Her Honour the Lieutenant Governor entered the Legislative Chamber and, having taken her seat on the Throne, was pleased to open the Session by reading the following gracious speech:

Mr. Speaker, Honourable Members, ladies and gentlemen, people of Ontario:

I want to start by acknowledging that we are all on lands traditionally occupied by Indigenous Peoples. They continue to care for this land, they continue to shape Ontario today – and I want to show my respect.

Traditionally, Toronto was a gathering place for many Indigenous nations including the Anishinabeg, the Haudenosaunee, the Wendat and Métis peoples. I acknowledge we are meeting in the area covered by Treaty 13, also known as the Toronto Purchase, and I pay my respects to the Mississaugas of the Credit.

As the representative of Her Majesty the Queen, it is my privilege to open the Second Session of the 42nd Parliament by delivering the Speech from the Throne.

I do so as the province, country and world continue the ongoing fight against new variants of COVID-19.

Indeed, the past 18 months have been some of the most difficult in modern life.

Families separated, with many grieving the tragic loss of life. Jobs lost and businesses closed. Important life milestones put on hold.

The pandemic has and continues to challenge us in ways previously unimaginable. It has impacted every aspect of our way of life.

The pandemic has also not been equal. It is important that we acknowledge that it has significantly impacted some among us much more than others.
But through it all, our people have come together and shown the true nature of the Ontario spirit. Strength. Determination. Compassion. Generosity. Grit.

These qualities have defined a shared sense of purpose and unity of cause against our common enemy: COVID-19.

As your government took extraordinary measures to slow the spread of this virus, Ontarians have shown remarkable resolve. You have risen to the occasion and done what is necessary to protect our communities, our hospitals and most vulnerable citizens.

Time and time again, you have been asked to sacrifice so much. But the light at the end of the tunnel has never looked brighter.

On December 14th, 2020, everything changed. On that day, the province administered its first vaccine to a personal support worker named Anita Quidangen.

Throughout the worst of the pandemic, Anita took on extra shifts at her long-term care home, working all hours to care for her frail and elderly residents. When called to further action, she didn’t hesitate to lead by example.

Like so many others on the frontlines, Anita Quidangen is a true Ontario hero.

While Anita may have been the first to get the shot, she wasn’t the last. Your government has worked in unprecedented cooperation with municipal leaders, public health officials, frontline health care workers and the federal government to achieve one of the highest rates of vaccine protection in the world at incredible speed.

To the millions of Ontarians who received their COVID-19 vaccines: thank you. Every single dose is helping to protect our communities. We are now able to enjoy the things each of us have missed so dearly.

Time spent with friends and family. More businesses opening, with people going back to work. Students learning in class, and on the field playing alongside teammates.

As we enjoy the many benefits of so many people getting vaccinated, your government will never yield in its commitment to protect this hard-fought progress.

That is why Ontario has pursued the most cautious re-opening in Canada.

This approach included some of the highest vaccine thresholds for easing restrictions. It has maintained effective public health measures like indoor masking, while implementing vaccine policies to protect our most vulnerable in retirement homes, hospitals, home and community care, schools and post-secondary institutions, among others.

Most recently, your government further strengthened protections for long-term care homes by requiring all staff to be vaccinated unless they have a valid medical exemption. This is in addition to surveillance testing and inspections. Ontario was also the first province in Canada to provide third doses of vaccines to residents of long-term care.

In support of Ontario’s cautious re-opening, the province also introduced a vaccine certificate.

Your government did not make the decision to require proof of vaccination easily.

The struggle to strike the appropriate balance between long-established rights and freedoms and the need to do what is necessary to protect lives has been this and other governments’ most significant challenge.
But as we have seen elsewhere in Canada and North America, the COVID-19 pandemic remains an urgent public health emergency. Every tool must be brought to bear as we continue to confront the Delta-driven fourth wave. We must and will remain vigilant.

Ontario cannot go backwards. After 18 months of fighting this pandemic, we owe our businesses stability and certainty.

Your government also recognizes that we cannot live under these exceptional measures forever. Vaccine certificates are a temporary policy that will be lifted when it is safe to do so, in consultation with the Chief Medical Officer of Health.

Throughout the COVID-19 pandemic, your government has been guided by the latest science and evidence when making decisions on how to keep Ontarians healthy and safe.

And as Ontario’s vaccine coverage continues to climb every day, it moves us further into a new phase of the pandemic.

In this new phase, while cases may rise as people head indoors during the colder winter months, the Chief Medical Officer of Health has been clear that this is not a cause for panic.

Instead, thanks to the protection offered by Ontario’s world-leading vaccine coverage, individuals who are vaccinated are at much lower risk for more severe health outcomes, such as hospitalization.

In short, getting vaccinated protects you from the worst of COVID-19. It will save your life.

In this new phase, Ontario’s top doctor and public health officials are continuously monitoring hospitalizations and intensive care units, as these indicators drive decision making.

If additional public health measures are needed, they will be localized and targeted. At the advice of the Chief Medical Officer of Health, they will seek to minimize disruptions to businesses and families.

The ultimate goal, shared by all, is avoiding future lockdowns.

In support of this goal, your government continues to make investments to build up Ontario’s hospital capacity.

The pandemic has exposed the failure of successive governments, both provincial and federal, to provide adequate funding for our hospitals. The clear consequence was a health system ill-equipped to handle a crisis.

That is why your government has made unprecedented investments to add thousands of new hospital beds and ensure that qualified nurses and doctors are by a patient’s side when they need care.

As a result, Ontario now has one of the highest rates of intensive care beds in Canada. Ontario is now much better positioned to respond to this and any future health crisis.

This is in addition to historic investments to build and redevelop hospitals across the province, like the newly-constructed Cortellucci Vaughan Hospital, which initially operated as a province-wide resource to treat critically ill COVID-19 patients during the third wave of the pandemic and subsequently opened as a full-service hospital.

These historic investments will also bring a new hospital to Peel Region in Brampton, as your government addresses years of neglect by transforming Peel Memorial Centre from a day clinic into a state-of-the-art, 24-hour facility.
Your government will also continue to make progress in delivering a new hospital for the people of Windsor-Essex, who have long advocated for their voices to be heard and health needs to be met.

A chronic lack of capacity was not isolated to the province’s hospitals.

This pandemic also brought into sharp relief the long-standing vulnerabilities of the province’s long-term care sector. It uncovered unimaginable horrors, allowed because of decades of underfunding and neglect.

We owe Ontario’s seniors so much; we owe them the opportunity to age and live with dignity. Your government will be there for them. Long-term care home residents are being neglected no more.

Your government is investing $2.68 billion to build 30,000 new and modern long-term care home beds in a decade, as thousands more are upgraded to 21st-century design standards.

Together with partners on the frontlines, Ontario is making good progress against this ambitious goal.

In total, there are more than 20,000 new and 15,000 upgraded beds in development, representing more than 60 per cent of the province’s goal.

But more beds aren’t enough on their own. Ontario has for too long lagged in delivering quality care to long-term care home residents.

Between 2009 and 2019, the average total amount of care provided to residents increased by only 22 minutes from all providers. We must do more. Your government is doing more.

Ontario is investing nearly $5 billion over four years to hire more than 27,000 long-term care staff, including nurses and personal support workers. In doing so, Ontario will provide long-term care home residents with four hours of direct care per day.

While meeting this commitment will take time, your government is urgently at work. By April 2022, Ontario will make significant progress by adding 16,200 more personal support workers to the health care system, including the province’s long-term care sector.

To fix the structural problems that have long plagued the sector, this fall your government will also introduce legislation to protect residents through better accountability, enforcement and transparency.

The days when bad actors could get away with anything less than quality care for our most vulnerable will be over.

While the province will never stop in its pursuit of fixing long-term care or building much-needed hospital beds, these efforts will only benefit from the federal government paying its fair share.

That is why Ontario has joined with every other province and territory in calling on the federal government to increase the Canada Health Transfer to 35 per cent of provincial-territorial health-care spending.

The original promise of medicare included fifty-fifty funding between the federal government and the provinces and territories for critical health services. Since then, the federal government’s share has eroded, to the point where the Canada Health Transfer now only funds an average of 22 per cent of total provincial health-care costs.

This persistent gap represents billions of dollars in lost funding that Ontario could use to accelerate progress in delivering better care for our most vulnerable citizens. And addressing this gap represents an unprecedented opportunity to demonstrate to Canadians that their governments are united.
With the recent federal election having now been decided, your government will continue to work with Ottawa to advance the issues that matter most to the people of Ontario. We will work together to beat COVID-19 and put this pandemic behind us.

Our province is making progress. As a result of the hard work of every Ontarian, the province is beating back the worst of the Delta-driven fourth wave.

While we should be proud of our progress, we cannot be lulled into a false sense of security. Your government will remain vigilant in the face of the ongoing threat posed by this pandemic.

As more and more people step forward to get their vaccines, each dose brings more certainty that the days of widespread closures and lockdowns are behind us. Each dose allows us to more confidently plan for the future.

Because big challenges lay ahead.

Through no fault of their own, many Ontarians have fallen behind. Young adults, students and hospitality workers, among others, have been asked to shoulder so much of a pandemic that has demonstrated that too many workers live too precariously. At the same time, take home pay for many workers has not kept up with rising costs.

While necessary, months of public health measures have left a heavy toll on people’s mental health and wellbeing, with more Ontarians now struggling with anxiety, depression and substance abuse.

In particular, as our frontline health care heroes have cared for us, they have done so at great expense to their mental and physical wellbeing. Ontario’s efforts to rebuild a health system stretched to its limits and repair the province’s long-term care sector will respect the unique challenges faced by our doctors, nurses and personal support workers, as well as the countless other frontline heroes.

Significant fiscal challenges also loom on the horizon.

Throughout the pandemic, your government has never hesitated to spend what is necessary to protect lives and support families and businesses. Unprecedented levels of spending have created new fiscal challenges.

Your government remains steadfast in its commitment to an economic and fiscal recovery that is fueled by economic growth, not painful tax hikes or spending cuts.

To do so, your government will build Ontario. Build roads and highways. Build and expand transit to communities across the province. Build an economy that makes Ontario the best place in the world to do business, work and raise a family – no matter where you live in the province. This is how Ontario will create the conditions for long-term economic growth.

As your government tackles these issues that challenge the social and economic fabric of Ontario, it will do so in cooperation with municipal leaders.

Your government will also continue to engage with Indigenous communities in true partnership as we continue the work toward meaningful reconciliation. A few short days ago, Ontario and Canada observed the inaugural National Day for Truth and Reconciliation. On that day, today and every day, your government will work to strengthen its relationship with Indigenous peoples and play an active role in supporting healing and reconciliation.
There’s no question, over the past 18 months the people of Ontario have been tested like never before. Through it all, during what felt like our darkest days, we’ve also seen the best of what our province has to offer.

These are the qualities that have propelled Ontario’s progress throughout the COVID-19 pandemic. This is the Ontario spirit that will drive us as we work together to build a brighter, more prosperous future.

Your government will be there to support you every step of the way. Thank you.

Monsieur le Président, honorables députées et députés, mesdames et messieurs, Ontariennes et Ontariens.

Tout d’abord, je voudrais commencer en soulignant que les terres sur lesquelles nous nous trouvons aujourd’hui font partie du territoire ancestral autochtone. Les autochtones ont un attachement profond pour celles-ci et continuent de façonner l’Ontario d’aujourd’hui. Je tiens donc à leur témoigner tout mon respect.

Traditionnellement, Toronto était un lieu de rencontre et d’échange pour les peuples autochtones, notamment pour les Anichinabés, les Haudenosaunee, les Wendats et les Métis. Je tiens donc à reconnaître également que nous sommes rassemblés sur un territoire visé par le Traité 13, aussi appelé « l’achat de Toronto », et je souhaite rendre hommage à la Première Nation Mississauga de New Credit.

En ma qualité de représentante de Sa Majesté la Reine, j’ai l’honneur d’ouvrir la deuxième session de la 42e législature de l’Ontario en présentant le discours du Trône.

Cette deuxième session s’ouvre alors que la province, le pays et le monde entier poursuivent leur lutte contre les nouveaux variants de la COVID-19.

En effet, les 18 derniers mois ont été parmi les plus difficiles des temps modernes.

Des familles ont été séparées, bon nombre d’entre elles ayant pleuré la perte tragique d’un être cher. Des emplois ont été perdus, des entreprises ont fermé leurs portes. Des événements marquants de la vie ont été remis à plus tard.

La pandémie nous a mis au défi et continue de le faire d’une manière imprévisible et sans précédent. Elle a une incidence sur toutes les sphères de notre vie.

La pandémie ne s’est pas déroulée de la même façon pour tous. Il est important de reconnaître que son incidence majeure s’est fait sentir sur certaines personnes, plus que d’autres.

Malgré toutes les épreuves, la population ontarienne a uni ses efforts et a démontré sa vraie nature et son esprit d’entraide.

Ces qualités ont été à la base d’un engagement collectif et d’une mobilisation contre un ennemi commun : la COVID-19.

Alors que votre gouvernement prenait des mesures extraordinaires pour freiner la propagation de ce virus, les Ontariennes et les Ontariens ont fait preuve d’une détermination remarquable. Vous avez été à la hauteur du défi et vous avez fait ce qu’il fallait pour protéger nos communautés, nos hôpitaux et, surtout, les populations vulnérables.
À maintes reprises, on vous a demandé de faire d’énormes sacrifices. Maintenant, la lumière au bout du tunnel est de plus en plus vive.

Le 14 décembre 2020, tout a changé. C’est à cette date que la province a administré une première dose de vaccin à une préposée aux bénéficiaires, Anita Quidangen.

Au plus fort de la pandémie, Anita a accepté des quarts de travail supplémentaires au foyer de soins de longue durée où elle travaille pour prendre soin des résidents âgés et fragiles. Quand on lui a demandé d’en faire plus, elle n’a pas hésité à donner l’exemple.

Comme tant d’autres travailleurs en première ligne, Anita Quidangen est une véritable héroïne pour notre province.

Anita a été la première personne à se faire vacciner, mais non la dernière. Votre gouvernement a établi une collaboration sans pareil avec les dirigeants municipaux, les responsables de la santé publique, les travailleurs de la santé en première ligne et le gouvernement fédéral pour atteindre l’un des taux de couverture vaccinale les plus élevés dans le monde en un temps record.

Aux millions d’Ontariennes et d’Ontariens qui se sont fait vacciner contre la COVID-19, merci. Chaque dose administrée contribue à protéger nos collectivités. Nous pouvons maintenant profiter de ces moments qui nous ont tant manqués.

Nous avons recommencé à passer du bon temps en famille et entre amis. De plus en plus d’entreprises ont rouvert leurs portes, et de plus en plus de gens sont de retour au travail. Les élèves ont renoué avec l’apprentissage en classe et retrouvé leurs camarades sur les terrains de jeux.

Maintenant que nous profitons des nombreux avantages liés à la vaccination d’un grand nombre de personnes, votre gouvernement s’engage à ne jamais renoncer à protéger ces progrès durement acquis.

C’est d’ailleurs pour cette raison que l’Ontario a adopté l’approche de réouverture la plus prudente au Canada.

Cette approche prévoyait des seuils de vaccination parmi les plus élevés au pays pour l’assouplissement des restrictions. Elle a assuré des mesures de santé publique efficaces, comme le port du masque à l’intérieur, tout en permettant de mettre en œuvre des politiques de vaccination pour protéger nos populations les plus vulnérables, notamment dans les maisons de retraite, les hôpitaux, les écoles, les institutions postsecondaires, ainsi que les personnes qui reçoivent des soins à domicile ou en milieu communautaire.

Plus récemment, votre gouvernement a renforcé les mesures de protection dans les foyers de soins de longue durée en rendant la vaccination obligatoire pour tout le personnel, à l’exception des personnes qui bénéficient d’une exemption médicale valide. Cette mesure vient s’ajouter aux exigences accrues en matière de test de dépistage et d’inspection. De même, l’Ontario a été la première province au Canada à offrir une troisième dose de vaccin aux résidents des foyers de soins de longue durée.

Pour soutenir la réouverture prudente de la province, l’Ontario a également instauré un certificat de vaccination. Il n’a pas été facile pour votre gouvernement de prendre la décision d’exiger une preuve de vaccination.

Trouver le juste équilibre entre la protection des droits et des libertés bien établis et la nécessité de faire tout en notre devoir pour protéger des vies a été l’un des défis les plus importants à relever pour ce gouvernement et plusieurs autres.

L’Ontario ne peut revenir en arrière. Après 18 mois de lutte contre cette pandémie, nous devons offrir la stabilité et la sécurité à nos entreprises.

Votre gouvernement reconnaît également que nous ne pouvons pas vivre en permanence avec ces mesures exceptionnelles. Le certificat de vaccination est une politique temporaire qui sera levée dès qu’il sera sécuritaire de le faire, sur la recommandation du médecin hygiéniste en chef.

Tout au long de la pandémie de COVID-19, les décisions prises par votre gouvernement pour assurer la santé et la sécurité des Ontariennes et des Ontariens ont été guidées par les données et les preuves scientifiques les plus à jour.

Alors que la couverture vaccinale continue d’augmenter chaque jour à l’échelle de la province, nous entrons progressivement dans une nouvelle phase de la pandémie.

Lors de cette nouvelle phase, même s’il est possible que les cas augmentent en raison du fait que les gens passent plus de temps à l’intérieur pendant les froids mois d’hiver, il n’y aura pas lieu de paniquer, comme l’a clairement indiqué le médecin hygiéniste en chef.

Au contraire, grâce à la protection que nous procure la couverture vaccinale de l’Ontario, l’une des meilleures au monde, les personnes vaccinées courent beaucoup moins de risque de souffrir de problèmes de santé graves nécessitant une hospitalisation.

Pendant cette nouvelle phase, le médecin hygiéniste en chef et les responsables de la santé publique de la province continueront de surveiller les indicateurs dans les hôpitaux et les unités de soins intensifs afin d’orienter la prise de décisions.

Si des mesures sanitaires supplémentaires doivent être mises en place, celles-ci seront localisées et ciblées. Sur les recommandations du médecin hygiéniste en chef, le gouvernement s’efforcera de minimiser leur incidence sur les entreprises et les familles.

Le but ultime, pour tous, est d’éviter d’autres confinements.

Pour y parvenir, votre gouvernement continuera d’investir dans le renforcement de la capacité des hôpitaux de la province.

Cette pandémie a mis en lumière l’incapacité des gouvernements précédents, tant à l’échelle provinciale qu’à l’échelle fédérale, de fournir un financement adéquat à nos hôpitaux. La conséquence directe de ce sous-financement s’est reflétée sans conteste sur notre système de santé, qui n’était pas outillé pour faire face à une telle crise.

Pour cette raison, votre gouvernement s’est engagé à faire des investissements majeurs pour ajouter des milliers de nouveaux lits d’hôpitaux et veiller à ce que du personnel infirmier et des médecins compétents puissent prodiguer des soins aux patients quand ils en ont besoin.

Grâce à ces investissements, le pourcentage de lits dédiés aux soins intensifs en Ontario est maintenant l’un des plus élevés au Canada. La province est désormais en meilleure position pour réagir à cette crise de santé et aux autres à venir.
Cet investissement s’ajoute à des investissements historiques dans la construction et la rénovation d’hôpitaux partout dans la province, notamment la construction du tout nouvel Hôpital Cortellucci de Vaughan, qui a servi de ressource pour l’ensemble de la province pendant la pandémie en y traitant les patients gravement malades de la COVID-19.

Ces investissements historiques permettront également la construction d’un nouvel hôpital à Brampton dans la région de Peel. Votre gouvernement remédiera à des années de négligence en transformant la clinique de jour du Centre Memorial de Peel en un établissement de soins de pointe ouvert 24 heures par jour.

De plus, votre gouvernement contribuera à faire avancer la construction d’un nouvel hôpital qui desservira la population de Windsor-Essex qui, depuis longtemps, réclame qu’on l’écoute et tienne compte de ses besoins en santé.

Le manque chronique de capacité n’est pas propre aux hôpitaux de la province.

La pandémie a révélé les vulnérabilités du secteur des soins de longue durée dans la province, qui ne datent pas d’hier. Elle a mis au jour des horreurs inimaginables, causées par des décennies de négligence et de sous-financement.

Nous sommes tant redevables envers nos aînées et nos aînés. Nous avons le devoir de leur offrir la possibilité de vivre et de vieillir dans la dignité. Votre gouvernement sera là pour eux. Les foyers de soins de longue durée ne seront plus jamais négligés.

Votre gouvernement investira 2,68 milliards de dollars sur dix ans pour créer plus de 30 000 nouvelles places dans des foyers de soins de longue durée, et des milliers d’autres places seront modernisées pour satisfaire aux normes de conception du 21e siècle.

En collaboration avec nos partenaires en première ligne, le gouvernement de l’Ontario progresse dans la réalisation de cet objectif ambitieux.

Au total, plus de 20 000 nouvelles places ont été créées et plus de 15 000 places sont actuellement modernisées, ce qui représente 60 pour cent de l’objectif global de la province.

Toutefois, des lits supplémentaires ne suffisent pas à eux seuls. L’Ontario accuse depuis trop longtemps un retard dans la prestation de soins de qualité aux résidents des foyers de soins de longue durée.

Entre 2009 et 2019, le nombre total moyen d’heures de soins offerts quotidiennement à chaque résident n’a augmenté que de 22 minutes, tout prestataire confondu. Nous devons en faire plus. Votre gouvernement s’est engagé à en faire plus.

L’Ontario investira près de cinq milliards de dollars sur quatre ans pour embaucher plus de 27 000 personnes dans les foyers de soins de longue durée, notamment du personnel infirmier et des préposés aux services de soutien à la personne. Cet investissement permettra au gouvernement de l’Ontario de fournir aux résidents des foyers de soins de longue durée quatre heures de soins directs par jour.

Il faudra du temps pour respecter cet engagement, et votre gouvernement déploiera tous les efforts pour y parvenir le plus rapidement possible. D’ici avril 2022, l’Ontario aura réalisé des progrès significatifs grâce à l’ajout de 16 200 préposés aux services de soutien à la personne dans le système de santé, y compris dans le secteur des soins de longue durée.

Pour régler les problèmes organisationnels qui affectent le secteur depuis longtemps, votre gouvernement proposera cet automne un projet de loi visant à protéger les résidents en renforçant la reddition de compte, les mesures de contrôle et la transparence.
L’époque où les mauvais joueurs du secteur pouvaient s’en tirer en offrant des soins de piètre qualité aux plus vulnérables est révolue.

Bien que la province ne ménage jamais ses efforts pour améliorer les soins de longue durée ou augmenter le nombre de lits dans les hôpitaux, ces efforts ne pourront se concrétiser que si le gouvernement fédéral assume sa juste part.

À cet effet, l’Ontario s’est joint aux autres provinces et territoires pour demander au gouvernement fédéral de porter à 35 pour cent sa part du financement des soins de santé provinciaux et territoriaux.

Initialement, l’engagement en matière de soins médicaux prévoyait le financement des services de santé essentiels à parts égales entre le gouvernement fédéral et les provinces et territoires. Depuis, la part du gouvernement fédéral s’est érodée, à tel point que le Transfert canadien en matière de santé ne finance plus que 22 % de l’ensemble des dépenses en santé de la province.

Cet écart persistant représente des milliards de dollars de financement perdu que l’Ontario pourrait utiliser pour améliorer les soins offerts à ses citoyennes et citoyens les plus vulnérables. En comblant cet écart, le gouvernement fédéral jouit d’une occasion unique de démontrer aux Canadiennes et aux Canadiens l’unité au sein des gouvernements à l’échelle du pays.

Les élections fédérales venant de se conclure, votre gouvernement continuera de travailler avec Ottawa pour faire avancer les dossiers importants pour la population ontarienne. Nous travaillerons ensemble pour en finir avec cette pandémie et la COVID-19.

À cet effet, notre province fait des progrès. Grâce aux efforts de la population ontarienne, nous sommes en train de surmonter la quatrième vague générée par le variant Delta. La courbe s’aplatit.

Même si nous pouvons être fiers des progrès que nous avons accomplis, nous ne pouvons pas nous laisser bercer par un faux sentiment de sécurité. Votre gouvernement demeurera vigilant face à la menace permanente que représente cette pandémie.

Alors que de plus en plus de gens se font vacciner, nous avons de plus en plus la certitude que l’époque des confinements et des fermetures généralisées est derrière nous. Chaque dose administrée nous permet de planifier l’avenir avec encore plus de confiance.

De grands défis nous attendent.

Sans que ce soit leur faute, bon nombre d’Ontariennes et d’Ontariens ont subi les contrecoups de la pandémie. De jeunes adultes, des élèves, des travailleurs du secteur de l’hôtellerie et de la restauration, entre autres, ont fait face aux répercussions d’une pandémie qui a mis en lumière la situation précaire de beaucoup trop de travailleurs. Au même moment, le salaire net de nombreux travailleurs n’a pas suivi l’augmentation du coût de la vie.

Bien qu’essentielles, les mesures de santé publique qui ont été en vigueur pendant des mois ont lourdement pesé sur la santé mentale et le bien-être des gens, et un plus grand nombre d’Ontariennes et d’Ontariens sont maintenant aux prises avec des problèmes d’anxiété, de dépression et d’abus d’alcool ou de drogues.

En outre, nos héros de la santé en première ligne, qui ont pris soin de nous, l’ont fait au détriment de leur bien-être physique et mental. Les efforts de l’Ontario pour rebâtir le système de santé qui a été poussé à ses limites et remettre sur pied le secteur des soins de longue durée de la province respecteront les défis uniques auxquels font face nos médecins, notre personnel infirmier, nos préposés aux services de soutien à la personne, ainsi que nos innombrables héros en première ligne.
D’importants défis budgétaires se profilent également à l’horizon.

Tout au long de la pandémie, votre gouvernement n’a jamais hésité à dépenser les sommes nécessaires pour protéger des vies et soutenir les familles et les entreprises. Des volumes de dépenses inégalés ont généré de nouveaux défis budgétaires.

Votre gouvernement demeure fermement engagé à relancer l’économie et les finances de la province par le biais de la croissance économique, sans avoir recours à de douloureuses hausses d’impôts ou à des coupures dans les dépenses.

Votre gouvernement s’engage à faire prospérer l’Ontario. À bâtir des routes et des autoroutes. À développer et à élargir les transports en commun dans l’ensemble des collectivités de la province. À dynamiser l’économie pour faire de l’Ontario le meilleur endroit au monde où faire des affaires, travailler et élever une famille, et ce, partout dans la province. Voilà comment l’Ontario créera les conditions propices à une croissance économique à long terme.

Votre gouvernement relèvera les défis qui touchent le tissu social et économique de l’Ontario en collaboration avec les dirigeants municipaux.

Il continuera également de s’engager auprès des communautés autochtones en établissant de véritables partenariats, tout en poursuivant ses efforts pour parvenir à une vraie réconciliation. Il y a à peine quelques jours, l’Ontario et le Canada soulignaient l’inauguration de la Journée nationale pour la vérité et la réconciliation. À cette occasion, et en tout temps, votre gouvernement veillera à renforcer ses relations avec les peuples autochtones et à jouer un rôle actif auprès d’eux en soutenant la guérison et la réconciliation.

Il ne fait aucun doute qu’au cours des 18 derniers mois, la population de l’Ontario a été mise à l’épreuve comme jamais auparavant. Malgré cela, pendant ce qui semblait être les jours les plus sombres de notre histoire, nous avons pu voir ce que notre province a de mieux à offrir.

Ces qualités qui ont permis à l’Ontario de progresser tout au long de la pandémie de COVID-19. Elles incarnent l’esprit ontarien, qui nous motive à travailler ensemble pour bâtir un avenir plus brillant et plus prospère.

Votre gouvernement sera à vos côtés pour vous soutenir à toutes les étapes du parcours. Merci.

Her Honour was then pleased to retire.  Son Honneur se retire ensuite.

The Speaker informed the House, Le Président a informé l’Assemblée,

That pursuant to Standing Order 9(g), the Clerk received written notice from the Government House Leader indicating that a temporary change in the weekly meeting schedule of the House is required, and therefore, the Afternoon Routine on Wednesday, October 6, 2021 shall commence at 1:00 p.m. (Sessional Paper No. 6).

Que, conformément à l’article 9 g) du Règlement, le greffier a reçu un avis écrit du leader parlementaire du gouvernement indiquant qu’une modification temporaire doit être apportée à l’horaire hebdomadaire des séances de l’Assemblée et, par conséquent, les affaires de l’après-midi du mercredi 6 octobre 2021 commenceront à 13 h. (Document parlementaire no 6).

The Speaker delivered the following ruling: Le Président a rendu la décision suivante :

On June 14, 2021, the Member for Lanark—Frontenac—Kingston submitted by email notice of his intention to raise a question of privilege. I am now prepared to rule on the matter without hearing further from the Member, as Standing Order 23(d) permits me to do.

In his email, the Member alleges that on June 14, 2021, the Sergeant-at-Arms attempted to prevent him from entering the voting lobby during a recorded division, because he was wearing a face shield and not a face mask, as is required by an Order of the House adopted on February 16, 2021. This, the Member submits, constituted a breach of his parliamentary privilege as it attempted to obstruct and prevent him from taking part in a vote.

The Order in question was adopted by the House almost eight months ago. It reads as follows:

Ordered, That, notwithstanding any Standing Order or Special Order of the House, for the duration of the 42nd Parliament, or until such earlier date as indicated by the Government House Leader, Members be permitted to speak and vote from any Member’s desk in the Chamber in order to observe recommended physical distancing; and

That, in addition to any Speaker’s directives for the rest of the Legislative Precinct, except when recognized by the Speaker to speak, every Member shall wear a tightly-woven fabric face mask that completely covers the mouth and nose and fits snugly against the sides of the face without gaps, while in the Chamber or either of the Members’ lobbies; and

This House acknowledges that every person seeking to enter the Legislative Precinct, including Members of the Assembly, are subject to the Speaker’s COVID-19 screening and masking protocols, and further acknowledges that application of these protocols may result in a Member of the Assembly being refused entry to the Legislative Precinct, or any part thereof; and

This House acknowledges that in such instances, the Speaker will personally make this decision, and do so in the interest of the health, safety and well-being of everyone in the Legislative Precinct, and that in doing so the Speaker is acting on behalf of this House and this House authorizes the Speaker to act on its behalf.
On June 14, during Deferred Votes, the House divided on a motion for allocation of time on Bill 307. During the course of that division, which occurred in the Members’ lobbies adjacent to the Chamber, the Sergeant-at-Arms reported to me that the Member for Lanark—Frontenac—Kingston had entered the lobby to record his vote without wearing a face mask. I was informed that the Sergeant-at-Arms reminded the Member of the requirement and offered him a proper face mask. After the division, I reported this incident to the House.

The House divided twice more that afternoon, on the motions for Second and Third Reading of Bill 307. The Sergeant-at-Arms reported to me that during each of those divisions, the Member for Lanark—Frontenac—Kingston again disregarded the February 16 Order of the House – which by now he surely understood – by entering the lobby to record his vote without wearing a face mask, which I in turn reported to the House.

I also took the opportunity to inform the House that a similar incident had occurred on May 31, 2021. In total, the Member has blatantly and deliberately disobeyed the Order of the House four times.

Before I consider the substance of the Member’s notice, I would like to speak to the requirement that questions of privilege be raised in a timely manner. As Members of this House are aware, an allegation of a breach of parliamentary privilege – which by definition is at the core of Members’ ability, both individually and collectively, to carry out their parliamentary duties – is such a serious matter that it should be brought to the attention of the House at the earliest opportunity. According to *House of Commons Procedure and Practice* (3rd edition, page 145):

> “The matter of privilege to be raised in the House must have recently occurred and must call for the immediate action of the House. Therefore, the Member must satisfy the Speaker that he or she is bringing the matter to the attention of the House as soon as practicable after becoming aware of the situation.”

I will draw Members’ attention to Standing Order 23(c), which sets out the procedure for raising a question of privilege:

> “Any Member proposing to raise a point of privilege, other than one arising out of proceedings in the Chamber during the course of a Sessional day, shall give to the Speaker a written statement of the point at least 1 hour prior to raising it in the House.”

Most questions of privilege that are raised arise from events that take place outside of the proceedings of the House. For this reason, the most common process by which Members raise questions of privilege is by providing notice at the first possible opportunity, and then subsequently raising the matter in the House. However, where a question of privilege arises out of the proceedings during the course of a meeting of the House, there is an expectation that it will be raised immediately without notice. A question of privilege arising from the division process in the lobbies meets this criterion.

Because these circumstances are rare and Members are more often required to give notice prior to raising their points in the House, I can understand why the Member’s instinct in this case was to first provide notice. Even so, if the Member believed that he had experienced obstruction in his attempt to vote in a division, he should have raised the matter in the House at the first possible opportunity.

He did not.

On June 14, the first incident occurred during the division that took place from 12:45 p.m. to 1:15 p.m. The Member filed his notice shortly after 2:00 p.m. The House then continued to meet until it adjourned at 4:24 p.m. After the first incident, the Member returned to the voting lobbies twice more before the House adjourned that afternoon, yet he chose not to enter the Chamber to raise his question of privilege.

As June 14 was the final day of the recall of the House, the next opportunity for the Member to raise his question of privilege was yesterday and again today, yet he has again declined to do so. However, given the gravity of the issues raised by the Member, I am still prepared and willing to address the substance of the question.

In the Member’s written notice, he claims that the Sergeant-at-Arms “impeded and obstructed” his attempt to vote, which amounted to a violation of his parliamentary privilege. He also noted that the face mask requirement is not included in the Standing Orders.

In response to these claims, I will remind the Member that the February 16 Order is a duly adopted Special Order of this House. In adopting the Order, the House exercised its right to regulate its internal affairs and settle its own code of procedure, a right that is itself protected by parliamentary privilege. Upon its adoption by the House on February 16, 2021, the requirement for Members to wear the prescribed face masks in the Chamber and lobbies became a rule of the House, carrying the same weight as any other provisional or permanent Order of the House, including the Standing Orders.

The parliamentary authorities offer clear guidance on the individual rights of Members as they relate to the rules and procedures of the House. At pages 13-14 of *Parliamentary Privilege in Canada*, Joseph Maingot states:

> “While it may be seen that the Member enjoys all the immunity necessary to perform his parliamentary work, this privilege or right...is nevertheless subject to the practices and procedures of the House. Thus allegations of breach of privilege by a Member in the House of Commons that amount to complaints about procedures and practices in the House are by their very nature matters of order.”

The Sergeant-At-Arms, in reminding the Member of his obligation to wear a face mask, was acting properly and professionally under the authority of the Chair, pursuant to the Order of the House, while the Member for Lanark—Frontenac—Kingston repeatedly, knowingly, and I would submit, carelessly, disregarded that Order. His conduct was reprehensible and should not be repeated. If it is, further corrective measures may have to be taken, as considered necessary and appropriate by the House.

It is for these reasons that I find that no *prima facie* case of privilege has been established.

THIRD DAY

ORDERS OF THE DAY

Second Reading of Bill 5, An Act respecting York Region Wastewater.

Debate arose and after some time the debate adjourned at 10:13 a.m.

The Speaker informed the House, That the following document was tabled:

The Speaker delivered the following ruling:

On June 14, 2021, the Member for London West (Ms. Sattler) and the Member for York Centre (Mr. Baber) rose on questions of privilege respecting the ability of Members to rise on points of order to seek the unanimous consent of the House regarding the business of the day. The Member for London West subsequently provided a written submission in support of her questions, and gave an additional oral submission to the House yesterday.
I am now prepared to rule on the questions raised by the Members.

Let us first revisit the events of June 14, which was the last day the House sat before the summer recess. At various times during that day’s proceedings, Members rose on supposed points of order, each time seeking the unanimous consent of the House to give immediate consideration to a Private Member’s Public Bill or Motion, or to move a substantive motion without notice.

Made over and over again, the requests cumulatively made it difficult for the House to conduct its scheduled business. As Speaker, I eventually found these requests to be disorderly and came to the view that they were being used for a dilatory purpose not provided for in the Standing Orders or in the Assembly’s practices. As a practical and reasonable response, I made the decision to ask the House if there was unanimous consent to consider any business other than the Bill that had been called for debate. When that consent was not granted, I chose to move on from any further unanimous consent requests, and to resume the business at hand.

Let me remind Members that among other responsibilities the Speaker has an obligation to ensure that the House is able to conduct the business that is before it. More on that later.

In the course of the day’s events, the Members for London West and York Centre raised concerns framed as issues of parliamentary privilege. While they raised objections related to the procedures and practices of the House, as well as the role of the Speaker and my response to the events of June 14, they did not establish that any parliamentary privilege had been breached.

Let me remind Members that there are a number of specific parliamentary privileges which, as Standing Order 23(a) indicates, may be categorized as either a Member’s individual privilege or a collective privilege of the House “...conferred by the Legislative Assembly Act and other statutes, or by practice, precedent, usage and custom.”

The matters brought forward by the two Members would have been more appropriately raised as points of order, and I will respond to them now as such.

It perhaps bears explaining what a point of order actually is.

A point of order, according to the 3rd edition of House of Commons Procedure and Practice at pages 636-638,

“is an intervention by a Member who believes that the rules or customary procedures of the House have been incorrectly applied or overlooked during proceedings.” […] “When recognized on a point of order, a Member should state only which Standing Order or practice the Member considers to have been breached; if this is not done, the Speaker may request that the Member do so.”

Standing Order 14 provides that, when raising points of order, Members are to make their points tersely and without interruption by other Members.

The Speaker’s responsibilities include the preservation of order and decorum in the House, and ruling on points of order. The latter involves interpreting the rules and practices of procedure to address issues as they arise out of the proceedings. The Speaker may rule either immediately after a point of order is raised, or after taking the necessary time to consider the Standing Orders and precedents.

While the Speaker should hear a valid point of order when one is raised, the Chair retains the discretion not to entertain a Member who persists with points of order. This discretion is supported by various procedural authorities. Erskine May at paragraph 21.49 of the 26th edition says that “Speakers have exercised discretion over the taking of points of order.”
House of Commons Procedure and Practice at page 637 says that “points of order are often used by Members in attempts to gain the floor to participate in debate; in such cases, the Speaker will not allow the Member intervening to continue.”

Finally, Australia’s House of Representatives Practice at page 193 of the 7th edition says that when “points of order which are inordinately long, frivolous or of dubious validity” are raised, “the Chair would normally intervene.”

What is a valid point of order? The question is sometimes muddled because of the occasional but longstanding practice of using points of order to gain the floor for purposes not actually related to matters of order.

Speakers have not objected to allowing Members, from time to time, to use points of order (for example) to apologize, to ask for a moment of silence, to seek unanimous consent to expedite the business of the House or waive notice, to vote on a motion without debate, to wish a member a Happy Birthday or announce the birth of a child, or on occasion to immediately pass a bill. While this has been a somewhat common practice, it is one that is typically used sparingly, and has mostly been used when there is known agreement among the parties to proceed with the request.

In her written submission, the Member for London West noted that the successive requests for unanimous consent that were made on June 14 were similar to requests that had been made on many occasions in this Parliament, requests that at the time were deemed acceptable. In her submissions yesterday, the Member made the point that conducting business by unanimous consent is very often helpful to the House and, indeed, it occurs frequently enough in this House that it could be said to have entered the realm of established practice. I agree.

The Member also said that historically there have been few limitations on the subject matter or nature of unanimous consent requests. I also agree with that assertion, but this is the point where a distinction can be made between what has become an accepted part of our practice and where what happened on June 14 deviated from that practice: the sheer extent and volume of those requests on June 14 was a striking and obvious change from the typical use of unanimous consent requests. In other words, it is not the case that Members can utter the phrase “point of order” and the Speaker is then somehow obligated, each and every time, without limit, to give members the floor and interrupt whatever other business is properly before the House.

Indeed, previous Speakers have intervened to deal with the kind of dilatory measures that occurred on June 14.

For instance, on April 2, 1997, at pages 7523-7524 of the Debates, the House found itself in a very similar circumstance to the one we are contemplating today. After Members raised several lengthy points of order and requests for unanimous consent in succession, Speaker Stockwell decided to disallow further interventions so that the House could move on to the next proceeding, providing the following explanation:

“I don’t ever want to cut a Member off from a point of order because I think it’s very, very important that they have the right to stand on those points of order, but it’s also very important that we are allowed to continue the business of the day.”

A few days later, on April 6, 1997, at page 8386 of the Debates, Speaker Stockwell elaborated on the role of the Speaker:
“I believe that a modern definition of Speaker requires that decisions are taken which are also in the best interests of the institution of Parliament. On occasion, in particular when faced with extraordinary circumstances, Speakers may have to intervene in a way which seeks to enable the Parliamentary process to accomplish the business at hand.”

Our precedents are supported by similar decisions made in the Canadian House of Commons. In a ruling from May 27, 2019, at page 28,059 of the Debates, Speaker Regan explained that the use of unanimous consent to expedite the business of the House

“confers on the Chair a certain discretion to determine to what extent a motion needs to be read, particularly when they are unusually lengthy or when multiple motions are presented one after the other. On February 6, 2004, Speaker Milliken had stated at page 245 of the Debates:

‘I want to say right off that if every member had the right to stand up and ask for consent to move motions and then stood here and read motions all day, no business would be conducted in the House. In my view members do not have such a right. They are asking for consent and if consent is not going to be given, then we cannot have interminable requests for unanimous consent.’”

Speaker Regan concluded that

“requests for unanimous consent are not to be used as a method to thwart the rules of the House or as a dilatory tactic. Therefore, to uphold the integrity of the process, the Chair will continue to invoke its authority, particularly when it becomes clear that the motions are deliberately too lengthy, when they are continuously attempted in a repetitive way or when they stray into the realm of debate.”

Applying these authorities to what happened on June 14, the requests may have been individually acceptable, but the volume and disruptive effect of these requests made it a matter of order requiring intervention by the Chair pursuant to Standing Order 14(a). Parenthetically, it is worth being mindful of the possibility that the business before the House could just as easily have been an Opposition Day motion or an item of Private Member’s Public Business, and to consider the impact of repeated and dilatory points of order in that context.

The Member for London West and the Member for York Centre questioned the Speaker’s decision to test the House by asking if there was unanimous consent to consider matters other than the business currently before it. Again, this was a prerogative of the Speaker, and is.

Erskine May explains at paragraph 21.49 of the 26th edition that “cases may arise upon which the rules of the House are indistinct or obsolete or do not apply directly to the point at issue. The Speaker will then usually give a ruling to cover the new circumstances, on occasion referring the matter to the judgement of the House.” Beauchesne’s Parliamentary Rules and Forms of the House of Commons of Canada, 6th edition, at page 98 states: “Sometimes, instead of expressing an opinion on one side or the other, the Speaker may ask instructions from the House…”

One example from our own practice occurred on March 2, 2006, at pages 2364-2365 of the Debates. A Member raised a point of order regarding the division procedure provided by a time allocation motion; the Member argued that it was out of order, and proposed an alternative way of proceeding. While the Member himself did not seek unanimous consent, the Speaker took it upon himself to test the House to see if there was unanimous consent to address the issue raised by the point of order – and in that case there was.
Finally, I will address the question raised by the Member for York Centre, in which he asserted that “there’s nothing in the rules that precludes a Member from rising on a motion without notice, whether it’s brought under a point of order or not.”

In response, I will direct the Member’s attention to the definition of substantive motions contained in Standing Order 3, which states: “Such motions require notice and must be submitted to the Speaker in writing when moved, before being put to the House for debate.” As well, Standing Order 101 establishes the requirements for filing notice of and moving a Private Member’s Motion.

In short, points of order will normally be heard, and legitimate points of order will be acknowledged and recognized. But if they are repeated over and over, and they are intended to obstruct the business of the House, we may have to move on.

I will conclude by saying that the House has exclusive control of its own proceedings, and it has a long history of adapting in the face of new challenges so that it can continue to carry out its functions. I will continue to endeavour to maintain an appropriate balance between individual Members’ ability to gain the floor and the orderly progress of the business of the House. I thank the Members for their submissions.

ORDERS OF THE DAY
Opposition Day
Ms. Horwath moved, Mme Horwath propose,
Whereas COVID-19 has tragically revealed the systemic failures of long-term care in Ontario; and
Whereas the previous Liberal government expanded privatization in long-term care, causing an erosion of care that now needs to be reversed; and
Whereas successive Conservative and Liberal governments failed to hold accountable for-profit long-term care operators who prioritized profit over safety and quality of care; and
Whereas evidence suggests that COVID-19-related deaths in long-term care were more frequent in for-profit long-term care homes than those operated by municipalities or non-profit organizations, and research data from as far back as 2011 suggests for-profit facilities “are less likely to provide good care than non-profit or public facilities”; and
Whereas the Ford Government acted faster to pass Bill 218, the Supporting Ontario’s Recovery and Municipal Elections Act 2020 and shield negligent for-profit operators from accountability than it has to improve quality of care for our parents and grandparents or the working conditions of the PSWs and medical professionals who take care of them; and
Whereas some homes, such as Pickering’s Orchard Villa facility, are still being considered for licence renewal and expansion by the Ministry of Long-Term Care, despite the horrific conditions uncovered by the Canadian Armed Forces that resulted in 70 COVID-19 deaths in the home; and
Whereas investing in not-for-profit long-term care would mean that more money is available to improve the quality of care for our loved ones who call these facilities home, and multiple studies show that not-for-profit facilities provide, on average, more hours of care per resident and are better at retaining the qualified staff our loved ones depend on; and
Whereas the Ford government is preparing to reward some of the for-profit companies with the worst performance records during the first and second waves of the pandemic with 30-year licences and millions of dollars in public funds;
Therefore, the Legislative Assembly calls on the Ford government to place an indefinite moratorium on the issuing of new licences and the renewal of licences of for-profit long-term care providers and prioritize the development of not-for-profit long-term care in Ontario.
Debate arose and after some time,
The question was then put.

INTRODUCTION OF BILLS
The following Bills were introduced and read the first time:-

Bill 26, An Act to amend the Public Transportation and Highway Improvement Act with respect to the jurisdiction and control of Ottawa Road 174 and County Road 17. Mr. Blais.

Bill 27, An Act to amend various statutes with respect to employment and labour and other matters. Hon. Mr. McNaughton.

MOTIONS
On motion by Ms. Khanjin,
Ordered, That the following changes be made to membership of the following Committees:

PETITIONS

ORDERS OF THE DAY
Ms. Horwath moved,
Whereas nursing shortages across Ontario have resulted in temporary ER shutdowns, growing wait times for surgeries and procedures, and increased burnout for nurses who are working longer and harder because of the pandemic; and
Whereas the shortage has also impacted long-term care and persons with disabilities who rely on nurses for support to attend school and other daily activities; and
Whereas the former Liberal government froze hospital budgets and cut 1,600 nurses, and the Ford government has not restored these positions; and
Whereas the stress of understaffing and burnout caused by the pandemic was only made worse by the Ford government’s decisions to cut funding for sick leave for nurses isolating due to on-the-job COVID exposure; and

Whereas the rate of nurses leaving the profession is double what it was before the pandemic and Bill 124’s wage cap unfairly penalizes nurses and other frontline workers, preventing them from negotiating salaries that keep up with the cost of living in Ontario, and has forced nurses to pay back pay increases that have been fairly negotiated; and

Whereas Ontario is facing a dangerous shortage of critical care nurses, cancer care nurses and other essential ICU and surgical staff, yet the Ford government has failed to take decisive action on an aggressive recruitment and retention strategy;

Therefore, the Legislative Assembly calls on the Ford government to take immediate action on a province-wide healthcare hiring and retention plan that includes the repeal of Bill 124, more education and training opportunities, full-time hours, paid sick days for all health care workers, decent wages and the funding necessary to ensure sufficient staffing to prevent burnout, reduce wait times and ensure the high quality, timely care Ontarians deserve.

Whereas Ontario needs to build one million homes over the next 10 years to keep up with the need for housing, according to the Smart Prosperity Institute; and
Whereas consecutive Liberal and Conservative governments have developed policies geared more to politically connected developers and speculators than regular people; and
Whereas the ability to purchase a home should not depend on how wealthy your parents are, and rising home prices have made it increasingly difficult for working people to afford homes in the province, driving record numbers to leave Ontario in search of places they can afford; and
Whereas housing speculators have only made the crisis worse, creating bubbles that make it harder for low- and middle-income Ontarians to enter the market; and
Whereas speculation and vacancy taxes have proven effective in prioritizing homes as places for people to live, instead of financial commodities for deep-pocketed speculators; and
Whereas the Ontario Real Estate Association has called on the Ford government to end unfair and exclusionary zoning practices to allow more affordable “missing middle” housing options like duplexes and townhouses to be built in urban neighbourhoods close to jobs, services and amenities, and the Ontario Federation of Agriculture has called on the Ford government to protect farmland from needless urban boundary expansions;
Therefore, the Legislative Assembly calls on the Ford government to develop an affordable home ownership plan that: implements speculation and vacancy taxes to help cool the market and fund affordable housing; updates land use planning rules to accelerate the construction of “missing middle” housing and other affordable home ownership options, while protecting farmland and natural heritage from wasteful sprawl; and introduces new, environmentally progressive building standards to make homes greener and more energy-efficient.

ORDERS OF THE DAY

Second Reading of Bill 27, An Act to amend various statutes with respect to employment and labour and other matters.

Debate resumed, during which the Deputy Speaker interrupted the proceedings and announced that there had been six and one-half hours of debate and that the debate would be deemed adjourned.

The Deputy Government House Leader (Ms. Khanjin) directed that the debate should continue.

The debate adjourned at 10:13 a.m.

10:15 A.M. 

The Speaker delivered the following ruling:-
On November 2, 2021, the Member for Timiskaming—Cochrane (Mr. Vanthof) raised a point of order concerning the motion that was passed by the House the preceding day, Monday, November 1.

The Government House Leader (Mr. Calandra) and the Member for Ottawa South (Mr. Fraser) also made submissions related to the point of order that was raised.

The motion in question provided for six of the Assembly’s nine Standing Committees to be authorized to meet at the call of the Chair for the remainder of the Fall sitting period, and any extension thereof. The Member contended that the motion represents a misapplication of Standing Order 3. While the point of order should have been raised when the motion was originally before the House, I will nevertheless deal with it now.

The motion was moved as a routine motion, without notice, during “Motions” in the Afternoon Routine. The Member noted that he had found only one example in the previous 20 years, outside of the current Parliament, when a similar motion had been moved as a routine motion.

The Member put forward the case that while there had been similar motions in the recent past – each of which was moved during “Motions” without notice as a routine motion, and each of which passed without procedural objection – they were out of step with long-standing procedure and should now be seen as contrary to practice, and presumably not allowed in the future.

The Member presented theoretical concerns about the effect that the motion could have on the operation of the relevant Standing Committees, and specifically the potential for Committees to be called to meet at irregular times, or at times that might conflict with other parliamentary proceedings. Given this potential broad impact, in the opinion of the Member, the motion should only have been moved either with unanimous consent, or as a substantive motion with notice.

The fact that motions of this type have been put forward only relatively rarely as routine motions is not procedurally fatal to the orderliness of Monday’s motion. While the House may have chosen to deal with the previous motions differently, the Speaker cannot know why this would be the case, and I was not aware of a procedural objection before yesterday.

Was the motion a routine motion that was eligible to be moved during “Motions” without notice? The very plain meaning of the definition of “Routine Motion” in Standing Order 3 suggests that it was. The motion relates exclusively to the meeting schedule of the six named Committees, which is one category of procedural motion that is specifically defined as being routine.

The speculative effects of the implementation of the motion are not relevant. Committees are the creatures of the House, and the House is fully empowered to instruct, direct and give authority to its Committees as it sees fit. Nothing in the terms of the motion compelled or even contemplated that the Committees would necessarily meet in the ways the Member suggested. Nevertheless, the Committees control their own agendas – subject to direction from the House, as I have noted – and thus are free to organize their business as they see fit, as determined ultimately by the majority. The motion does not suspend any Standing Orders or otherwise proscribe the normal procedures and rules of the six Committees.

I therefore find that the motion is a routine motion, properly moved, considered and disposed of by the House, and that it does not contain provisions that are abusive of the rules or that represent an inherent disadvantage to any part of the House.

I want to thank the Members for their submissions on this important matter.

ORDERS OF THE DAY
Opposition Day
Ms. Horwath moved, Mme Horwath propose,
Whereas the cost of living is the number one concern for many Ontarians, and many are worse off than they were in 2018; and
Whereas hydro rates have increased every year since the Ford government took office despite the Premier’s promise of a 12% rate cut, and skyrocketing costs for food, housing, transportation, auto insurance and gasoline are higher than ever while wages remain flat; and
Whereas the Ford Government’s three-year, ongoing low-wage policies are among the leading reasons for low and stagnant wages across Ontario; and
Whereas the previous Liberal government’s inaction on the minimum wage from 2014 to 2017 added to the challenges faced by Ontario’s lowest paid workers and increased the gap between the very wealthy and working Ontarians; and
Whereas Premier Ford’s 2018 cancellation of the minimum wage increase hit frontline and essential workers hardest, resulting in at least $5300 in lost earnings since January 1, 2019 for full-time minimum wage workers, and the proposed $15 minimum wage fails to keep up with inflation; and
Whereas government inaction on the housing crisis, affordable childcare, paid sick days and meaningful supports for struggling small businesses have caused more and more everyday Ontarians to fall behind;
Therefore, the Legislative Assembly calls on the Ford government to end its low-wage policies and develop a meaningful plan to tackle Ontario’s cost-of-living crisis by restoring the lost earnings of workers affected by the Premier’s minimum wage freeze; taking real action on unaffordable rent and soaring home prices; working with the federal government to implement $10-a-day childcare; providing financial assistance for small businesses affected by the pandemic; and keeping its promises to lower the cost of hydro, auto insurance and gasoline.

ORDERS OF THE DAY

Opposition Day
Ms. Horwath moved,
Whereas Brampton is one of the fastest growing and most diverse cities in the country, yet remains one of the most underserved cities in Canada in terms of healthcare services and investments; and
Whereas the previous Liberal government ignored the growing health services crisis in Brampton by refusing to build a new hospital; and
Whereas despite the challenges of the pandemic, the Ford government has broken its promise to upgrade Peel Memorial to a full hospital, walking away from the Premier’s commitment to build the second emergency room and acute care beds required to address long waits and a lack of capacity in the City’s one existing hospital; and
Whereas consecutive Liberal and Conservative governments have repeatedly failed to deliver on promises to improve healthcare in Brampton, despite the need for a minimum of 850 new beds and the construction of a third full-service hospital to address overcrowding and hallway medicine in Canada’s ninth-largest city;
Therefore, the Legislative Assembly calls on the Ford government to immediately provide the funding necessary to address the 850 beds needed in Brampton, build a new emergency room and beds at Peel Memorial, and build a third hospital to appropriately address the city’s healthcare needs.

Debate arose and after some time, The question was then put.

ORDRES DU JOUR

Jour de l’opposition
Mme Horwath propose,
Whereas Brampton est l’un des plus grandes villes et les plus diversifiées du pays, mais reste l’une des villes les plus sous-servies au Canada en termes de services de santé et d’investissements; et
Whereas le gouvernement fédéral précédent a ignoré la crise en santé aux États-Unis dans Brampton en refusant de construire un nouvel hôpital; et
Whereas malgré les défis de la pandémie, le gouvernement Ford a rompu sa promesse de mettre à niveau l’hôpital Peel Memorial à un hôpital complète, en se maintenant pour le deuxième centre d’urgence et des lits d’accueil requis pour répondre aux longs délais et une capacité insuffisante dans l’hôpital de la ville un existant hôpital; et
Whereas le gouvernement conservateur et les gouvernements libéraux précédents ont répétitivement échoué à livrer sur leurs promesses d’améliorer la santé en Brampton, bien que la nécessité pour un minimum de 850 nouveaux lits et la construction d’un troisième hôpital de service complet pour répondre à l’engorgement et la médecine d’urgence dans la neuvème plus grande ville du Canada;
Donc, la législature appelle le gouvernement Ford à fournir les fonds nécessaires pour répondre aux 850 lits nécessaires dans Brampton, construire un nouvel centre d’urgence et des lits à Peel Memorial, et construire un troisième hôpital pour répondre de manière appropriée aux besoins de santé de la ville.

Il s’élève un débat et après quelque temps,
La question a ensuite été mise aux voix.

REPORTS BY COMMITTEES

Standing Committee on Public Accounts:

Mr. Natyshak moved the adoption of the Committee’s Report as follows:
On April 28, 2021, the Standing Committee on Public Accounts passed a motion requesting that the Auditor General conduct a value-for-money audit on Laurentian University’s operations for the 2010-2020 period. On October 6, 2021, the Auditor General updated the Committee on restrictions imposed by the University on her office’s work.

The Committee sent three letters to Laurentian University, on October 15, October 22 and November 3, 2021. The first two letters demanded that Laurentian University produce the documents required by the Committee in order to conduct its work. The last letter requested Laurentian to specify its objections to the Committee’s demand. The Committee received correspondence from counsel to the University on October 19, October 29 and November 10, 2021, indicating that the University was not willing to provide all of the documents requested by the Committee. On November 17, 2021, the University began to produce to the Committee some documents it had deemed did not contain privileged information or relate to the University’s ongoing Companies’ Creditors Arrangement Act (“CCAA”) restructuring proceedings.

On November 18, 2021, the Committee sent a letter inviting representatives from Laurentian University, with counsel, to appear before the Committee in order to explain the University’s position regarding the Committee’s authority to compel the production of documents; to address the University’s concerns regarding the sensitivity of documents related to the audit of Laurentian University; and to explain the University’s plan to comply with the Committee’s demand for the production of documents in a full and timely manner. Counsel for the University responded on November 22, 2021, indicating that the University’s representatives and counsels would be in attendance before the Committee on December 1, 2021.

On November 30, 2021, counsel for Laurentian University sent a letter to the Committee offering to produce (i) all documents, including those subject to privilege, created before the University began to consult with external insolvency counsel in March 2020, and (ii) many non-CCAA privileged documents created after that date, but only subject to wholly unacceptable conditions challenging the rights and privileges of Parliament. The University remains unwilling to provide documents related to the CCAA restructuring.

On December 1, 2021, representatives from Laurentian University and their counsel appeared before a closed session meeting of the Committee.

At its meeting on Wednesday, December 8, 2021, the Committee adopted a motion requesting that the House authorize the Speaker to issue a Warrant to command and compel the production of the documents set out in Appendices A and B of this report.

The Committee previously met on three occasions (October 6, October 20 and November 3, 2021) to discuss this matter. At the first two meetings, the Committee agreed to send letters to Laurentian University demanding the documents that the Committee needed to do its work effectively.

Laurentian University has provided some of the documents requested by the Committee, but has refused to provide all of the documents outlined in the Committee’s letters.

Your Committee therefore recommends that the House command and compel Dr. Robert Haché and Mr. Claude Lacroix of Laurentian University to produce to the Committee by February 1, 2022 the documents set out in Appendices A and B of this report, as provided for by the constitutional doctrine of Parliamentary Privilege and that the Speaker issue a Warrant to such effect. (Sessional Paper No. 80).
Mr. Natyshak moved adjournment of the debate.

Lost.

Debate arose and after some time,
The question was then put.
Carried.
Report adopted.

ORDERS OF THE DAY

Opposition Day

Ms. Horwath moved,

Whereas it has been estimated that up to a million Ontarians have been forced to postpone surgeries including cancer surgeries, heart bypass surgeries and knee and hip replacements, and people have been forced to delay cancer screenings, CT and MRI scans and other medically necessary procedures – and many will have to wait almost three years before receiving care; and

Whereas more than 80% of Ontarians have listed the backlog of services among their top healthcare concerns; and

Whereas Ontarians in rural areas are often forced to wait even longer than those in urban areas for treatment, and are regularly required to leave their communities for care; and

Whereas the former Liberal government froze hospital budgets and cut 1,600 nurses, and the Ford government’s failure to adequately fund hospitals and community clinics only worsened the impact of the pandemic; and

Whereas the Ford government’s 2021 budget promised less than half of the funding Ontario’s Financial Accountability Officer and the Ontario Medical Association identified as necessary to clear the surgical backlog in 2021; and

Whereas the cost of the backlog has likely grown as a result of additional surgical delays brought about by the January 2022 directive to cancel 8,000-10,000 surgeries and procedures during the Omicron wave;

Therefore the Legislative Assembly calls on the Ford government to: follow the advice of Ontario’s Financial Accountability Officer and immediately allocate a minimum of $1.3B in new funding to address the backlog; work in consultation with communities and locally-based service providers to develop and implement a strategy to provide additional funding and supports necessary to address health care needs in rural and small town Ontario; and extend support for local hospitals and community clinics via a healthcare hiring strategy that includes the repeal of Bill 124.

**ORDERS OF THE DAY**

**ORDRES DU JOUR**

Opposition Day

Ms. Horwath moved, Mme Horwath propose,

Whereas over 90% of Ontario’s seniors and people living with disabilities report that they prefer to receive care at home instead of entering institutionalized long-term care, and many Ontarians would benefit from culturally relevant home and community care; and

Whereas 85% of doctors surveyed by the Ontario Medical Association believe that increased access to home care would improve health outcomes for patients and allow people to stay in their homes longer, and the Ontario Hospital Association estimates that lack of access to home and community care costs the province hundreds of millions of dollars each year; and

Whereas home care providers have seen their ability to meet service requests cut in half since the start of the pandemic, leaving thousands of frail Ontarians without care due to underfunding and massive healthcare staffing shortages; and

Whereas cuts to home care and community care by successive Conservative and Liberal governments have failed patients, PSWs and nurses in home and community care even before COVID-19, with jobs that pay anywhere from 10-30% less than those in hospitals and long-term care settings while forcing some support workers to pay for the cost of travel between clients out of their own pockets; and

Whereas the Protecting a Sustainable Public Sector for Future Generations Act, 2019 (previously Bill 124) has made it nearly impossible for the home and community care sector to support hiring and retaining PSWs and nurses in full-time work, and has contributed to soaring vacancy rates for nurses and PSWs across the province; and

Whereas, despite the hard lessons of the pandemic, the Ford government failed to provide adequate funding for hiring and retention of home and community care workers in both the 2021 Budget and the 2021 Fall Economic Statement;

Therefore the Legislative Assembly calls on the Ford government to make much needed investments in public, not-for-profit home care via a strategy that: increases access to affordable, high quality, culturally relevant home and community care services throughout the province; establishes provincial standards for the delivery of care across Ontario; commits to a public, not-for-profit system; and ensures adequate staffing levels for nurses, PSWs, and other care providers in the sector by closing the pay gap and repealing Bill 124.

ORDRES DU JOUR
Deuxième lecture du projet de loi 88, Loi édictant la Loi de 2022 sur les droits des travailleurs de plateformes numériques et modifiant diverses lois.

Il s’élève un débat et après quelque temps, à 10 h 15, le débat était adjourné.

10:15 A.M.
With unanimous consent to move a motion without notice,
Ms. Singh (Brampton Centre) moved,

Avec le consentement unanime de proposé une motion sans préavis,
Mme Singh (Brampton-Centre) propose,
That Members be permitted to make statements in recognition of the International Day for the Elimination of Racial Discrimination during Afternoon Routine today, with five minutes allotted to the Government, five minutes allotted to the Opposition, and five minutes allotted to the Independent Members as a group.

The question was then put. Adopté.

Carried. Adoptée.

The Speaker delivered the following ruling: Le Président a rendu la décision suivante:

On March 10, 2022, the Member for London West and Official Opposition House Leader (Ms. Sattler) raised a point of order respecting what she suggested was a conflict between the notice provisions for the consideration of Private Members’ Public Business, as set out in Standing Order 101(e), and the power of the House to discharge an Order for Second Reading of a public bill and refer it to committee, provided by Standing Order 77(a). The Government House Leader (Mr. Calandra) also spoke to the point of order. Certain Members had been grappling with this matter for several days prior, with related points of order raised by the Official Opposition House Leader on March 3 and March 9, and the Government House Leader and the Member for Scarborough—Guildwood (Ms. Hunter) offering comments on those points as well. I am now prepared to rule on the question raised on March 10.

First, by way of background:

The Member for York South—Weston (Mr. Hassan) was assigned Ballot Item Number 30 on the Order of Precedence for Private Members’ Public Business, with a corresponding date of March 10, 2022. Pursuant to Standing Order 101(e), the business that the Member wished to bring forward for consideration on that day was required to appear on the Orders and Notices Paper by February 24, either in the form of a notice of motion or an order for Second Reading of a Private Member’s Public Bill. The Member for York South—Weston met this deadline with the introduction on February 23 of Bill 86, An Act to enact two new Acts and to amend various Acts to combat Islamophobia and hatred, which appeared on the February 24 Orders and Notices Paper as the item of business designated for debate on March 10.

On March 3, in “Motions” during the Afternoon Routine, the Government House Leader moved “that pursuant to Standing Order 77(a), the Order for Second Reading of Bill 86 be discharged, and the Bill be referred to the Standing Committee on Justice Policy”. That motion carried in a recorded division. The discharge of the Order for Second Reading of the Bill effectively nullified Mr. Hassan’s notice of his intention to move Second Reading of the Bill as his item of Private Member’s Public Business.

It was on this point that the Official Opposition House Leader raised her first point of order on the subject. She argued that the March 3 motion was moved without Mr. Hassan’s consent, and that the resulting Order of the House served to deny him the opportunity to bring his Bill forward for debate as his item of Private Member’s Public Business. At that time, I ruled that there was no valid point of order. The motion moved by the Government House Leader was in order, and it was adopted by the House.

On March 7, with unanimous consent, the Government House Leader put forward a substantive motion that would have provided for another bill co-sponsored by the Member for York South—Weston (Bill 87, An Act to proclaim Black Mental Health Day and to raise awareness of related issues), to be designated for consideration as the Member’s ballot item on March 10, in place of the co-sponsored Bill 86. In the midst of debate on the motion, the Government House Leader withdrew it, as Standing Order 56 permitted him to do.
On March 9, the Official Opposition House Leader again raised the matter on a point of order, this time highlighting the fact that the Member for York South—Weston had taken all steps required by the Standing Orders for him to move Second Reading of Bill 86 during his assigned time for Private Members’ Public Business. On that point, I again ruled that there was nothing procedurally out of order in the events that had taken place. I had hoped at that time that it would be possible for the matter to be addressed via communication between the Members involved, as these kinds of issues so often are, and I looked to the House Leaders to seek a resolution.

This brings us to March 10 and the fact that when the Order for Mr. Hassan’s ballot item was called, he had no business standing on the Orders and Notices Paper that complied with the notice requirements. Therefore, no business was called.

In raising her third point of order on the matter, the Official Opposition House Leader made the case that the current situation demonstrates an inherent conflict between the notice requirements provided in Standing Order 101(e), and the power of the House provided for in Standing Order 77(a). She sought my ruling pursuant to Standing Order 1(c), which allows the Speaker to decide on all contingencies not provided for in the Standing Orders.

In their remarks, both the Official Opposition House Leader and the Government House Leader acknowledged that Standing Order 77(a) does not distinguish between Government Bills and Private Members’ Public Bills. The Official Opposition House Leader argued that because Standing Order 77(a) has less frequently been applied to Private Members’ Public Bills than to Government Bills, our procedures implicitly distinguish between them. The Government House Leader, on the other hand, argued that the absence of a distinction should be interpreted as an intentional choice of the House at the time that the Standing Order was adopted.

What is clear is that the Standing Order references “public bills”, which leads to only one possible conclusion: that pursuant to Standing Order 77(a), on a motion by the Government House Leader, the House has the authority to discharge the Order for Second Reading of any public bill and refer it to committee – this necessarily includes both Government Bills and Private Members’ Public Bills.

The appeal made to the Speaker in this matter is to decide a question that is not provided for in the Standing Orders. However, as the foregoing sets out, the situation raised by the point of order does not arise because of gaps in the rules of procedure. Both Standing Order 77(a) and 101(e) were duly adopted by the Assembly many years ago, and both were correctly applied in the context of this situation with the Member for York South—Weston’s ballot item.

It is worth noting here that the Member for York South—Weston could possibly have made use on March 3 of the provision in Standing Order 101(c) to exchange places with another member in the order of precedence, thereby conserving his ability to bring forward an item of business at a later date. However, the Member would have had less than 4 hours that afternoon to make such an arrangement, which would have required the swift agreement of a willing colleague. Therefore, while this was procedurally possible, it was impractical and virtually impossible.

While the outcome has no precedent, it is neither out of order, nor the result of procedural error or misapplication, nor are we left with a “stub” or “remnant” of unfinished or incomplete business that can only be rectified with the Speaker’s intervention under Standing Order 1(c) – my finding is that there is nothing to remedy under this authority.
Although there was nothing out of order, I am disappointed that the House was unable to find a resolution in time to preserve the Member for York South—Weston’s ability to bring an item of business forward for debate on his ballot date. I am sure most Private Members here, on both sides of the House, who value their opportunity to initiate debates in Private Members’ Public Business, and who follow the Standing Orders and provide proper notice on the Orders and Notices Paper, would find it very disappointing to have their opportunity for a debate in this House on their priority bill or resolution taken away without their consent by a motion of the House. The proceedings on Bill 86 were ultimately beyond the control of Mr. Hassan as an individual Member, and, in my view, it is very regrettable, and on the surface seems most unfair to Mr. Hassan, that one of the effects of those proceedings was that the Member lost his Private Members’ Public Business slot. These opportunities for individual Members are rare, and I would hope that the House would reconsider this matter and seek a resolution satisfactory to both sides of the House.

I thank the Members for their submissions.

ORDERS OF THE DAY

Opposition Day

Ms. Horwath moved, Mme Horwath propose,

Whereas the shortage of health care workers creates barriers to timely care in Ontario’s northern, rural and remote communities, and lack of access to family medicine, mental health care, addiction treatment resources and other important services contribute to shorter life expectancies for Northerners compared to other Ontarians; and

Whereas the pandemic has exposed the problems caused by the underfunding of Northern Ontario healthcare by successive Liberal and Conservative governments, and Ford government policies such as the Protecting a Sustainable Public Sector for Future Generations Act, 2019 (previously Bill 124) intensify the staffing challenges faced by northern communities; and

Whereas vacancies for physicians and specialists have resulted in emergency departments and other hospital wings closing, cancellation of urgent care clinic services and wait times of up to 18 months for counselling and therapy services for children and youth in communities across Northern Ontario; and

Whereas Northern health teams have experienced difficulty retaining doctors due to high workloads and lack of access to integrated services, and emergency room patients can average wait times of up to 19 hours before being admitted to hospital; and

Whereas health care providers and advocates such as the Northern Ontario School of Medicine (NOSM) and the Ontario Medical Association call for an urgent and immediate infusion of over 300 doctors, 100 specialists, and a minimum of 40 mental health practitioners to address healthcare needs in the region, and the Northern Policy Institute calls for the establishment of a Northern Mental Health and Addictions Centre of Excellence to address the unique challenges of service and program delivery in Northern Ontario; and

Whereas NOSM and other stakeholders cite the need for measures to attract, train and retain doctors to include increasing training spaces from 64 to 100 students per year as well as improved access to housing and family supports;

Therefore, the Legislative Assembly calls on the Ford government to immediately fund and implement a plan to attract, train and retain nurses, physicians, and specialists in Northern Ontario that includes the expansion of training opportunities at NOSM, supports for housing, transportation, and family services and the repeal of Bill 124.

ORDERS OF THE DAY
Opposition Day
Mr. Vanthof moved, M. Vanthof propose,
Whereas the lack of public transit alternatives across the North requires Northern Ontario drivers to depend on personal vehicles to get to work, school and other essential activities, and the cancellation of mass transit options such as the Northlander and inter-city bus service exacerbates this challenge; and
Whereas gas prices are often most expensive in northern communities, with prices exceeding $2.00 per litre in some regions; and
Whereas Bill 111 has no requirement for gas companies and other retailers to lower prices after the gas tax is reduced, and the government’s own calculations show that the average driver will save as little as $45 over six months, an average of $7.50 per month; and
Whereas the Ford government has failed to deliver on commitments to lower hydro and gas costs, and failed to reinstate the Northlander, and Northerners disproportionately affected by these failures cannot afford more broken promises; and
Whereas Northerners need help now and cannot wait three months for relief;
Therefore, the Legislative Assembly calls on the Ford government to deliver real relief for Northerners by immediately issuing a one-time rebate of $200 per household to offset the rising cost of living in Northern Ontario.

Debate arose and after some time, M. Calandra propose l’ajournement du débat.
