning of 2005, Ontario has lost more than 153,000 manufacturing jobs; and

Whereas, the Throne Speech fails to recognize that economic growth predictions for the province have shrunk by a full percentage point from predictions used by the government less than a year ago; and

Whereas, the Throne Speech fails to indicate any sense of urgency for dealing with the economic challenges facing Ontario; and

Whereas, the Throne Speech fails to provide a plan for dealing with this new economic reality by maintaining a program of unreasonable taxation and undisciplined spending; and

Whereas, the Throne Speech fails to set out a plan to reduce taxes and reduce regulations that are killing business in Ontario and placing such hardships on Ontario’s families;

We, therefore, regret to inform His Honour that the current Liberal government is ignoring the very real economic problems facing Ontario and has failed to ensure our economic fundamentals are sound and, in so failing, is failing to live up to the responsibilities placed on it by the people of Ontario.”

and recommends them to the Legislative Assembly.

Ordered, That the message of the Lieutenant Governor together with the Estimates accompanying same be

The Speaker addressed the House as follows:-

Yesterday, the Member for Oshawa, Mr. Ouellette raised a point of order arising out of Question Period. The Member for Oshawa expressed an opinion that on at least two occasions during yesterday’s Question Period, answers were given that amounted to announcements which should more properly have been made during Ministerial Statements. The Member asked for some clarification on the rules and practice respecting this issue.

While the Speaker is not in a position to make judgements on answers in order to ascertain whether the contents constitute announcements of new public policy, I am nevertheless in agreement with the Member that such announcements should be made during Ministerial Statements and not during Question Period.

I would therefore remind the House that as much as possible, Ministers should refrain from using Question Period to make statements that would more appropriately be made during Ministerial Statements, particularly in response to questions asked by members sitting on the government benches.

On motion by Mr. Bryant, Sur la motion de M. Bryant,

Ordered, That notwithstanding Standing Order 96(d), the following change be made to the ballot list of private members' public business:-

That, notwithstanding Standing Order 96(g), the requirement for notice be waived with respect to ballot items 5 through 8.

The Speaker addressed the House as follows:-

Before we proceed to Question period, I would briefly like to say a word about the conduct of business in the House. During the December sitting period, I had the opportunity to scrutinize the proceedings perhaps more carefully than I have in the past and from a more central vantage point. I observed at least occasional confusion about some of our procedures and I thought it would help to clarify them from time to time.

Question Period provides an opportunity for all Members of the Legislature to ask questions on matters of government policy. It is a time honoured procedure used in parliament to allow the legislative branch to hold the executive to account. I would ask that Members keep this in mind when their colleagues are asking and answering questions and afford them the respect that they, that we all, deserve.

The use of moderate language and limited interjections is advised. If I can't hear the question or the answer, it is likely that you can't either, that means it is too noisy in this place and I will find it necessary to interrupt and restore order.

While I know that it is not a practice that comes naturally to most of us, speaking in the third person can go a long way towards improving the atmosphere in here. If honourable members speak through the Chair rather than directly to each other it has the effect of reducing the likelihood of personal attacks during heated exchanges. Finger pointing and direct confrontational language never fail to diminish the dignity of this chamber.

In keeping with the practice established by Speakers before me, I will be mindful of the clock, specifically the time taken up with each individual question and answer. When 10 seconds remains in the allotted time, I will call for the question or answer to be completed as the case may be. This should not be seen as an opportunity to turn away from the Chair in an attempt to eke out extra time, but rather as a warning that it is time to wrap up.
With respect to introduction of bills, I believe there may be some misconception about what is permitted in the statement that can be made coincident with that proceeding. At the introduction and first reading stage, the sponsor of the bill is permitted to make a brief statement of purpose. This is the statement that indicates 'what' it is the bill does, it should not go into further explanation about why it is being introduced, the impact it will potentially have or how the party across the way should have introduced it themselves. The bill is being presented to the House for the first time, and as a courtesy, the sponsor is identifying its purpose. It is not intended to be debate. It is intended to be brief. It seems to me that the general purpose of most bills can easily be explained in 30 seconds or less. Anything more than that is likely better suited to a Members statement or the eventual debate on the bill itself.

These are but two of the areas in which I believe there is room for improved performance in this place. I hope that all honourable Members will continue to keep the principles of acceptable parliamentary conduct in mind as we carry out the business of the House over this spring sitting.

ORDERS OF THE DAY

After some time, the amendment to the motion was put as follows:–

That the address in reply to the speech of His Honour the Lieutenant Governor at the opening of the session be amended by adding after, “We, Her Majesty’s most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled, beg leave to thank Your Honour for the gracious speech Your Honour has been pleased to address to us at the opening of the present Session” the following:–

“However, the current Speech from the Throne fails to adequately address the state of our economy which is the single most important issue facing Ontario today; and

Whereas, since the beginning of 2005, Ontario has lost more than 153,000 manufacturing jobs; and

Whereas, the Throne Speech fails to recognize that economic growth predictions for the province have shrunk by a full percentage point from predictions used by the government less than a year ago; and
Whereas, the Throne Speech fails to indicate any sense of urgency for dealing with the economic challenges facing Ontario; and

Whereas, the Throne Speech fails to provide a plan for dealing with this new economic reality by maintaining a program of unreasonable taxation and undisciplined spending; and

Whereas, the Throne Speech fails to set out a plan to reduce taxes and reduce regulations that are killing business in Ontario and placing such hardships on Ontario’s families;

We, therefore, regret to inform His Honour that the current Liberal government is ignoring the very real economic problems facing Ontario and has failed to ensure our economic fundamentals are sound and, in so failing, is failing to live up to the responsibilities placed on it by the people of Ontario."

The Acting Speaker (Ms. Horwath) declared her opinion that the Nays had it, and a recorded vote having been demanded.

TUESDAY, MARCH 25, 2008 MARDI 25 MARS 2008

FIFTEENTH DAY QUINZIÈME JOUR

PRAYERS PRIÈRES

1:30 P.M. 13 H 30

The Speaker delivered the following ruling:-

On Thursday, March 20, the Member for Wellington-Halton Hills (Mr. Arnott) raised a point of privilege with respect to an article that appeared in a Toronto newspaper. The Member asserted that the article contained information which must have been deliberately leaked by someone with knowledge of today’s Budget.

As a result, the Member asked me to consider the tradition of Budget secrecy and to find a prima facie breach of privilege has occurred because “members of provincial Parliament should be first to hear all of the contents of the provincial budget……and most importantly, the government should not selectively leak contents of the budget to the press in advance of its presentation in the House without being challenged.”

The Minister of Public Infrastructure Renewal (Mr. Caplan) also spoke to this matter.

In his presentation, the Member for Wellington-Halton Hills referred to an important 1983 ruling by the Speaker of this House on the subject of Budget secrecy. In that ruling, the Speaker found that “Budget secrecy is a political convention, as is the practice that the Treasurer presents his budget in the House before discussing it in any other public forum. It has nothing to do with parliamentary privilege.” The Speaker went on the state that “(t)he disclosure of information relating to the Budget has to do with the conduct of a minister of the Crown in the performance of his ministerial duties.” The Speaker found that ministerial conduct is addressed through other avenues and remedies, but that parliamentary privilege is not one of these avenues.

A successful question of privilege must convince the Speaker that the peculiar rights that are accorded to members of parliament to permit them to discharge their parliamentary duties have in some way been violated. These rights are extremely narrow and specific – for instance, the right to speak freely in this place; or to attend here without obstruction. They relate to the Member’s functions in this Chamber.

Like previous Speakers, here and in other jurisdictions, I cannot find that the possible disclosure of Budget contents amounts to a breach of the privileges of the Member. It is undoubtedly at minimum a matter of courtesy and respect for this institution that all important announcements be made here first, but there is no procedural support for the proposition that failure to do so gives rise to a successful question of privilege.
PETITIONS

REPORTS BY COMMITTEES

Mr. Balkissoon from the Standing Committee on the Legislative Assembly presented the Committee’s Report. Pursuant to Standing Order 109(b), the Report is deemed to be adopted by the House (Sessional Paper No. 91).

INTRODUCTION OF BILLS

The following Bill was introduced and read the first time:–

Bill 48, An Act to regulate payday loans and to make consequential amendments to other Acts. Hon. Mr. McMeekin.
MOTIONS

With unanimous consent, the following motion was moved without notice:-

On motion by Mr. Caplan, Sur la motion de M. Caplan,

Ordered, That notwithstanding Standing Order 96(d), the following changes be made to the ballot list of private members’ public business:-

Mr. Bailey and Mr. Hillier exchange places in order of precedence such that Mr. Bailey assumes ballot item 63 and Mr. Hillier assumes ballot item 14.

Mr. Mauro, Mr. Zimmer, Mr. Orazietti, Mr. Moridi, Mrs. Mitchell and Ms. Aggelonitis exchange places in order of precedence such that:-

Mr. Mauro assumes ballot item 43, Mr. Zimmer assumes ballot item 36, Mr. Orazietti assumes ballot item 21, Mr. Moridi assumes ballot item 12, Mrs. Mitchell assumes ballot item 10, and Ms. Aggelonitis assumes ballot item 9,

and that, notwithstanding Standing Order 96(g), the requirement for notice be waived with respect to ballot items 9 through 14.

The Speaker delivered the following ruling:-

On Thursday, March 27, the Leader of the Official Opposition (Mr. Runciman) rose in the House with respect to announcements he said were being made by Government members in their ridings, concerning monies made available in the Budget through the municipal roads and bridges fund. The Leader of the Opposition complained that the information about this funding was being provided only to government members.

The Member acknowledged that he was not certain if this was a point of privilege, and indeed I can confirm that it is not. As I mentioned in a ruling delivered earlier last week, the privileges that members of this House enjoy are very narrow and they relate exclusively to members’ parliamentary duties in this Chamber. The fact of government announcements being made, or information not being shared with opposition members, does not give rise to a question of privilege.

Numerous Speakers have addressed similar complaints on numerous occasions. In October, 1997, the Speaker ruled on a similar point of privilege in which an opposition member had not received government information at the same time that government members, certain municipal officials and even the press had received it. I will quote Speaker Stockwell from his October 9, 1997 ruling because I think it was extremely well-said at that time and applies as strongly today as it did on that occasion.

“I appreciate that the member would have preferred that all members could have received the information at the same time. However, the Speaker cannot require the government to release such information -- or to release it at a certain time. There is nothing in our rules or our practices that would permit a Speaker to control the dissemination of that kind of information. It is clear from any number of previous Speakers’ rulings that these types of situations do not amount to a prima facie case of privilege.

Let me make this point, however. In a written submission to me on this matter, the Government House Leader acknowledged that a more coordinated distribution of the information in question would have been desirable. I agree, and to quote a previous Speaker, these kinds of administrative discourtesies do give rise to "a valid grievance of which the government should take serious note." I am certain that, in future, every care will be taken to prevent a recurrence of situations similar to the one on which I have just ruled.”
As I said, these types of grievances have been raised on all too many occasions. While the Speaker has no direct authority to solve this matter, as the servant of all members of this House, regardless of which side they sit on, I feel an obligation, like so many of my predecessors, to express disapproval of this kind of activity. Every Member of this Assembly is elected by his or her constituents to represent their interests and each Member, it seems to me, should have access to the same governmental resources in fulfilling those duties. I echo Speaker Stockwell and many other Speakers who have expressed antipathy at the unequal treatment of Members based on partisan lines.

To finish this ruling, I would like to remind members that the Standing Orders require at least one hour’s written notice to me of intention to raise a point of privilege. In raising this matter, the Leader of the Opposition expressed some uncertainty as to how his complaint should properly be raised, and so I allowed him to proceed and, furthermore, decided to take his point under advisement. However, I simply want to indicate to members that I would not expect to do so in the future.

PRAYERS

1:30 P.M.

REPORTS BY COMMITTEES

The Speaker addressed the House as follows:-

I beg to inform the House that today the Clerk received the Report on Intended Appointments dated April 2, 2008 of the Standing Committee on Government Agencies. Pursuant to Standing Order 106(c)(9), the Report is deemed to be adopted by the House (Sessional Paper No. 93).
INTRODUCTION OF BILLS
The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:-

Bill Pr7, An Act to revive 827291 Ontario Ltd. Mr. Naqvi.

DEFERRED VOTES
The deferred vote on the motion that this House approves in general the Budgetary Policy of the Government, having been put, was carried on the following division:-

AYES / POUR - 61

NAYS / CONTRE - 30

Arnott  Bailey  Barrett  Bisson  DiNovo  Dunlop  Elliott  Gélinas  Hampton  Hardeman  Horwath  Jones  Kormos  MacLeod  Marchese  Martiniuk  Miller (Hamilton East–Stoney Creek)  Miller (Parry Sound–Muskoka)  Munro  O'Toole  Prue  Runciman  Savoline  Scott  Shurman  Sterling  Tabuns  Wilson  Witmer  Yakabuski

And it was,

Resolved, That this House approves in general the Budgetary Policy of the Government.

The Speaker delivered the following ruling:-

Earlier today, the Leader of the Official Opposition filed written notice with me of his wish to raise a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to review this matter.

The Member’s point of privilege is related to his contention that the Government is preparing to introduce a tax that was not mentioned in the recent Budget, specifically, a tax on tires.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.
I have carefully reviewed the Member’s written submission and cannot find that he has made out a *prima facie* case of privilege.

The Member’s written submission refers to the privilege that Members enjoy of attending in this Chamber and participating in various ways to hold the government accountable for its decisions and actions.

I cannot see that the ability of any Member to perform such parliamentary functions is detracted from in the present case. What we have largely amounts to a disagreement, on the part of the Member, with a potential policy direction the Government may choose to follow, or perhaps with the process surrounding the development of this potential policy.

To take the Member's perspective, he does in fact have considerable ability to hold the government to account on this matter, perhaps most directly and explicitly through the daily Oral Question Period. This is precisely what he did with the first 2 questions in yesterday’s Question Period. I think that is a clear indication that nothing about which he has raised a grievance has affected his very ability to raise the grievance in the first place. He has not been obstructed or hindered in that responsibility as Leader of the Official Opposition.

To reiterate, I do not find the Member has a valid point of privilege, but I do thank him for raising this matter and permitting me to address the important topic of parliamentary privilege once again.

The Speaker addressed the House as follows:-

Before we start Oral Questions, I would ask the indulgence of the Members to allow me to take a bit of time to clarify the rules around the issue of supplementary questions.

Let me first direct the attention of the House to what the rules say about supplementary questions. Standing Order 36(c) provides for supplementary questions "arising out of the minister's reply". Additionally, in Marleau and Montpetit's *House of Commons Procedure and Practice* supplementary questions are described as "a follow-up device flowing from the response…"

Successive Speakers since 1975 have affirmed in this House that supplementary questions must arise out of the Minister's answer to the original question and have ruled out of order supplementaries which do not do so.

While some degree of latitude has been exercised of late with respect to the relationship between a supplementary question and the original question and answer, it has been my observation that there is a growing tendency for there to be little or no relationship at all. Many questions have been asked this session, from both sides of the House that, although they may be thinly related to the same subject matter, do not arise out of the Minister's reply nor frankly do they even relate to the same ministry. These are really separate questions that should be asked when the Member next has the floor.

Members should take this as notice then that I will be exercising enhanced vigilance with respect to the orderliness of supplementary questions in the future.

On motion by Mr. Bryant,

Ordered, That notwithstanding Standing Order 96(d), the following change be made to the ballot list of private members’ public business:-

Mrs. Mangat and Mrs. Jeffrey exchange places in order of precedence such that Mrs. Mangat assumes ballot item 52 and Mrs. Jeffrey assumes ballot item 22.

Mr. Wilson and Mr. Chudleigh exchange places in order of precedence such that Mr. Wilson assumes ballot item 55 and Mr. Chudleigh assumes ballot item 11.

The Speaker addressed the House as follows:-

On Thursday, April 3, 2008, the Member for Nepean-Carleton raised a point of privilege. While the Member did file notice with me as is required by Standing Order 21(c), it did not go into sufficient detail about the nature of the point of privilege. Notwithstanding that, I did allow the Member to state her point and I mention it now only by way of a reminder that the written notice should provide more fulsome detail in the future.

The Member’s point is related to events that occurred during a meeting of the Standing Committee on Government Agencies last Wednesday.
The Member will know that while Committees are an arm of the House, they are masters of their own proceedings and equipped to deal with any controversy that may arise within the framework of the Standing Orders or any special order of the House. It is well established that Speakers will not rule on or become involved with proceedings of a Committee of the House. Such matters can only come before the House by way of a report from the Committee itself and not directly to the Speaker by an individual Member.

Marleau and Montpetit's *House of Commons Procedure and Practice* summarizes this at page 128 as follows:

Speakers have consistently ruled that, except in the most extreme situations, they will only hear questions of privilege arising from committee proceedings upon presentation of a report from the committee which directly deals with the matter and not as a question of privilege raised by an individual member.

Examples of numerous decisions of my predecessors on identical grounds can be found in the Journals for March 21, 1990 at pages 285-6; October 24 at page 316; and in the Hansard for June 9, 1993 at pages 396-7 and May 4, 1987 at page 485.

If the Member has a complaint with respect to the proceedings in Committee, it should be resolved there.

In closing, while every Committee, or the Chair on behalf of a Committee, is perfectly entitled to direct its staff, I would also like to take this opportunity to remind all Members of the Assembly that Members are entitled to ask research staff to provide assistance to them on an individual basis.

I thank the Member for Nepean-Carleton for bringing this matter to my attention.

MONDAY, APRIL 21, 2008
THIRTY-FIFTH DAY

INTRODUCTION OF BILLS

The following Bill was introduced and read the first time:-

Bill 63, An Act to amend the Building Code Act, 1992 with respect to storm water harvesting. Mr. Levac.

The Speaker addressed the House as follows:-

Last week, I indicated to the House that I would consult with the Table on the issue of Introduction of Bills and specifically, the allowance of a brief explanation of purpose. I would like now to take the opportunity to clarify the meaning and principle behind that proceeding.

The introduction and first reading of a public bill is intended to allow the bill to be received so that it may be printed and distributed to Members of the House for their consideration. Most, if not all, Members will not yet be familiar with its contents. Often, the title of a bill is insufficient in terms of shedding any light on what it is that the bill is intended to do. For example, legislation requiring a certain speed limit on four hundred series highways might simply be titled: "An Act to amend the Highway Traffic Act".

The intent of the brief explanation is to provide a more specific indication of the purpose of the bill. It is not however, the beginning of the debate on the bill. It should not contain any argument or justification; rather, it should outline in the most succinct terms what it is that the bill will do. Any extemporaneous information, such as why the member is introducing the bill, who supports the bill or how it will benefit the citizenry, constitutes debate and is more properly part of the second reading stage of consideration.

Members are greatly aided in determining what the brief explanation of purpose is, in that each bill contains on the inside cover an "explanatory note". It is the essential contents of that note that may be shared with the House during "Introduction of Bills".

It is my view that, except in the case of an extraordinarily complex piece of legislation, the purpose of the bill can most often be explained in 30 seconds or less.
Members now have the benefit of this clarification and I am certain that in future they will be mindful of
the rules respecting the brief explanation of purpose that attaches to the proceeding "Introduction of
Bills".

PETITIONS

Petition relating to the Lord's prayer (Sessional Paper No. P-48) Mr. Ouellette.

Petition relating to the practice of competitive bidding for home care services (Sessional Paper No. P-50)

The Speaker addressed the House as follows:-

Yesterday, following the oral Question Period, I committed to review the Hansard of proceedings, both in response to a point of order from the Member for Lanark—Frontenac—Lennox and Addington, and due to my own concerns about the general tenor of parts of yesterday’s Question Period.

I have now done so and want to address the House on the issue of the tone and language that characterized a portion of yesterday’s proceedings, and I will do so within the broad context of Standing Order 23, a rule that was brought up a number of times and seemed to enjoy a degree of currency it does not usually have.

Like I am doing now, Speakers before me have on numerous occasions addressed the House concerning parliamentary language, civility in debate and mutual respect among members. Most of the time we do a pretty good job on those accounts, but there are occasions when the issues of the day seem to provoke the House into a state that sometimes results in language being used that, in retrospect, most members would not have used or would regret having used. Yesterday, unfortunately, was one of those days.

Standing Order 23 serves in a very general sense as a guideline for what is broadly acceptable speech and behaviour in this House. One might summarize its underlying philosophy in the following terms: temperance is the hallmark of good debate. Despite the heat of the moment and occasionally flared tempers, we all have a responsibility to be mindful of this. As Speaker I will be more vigilant and proactive than ever on this count.

The other day I asked the House also to be mindful of the people who come to the Assembly to watch our proceedings in person or who watch the TV broadcast of the Legislative Assembly. Those people also deserve our respect and are entitled to expect that the public business of the province will be conducted in a civil environment where different points of view are tolerated and considered.

Standing Order 23 tells us how to accomplish this and I am pleased that so many members had reference to it yesterday. The use of intemperate language, the making of allegations, suggesting untoward motives and generally participating in a way that causes disorder in the House are all demeaning to this institution and all of us who serve here at the will of our constituents.

As I and my predecessors have done so many times before, I again implore all members to appreciate the great privilege we have of being members of this House and to work toward making this place the best it can be even at the most contentious of times.

10:45 A.M.

The Speaker addressed the House as follows:-

Given the number of interjections yesterday, I sense that some clarification around the *sub judice* rule might be helpful.

*Sub judice* in brief, is a voluntary restriction on the part of a legislative body to refrain from discussing matters that are before a judicial or quasi-judicial body. In other words, it is a self-imposed restriction that the Legislative Assembly places upon itself so as to avoid prejudice to a judicial case. At its core is the principle that the separation between legislative and judicial bodies is to be respected.

The *sub judice* convention is intended to apply to statements, debate and Question Period.

As, quite apparently, Members are well aware, in Ontario we have codified the *sub judice* convention in Standing Order 23(g).

However, until 1970, Ontario did not have a *sub judice* rule; instead practices and customs at Ottawa and Westminster served as the basis for a Speaker's decision.

In 1966, Speaker Morrow delivered two rulings which a) set out more precisely the interpretation to be given to the *sub judice* rule, and b) gave some leeway for debate on civil matters not yet set down for trial thus loosening a stricter prohibition on debate by way of a 1964 ruling by the same Speaker.

Then, in 1977, Speaker Rowe cited and endorsed several principles enunciated by a committee of the Canadian House of Commons which implied an even less restrictive interpretation of the rule.

These rulings formed the basis for a new *sub judice* rule which was adopted in 1978 and remains today.

Notwithstanding that Ontario has a Standing Order on *sub judice*, historically the voluntary nature of the convention makes it difficult to outline the jurisdiction of the Speaker.
With respect to Question Period particularly, Speakers here and in most other jurisdictions have adopted the practice of minimal responsibility with respect to the sub judice convention, principally leaving it up to the Member who asks the question and the Minister to whom it is addressed. (This is largely borne out in the Ontario precedents, with Speakers rarely interfering; the last time on record that a Speaker ruled a question out of order based on sub judice was Speaker Turner in 1982.)

The reason for this approach is that it is impossible for the Speaker to know which cases are at which stage in every instance and that the Minister involved is in a better position to judge whether engaging in the discussion has a danger of causing prejudice.

The Minister has the option of refusing to answer the question on grounds of sub judice as has been done most often in these situations.

Additionally, the problem facing a Speaker is that for him/her the determination when a comment will have the tendency to be prejudicial is speculative – that is, it cannot be done until after the remarks have been made.

Thus the Speaker will exercise his discretion with respect to the convention only in exceptional circumstances, when it is absolutely clear that doing otherwise would unfairly influence a judicial proceeding.

In 1976, there was a House of Commons special committee set up to review the "rights and immunities of Members…"; the committee considered the sub judice convention and recommended that "when there is doubt in the mind of the Chair, a presumption should exist in favour of allowing debate and against the application of the convention."

It is this longstanding practice that I have and will continue to apply in this House, interfering when and only when I am entirely satisfied, as Standing Order 23(g) says, "that further reference would create a real and substantial danger of prejudice to the proceeding".

Having said that, I would caution all Members to be mindful of the rule, its history and its purpose and to take excessive care that they avoid making comment on judicial cases that might have the effect of being prejudicial to a proceeding before a court of record.

ORDERS OF THE DAY

Opposition Day
Mr. Hampton moved, M. Hampton propose,
That, in the opinion of this House, the McGuinty government must:
Immediately direct the Workplace Safety & Insurance Board (WSIB) to eliminate the flawed "Experience Rating" program;
Immediately direct the Provincial Auditor to conduct an audit of the flawed "Experience Rating" program; Recognize the fact that tens of millions of dollars have been drained out of the WSIB's accident fund each year by employers who have learned how to play the game of "Experience Rating";
Recognize the fact that Experience Rating reduces employer claims – not worker injuries;
Recognize the fact that the practice of experience rating actually encourages employers to mis-report or under-report injuries and occupational diseases, force injured workers back to work before they are medically ready, and pay workers sick pay rather than have them receive compensation benefits;
Recognize that this hides the true extent of workplace injuries and illnesses in Ontario;
Recognize that employers actually receive rebates after they have been penalized for workplace injuries and occupational diseases and deaths; and
Recognize that the rebates flowing to employers under the program often exceed the cost of the original fine.

FIFTY-FOURTH DAY

ORDERS OF THE DAY

After some time, pursuant to Standing Order 9(c), the motion for the adjournment of the debate was deemed to have been made and carried.

10:45 A.M.

The Speaker addressed the House as follows:-

On Thursday, May 8, the Leader of the Opposition raised a point of order during Question Period concerning comments that he said were being made over a period of time by members of the government benches which, he contended, were not accurate reflections of the policies of the Official Opposition.
The Leader of the Opposition indicated he would be writing to me to address this matter in more detail. I have now received his letter. In it, Mr. Runciman reiterates his concern that members of the government, when addressing the House, sometimes make reference to policies of his party in a manner which he feels distorts them or, conversely, ascribes policies to the Opposition which it does not have.

I hope the member will appreciate — and I think the undertone of his letter anticipates — that the Speaker is not really in a position to address what amounts to a difference of opinion between him and certain members of the government.

The Speaker has a role to maintain order and decorum in debate, but cannot interject himself into the interplay of ideas that debate represents, or attempt to referee the nuances or precision of everything that is said in this Chamber. It is a given that all members are both assumed and expected to conduct themselves honourably and I think it is sufficient for the Speaker to leave the matter at that.

Whereas, Ontario's rural schools are the hub and heart of their communities; and

Whereas, in September 2007, the McGuinty Liberals promised they would keep rural schools open because, in the words of Premier McGuinty, "For rural kids, few things are more important than being able to go to school in your own community, with your own friends. Rural schools help keep communities strong, which is why we're not only committed to keeping them open – but strengthening them"; and

Whereas, in less than nine months after the Premier made this promise, over 50 rural schools are slated for closure;
The Legislative Assembly of Ontario calls upon Premier McGuinty to suspend any and all board-recommended rural school closures until both the funding formula review and a thorough assessment of alternate uses for rural schools have been completed.

ORDERS OF THE DAY

Debate was resumed on the motion for Second Reading of Bill 97, An Act to increase access to qualified health professionals for all Ontarians by amending the Regulated Health Professions Act, 1991.

After some time, pursuant to Standing Order 9(c), the motion for the adjournment of the debate was deemed to have been made and carried.

The Speaker addressed the House as follows:

Yesterday, in accordance with the Standing Order that gives me the discretion to do so, I recognized the Member for Bruce-Grey-Owen Sound (Mr. Murdoch), an independent member, to place a question during Oral Questions.

I want to clarify how I was guided in recognizing the member for an oral question, the placement of the question and the subsequent rotation of question period.

Standing Order 37(i) states, “The Speaker has the discretion to permit an independent member to place an oral question and one supplementary question during Oral Question Period. In exercising his or her discretion, the Speaker shall have regard to the opportunities that members of recognized Parties, other than the Leaders of Opposition Parties or members who place questions instead of the Leaders, have to place such questions. An independent member shall notify the Speaker of his or her intention to place a question.”

I did receive notice from the Member for Bruce-Grey-Owen Sound of his desire to place a question and decided to allow his question yesterday. I will now be mindful of the relative opportunities that other members have to place questions in question period, before allowing the Member for Bruce-Grey-Owen Sound to place another question, should he advise me of his desire to do so. I believe the cited Standing Order charges the Speaker with finding the right balance so that no private member, whether affiliated with a recognized party or not, is disadvantaged in his or her ability to represent constituents or hold the government to account in question period.

With respect to my recognition of a government member to place the next question following the Member for Bruce-Grey-Owen Sound yesterday, I was guided by the very few previous examples we have of an independent member placing a question during Oral Questions, since the adoption in 1997 of the Standing Order I quoted above. On those occasions, the Speaker recognized an independent member for a question late in the question period, inserting the question in the then-existing rotation, following which he resumed the question period rotation that would otherwise have occurred. Using these precedents, I permitted a question by the independent member yesterday very close to the end of question period, following a question by the Third Party. I then moved from the independent member back to the regular rotation, that being a question from a government member.

Thus, questions by independent members are in addition to the existing rotation, to be inserted at a time and frequency considered appropriate at the discretion of the Speaker. This method of proceeding will be consistent with previous occasions when the House has had a single independent member, and is different than when in the recent past the members of the Third Party were all independent members. During that period, the House resolved the issue of their participation in question period initially through unanimous consent and subsequently through the adoption of a recommendation to the Speaker that guided the Speaker on an ongoing basis.

I want to thank the Leader of the Official Opposition, whose prompting at the end of yesterday’s question period gave rise to this opportunity to address the House on this matter.

The Speaker addressed the House as follows-

Yesterday, the Member for Wellington-Halton Hills raised a point of order with respect to a question asked by the Member for Kitchener-Conestoga and whether it amounted to a personal attack on another Member of the House.

It is true, that Speakers have on numerous occasions implored Members not to engage in personal attacks on each other. I myself have made that same plea. By this, the Speaker is referring to remarks that question another Member's honesty, integrity or character or those that are personally offensive or accusatory. I do not see how the comments made yesterday fit that classification.
Having said that, I will again remind all Members that though we are in an adversarial business, temperate language and mutual respect will go a long way toward making this the kind of debating chamber the people of the Province expect it to be.

■ fairness for Ontario’s public health care system which is receiving $773 million less in per capita funding this year than the rest of Canada;

■ fairness for our economy in southern Ontario, the only region in Canada with no federal economic development programs;

■ fairness in Ontario’s infrastructure funding that is being short-changed by $970 million in per capita funding compared to the rest of Canada;

■ fairness in equalization payments with a commitment that if Ontario qualifies for payments under the Equalization program, that we will receive our full share of funding as the program exists today, and;

SEVENTY-NINTH DAY

PRAYERS
9:00 A.M.
ORDERS OF THE DAY

Government Notice of Motion Number 86 having been called, a point of order was raised regarding the orderliness of the motion.

The Speaker recessed the House from 9:07 a.m. to 9:30 a.m. and delivered the following ruling:-

The relevant part of the motion at issue reads as follows:-

“Any government substantive motion to extend or permanently adopt the provisional Standing Orders, and any amendments thereto, shall be called for debate no later than the third Thursday following resumption of the House in Fall, 2008. The debate on such motion shall be limited to 1 hour, to be apportioned equally among the recognized parties, at the end of which time the Speaker shall put every question necessary to dispose of the motion.”

I agree with the Member for Welland that there are 2 ways to interpret the motion, depending on how one takes the meaning of the phrase “and any amendments thereto”.
On one interpretation, the one-hour debate is allotted to a motion to either adopt or extend the provisional Standing Orders. Such a motion would be a substantive government motion, but it would also be fully subject to amendment. Therefore, an amendment from the floor during debate on a motion for extension or adoption which would propose to further amend the provisional Standing Orders along the lines proposed by the Government House Leader, would be in order.

A second interpretation is that one hour is allotted to debate on a motion to adopt or extend the provisional Standing Orders, and any further amendments to them. This is the interpretation underlying the form of the motion the Government House Leader has put before the House.

In my view it is fortunate for the House that, in effect, either interpretation essentially takes us to the same place. Because neither way of proceeding represents an advantage or disadvantage to any side of the House and in any event amounts to the same thing in this circumstance, albeit by slightly different procedural means, I find the motion to be in order, and to be consistent with the Order of the House of May 1, 2008 and with the process it set forth for dealing with our Standing Orders.

Moreover, a distinct benefit to the House of dealing with all of these amendments as a government notice of motion is that the entire proposal is on the Order Paper and has been given one day’s notice. The alternative would have been for all of the proposed further amendments to be moved spontaneously from the floor during debate. Though this would have been in order, it would not have afforded all members the opportunity to prepare for today’s debate.

Mr. McMeekin moved, M. McMeekin propose,

That the Standing Orders as amended on May 1, 2008 be further amended as follows and adopted as the permanent Standing Orders of the House; and

That the permanent Standing Orders come into force at 12:01 a.m. on the Friday of the week that they are adopted by the House, except Standing Order 6(a) which shall come into force at 12:01 a.m. on January 1, 2009. Standing Order 6(a) as it existed immediately prior to the coming into force of the permanent Standing Orders shall remain in effect until 12:01 a.m. on January 1, 2009.

That the definition of “Routine Motion” in Standing Order 2 be amended by striking out “9” in the second line and substituting “6”.

That Standing Order 6(a) be struck out and the following substituted:-

6.(a) During a Parliament, the House shall meet:

(i) from the third Tuesday in February to the first Thursday in June; and

(ii) from the Monday following Labour Day to the second Thursday in December.

During these meeting periods, the House shall not meet during the following Constituency Weeks:

3. The week in which Victoria Day falls;
4. The week in which Thanksgiving Day falls;
5. The week in which Remembrance Day falls, except that if Remembrance Day falls on a Saturday or a Sunday, the House shall instead not meet the week preceding Remembrance Day.
That clauses (a) and (b) of Standing Order 8 be struck out and the following substituted:—

8. (a) The weekly meeting schedule for the House when it is in session shall be:

REPORTS BY COMMITTEES

Mr. Prue from the Standing Committee on Regulations and Private Bills presented the Committee’s Report which was read as follows and adopted:

Your Committee begs to report the following Bill without amendment:-

Bill Pr14, An Act to revive 1068080 Ontario Limited.

Ordered for Second Reading.

ORDERS OF THE DAY

Mr. McGuinty moved,

That the Legislative Assembly of Ontario acknowledges our province faces economic challenges created by the high dollar, high international oil prices, the US economic slowdown, international economic turmoil, and increased global manufacturing competition from China and India especially;

That just as Ontario families do when finances get tight at home, the Ontario government should make adjustments as necessary to its finances while protecting our shared priorities, such as health care, education, the environment and public safety;

That the investments made over the last five years in vital public services and Ontarians’ key priorities like skills training, infrastructure, education, and health care will help Ontario weather the economic challenges in the short term and emerge stronger than ever;

And affirms our strongest possible support for Ontario workers, and families, and for a healthy, growing economy by continuing to implement the five-point economic plan that includes: investing in the skills of our people, making targeted tax cuts, investing in research and innovation, investing in infrastructure, and partnering with businesses, while also expanding trade ties within Canada and internationally and seeking fairness from the federal government for Ontarians.

After some time, Mr. Runciman moved:-

That the motion be amended as follows:-

Striking out all of the text after “That the Legislative Assembly of Ontario acknowledges” and replacing it with the following:

That, instead of seeking legislative approval to run a deficit and/or raise taxes, the government of Ontario take real action to address the province’s economic crisis;

That the taxpayers of Ontario deserve an immediate and comprehensive financial statement that fully opens up the public books, revealing the true state of everything from government revenues to reserve funds, what savings the government has found, and how it plans to handle any financial shortfalls;

That people who have lost their jobs or are worried about their futures deserve a comprehensive and realistic economic action plan designed to save existing jobs, attract new jobs and investment, and help the unemployed find new work here in Ontario;

That businesses struggling to stay afloat deserve competitive taxes, less red tape, sensible apprenticeship ratios, and a genuine customer service approach that welcomes new investment;
That families working to make ends meet deserve to see their government do what they are doing in tough times – discipline their spending and look for value for money – and that this should be reflected in sensible public sector restraint on hiring and wage increases, especially at the top;

That all Ontarians deserve to see their government provide leadership in this crisis, partnership with other levels of government, and accountability for the areas where it has control; and

That, putting partisan politics aside, all parties in the Ontario legislature should work cooperatively to implement these steps and others that will protect people’s jobs and investments, restore Ontario’s competitiveness, and put our province back on the path to prosperity.

The debate continued and, after some time, Mr. Prue moved:

That the amendment to the motion be amended by adding the following:

That the government needs to immediately respond to current economic instability, the 230,000 jobs lost in the manufacturing sector, and the 40,000 direct and indirect jobs lost in the forest products industry by implementing a strategy that includes:

– An industrial hydro rate so that Ontario’s manufacturing and resource companies can count on stable, competitive hydro policies at a time when many competing jurisdictions have far lower industrial rates.

– A Jobs Protection Commissioner to help at-risk companies overcome financial difficulties – and save jobs.

– A Buy Ontario policy that would ensure that streetcars, subways, and buses continue to be made right here in Ontario resulting in the protection of thousands of good-paying jobs.

– Tougher plant closure legislation that would ensure that everything is done to prevent a profitable plant or mill from closing and enhanced, mandated severance.

– Expansion of severance eligibility and an increase in advance notice in mass layoff situations.

– Pension and wage protection that would make sure that workers get every penny they are owed from their employer when their company becomes insolvent or goes into bankruptcy.

– And finally, a refundable manufacturing and resource investment tax credit that would provide a real incentive for manufacturers and processors to invest in the building, equipment and machinery that leads to high paying, good quality jobs.

That the Committee be authorized to present its report pursuant to Standing Order 63(a) no later than Thursday, November 27, 2008.

PRIVATE MEMBERS' PUBLIC BUSINESS  
Mr. Dhillon moved,  
That, in the opinion of this House, the Government of Ontario, specifically the Ministry of Education, should collaborate with the Dairy Farmers of Ontario to expand the Elementary School Milk Program across Ontario’s publicly funded schools, so more of Ontario’s students can enjoy the benefits of healthy, local milk.  

A debate arising, further proceedings were reserved until the end of the time allotted for Private Members’ Public Business.

Mr. Delaney then moved,  
That, in the opinion of this House, the Legislative Assembly of Ontario should request of the Government of Canada that an amendment be made to the terms of reference governing the Canadian Radio-television and Telecommunications Commission (CRTC) to ensure that a condition to the CRTC’s granting, or renewal, of a license to carry cable, wireless, wireless cable or any other type of television content by every distributor in any market is the requirement to broadcast, as part of every basic package of television services or channels, and using a minimum of one dedicated channel, the legislative proceedings of the province or territory in which the distributor of the television content proposes to offer service, as supplied to the distributor by the legislative broadcast service in that province or territory.
A debate arising, further proceedings were reserved until the end of the time allotted for Private Members’ Public Business.

The Acting Speaker (Mr. Wilson) delivered the following ruling:-

I have had an opportunity to review Bill 107, An Act to promote workforce training, standing in the name of Mr. Marchese, in order to determine whether or not it is a money bill. In this regard, Standing Order 57 states as follows: “Any bill, resolution, motion or address, the passage of which would impose a tax or specifically direct the allocation of public funds, shall not be passed by the House unless recommended by a message from the Lieutenant Governor, and shall be proposed only by a minister of the Crown.”

Since the bill would bind the Crown to spend at least 1 percent of its payroll on training, or some combination of training and payment into the fund that would be established by the bill, I am of the opinion that the bill would specifically direct the allocation of public funds.

I find therefore that the bill is out of order because it is a money bill contrary to Standing Order 57, and that it should be removed from the Orders and Notices Paper.

This prevents the Member for Trinity–Spadina from moving Bill 107 as his ballot item this afternoon. However, notice having been waived on the Member for Trinity–Spadina’s ballot item, I understand that he will instead move a resolution this afternoon. The Member has made copies of the resolution available at the Clerk’s table.

Mr. Marchese then moved, Ensuite, M. Marchese propose,

That, in the opinion of this House, the Government should establish a Workforce Skills Development and Training Fund to promote and support workforce skills development and related measures and initiatives; and that the fund be administered by a committee composed of representatives of labour unions, employers and government; and that consideration be given to requiring that every employer with a payroll of $1 million or greater contribute at least 1 percent of the payroll amount to workforce training with any shortfall of that amount being directed to the fund.

A debate arising and the time allotted for consideration of Private Members’ Public Business having expired, the Acting Speaker (Mr. Wilson) proceeded to put all questions.

The question having been put on Mr. Dhillon’s Resolution Number 50, it was declared carried.

The question having been put on Mr. Delaney’s Resolution Number 44, it was declared carried.

The question having been put on Mr. Marchese’s Resolution Number 56, it was lost on the following division:-

The Speaker delivered the following ruling:-

On Thursday, October 23, 2008, the Minister of Tourism (Ms. Smith) rose on a point of order to express her concerns about the Opposition Day motion that appeared on that day’s Orders and Notices Paper and that is scheduled for debate tomorrow. The motion calls for a public inquiry into the circumstances surrounding the release on bail of an individual who is named in the motion. The Member was of the view that the motion, which stands in the name of the Leader of the Opposition (Mr. Runciman), violates the sub judice convention as well as the sub judice provision in our Standing Orders. The Member for Whitby–Oshawa (Mrs. Elliott) also spoke to the matter, and I have also reviewed the written submission of the Leader of the Opposition.

Having had an opportunity to review the Members’ submissions in Thursday’s Hansard, other recent Hansards, the written submission of the Leader of the Opposition, previous rulings and precedents, and the parliamentary authorities on sub judice, I am now ready to rule on the point of order.

Let me begin by reviewing the meaning of sub judice. As I indicated in an address to the House on May 8, 2008:

Sub judice in brief, is a voluntary restriction on the part of a legislative body to refrain from discussing matters that are before a judicial or quasi-judicial body. In other words, it is a self-imposed restriction that the Legislative Assembly places upon itself so as to avoid prejudice to a judicial case. At its core is the principle that the separation between legislative and judicial bodies is to be respected.

As the Leader of the Opposition points out in his written submission, Ontario Speakers have been generally predisposed to giving considerable leeway to Members who exercise their parliamentary responsibilities and privileges – for example, when they introduce bills, move motions, place oral questions, present petitions, table written questions, and participate in debate pursuant to the Standing Orders. This predisposition is tantamount to a presumption, albeit a rebuttable one, that the Member should not be unduly fettered in the exercise of his or her parliamentary responsibilities and privileges.

My responsibility as Speaker in the case at hand is to determine first whether the Opposition Day motion offends our sub judice rule, and then whether it offends our sub judice convention, and so I shall address each issue in turn.

Though a strict interpretation of Standing Order 23(g) would limit the rule to “debate”, in my view this does not necessarily save a motion from its application.
A motion provides the context of the debate, and is the prelude to it. A motion is not exempt from debate – quite obviously – so it must be subject to the rules of debate. I am therefore satisfied that the motion is not exempt from being looked at by me in the light of the Standing Order. Nevertheless, even if I were to accept an argument to the contrary, this is moot because I still must turn to whether the motion offends the sub judice convention.

I begin by noting that, in other jurisdictions, the convention does apply to motions. For example, Marleau and Montpetit’s House of Commons Procedure and Practice states as follows at page 534:

During debate, restrictions are placed on the freedom of Members of Parliament to make reference to matters awaiting judicial decisions in the interests of justice and fair play. Such matters are also barred from being the subject of motions or questions in the House.

In a similar vein, the UK House of Commons has a sub judice rule that codifies its convention; according to page 437 of the 23rd edition of Erskine May, it applies to “any motion, debate or question.” In addition, the Australian House of Representatives Practice states the following at page 505 of the 5th edition:

Notwithstanding its fundamental right and duty to consider any matter if it is thought to be in the public interest, the House imposes a restriction on itself in the case of matters awaiting or under adjudication in a court of law. This is known as the sub judice convention. The convention is that, subject to the right of the House to legislate on any matter, matters awaiting adjudication in a court of law should not be brought forward in debate, motions or questions.

The application of the convention to motions has been specifically accepted in Ontario by virtue of a ruling that can be found at page 305 of the Journals for June 21, 2006. I too accept the view that motions are subject to our sub judice convention.

In doing so, I am cognizant of what happened on May 14, 2001, a day when there was a debate on an Opposition Day motion seeking a commission of inquiry into the 1995 shooting death of Dudley George at Ipperwash Provincial Park. No point of order was raised on the orderliness of that motion, but it is noteworthy that while there was an ongoing civil proceeding at the time of that debate, related criminal proceedings had been fully disposed of. Parliamentary authorities are in agreement that the sub judice rule and convention are more relevant to criminal proceedings than to civil proceedings because there is more potential for prejudice to the former compared to the latter. Moreover, the motion was worded in a general way: it simply called for an inquiry into the incident. In his written submission, the Leader of the Opposition also referred to an Opposition Day motion that was debated on November 28, 2006; this motion called on the government to make certain changes to the justice system, including the bail system. Like the Ipperwash motion, it did not identify the name of any individual who might be involved in an ongoing court proceeding.

In the case at hand, I appreciate the efforts of the Member for Whitby–Oshawa to create a work-around on the issue before me. The Member suggests that the debate on the motion could focus on the general application of the rules regarding the apprehension of persons charged with serious criminal offences, instead of on the specifics of any case before the courts. The difficulty that I have with this approach is that it cannot be reconciled with the motion. This motion not only does not address the general application of such rules, but also identifies – in every one of its clauses – the names of individuals associated with a very serious incident that is still before the criminal courts. It also draws conclusions on certain evidence and on the actions of officials involved in the administration of criminal justice in Ontario. Absent these specifics and written a different way, it is likely such a motion could have proceeded, as was the case with the Opposition Day motion about the justice system in Ontario that was put forward in November, 2006.

However, we are dealing with the motion as it is written, so for the reasons already cited I am satisfied that the presumption against the application of the convention has been rebutted. I find that the motion offends the sub judice convention in that it offers much potential for prejudice to an ongoing criminal proceeding, and so I am ordering that the motion be removed from the Orders and Notices Paper.
In his written submission, the Leader of the Opposition made remarks about the placement of oral questions in past Question Periods, including the placement of questions in recent Question Periods on the same matter as that mentioned in the Opposition Day motion. As I have indicated, oral questions are approached differently than motions. However, I do have concerns about the recent questions that address the same matter as the Opposition Day motion. I note that the Attorney General in every instance declined to address the substantive question on the basis that the matters being raised were still before the courts. The Attorney General’s approach was consistent with pre-existing practice. In a ruling at page 305 of the Journals for June 21, 2006, the Speaker addressed this very issue in the following terms:

The voluntary nature of the sub judice convention means that every Member must be careful to refrain from making comments in debate, motions or questions.

In debate, this self-regulation is essential. In oral question period, Speakers largely rely upon the Ministers to whom questions are addressed to decide if further discussion of the matter might prejudice a matter before a court, or other judicial or quasi-judicial body, or tribunal. And while Ministers have every right to decline to answer a question which in their view rubs up against the sub judice convention, Members in framing questions must also be cognizant of their responsibility in this regard.

Indeed, the very posing of a question may cross the sub judice line, but the conundrum for all is that, regardless of the subsequent actions of the Speaker or anyone else, the damage may already have been done....

[T]he sub judice convention relies for its effectiveness upon the goodwill of all Members in voluntarily refraining from discussing matters before courts or judicial bodies. I think it is worth reminding Members that extreme caution should always be the order of the day whenever such matters arise as a topic of discussion in this Chamber.

I also want to quote from paragraph 192 of the 1999 First Report of the UK Parliament’s Joint Committee on Parliamentary Privilege, as follows:

It is important that a debate, a committee hearing, or any other parliamentary proceeding should not prejudice a fair trial, especially a criminal trial. But it is not only a question of prejudicing a fair trial. Parliament is in a particularly authoritative position and its proceedings attract much publicity. The proper relationship between Parliament and the courts requires that the courts should be left to get on with their work. No matter how great the pressure at times from interest groups or constituents, Parliament should not permit itself to appear as an alternative forum for canvassing the rights and wrongs of issues being considered by the judicial arm of the state on evidence yet to be presented and tested. Although the risk of actual prejudice is greater in a jury trial, it would not be right to remove appeal cases or other cases tried without a jury from the operation of the rule. Restrictions on media comment are limited to not prejudicing the trial, but Parliament needs to be especially careful: it is important constitutionally, and essential for public confidence, that the judiciary should be seen to be independent of political pressures. Thus, restrictions on parliamentary debate should sometimes exceed those on media comment.

I hope that these statements offer Members some helpful guidance when they exercise their parliamentary responsibilities and privileges in the future.

Before concluding, I want to address the timing of this point of order last Thursday. I think it would have been preferable, and helpful to the Speaker, if the point had been raised when the Leader of the Opposition, in whose name the motion stands, was in the Chamber so that he could listen and respond to the point of order. Members will know that a point of order does not require notice and that the Speaker cannot direct that such a courtesy be extended. Moreover, notice is not often feasible, since a point of order has to be raised at the earliest opportunity, regardless of whether or not a Member affected by it is in the Chamber. Nevertheless, I am left with a lingering unease; I think there was room for greater consideration in this case, especially since Opposition Day motions are such an important means by which the Opposition holds the government of the day to account.
I thank the Minister of Tourism and the Member for Whitby–Oshawa for speaking to this matter last Thursday, and the Leader of the Opposition for his written submission. Again, I hope that this ruling offers all Members some guidance on *sub judice* issues.

With unanimous consent, it was agreed that a notice of motion be placed on the Order Paper in substitution of the notice for Opposition Day Number 3 ruled out of order by the Speaker.

Whereas the issue of violent crimes alleged to have been committed by people out on bail when they should have been behind bars based on their past criminal behaviour is a serious public safety problem that the McGuinty government has failed to address since being first elected in 2003;

ORDERS OF THE DAY
Opposition Day
Mr. Hampton moved, M. Hampton propose,
Whereas adult caregivers such as grandparents and other custodians do their best to provide stability for children placed in their care due to often unforeseen and unfortunate circumstances; and
Whereas the duration of custody often extends for an indeterminate length of time and previous regulations recognized the realities of these custodial relationships; and
Whereas most seniors are ineligible for Ontario Works assistance on the basis of their eligibility for seniors’ income assistance programs that have no provisions to address the custodial responsibilities of these individuals; and
Whereas grandparents are ineligible for foster parents supports and the Ministry of Community and Social Services’ Temporary Care Assistance provision was the only program available to these custodial grandparents before the McGuinty government eliminated this assistance by changing the provisions in July 2008;
The Legislative Assembly of Ontario calls on the McGuinty government to undo its punitive revisions to the Ministry of Community and Social Services’ Temporary Care Assistance directive and support Ontario’s grandparents and other temporary caregivers as they seek to work in the best interests of some of Ontario’s most vulnerable children.

ORDERS OF THE DAY

Opposition Day

Mr. Runciman moved, M. Runciman propose,

Whereas Bill 119, An Act to amend the Workplace Safety and Insurance Act, 1997, will impose an oppressive $11,000 new tax on small construction companies in Ontario; and

Whereas the notion that the bill will improve workplace safety is questionable, as it includes thousands of office workers who never set foot on a construction site; and

Whereas there are still serious and alarming concerns about the wisdom of the McGuinty Liberals imposing this additional tax burden on business, especially during a severe economic downturn in this province; and

Whereas the changes proposed under the bill will not come into effect until 2012, giving the McGuinty Liberals more than adequate time to allow a much more democratic process before they push the bill through using their majority;

The Legislature of Ontario calls on the McGuinty government to extend public hearings on the bill to communities across Ontario in early 2009 and allow all Members to speak to the bill before it becomes law.

After some time, the motion was declared carried and the Bill was accordingly read the second time and Ordered referred to the Standing Committee on Social Policy.

The Government House Leader having indicated that no further business would be called this morning, at 9:55 a.m., pursuant to Standing Order 8(d), the Deputy Speaker recessed the House until 10:30 a.m.

The Speaker addressed the House as follows:-

Yesterday, the Member for Oshawa rose on a point of order at the conclusion of Question Period to take issue with a question asked of the Minister of Energy and Infrastructure respecting GO Transit. The Member took the position that the Minister’s answer addressed the issue in a way that might more properly have been done as a ministerial statement.

The minister addressed the point of order by noting that the question and response related to a joint announcement that had already been made earlier yesterday by the Premier and the Prime Minister.

I undertook to review the matter and have now done so. The Member for Oshawa is correct in his understanding that Question Period should not be used as a forum for the announcement of new government policy or initiatives. This has arisen many times before and Speakers have consistently taken this view.

I would not categorize yesterday’s occurrence as a blatant transgression of Speaker’s directions in this regard, it being more right on the line, but I will say to the minister that it is less about the timing of the announcement outside the House yesterday, and more about the fact that the announcement did take place outside the House.

The Speaker of course cannot compel that government announcements first be made in the House but many Speakers before have noted that it is courteous, where possible, to do so. Having said that, if the matter previously announced is subsequently to be brought to the attention of the House, then a ministerial statement is usually the proper vehicle to do so. Fairness to all sides is thereby observed since the Standing Orders permit the Opposition to reply to such statements.

I thank the Member for Oshawa for raising this matter yesterday and ask that the government side be more vigilant about inappropriately using Question Period to make government announcements.
Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:38 a.m. until 3:00 p.m.

ORDERS OF THE DAY

Debate was resumed on the motion for Second Reading of Bill 150, An Act to enact the Green Energy Act, 2009 and to build a green economy, to repeal the Energy Conservation Leadership Act, 2006 and the Energy Efficiency Act and to amend other statutes.

Pursuant to Standing Order 9(a), the Acting Speaker (Mr. Wilson) recessed the House at 10:15 a.m. until 10:30 a.m.

10:30 A.M.

The Speaker addressed the House as follows:-

Later today I will be distributing letters to all Members referencing a special event taking place in the Legislative Precinct commencing next week.

Members are aware that we have, during this sitting period, been using the Province’s first mace. This is because our current mace is out for a much needed cleaning and replating in preparation for its role in our “Mine to Mace” project.

Some time ago, DeBeers Canada sought to donate two diamonds extracted from Ontario’s first diamond mine to the Legislative Assembly and the concept of mounting these diamonds on our mace was accepted. The design for the diamond setting in the mace will include one rough and one polished stone.

The letter I am sending each of you provides more extensive detail of this “Mine to Mace” project and identifies the numerous organizations who have generously donated time and effort to it.
This is an especially exciting project for the Assembly because the diamonds are to be cut on site here in the Legislative precinct. Commencing Monday in the North Heritage room adjacent to the Speaker’s office a master diamond cutter will be cutting and polishing one of the diamonds. This will mark the very first occasion in which a diamond has ever been cut in the Province of Ontario. Anyone who is interested is invited to drop by the North Heritage Room next week and view this historic event in progress. A camera will also be installed so that you can get a close up view of the work being done.

Once the diamond has been cut and polished and is ready to be set, it will be laser etched with the number ONT-1-00001, signifying this finished stone as the first diamond to be mined, cut and polished in Ontario. The stone will also be etched with the Latin motto found on the Legislative Assembly's coat of arms: *audi alteram partem*. By way of digression, I urge all Members to take note of and commit to memory the translation of that motto which is “hear the other side”.

Upon completion of this project, there will be a ceremony in which we will formally retake possession of the mace which will now also hold evidence of the ancient geological history of Northern Ontario.

Debate was resumed on the motion for Second Reading of Bill 150, An Act to enact the Green Energy Act, 2009 and to build a green economy, to repeal the Energy Conservation Leadership Act, 2006 and the Energy Efficiency Act and to amend other statutes.

Pursuant to Standing Order 9(a), the Acting Speaker (Mr. Arnott) recessed the House at 10:12 a.m. until 10:30 a.m.

10:30 A.M.
The Speaker addressed the House as follows:-

I would like to take a few minutes to caution the House once again about the use of intemperate language and general tenor of speech in this Chamber. I have observed over the short period that this House has been convened, an increased tendency towards disrespectful, insulting comments and insinuations directed from one member to another.

Recent Question Periods provide some troubling examples. Words like stupid, jerk, bamboozle, hoodwink and fabrications, along with reference to booze cruises, pickpockets and bathroom breaks do nothing to enhance decorum in this place or to garner the respect of the citizens we serve. Neither frankly does constant and repetitive heckling to the point where it is difficult or impossible to hear a colleague speak.

This is a place to put forward like and opposing viewpoints. That often brings with it an element of passion and sometimes antagonism. However, it is I think incumbent on all of us to treat each other with the kind of respect we ourselves expect to be treated with. Hurling insults and engaging in personal attacks debases this institution and casts a shadow on each of us.

We are all Members of Ontario’s Provincial Parliament. We have been sent here to represent, to the best of our ability, a constituency of citizens who have a right to expect that, as their representatives in this place, we will conduct ourselves with dignity and honour. This does not in my view include the kind of schoolyard name calling and derision that is becoming the trend of late.

I seek the cooperation of the House in maintaining a higher level of decorum in this place, each of us having due regard and courtesy for all honourable Members and respect for the authority of the Chair. I know that you are capable of a higher standard.

As a footnote, given some recent incidents of disregard for the Chair, I also want to remind members that at any point in the proceedings if the Speaker and a member are both standing, one of those two is out of order … and it is not the Speaker.
Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:36 a.m. until 3:00 p.m.

ONE HUNDRED AND THIRTY-SECOND DAY

PRAYERS
10:30 A.M.

The Speaker addressed the House as follows:-

I beg to inform the House that the Clerk has received from the Chief Electoral Officer and laid upon the Table the following certificate of a by-election:-

ELECTORAL DISTRICT OF HALIBURTON–KAWARTHA LAKES–BROCK – RICK JOHNSON
PROVINCE OF ONTARIO

Mrs. Deborah Deller
Clerk of the Legislative Assembly
Room 104
Legislative Building
Queen’s Park
Toronto, Ontario
M7A 1A2

Dear Mrs. Deller:

A Writ of Election dated the Fourth day of February, 2009, was issued by the Honourable Lieutenant Governor of the Province of Ontario, and was addressed to Jerry Ford, Returning Officer for the Electoral District of Haliburton–Kawartha Lakes–Brock, for the election of a Member to represent the said Electoral District of Haliburton–Kawartha Lakes–Brock in the Legislative Assembly of this Province in the room of Laurie Scott, who, since her election as representative of
the said Electoral District of Haliburton–Kawartha Lakes–Brock, has resigned her seat. This is to certify that, a poll having been granted and held in Haliburton–Kawartha Lakes–Brock on the Fifth day of March, 2009, Rick Johnson has been returned as duly elected as appears by the Return of the said Writ of Election, dated the 16th day of March, 2009, which is now lodged of record in my office.

GREG ESSENSA
CHIEF ELECTORAL OFFICER
Toronto, March 23, 2009

Rick Johnson, Member for the Electoral District of Haliburton–Kawartha Lakes–Brock, having taken the Oath and subscribed the Roll, took his seat.

The Speaker addressed the House as follows:-

On Wednesday, March 11, the Member for Kitchener-Waterloo (Mrs. Witmer) rose on a point of order with respect to a transit shelter advertisement sponsored by the Member for Toronto Centre (Mr. Smitherman), a topic that was also raised in that day's Question Period.

The Member for Kitchener-Waterloo asserted that the advertisement is inappropriate because it refers to features of a bill that is still before this House - a bill that the Member for Toronto Centre is carrying in his capacity as Minister of Energy and Infrastructure; and that the ad conveys the impression that it is presented by the Government of Ontario. While the member was not specific in her reasons for the latter assertion, a review of the ad and of her remarks earlier that day in Question Period, lead me to assume it is the appearance of the Ontario Coat of Arms that the Member finds objectionable in this regard.

The House Leader for the Third Party (Mr. Kormos) contributed to the point by offering the view that, as a piece that promotes a policy of the government, it is partisan in nature and therefore it runs afoul of the guidelines for acceptable Assembly-funded MPP communication to constituents.

How to address this has given me a bit of pause for thought. Approached from the perspective of communications funded by an MPP's budget, this would simply be an administrative matter of no concern to the House assembled. Simply put, the Member for Kitchener-Waterloo does not have a valid point of order, for this matter impacts in no procedural way on the House. However, the arguments relating to references in the ad to a bill not yet passed by this House were more in the nature of a point of privilege, though it wasn't raised as such, and proper notice was not given in any event. Nevertheless I undertook to review the issue and so I will report to the House.

I have reviewed the advertisement very carefully and let me first say that the Member for Toronto Centre's role as a Minister of the Crown should not prohibit him from communicating with his constituents on matters that fall within the purview of his ministerial responsibilities. Naturally, though, if he is doing so with his MPP budget, the communication must be neutral, otherwise as the Member for Welland put it, the "people across the road" may not remit payment for it.
With respect to the issue of the ad leaving the impression that it is presented by the Government of Ontario, the ad does not refer to the Member's ministerial role at all, and though many of his constituents would know he is Minister of Energy, the ad does not convey it. The use of the Provincial Coat of Arms is perfectly acceptable - I know that many Members on both sides of the House use it in their householders, on their business cards, in various print communications to their constituents, on their websites and on their letterhead.

Finally, the ad clearly conveys that the legislation has not passed yet, and does not imply a foregone legislative outcome. It uses the kind of conditional wording that previous Speakers have insisted upon when similar concerns have been raised in the past about government advertising, and which was the basis for the ruling in the federal parliament that the Member for Kitchener-Waterloo referred to.

I will end by emphasizing the obvious - and justifiable - scrutiny that an MPP's public communications must stand up to. Carefully erring on the side of probity and caution in these publications is most likely always the best course of action.

The question, having been put on the motion, was declared carried. Cette motion, mise aux voix, est déclarée adoptée.

The House then adjourned at 4:35 p.m. À 16 h 35, la chambre a ensuite adjourné ses travaux.
On Wednesday, March 25, 2009, the Member for Wellington-Halton Hills (Mr. Arnott), having given proper notice, rose on a question of privilege concerning Budget secrecy and a separate but related question of privilege concerning access to the Legislative Chamber. The Government House Leader (Ms. Smith), the Member for Timmins-James Bay (Mr. Bisson), and the Member for Newmarket-Aurora (Mr. Klees) responded to these concerns.

According to the Member for Wellington-Halton Hills, the government has been deliberately releasing Budget information outside the House in the days leading up to today's Budget, in contravention of the parliamentary convention of Budget secrecy. The Member referred to submissions that were made on a question of privilege concerning Budget secrecy in 1983. In the ensuing May 9, 1983 ruling (at pages 37 to 39 of the Journals for that day), Speaker Turner found that “Budget secrecy is a political convention as is the practice that the Treasurer presents his budget in the House before discussing it in any other public forum. It has nothing to do with parliamentary privilege.” The Speaker went on to add that “[t]he disclosure of information relating to the Budget has to do with the conduct of a minister of the Crown in the performance of his ministerial duties.” The Speaker found that ministerial conduct is addressed through other avenues and remedies, but that parliamentary privilege is not one of these avenues. In his Magna Budget ruling of May 8, 2003 (at page 47 of the Journals for that day), Speaker Carr accepted the thrust of Speaker Turner’s ruling.

I also note that on March 20, 2008 the Member for Wellington-Halton Hills raised a question of privilege concerning a newspaper article that contained information about the forthcoming Budget. In ruling that the possible disclosure of Budget contents cannot amount to a breach of Members’ privileges, I made the following remarks (at page 2 of the Votes and Proceedings for March 25, 2008):

A successful question of privilege must convince the Speaker that the peculiar rights that are accorded to members of parliament to permit them to discharge their parliamentary duties have in some way been violated. These rights are extremely narrow and specific – for instance, the right to speak freely in this place; or to attend here without obstruction. They relate to the Member’s functions in this Chamber.

The absence of the necessary connection between the incidents in question and a Member's parliamentary duties is as compelling in the case at hand as it was a year ago. For these reasons, a prima facie case of privilege has not been established with respect to the matter of Budget secrecy.

However, I do not want Members to be left with the impression that there is nothing to the concern raised by the Member for Wellington-Halton Hills. In my 2008 ruling, I indicated “[i]t is undoubtedly at minimum a matter of courtesy and respect for this institution that all important announcements be made here first...”

To this, let me add that I have heard many Members on both sides of the House lament the erosion of public interest in and consciousness of the work of Members and this Chamber. It behoves the government to give careful reflection as to whether staged pre-Budget media events outside the House contribute to that erosion. Ours is a representative system of democracy. When the Members of this House are treated with indifference, so too are the citizens they represent.
As for the Member's concern about his inability to access the Chamber, and in particular the papers in his Chamber desk, it is clear from the Member's submissions that he was seeking to access the Chamber well after the House had adjourned for the day – not for the purpose of attending a sitting of the House. In other words, this is not a case where the Member was obstructed or interfered with in the performance of his parliamentary duties, or where he was being prevented from physically accessing a sitting of the House.

Moreover, the Chamber has often been the venue of government preparations in advance of Budget day – regardless of which party has formed the government of the day; of course, such non-legislative functions could only be scheduled for times when the House is not actually sitting. In the case at hand, the scheduling of the use of the Chamber for non-legislative purposes on Tuesday evening, after the House was adjourned for the day, was consistent with similar courtesies that the Office of the Assembly has extended in the past to government officials preparing for the Budget. For these reasons, I find that a \textit{prima facie} case of privilege has not been established in the matter of access to the Chamber.

Let me add, however, that there is no reason why the Member could not have requested the Assembly's security staff to retrieve papers from his desk in the circumstances he described. To this end, I have confirmed with the Sergeant-at-Arms that his staff can and will, upon request by a Member, retrieve a Member's papers from his or her Chamber desk as expeditiously as circumstances permit, even when the Chamber has been properly scheduled for an after-hours event. I believe the Security Officer in this circumstance acted according to that protocol.

I thank the Member for Wellington-Halton Hills for raising and speaking to both matters, and the Government House Leader, the Member for Timmins-James Bay, and the Member for Newmarket-Aurora for their helpful submissions.

Whereas, the McGuinty government has increased government spending by an unmanageable 40 percent; and

Whereas, despite difficult economic times, the McGuinty Liberals intend to continue squandering Ontarians’ hard-earned tax dollars by spending beyond their means with a deficit of at least $18 billion over 2 years;
The Legislative Assembly calls upon the Premier and his government to publicly announce a detailed deficit reduction plan with specific measures and timelines to eliminate, in the very least, the McGuinty deficit of $18 billion.

Mrs. Witmer moved, Mme Witmer propose,

Whereas, the McGuinty government has no plan to address hospital deficits and protect patients’ services; and

Whereas, the health policies of the McGuinty government are responsible for the elimination of outpatient services, bed closures, the layoff of hospital staff such as nurses and the potential loss of hospital services and emergency rooms in communities such as Ottawa, Cornwall, Belleville, Kingston, Kitchener, Cambridge, Guelph, Hamilton, Burlington, Fort Erie, Welland, Port Colborne, St. Catharines, Simcoe, Alliston, Strathroy, Petrolia, Wallaceburg, Chatham, Sudbury, Burk’s Falls, Pickering, Ajax, Oshawa and Toronto; and

Whereas these decisions are being made unilaterally by Local Health Integration Networks (LHINs) without full consultation and consideration of the concerns of the residents in these affected communities;

The Legislative Assembly calls on the McGuinty government to acknowledge the needs of Ontario’s growing communities and our aging population and develop a plan to address growing hospital volumes, protect patients’ services, prevent nurses from being fired and address growing hospital deficits.

ORDERS OF THE DAY

Opposition Day

Mr. Runciman moved, M. Runciman propose,

Whereas on March 26, 2009, Dalton McGuinty once again broke his solemn promise to Ontarians and announced a massive McGuinty sales tax; and

Whereas the McGuinty sales tax increase will force homebuyers and sellers to pay more tax on services associated with real estate transactions, including but not limited to: legal fees, moving expenses, real estate commissions, development charges, home inspection fees and other closing costs; and

Whereas the McGuinty sales tax will cause home renovators and builders a massive McGuinty-driven cost increase through increased McGuinty sales tax charges; and

Whereas the McGuinty sales tax will cause vulnerable citizens, including seniors and renters, significant cost increases due to McGuinty sales tax charges; and

Whereas under Dalton McGuinty, Ontario homeowners have already been faced with a barrage of increased costs including skyrocketing property assessments and land transfer taxes; and

Whereas an economic recession is the worst time for Dalton McGuinty to increase taxes and erect further barriers to home ownership; and

Whereas the housing renovation, construction, sale and resale industries are a pillar of the economy in Ontario:

The Legislative Assembly of Ontario calls upon Premier McGuinty to acknowledge that, due to the current economic downturn, this is the wrong time to move forward with his ill-advised plan to yet again increase taxes on all people of this province.

TUESDAY, MAY 5, 2009
ONE HUNDRED AND FIFTY-THIRD DAY

ORDERS OF THE DAY

Debate was resumed on the motion for Second Reading of Bill 167, An Act to promote reductions in the use and creation of toxic substances and to amend other Acts.

At 9:25 a.m., pursuant to Standing Order 47(c), the Acting Speaker (Mr. Arnott) interrupted the proceedings and announced that there had been more than six and one-half hours of debate on Second Reading of Bill 167, An Act to promote reductions in the use and creation of toxic substances and to amend other Acts, and that the debate would be deemed adjourned, at which point the Government House Leader specified otherwise, whereupon debate continued.

After some time, the motion was declared carried and the Bill was accordingly read the second time and Ordered referred to the Standing Committee on General Government.

The Government House Leader having indicated that no further business would be called this morning, at 10:00 a.m., pursuant to Standing Order 8(d), the Acting Speaker (Mr. Arnott) recessed the House until 10:30 a.m.

10:30 A.M.

ORAL QUESTIONS

Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:35 a.m. until 3:00 p.m.
3:00 P.M.
The Speaker addressed the House as follows:-

Yesterday, the member for Renfrew-Nipissing-Pembroke introduced Bill 174, An Act to amend the Public Transportation and Highway Improvement Act with respect to matching rebates of gasoline tax that the Minister provides to municipalities.

An examination of this bill has shown that it is largely similar in all meaningful respects to another bill already fully dealt with by this House in this Session. Both bills propose a mechanism and a calculating formula for some municipalities to receive equitable rebates of gasoline tax revenue for certain purposes, in comparison with other municipalities that receive such rebates for different purposes.

This earlier bill, Bill 38, An Act to amend the Public Transportation and Highway Improvement Act with respect to the assistance that the Minister provides to municipalities, was also sponsored by the Member for Renfrew-Nipissing-Pembroke.

The Member selected the bill as his ballot item for Private Members’ Public Business, and Bill 38 was subsequently considered on May 1, 2008. The motion for Second Reading was lost on a recorded division that day.

The close similarity between the 2 bills has caused me to consider the provisions of Standing Order 52, which states “No motion, or amendment, the subject-matter of which has been decided upon, can be again proposed during the same Session.”

The principle behind this rule is that the House, having once in a Session made its decision on a matter, should not again be asked, nor should it devote the time to, considering that same matter.

While these 2 bills differ slightly in the calculating formula proposed, this in my opinion does not rise to the status of being substantively different questions. The House has decided this matter in principle on May 1 of last year, and it will not therefore be possible for the Member for Renfrew-Nipissing-Pembroke to bring Bill 174 forward in the current Session.

I am aware that the Member’s ballot item for Private Members’ Public Business falls this Thursday. Given that the House waived the requirement for notice for this ballot item on April 22, the opportunity exists for the Member for Renfrew-Nipissing-Pembroke to bring forward another matter to be considered this Thursday.

INTRODUCTION OF BILLS

The following Bills were introduced and read the first time:-

Bill 175, An Act to enhance labour mobility between Ontario and other Canadian provinces and territories. Hon. Mr. Milloy.

Petition relating to Charlotte Eleanor Englehart (CEE) Hospital emergency room (Sessional Paper No. P-197) Mr. Bailey.

After some time, pursuant to Standing Order 9(a), the motion for the adjournment of the debate was deemed to have been made and carried.

And the Bill was accordingly read the third time and was passed.

Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:45 a.m. until 3:00 p.m.

The Speaker informed the House that, in the name of Her Majesty the Queen, His Honour the Lieutenant Governor had been pleased to assent to the following bills in his office on May 6, 2009.

Bill 139, An Act to amend the Employment Standards Act, 2000 in relation to temporary help agencies and certain other matters.

I beg to inform the House that, pursuant to Standing Order 98(c), changes have been made to the Order of Precedence on the ballot list for Private Members' Public Business, such that:-

I want to draw to Members’ attention that a co-sponsored bill appears on the Orders and Notices Paper that contravenes Standing Order 52, which states, “No motion, or amendment, the subject-matter of which has been decided upon, can be again proposed during the same Session.”

Bill 171, An Act to provide property tax deferrals to low-income seniors and low-income persons with disabilities, standing in the name of Mr. Shurman, Mr. Kormos and Mr. Sergio, is substantially the same as Bill 78, which was lost on Second Reading earlier in this Session.

Therefore, as was the case yesterday with respect to Mr. Yakabuski’s Bill 174, I find Bill 171 to be out of order and have directed that it be removed from the Order Paper.

ORDERS OF THE DAY

Opposition Day
Ms. Horwath moved, Ms Horwath propose,
Whereas over 65% of working Ontarians have no workplace pension coverage;
Whereas the current economic and financial crisis has highlighted the weaknesses in the Ontario pension system;
Whereas the stock market meltdown has highlighted the negative impact on individuals near retirement saving solely on their own;
Whereas legislation currently under debate clearly states that the province has no obligation to ensure that the Pension Benefits Guarantee Fund (PBGF) can meet its commitments, potentially leaving tens of thousands of workers and retirees in the lurch and without a secure retirement; and
Whereas the under-funding of the PBGF means that members of under-funded plans may not even receive the $1,000 per month minimum amount guaranteed, something that has never happened before in Ontario:

That, in the opinion of this House, the Ontario government should ensure that all Ontarians who currently lack a workplace pension have access to a decent retirement income by:

1. Providing a universally accessible province-wide pension plan;
2. Fully backing the province’s Pension Benefit Guarantee Fund so that all current Ontario pensions are fully protected. This would require an increase in the monthly benefit guarantee to at least $2,500 as recommended in the Arthurs pension report; and
3. Ensuring that all pensions are fully portable and that plan members receive all monies paid into their plans including all monies contributed by employers.

A debate arising, after some time, the motion was lost on the following division:-

The Government House Leader having indicated that no further business would be called this morning, at 9:52 a.m., pursuant to Standing Order 8(d), the Speaker recessed the House until 10:30 a.m.

10:30 A.M. 10 H 30

The Speaker addressed the House as follows:-

Yesterday, the Member for Welland (Mr. Kormos) raised a point of order with respect to the use of question period and specifically with respect to a question asked by the Member for Huron-Bruce (Mrs. Mitchell). The Government House Leader (Ms. Smith) also spoke to this point of order.

As the member suggested in his comments yesterday, Speakers have traditionally allowed “a fair amount of leeway” in allowing questions to be put. In this I am no different than my predecessors. I have taken the view that members should be given the greatest freedom possible in the putting of questions. Like a hockey referee at playoff time, I am always mindful not to be overly intrusive and, inasmuch as possible, to let the game play on.

The Member made reference to Standing Order 37(a) which refers to the necessity of questions being of “urgent public importance”. This particular reference has caused some difficulty for almost all occupants of this chair. Like them, I am reluctant to sit in judgment as to what is or is not a question of urgent public importance. [I would refer members to a Speaker Warner ruling from June 3, 1992 (Journals pp.100-101) for a fuller explanation of why this is so]. It is a subjective question and as demonstrated yesterday by the response to this point of order by the Government House Leader, there are differing opinions on what is considered to be either urgent or of public importance. One Member’s pothole is another Member’s crater.

Having said that, there are certain principles governing the form and content of questions and it would greatly improve the decorum and public perception of this place if they were more closely observed. To begin with, while there may be other motives, the primary purpose for asking a question is to extract information from the Government and to call it to account.

Specific to this point of order, questions should not be hypothetical, nor should they seek merely to elicit an opinion from a Minister of the Crown. In particular, this principle would prohibit a question that simply offers the Minister to whom it is addressed, an opportunity to cast an opinion on a comment made outside of this House by another Member or Members. This kind of question is especially troublesome if it is intended as a meandering attack on an honourable colleague.

In my view, the initial question asked yesterday by the Member for Huron-Bruce falls into this category and I would encourage greater observance of this principle in the future.

I thank the Member for Welland for raising this point and the Government House Leader for her response to it.
Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:50 a.m. until 1:00 p.m.

Conformément à l’article 9 a), le Président ordonne une pause à l’Assemblée à 11 h 50 jusqu’à 13 h.

ONE HUNDRED AND SEVENTY-FIRST DAY

ORDERS OF THE DAY

A debate arose on the motion for Second Reading of Bill 201, An Act to provide for review of expenses in the public sector.

On a point of order being raised with respect to Standing Order 71(b), the Speaker recessed the House for fifteen minutes.

Upon his return, the Speaker delivered the following ruling:-

The Member for Welland is correct in his reading of Standing Order 71. There is an opportunity for Members to notify the Clerk of an intention to give notice of a reasoned amendment to the motion for second reading. The effect of such notification is to delay the calling of the order for second reading until the next sessional day.

This Standing Order has been a part of our rules for some time and predates the most recent Standing Order changes which altered the House schedule.

Notwithstanding Standing Order 71, the Government’s intention to call Bill 201 this morning was clearly indicated by way of today’s Order Paper. That being the case, Members did have an opportunity to provide notification under 71(b) if they intended to avail themselves of its provisions. Since no notification was given before 9 a.m. today, there was no reason not to allow the debate to proceed. The Order has been called, the motion for second reading moved and the debate has commenced.

Having said that, the Standing Orders do provide that Members have until noon to indicate whether they intend to file notice of a reasoned amendment. My role in part is to facilitate the business of the House. With that and the particular conundrum we find ourselves in this morning in mind, I am going to give members an opportunity now to verbally indicate if it is their intent to file notice of a reasoned amendment as provided for in 71(b). If so, I will seek a motion to adjourn this debate and call for orders of the day. If not, I will allow the debate to proceed.

No Member having indicated an intention to file notice of a reasoned amendment, the Speaker allowed the debate to proceed.

After some time, pursuant to Standing Order 9(b), the motion for the adjournment of the debate was deemed to have been made and carried.
Pursuant to Standing Order 9(a), the Acting Speaker (Mr. Wilson) recessed the House at 10:15 a.m. until 10:30 a.m.

MONDAY, SEPTEMBER 28, 2009
ONE HUNDRED AND SEVENTY-FOURTH DAY

PRAYERS
10:30 A.M.
The Speaker addressed the House as follows:- On Monday, September 14, 2009, the Member for Leeds-Grenville (Mr. Runciman) rose on a question of privilege alleging that certain government ministers had misled the House when they indicated last June that a private company had been retained to conduct an outside audit into eHealth Ontario. The Member for Welland (Mr. Kormos) and the Member for Nipissing (Ms. Smith) also made submissions on this point of privilege.

I have had an opportunity to review Hansard, and relevant precedents and parliamentary authorities, and I am now prepared to rule on the matter.

As the Member for Welland indicated when he spoke to this matter last Monday, there is a difference between privilege and contempt. Let me briefly explain the meaning of each. Erskine May (at page 75 of the 23rd edition) describes privilege as follows:

“… privilege, though part of the law of the land, is to a certain extent an exemption from the general law. Certain rights and immunities such as freedom from arrest or freedom of speech belong primarily to individual Members of each House and exist because the House cannot perform its functions without unimpeded use of the services of its Members. Other such rights and immunities such as the power to punish for contempt and the power to regulate its own constitution belong primarily to each House as a collective body, for the protection of its Members and the vindication of its own authority and dignity.”

Erskine May (at page 128 of the 23rd edition) defines contempt as follows:

“Generally speaking, any act or omission which obstructs or impedes either House of Parliament in the performance of its functions, or which obstructs or impedes any Member or officer of such House in the discharge of his duty, or which has a tendency, directly or indirectly, to produce such results may be treated as a contempt even though there is no precedent of the offence.”

That is what Erskine May says on privilege and contempt.

It is important to be aware of the distinction between the two because, having reviewed our precedents and parliamentary authorities, I am of the view that a question of privilege alleging that a member has misled the House falls under the rubric of contempt as opposed to a breach of privilege. The same view was taken by Speaker McLean in an October 17, 1995 ruling and by Speaker Carr in a June 17, 2002 ruling.

In the 2002 ruling Speaker Carr explained the parameters for finding a prima facie case of contempt relating to a charge of misleading the House as follows:

“The threshold for finding a prima facie case of contempt against a Member of the Legislature, on the basis of deliberately misleading the House, is therefore set quite high and is very uncommon. It must involve a proved finding of an overt attempt to intentionally mislead the Legislature. In the absence of an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved, a Speaker must assume that no honourable Members would engage in such behaviour or that, at most, inconsistent statements were the result of inadvertence or honest mistake.”
In coming to this view, Speaker Carr examined the infamous Profumo incident in 1963, when the UK House of Commons passed a resolution to the effect that a minister was “guilty of a grave contempt of this House” after he admitted that he had misled the House when it was revealed that parts of a prepared personal statement he had made in the House earlier that year were not true.

The value of citing the Profumo incident lies in demonstrating how different that situation is from what is before me now. In that case, there was not only clear evidence that the House had been misled, but that Profumo had deliberately set out with the intention of doing so; I would submit that that is not the case here.

Also in his 2002 ruling, Speaker Carr examined a February 1, 2002 ruling by the Speaker of the Canadian House of Commons, a ruling that was mentioned by both the Member for Leeds-Grenville and the Government House Leader. In that ruling, Speaker Milliken dealt with an allegation that then-National Defense Minister Art Eggleton had deliberately misled the House. By the time Speaker Milliken ruled on the matter, Mr. Eggleton had admitted to the House that incorrect information had previously been provided, but that “at no time did I intend to mislead the House. I was answering with what I believed to be the correct information...”

This fact situation in the House of Commons is thematically more similar to the case at hand, in that there is an absence of any evidence of a deliberate intent to mislead the House. Indeed, the Member for Welland, during his arguments on this point of privilege, conveyed his belief that back in June “neither the Minister of Health nor the Premier had full possession of all the accurate facts.”

This question of intent is of utmost importance. David McGee in the Third Edition of *Parliamentary Practice in New Zealand* addresses this effectively at page 653 and 654 of that volume:-

“...There are three elements to be established when it is alleged that a member is in contempt by reason of a statement that the member has made: the statement must, in fact, have been misleading; it must be established that the member making the statement knew at the time that it was incorrect; and, in making it, the member must have intended to mislead the House."

In the absence of any such criteria establishing intent, Speaker Milliken did not find a *prima facie* case of privilege had been made out in the Eggleton case. Nevertheless, he allowed a motion to be put to refer the matter to a standing committee, without objection from any member of the House. I have no reason to believe there would be similar tolerance of me taking such a liberty in this case.

In that vein, let me address the Opposition House Leader’s suggestion that I could make a direct referral of this matter under Standing Order 108(g) to the Standing Committee on the Legislative Assembly, without the House having dealt with a privilege motion in response to a finding of a *prima facie* case of contempt of the Legislature. This is simply not possible. The Member will know that Standing Order 108(g) only allows the Speaker to request that the Standing Committee on the Legislative Assembly review the Standing Orders, and the procedures in the House and its committees. Nothing in that Standing Order cloaks the Speaker with the authority to make a referral concerning a member's conduct to the committee.

Earlier, I quoted part of a statement that the Member for Welland made when he argued this point of privilege on September 14. In fairness to him and to the record, let me finish the quote: The Member for Welland went on to say that “(w)hat we're not prepared to live with is that they didn’t correct the record at the earliest opportunity.”

Here again David McGee in *Parliamentary Practice in New Zealand* is helpful. Specifically addressing ministerial replies to oral questions he says:

“A deliberate attempt to mislead the House would be a contempt, and if a Minister discovers that incorrect information has been given to the House the Minister is expected to correct the record as soon as possible. But subject to these circumstances, accuracy or otherwise is a matter that may be disputed and the Speaker is not the judge of it. It is a matter for political criticism of the Minister concerned if members believe that a Minister has answered incorrectly.”
It seems apparent, in the absence of any such corrections or retractions, that the Minister of Health is of
the view not only that he and the Premier had not made a misstatement, but also that they believed their
statements in the House were accurate at the time they were made and that there is nothing to correct.
Presumably this view is bolstered by the fact that by the time the House resumed earlier this month,
additional information had become common knowledge.

The Speaker is therefore left without any clear evidence of a deliberate attempt to mislead the House and
instead with what comes down to a disagreement between members on opposite sides of the House as to
the facts.

Since the circumstances that are the subject of this point of privilege fall short of establishing “a proved
finding of an overt attempt to intentionally mislead the Legislature” I cannot find that a prima facie case
of contempt has been established. I appreciate that members may hold divergent interpretations as to
what transpired in June and during the adjournment, but these matters can be pursued, and have been
pursued, in Question Period and other proceedings; it is not a matter of contempt.

In closing, I thank the Member for Leeds-Grenville, the Member for Welland, and the Member for
Nipissing for their helpful submissions on this matter.

The question, having been put on the motion, was declared carried.

The House then adjourned at 4:28 p.m.

The Speaker addressed the House as follows:-

On Tuesday, September 29, 2009 the House Leader of the Official Opposition (Mr. Runciman) raised a point of order concerning the conduct of Oral Question Period, and specifically my interpretation of Standing Orders 23(h), 23(i) and 37(a). Both the Third Party and Government House Leaders (Mr. Kormos and Ms. Smith, respectively) also contributed to this point.

At the outset, let me repeat what I have already said to the House: my ruling with respect to the previous day’s supplementary question by the Member for Nepean-Carleton (Ms. MacLeod), which prompted this point of order, stands. I considered it to be out of order at the time and, having reviewed our precedents and the relevant authorities, I reaffirm that view.

I also accept the Opposition House Leader’s assurance that he accepts this ruling and that his point of order is not a challenge to the Chair, but rather a request for clarification. In fact, I am grateful for the opportunity this has given me to clarify our rules and practices, and my approach to the use of language in Question Period.
With respect to the question of the Member for Nepean-Carleton, which I ruled out of order, I have dealt
with this theme in previous Question Periods. The Member alleged that the granting of contracts by the
present government to a specific firm was “a quid pro quo,” for donations by that firm to the Ontario
Liberal Party. I am hard-pressed to find a more blatant example of a breach of Standing Orders 23(h) and
23(i) in Hansard. The question makes an overt and unseemly allegation, and directly ascribes motive to
the alleged behaviour.

At this point, let me address what was an important part of the two Opposition House Leaders’
arguments, being that Standing Orders 23(h) and 23(i) refer to “another member”, in the singular. Indeed,
to quote the Member for Leeds-Grenville, “the wording is quite specific.” It is, but the specific wording
of the Standing Order is not the full extent of what informs the Speaker’s decisions.

The Standing Orders are the first-line guide to the conduct of proceedings in the House. However, the
Standing Orders do not exist in a vacuum; they are also informed by practice and precedent. In the current
case, there is no dearth of authority for the proposition that an allegation against the government, or the
Cabinet, or a Party – pick the formulation of your choice – often equates, in all meaningful respects, to an
allegation against a member of the Assembly.

Various parliamentary authorities speak to this proposition. In *House of Commons Procedure and
Practice*, at page 526, it is noted that,

> Expressions which are considered unparliamentary when applied to an individual member have
not always been considered so when applied “in a generic sense” or to a party.

This of course is the same as saying, as I am, that depending upon the context and specific situation,
sometimes such expressions have been considered unparliamentary.

This matter is discussed in *Australia House of Representatives Practice*, commencing at page 500 of the
5th Edition. A Speaker’s ruling in that House set out their practice, as follows,

> I think that if an accusation is made against members of the House which, if made against any
one of them, would be unparliamentary and offensive, it is in the interests of the comity of this
House that it should not be made against all as it could not be made against one.

Finally, David McGee in *Parliamentary Practice in New Zealand* notes that,

> [a]llegations of corruption on the part of the Government or a party and offensive terms applied
to a party are just as disorderly as allegations against or an offensive term applied to an
individual member.

Quite a quick canvas of our own Hansard has revealed numerous examples to support this. Let me share
just one to make my point: on October 16, 1996 the Speaker repeatedly called the Leader of the Third
Party to order for alleging that the government was “prepared to climb in bed with”, “to dance with”, and
to “have a cozy relationship with organized crime.” The member was required to withdraw the language
before being allowed to proceed. Other broadly similar examples are not difficult to find.

It is certainly possible to identify from the record numerous instances when a specific allegation or
imputation of motive – whether toward a single member, or certain members collectively – passed
without comment from the Speaker or another Member; in other seemingly identical or largely similar
instances, the Speaker or another member objected to the comment. This is less inconsistency on the part
of the presiding officer than evidence of the “cut-and-thrust” of Question Period to which Mr. Kormos
referred. Oral Question Period is often emotional, extemporaneous, inelegant and raucous.

In that cut-and-thrust, in the heat and speed, of Question Period, it is sometimes a genuine challenge for a
Speaker to find the correct balance between a legitimately aggressive opposition (or equally aggressive
government front bench) on the one hand, and the need to maintain a minimally orderly forum on the
other hand. And depending upon the context, the manner of delivery, and the general tenor of the House,
what may be out of order on one day will pass without comment or reaction on another.
The Opposition House Leaders raised this point of order in the context of Standing Orders 23(h) and 23(i), but it is equally important to keep in mind Standing Order 23(k), which provides that a member shall be called to order if he or she “uses abusive or insulting language of a nature likely to create disorder.”

Sometimes questions, comments, speeches and interjections contain veiled – or not-so-veiled – innuendo, and just as often are framed in such a way as to invite the listener to infer that which cannot be stated expressly. Aside from being examples of members attempting to accomplish indirectly what they are not permitted to do directly, they are also apt to produce disorder.

I think it is fair to say that the basis for the body of precedents we have that interpret “member”, singular, in the plural, lies in the broader power and responsibility of the Speaker to maintain order and decorum. In that broader context, then, simply put, an allegation or assignment of motive against multiple members, or against any collective that embraces members of this House, is not protected by the singular wording of the Standing Orders.

As Speaker, my goal is always to foster and encourage conditions that permit the opposition to perform its fundamental role of holding the government of the day to account. It is an adversarial system, without a doubt, but it is my view – which I have conveyed on previous occasions – that the maturity of temperate debate produces the best and most respectful environment for this to happen effectively. After all, Ontarians are also watching a government-in-waiting in action.

Let me now turn to the issue of Standing Order 37, which was also raised in the point of order. I have very recently addressed this issue too. On June 4, the last day of the Spring sitting, I stated,

Speakers have traditionally allowed “a fair amount of leeway” in allowing questions to be put. In this I am no different than my predecessors. I have taken the view that members should be given the greatest freedom possible in the putting of questions. Like a hockey referee at playoff time, I am always mindful not to be overly intrusive and, inasmuch as possible, to let the game play on. The Member made a reference to Standing Order 37(a) which refers to the necessity of questions being of “urgent public importance”.

This particular reference has caused some difficulty for almost all occupants of this chair. Like them, I am reluctant to sit in judgment as to what is or is not a question of urgent public importance….It is a subjective question and as demonstrated yesterday by the response to this point of order by the Government House Leader, there are differing opinions on what is considered to be either urgent or of public importance. One Member’s pothole is another Member’s crater.

That statement continues to reflect my approach in this Chair, especially during Question Period. It was not an invocation of Standing Order 37 that prompted me to move on from Ms. MacLeod’s supplementary question on September 28, but rather my impatience with her remarks in the context of Standing Orders 23(h), 23(i) and 23(k).

I accept that all this leaves much to the judgment of the Speaker, judgment that, during Question Period especially, is often applied in a heated, loud, emotional and adversarial environment. Certainly I won’t always get it right. Indeed, I apologized to the then-Leader of the Official Opposition, on June 9, 2008 for having reacted to something that the record revealed he hadn’t actually said.

When the House Leader of the Official Opposition sought clarification on the ruling given on September 28, he indicated that the consequence of that particular interpretation of Standing Order 23 is that it would “hamstring” his Party’s ability to be “an effective opposition”. I acknowledge that the subject matter of the question posed by the Member for Nepean-Carleton was not trivial and agree that it is the job of the opposition to hold the government to account – and they should do so vigorously and insistently. But I cannot agree that it is necessary to disregard the principles of decorum in order to do so. As I said earlier, my preference is to let the game play on and to permit all reasonable leeway. Only when I feel the line has been crossed, as I did in that instance, would I want to interfere with the free flow of Question Period or debate in general.

ONE HUNDRED AND EIGHTY-FIFTH DAY

ORDERS OF THE DAY

Debate was resumed on the motion for Second Reading of Bill 203, An Act to allow for better cross-border policing co-operation with other Canadian provinces and territories and to make consequential amendments to the Police Services Act.

10:30 A.M.

The Speaker addressed the House as follows:-

I would like to beg the indulgence of the House for just a few minutes to allow me to respond to a concern raised on Tuesday by the Member for Carleton-Mississippi Mills relating to the use of language in this Chamber.

The Member will know that the first requirement for the Speaker before calling any member to order for the use of unparliamentary language is that he has to have heard it. If he hears it, the Speaker then has to consider the context, tone and propensity to cause disorder of the language used. For this reason, words and phrases allowed in one instance may not be so in another. This is also why Speakers refrain from ruling after the fact even if a review of Hansard suggests that similar or even identical language was used. Hansard cannot reveal the tone or reaction.

In the case at hand, the member for Newmarket-Aurora repeatedly employed the use of unparliamentary language with an accusatory tone while the Minister was trying to answer. While I do try to exercise the greatest latitude during Question Period, in this instance I was left with little choice but to intervene.

Having said that, my review of Hansard did reveal that there were perhaps more instances of intemperate language from both sides of the House than is necessary. I would therefore ask that all members heed my ruling delivered just this week, and moderate their language. There should be no impediment to conducting oneself honourably even in the “cut and thrust” of Question Period.
Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:35 a.m. until 1:00 p.m.

The Lieutenant Governor transmits Supplementary Estimates of certain sums required for the services of the Province for the year ending 31st March 2010 and recommends them to the Legislative Assembly.

Ms. Smith moved, That the House do now adjourn.

The question, having been put on the motion, was declared carried.

The House then adjourned at 4:27 p.m.
On Tuesday, October 27, the Member for Leeds-Grenville (Mr. Runciman) raised a point of order respecting an announcement made outside of this House by the Premier.

In doing so, the Member brought to the House an issue that has arisen all too frequently over the years, that being the tendency of governments of the day to make announcements of significant public policy outside of the Legislative Assembly.

The Government House Leader (Ms. Smith) responded to the point of order by saying that she was unclear about the announcement being referred to. I would say to the Government House Leader that I am not sure this should realistically have been the subject of confusion, given the scope and prominence of the Premier’s announcement earlier that day. In any event, the Member for Leeds-Grenville rose again the next day to further clarify his point of order, making it clear that his specific complaint related to the Premier’s announcement on October 26 respecting further significant details of the government’s previously announced plan to implement all-day kindergarten. I note that the Minister of Education felt these details important enough that she echoed the Premier’s announcement last Thursday during Ministerial Statements.

The Government House Leader also responded, rather unconstructively, that there was a time when a previous government presented an entire budget offsite. The Minister would do well to remind herself of the response to that event by the Speaker of the day.

As I intimated at the outset, nothing about this point of order is new. It is but the latest in a long litany of similar points of order raised over the years by members sincerely frustrated by the ongoing tendency of governments to make announcements outside of the Legislative Assembly in advance of, or instead of, informing the House.

My predecessors and I have repeatedly conveyed our deep concern about how these types of extra-parliamentary announcements erode the stature of parliament. Speakers have repeatedly implored governments to consider the impact of this erosion, and how it damages the reputation of the foundation institution of the Province. These pleas repeatedly go unheard and unheeded.

The point of order raised by the Member for Leeds-Grenville has merit. In an ideal world where the legitimate and historical role of the Legislative Assembly, and specifically of the loyal opposition, were given first consideration, I expect that what a previous Speaker referred to as these types of “administrative discourtesies” would not arise.

However, Speakers have consistently conceded that they possess no authority to compel ministers to first make their announcements in the Legislative Assembly. I am in no different position today than my predecessors. Earlier I suggested the Government House Leader should consider the then-Speaker’s 2003 response to the so-called ‘Magna Budget’. I might also suggest the Member for Leeds-Grenville likewise consider the response of the House to that Speaker’s finding of a prima facie contempt of the Legislature: quite simply, it did not agree. The House, or more precisely a majority of its members, defeated a motion that was eloquent in its simplicity, being the proposition that the House ought to be first in line to receive an announcement as significant as the Budget. What could be more relevant to the Member’s point of order? But the precedent set by the House disagreeing with this certainly leaves the Speaker with little authority, beyond moral suasion, to require anything different.
Though in no position to do anything about it, like my predecessors I am sympathetic to the grievance these types of activities raise. Nothing about this is new, and similar complaints have arisen from all three parties in this House over the years as their roles have changed from government to opposition. The Speaker can only suggest that it falls to the players to heal this syndrome of casual diminishments of the legitimate and key role of the opposition and of this House. In reality, only the government of the day is in a position to lead change on this.

I believe that a strong opposition makes for a strong government. Holding the executive to account is central to our system of government, but this cannot fully take place when the ability to respond to and criticize announcements of government policy is not available because the announcement did not occur during Statements by the Ministry and Responses. Once again, I ask those in positions of influence to seriously consider the legitimate and rightful role of the opposition parties in our parliamentary system.

On Wednesday, October 28, the Member for Oshawa (Mr. Ouellette) raised a point of order respecting the content of an answer by the Minister of Training, Colleges and Universities to a question in Oral Questions. The Member for Oshawa alleged, as he has on past occasions, that the question-and-answer sequence amounted to a set-up for the announcement of government policy, without the opposition parties being afforded the right to reply to such an announcement as would be the case during Statements by the Ministry and Responses. I took that point of order under advisement and, having reviewed the Hansard of the exchange in question, I am now ready to rule.

In reviewing this matter, I also looked at previous rulings, and found that one I made on December 13, 2007 is particularly on point. On that point of order, also raised by the Member for Oshawa, I ruled that,

“While the Speaker is not in a position to make judgements on answers in order to ascertain whether the contents constitute announcements of new public policy, I am nevertheless in agreement with the Member that such announcements should be made during Ministerial Statements and not during Question Period.”

I can say that regarding last Wednesday’s Question Period, the matter is a little more definite. In replying both to the main question and the supplementary, the Minister of Training, Colleges and Universities quite specifically used the opportunities to make announcements regarding his Ministry’s response to certain problems with private career colleges.

The Member for Oshawa has a valid point of order and was correct that this is an improper use of Question Period. There is ample precedent upholding a prohibition against using Question Period to make announcements of government policy. The proper proceeding for this to occur is during Statements by the Ministry and Responses.

Petition relating to cancelling the implementation of the Harmonized Sales Tax (Sessional Paper No. P-314) Mr. Prue.

The Speaker delivered the following ruling:-

The Member for Parry Sound-Muskoka has given me notice of his intention to raise a point of privilege. His point relates to the circumstances under which the House entered upon Orders of the Day for consideration of Bill 218 last Thursday morning.

I am prepared to rule on the matter without hearing further from the Member for Parry Sound–Muskoka, as Standing Order 21(d) permits me to do.

I will first say that I am satisfied with the procedural correctness with which debate was commenced last Thursday on Bill 218. After calling Orders of the Day, I permitted the Member for Leeds–Grenville to raise a point of privilege, of which he had given me notice the previous afternoon.

After hearing from the Member, and the Member for Timmins–James Bay and the Government House Leader, I reserved my ruling on that point of privilege.

At that point, the Member for Wellington–Halton Hills raised a point of order, which I dealt with, and then the Member for Oshawa raised a point of order, which I also dealt with. I then recognized the Minister of Finance, who called Order G218. The Deputy Clerk then read the Order for Second Reading of Bill 218, following which I recognized the Minister of Finance to commence the debate.

I will say that I was quite deliberate in following the normal sequence of events – though they were interrupted with the point of privilege and the points of order – and I have no reservation about the fact that all was in order and Bill 218 was properly brought before the House for debate.

I will also say that this matter as raised by the Member for Parry Sound–Muskoka is more correctly a point of order and not a point of privilege. The orderliness of the proceedings was not challenged at the time they occurred and so there can be no revising of them now. I thank the Member for Parry Sound–Muskoka for raising this matter but do not find that he has made out a valid case of privilege.

ORDERS OF THE DAY

Ms. MacLeod moved, Mme MacLeod propose,

That the Legislative Assembly of Ontario call on the Premier and the Minister of Finance to hold extensive public hearings on Bill 218, An Act to implement 2009 Budget measures and to enact, amend or repeal various Acts, with such public hearings taking place over a minimum of three weeks and in a minimum of ten communities across the Province of Ontario.
After some time, Mr. Bisson moved the adjournment of the debate, which motion was carried on the following division:-

AYES - 41    NAYS - 18

Pursuant to the Order of the House of November 19, 2009, the Deputy Speaker put the question forthwith on the motion, and the motion was carried on the following division:-

AYES / POUR - 43

Aggelonitis  Dickson  Lalone  Prue
Arthurs  Dombrowsky  Levac  Qaadri
Balkissoon  Flynn  Matthews  Ramal
Bentley  Fonseca  Mauro  Ramsay
Berardinetti  Gravelle  McNeely  Sandals
Bisson  Hoskins  Meilleur  Sergio
Brown  Jaczek  Miller (Hamilton East–Stoney Creek)  Smith
Chan  Jeffrey  Mitchell  Sousa
Colle  Johnson  Moridi  Van Bommel
Delaney  Kular  Orazietti  Zimmer

NAYS / CONTRE - 16

Arnott  Elliott  MacLeod  Runciman
Bailey  Hardeman  Miller (Parry Sound–Muskoka)  Savoline
Chudleigh  Hillier  Munro  Shurman
Dunlop  Jones  Ouellette  Yakabuski

And the Bill was accordingly read the second time and Ordered referred to the Standing Committee on General Government.

Debate was resumed on the motion for Second Reading of Bill 218, An Act to implement 2009 Budget measures and to enact, amend or repeal various Acts.

After some time, Mr. Miller (Parry Sound–Muskoka) moved,
That the motion for Second Reading of Bill 218, An Act to implement 2009 Budget measures and to enact, amend or repeal various Acts, be amended by deleting all the words after “That” and substituting therefore the words “That this Bill be NOT now read a Second time but be referred back to the Government with instructions to incorporate therein:

1. that Schedule K in Bill 218 be deleted and;
2. that the said Schedule K be introduced as a separate Public Bill.”

After some time, Mr. Miller (Parry Sound–Muskoka) moved the adjournment of the House, which motion was lost on the following division:

AYES - 5   NAYS - 34

Pursuant to Standing Order 9(a), the motion for the adjournment of the debate was deemed to have been made and carried.

ONE HUNDRED AND NINETY-NINTH DAY
TUESDAY, NOVEMBER 24, 2009

PRAYERS
9:00 A.M.

ORDERS OF THE DAY

A debate arose on Government Order Number 30, on the motion for time allocation of Bill 210, An Act to protect foreign nationals employed as live-in caregivers and in other prescribed employment and to amend the Employment Standards Act, 2000.

After some time, Mr. Hillier moved the adjournment of the debate, which motion was lost on the following division:

AYES - 6   NAYS - 42

After some time, pursuant to Standing Order 9(b), the motion for the adjournment of the debate was deemed to have been made and carried.

Pursuant to Standing Order 9(a), the Acting Speaker (Mrs. Munro) recessed the House at 10:15 a.m. until 10:30 a.m.
The Speaker delivered the following ruling:

On Thursday, November 19, the Member for Leeds Grenville (Mr. Runciman) raised a point of privilege relating to the consideration of Bill 218. I thank the Member for providing me with written notice of his point of privilege as required by the Standing Orders. Having read his submission carefully and listened to his argument and those put by the Government House Leader (Ms. Smith) and the Member for Timmins-James Bay (Mr. Bisson), I am now prepared to rule.

As the Member for Leeds-Grenville stated, privilege deals with the specific ability of individual members and the House as a collective, to carry out their Parliamentary duties.

In Marleau and Montpetit’s *House of Commons Procedure and Practice*, Chapter 3, the rights and immunities of individual members and the rights of the House as a collective are clearly set out as follows:

- Freedom of speech
- Freedom from arrest in civil actions
- Exemption from jury duty
- Exemption from attendance as a witness
- Freedom from obstruction, interference, intimidation and molestation

As a collective, the privileges of the House include:

- The power to discipline its members
- The regulation of its own internal affairs
- The authority to maintain the attendance and service of its Members
- The right to institute inquiries and to call witnesses and demand papers
- The right to administer oaths to witnesses
- The right to publish papers containing defamatory material

In order for a finding that a *prima facie* case of privilege has been made out, the Speaker must be satisfied that sufficient support exists for the proposition that one of these heads of privilege has been breached.

In his point of privilege, the Member for Leeds-Grenville argued that members individually and the House collectively have been obstructed in the performance of parliamentary duties and functions for two reasons. First, that Bill 218 contains provisions that allow for the government to enter into an agreement that will be binding beyond the next general election; and second, that the government is refusing to allow for full public hearings on Bill 218.

Let me first deal with the issue of a long-term agreement between one government and another. This is not an unusual occurrence. Indeed, the Free Trade Agreement comes immediately to mind. In that case, the Government of Canada signed a long-term agreement with the Government of the United States. Governments have in fact also signed agreements with private interests that are binding in the long term. As the Government House Leader suggested, the Highway 407 contract is a case in point.

In the case at hand, the Government of Ontario and the Government of Canada have entered into an agreement to harmonize the provincial Retail Sales Tax with the national Goods and Services Tax. The machinery required to do this is provided for in amendments to the Ontario Retail Sales Tax Act, set out in Schedule R of the Bill. While the fulfillment of this bilateral agreement is dependent upon the passage by Ontario and the federal parliament of the necessary legislation, it is the agreement itself that contains commitments about the duration of the accord; this is not in the Bill.

The Retail Sales Tax Act could again come before the House for further amendment at a future time in another Session of Parliament, including even the complete repeal of any changes made at this time as a result of Bill 218. There is nothing in the Bill itself that prohibits a future government from proposing alterations to the Retail Sales Tax Act, or renegotiating an existing extra-parliamentary agreement. While doing so might constitute an abrogation of the agreement and could carry political or legal consequences, this is not something that is of procedural consequence to this Legislature.
The Member for Leeds-Grenville may be of the opinion that the terms of this particular agreement are an affront to democracy, but the fact that he holds this opinion does not make it a matter of privilege. The heads of privilege, which I just enumerated, are quite specific. Nothing about our current circumstances offends any of those heads – members are debating the Bill; no one has been obstructed from doing so. The key point is that this legislature is being presented with a specific proposal and has the opportunity and the power to grant or deny it.

As to the second point the Member makes, being the asserted refusal of the government to allow public hearings on the HST legislation in communities across Ontario, I have before me no evidence that that is the case. Indeed, the Bill has yet to pass second reading and as yet no referral or terms of referral have been made.

However, even if there were such evidence, under the rules of this House, the government has the ability to put to the House a motion that allocates time for each stage of the consideration of a bill. The House in turn has the ability to pass or defeat such a motion.

While there could very well be certain provisions contained in a time allocation motion that might make it out of order, the allotment of more or less time to committee consideration of a bill would not likely be one of them. Indeed, we have many examples of little or no time being allotted to committee consideration of a bill by way of a time allocation motion properly put, debated and decided by this House.

There is no head of privilege that dictates the extent to which public hearings must be held as long as they are determined within the rules of this House.

For these reasons, I cannot find that a *prima facie* case of privilege has been made out.

The Member further indicated that if I am unable to find a *prima facie* case of privilege he would then argue that a contempt of the House has occurred. Once again, on the same grounds I see no support for that conclusion.

I thank all members for their submissions on this matter.

The Speaker delivered the following ruling:- Le Président a rendu la décision suivante :-

The Member for Nepean-Carleton has given me notice of her intention to raise a point of privilege. Her point relates to the applicability of provisions of the Taxpayer Protection Act to Bill 218, An Act to implement 2009 Budget measures and to enact, amend or repeal various Acts.

I am prepared to rule on the matter without hearing further from the Member for Nepean-Carleton, as Standing Order 21(d) permits me to do.

There is substantial precedent, and universal support, for the notion that the Speaker does not have the authority to deal with legal or quasi-legal issues, and will not deal with requests for an interpretation of the law.

From a procedural perspective, Bill 218 is properly before the House at the present time, and whether there are any legal issues of the nature the Member raises would need to be decided by the courts. This question is not one for the Speaker to decide.

The Member has therefore not made out a *prima facie* case of privilege.

Pursuant to Standing Order 9(a), the Speaker recessed the House at 11:47 a.m. until 3:00 p.m.

Conformément à l'article 9 a) du Règlement, le Président ordonne une pause à l'Assemblée à 11 h 47 jusqu'à 15 h.
3:00 P.M.  

The Speaker addressed the House as follows:-

I beg to inform the House that, pursuant to Standing Order 98(c), changes have been made to the Order of Precedence on the ballot list for Private Members' Public Business, such that:-

Mr. Hoskins assumes ballot item number 56 and Mr. Sorbara assumes ballot item number 79.

PRAYERS
9:00 A.M.

At 9:10 a.m. Mr. Hillier and Mr. Murdoch left the Chamber.

The Speaker addressed the House as follows:-

Within the walls of this chamber, the authority of the House is clear. The Speaker is given the authority to “maintain order and decorum.” The most serious penalty in the hands of the Speaker is naming, and it is rarely used. Within our standing order 15(c), I exercise that standing order and have suspended two members from this chamber.

As Speaker, I was extremely reluctant to remove two members with force. Some may agree with my decision, some may not. I stand behind it. I’d encourage members to Google “B.C. member ejected from the chamber” and see the result of a forcible removal in 1983.

I want to take a few moments of members’ time to reflect and comment on the events of the past couple days. First, let me say from the Chair thanks to the opposition house leader, Bob Runciman, for his effort to resolve this matter without further disruption.

But I’m obligated to add that what took place was at odds with the traditions of parliamentary debate and the practices of this place. To say it plainly, the behaviour of the two members crossed the line. I want to declare emphatically that it was unacceptable to the Chair, just as it should be to all members of this Legislature, regardless of party affiliation. Expressions of dissent, disfavour and even outright protest on the part of members is a respected part of our parliamentary traditions.

As Speaker, I am obligated to defend those traditions, and I will not hesitate to do so. Order and decorum is what makes our system work. Merely enforcing the rules of the game does not imply I side with one point of view or another. Points of view are to be given full expression in our Legislature, and chaos is not conducive to that. Actions like these actually hurt all of our cause, and doing what has happened impacts seriously on debate and discussion.

But respect is a mutual obligation. There are boundaries to which members must also adhere and standards of conduct that must be upheld. This is not about the Chair’s discretion or the opinion of an individual Speaker. It is about failing to show due deference to this institution and the traditions of civil debate. It is about failing to show due deference to the privileges of fellow members of this Parliament, including members from all parties. And, importantly, it’s about failing to display an image of parliamentary conduct the public would rightly regard as appropriate.

Indeed, when members ignore the authority other than their own and force the Speaker to contemplate measures as extreme as forcible removal, it seems reasonable to suggest that these same members are projecting an image of indignity that feeds public cynicism about politics and the political process. Surely, that has to be unacceptable to us all.

So let me be clear about where we stand now with respect to such behaviour in the future. This is not the new normal. As Speaker, I attempted to exercise a great deal of tolerance and a measure of patience that I will, if needed, repeat again, but at the same time, I will not accept such flagrant disrespect for the Legislature and its members. In the future, I ensure you that I will move swiftly to preserve the dignity of this chamber and to preserve the privileges of all members to speak, debate and, if they so wish, protest within the limits of the established convention.
And to the public I’m going to send a clear message: This is not the way we do your business in your provincial Parliament. We are really doing a grave disservice to our constituents if we willingly give up our voice. The point remains that the Legislature is what gives us our voice. Disregard for those rules diminishes the voice for all.

I’d ask all members to please reflect on these events over the past few days.

ORDERS OF THE DAY

Yesterday, the Government House Leader raised a point of order to ask for an interpretation of the phrase “regular meeting times” as used in the time allocation order passed yesterday respecting Bill 218. The matter arises because of a meeting of the Sub-Committee on Committee Business of the Standing Committee on Finance and Economic Affairs, which resulted in the sub-committee adopting a recommendation to the Committee that the public hearings on Bill 218 commence at 12:01 a.m. on Thursday, December 3. The Members for Leeds-Grenville, Timmins-James Bay, Durham, Beaches-East York and Pickering-Scarborough East also made submissions on the point of order.

While in most situations, Speakers have held that a matter that arises in committee should be considered and disposed of by that committee, there is also precedent for the Speaker ruling on a matter when the committee proceedings in question were the subject of an Order of the House and the issue is the interpretation of the Order itself.

The facts as I understand them from the submissions are as follows:

The Sub-committee on Committee Business of the Standing Committee on Finance and Economic Affairs met on December 1 in anticipation of the eventual referral of Bill 218 for public hearings and clause-by-clause consideration. This is a usual process that is followed to allow the Committee’s decision-makers to provide the Clerk of the Committee with some direction and preliminary instructions so the Committee’s work can be organized. This is particularly important in a circumstance where the full committee will not have an opportunity to meet before the commencement of public hearings.

In the meeting of this sub-committee, there was a decision made to commence public hearings at 12:01 a.m. on Thursday, December 3, which is the day set out in the time allocation order for such hearings.

The time allocation motion respecting Bill 218, which passed yesterday, authorizes the Standing Committee on Finance and Economic Affairs to meet “on Thursday, December 3, 2009, during its regular meeting times for the purpose of public hearings on the Bill”.

The Government House Leader contends that an appropriate interpretation of “regular meeting time” would be 9:00 a.m. to 10:15 a.m. The question then to be decided is, does such an invariable time exist that committees are required to observe when they meet in the morning? Such a practice would certainly have to be considered “regular”. A quick review of committee meeting notices and agendas however reveals otherwise. Many committees have commenced their morning meetings earlier or later than 9:00 a.m. The very committee we are concerned with today, the Standing Committee on Finance and Economic Affairs, has on occasion commenced its meeting at a time earlier than 9:00 a.m. The only consistency in morning committee meetings governed by an Order of the House dated May 1, 2008 is that they must occur ‘in the morning’.

This Order designates regular meeting times and provides the authority for standing committees to meet. It specifies that the Standing Committee on Finance and Economic Affairs “may meet on:- Thursday mornings to 10:45 a.m. and Thursday afternoons following Routine Proceedings”. I might add that identical wording is used in that same motion to authorize other standing committees to meet at those same times on different days, and that the same general terminology has been used in earlier Orders of the House in this and previous parliaments.
There have been occasions when committees have, by a superseding motion, been authorized to meet at a very specific time. That is not so in the case before me. However, it does suggest that if the intent was that the committee would be restricted to a 9:00 a.m. start time, the motion could have been worded that way. Let me hasten to say, though, that the House Leader would not reasonably have had any reason to consider needing to do anything different than using the very common and usual ‘standard’ wording of a time allocation motion. They have consistently gotten the job done with little ambiguity for many, many years in this Legislature.

Erskine May’s Parliamentary Practice states that time allocation motions represent “the extreme limit to which procedure goes in affirming the rights of the majority at the expense of the minorities of the House, and it cannot be denied that they are capable of being used in such a way as to upset the balance, generally so carefully preserved, between the claims of business and the rights of debate.”

It is certainly the case that this House has seen its share of what I will call extreme procedural events in the past while. This issue in the Standing Committee on Finance and Economic Affairs is but the latest. All of these have had less to do with any fundamental flaws or lack of soundness in the traditional operating practices of the House and its committees, and more to do with manifestations of a profound disagreement over a particular issue.

Erskine May’s “carefully preserved balance” has been disrupted and as a result, wording in a motion that has been used over and over in the past is today tested to the upper limits of its interpretation. However, the interpretation is there; and authorization for morning meetings has previously meant and continues to mean any time in the period between midnight and noon unless a specified time is otherwise ordered. If that were not the case, committees would up to now have been prohibited from meeting earlier than the start time of the House, or earlier than 9:00 a.m., or earlier than some other specified and universally observed time.

Do I think it is sensible that a committee would consider holding public hearings before dawn? No, I do not, and since this has not previously occurred, it would seem that sentiment has generally been shared by committees in the past. But just because I think it is impractical and just because it has not happened before, does not mean it is out of order. It simply means that up to now the prerogative has not been exercised. Until it happened, we had never seen a Bill title so long, it took all day to introduce; until it happened, the House had never sat through until adjournment listening to petitions; until it happened on April 2, 1997 we had never seen 14,000 amendments filed on a single bill. All of these things did occur, all were extreme measures employed within the limits of the rules.

It is my interpretation that “regular meeting time” refers to the days and times that the committees have been authorized to meet by the committee scheduling motion. In that motion, “mornings” has by practice been interpreted to mean some time in the morning but not a specified time in the morning. I find therefore, that if the committee decides to meet at any time commencing at 12:01 a.m. they are in compliance with the terms of the time allocation motion on Bill 218.

I would simply add this. The report of the sub-committee is still to be considered by the full committee. The Standing Committee on Finance and Economic Affairs will have the final say in whether that report is adopted, amended or overturned.

And the Bill was accordingly read the third time and passed.

En conséquence, ce projet de loi est lu une troisième fois et adopté.
Pursuant to Standing Order 9(a), the Deputy Speaker recessed the House at 10:23 a.m. until 10:30 a.m.

10:30 A.M.

The Speaker delivered the following ruling:-

On Thursday, November 19, the Member for Oshawa raised a point of order with respect to the authority of the Standing Committee on Public Accounts to summon witnesses.

To the extent that his point of order touched on specific proceedings of the Standing Committee on Public Accounts, I will say that it is not the place of the Speaker to become involved. The Committee, like every committee of the House, has the ability to regulate its own affairs. Where it needs the guidance or intervention of the House, or when there is a problem it cannot solve itself, the proper course is for the committee to make a report to the House setting out the matter at issue in the committee.

This not having occurred, I can only assume that within the scope of its authority the committee has been successfully dealing with its own affairs to the satisfaction of its members.

To answer the Member’s direct and specific question, though, I can confirm that committees do have the authority to summon witnesses of their choosing. Standing Order 110(b) states that “(e)xcept when the House otherwise orders, each Committee shall have power to send for persons, papers and things.”

This is a power delegated from the House, which retains the authority to compel attendance or production. There are therefore some practical and contextual limitations on a committee’s authority but in general, committees may invite any witnesses it considers to be in a position to offer testimony that will be helpful to the committee in its inquiries.

The Speaker delivered the following ruling:-

On December 2, 2009, the Member for Carleton-Mississippi Mills (Mr. Sterling) rose on a point of order concerning his inability to vote from his assigned seat during recorded divisions held on December 1.

The House will recall that the Member had not been able to vote from his assigned seat because a named Member had refused to withdraw from the Chamber on November 30; that Member, along with another named Member, had been suspended from the service of the House for the remainder of the session when the Sergeant-at-Arms indicated that force was necessary to compel obedience. However, those suspended Members were still in the Chamber on December 1, and one of them was occupying the seat assigned to the Member for Carleton-Mississippi Mills during a recorded division on the motion for second reading of Bill 175, and during other divisions that morning.

Members will recall that, in the immediate aftermath of the first division, I responded to points of order and points of privilege on what had happened. Later, in response to concerns that certain Members of the Official Opposition would be unable to vote from their assigned seats because the suspended Members were occupying them, I indicated to the Member for Carleton-Mississippi Mills that he could assume the unoccupied seat of another Member. I made a similar accommodation with respect to the Member for Simcoe-Grey (Mr. Wilson), whose seat was also being occupied by another suspended Member.

The Member for Carleton-Mississippi Mills now asks why I ignored Standing Orders 20 and 28 in making this accommodation. Standing Order 20 requires Members to "remain in their places and refrain from interrupting the Speaker" in certain situations, and to not interrupt the Member who has the floor. Standing Order 28 deals with the procedure for taking divisions; in particular, Standing Order 28(a) states that it requires "five members standing in their places" to force a division after a voice vote, and Standing Order 28(c) states that a Member wishing to vote "shall rise and record his or her vote".

Let me first say that neither Standing Order 20 nor Standing Order 28 specifically indicates that a Member wishing to vote in a division must do so from an assigned seat, and so I did not ignore any Standing Order when I acted as I did. Nevertheless, as Members well know, it is our settled practice that Members wishing to vote in a division do so from their assigned seats.
Speakers of this House have long upheld the practice that members must vote from their assigned places in the Chamber, and so have I. In point of fact though, seating assignments of all Members of the Assembly are ultimately made by the Speaker. In practice, of course, the Speaker assigns blocks of seats and then generally acquiesces in the recommendations of the various recognized parties on their seating wishes for their individual Members. But as I said, ultimately it is the Speaker’s decision, as demonstrated by the fact that the Speaker takes full responsibility for assigning the seats of any Independent Members. That being the case, when I indicated that the Member for Carleton-Mississippi Mills could vote from another seat, I was in effect assigning him that seat, if only temporarily.

Additionally though, one has to look at this issue in the context of the nature and extent of the disorder that erupted last Monday. It cannot but have been apparent to any observer in the Chamber at the time of the naming of the Member for Bruce-Grey-Owen Sound that he was acting in concert with a plan understood by his caucus, and participated in by the caucus as a collective. Indeed, the Member for Carleton-Mississippi Mills is one of several members who put themselves between the named Member and the Sergeant-at-Arms, preventing the removal of the named Member from the Legislative Chamber.

As business carried on and the House entered into the recorded vote on Second Reading of Bill 175, the Member for Carleton-Mississippi Mills was seated at a place other than his assigned seat. The Member did not at that point complain either that he wished to vote but might not be able to because another Member was in his seat, or that the Member occupying his seat refused to leave when asked to do so. The confusion that ensued, and the basis of the complaint now made by the Member for Carelton-Mississippi Mills, was to a significant extent of his own making. As I said at that time, “you cannot contrive a breach of your own privileges.”

In a subsequent vote, however, the Member for Mississippi Mills and the Member for Simcoe-Grey were again both prevented from being in their regular seats, but I hope that they can appreciate that, shortly after the consequences of the mischief being perpetrated by the suspended Members became clear to everyone in the House, I was able to ensure that Members wishing to vote were able to do so. I stand by my approach to dealing with the issue.

In looking into how other Speakers have handled challenging situations in this Chamber, I came across Speaker Stockwell's ruling at page 538 of the Journals for April 6, 1997. This is what Speaker Stockwell said:

> I believe that the modern definition of Speaker requires that decisions are taken which are also in the best interests of the institution of Parliament. On occasion, in particular when faced with extraordinary circumstances, Speakers may have to intervene in a way, which seeks to enable the Parliamentary process to accomplish the business at hand.... In this House, Speaker Warner quoting Speaker Fraser, said on May 27, 1991 that, “the Speaker does have a latitude to act in exceptional instances”

I agree with Speaker Stockwell's statement. That statement was made in 1997 in the course of the longest voting process in the history of this Assembly. A few months later, the House adopted Standing Order changes that strengthened the hand of the Speaker and of the House in dealing with disorder and the progress of Assembly business. Those changes appear to have been informed by a desire by the House to ensure that disorder does not trump the democratic rights of Members.

I have already provided my thoughts to the House on the events of last week. I will repeat one part of those comments:- “respect is a mutual obligation. There are boundaries to which Members must also adhere and standards of conduct that must be upheld. This is not about the Chair's discretion or the opinion of an individual Speaker. It is about failing to show due deference to this institution and the traditions of civil debate; it is about failing to show due deference to the privileges of fellow members of this Parliament, including members from all parties; and importantly, it's about failing to display an image of parliamentary conduct that the public would rightly regard as appropriate.”
In closing, I thank the Member for Carleton-Mississippi Mills for raising his point of order. His concerns do not raise a matter of order, but they have given me an opportunity to reflect on the events of last week, and on how such events might be dealt with in the future.
