EXPLANATORY NOTE

The Bill amends various Acts. The major elements of the Bill are described below.

SCHEDULE 1 ELECTRICITY ACT, 1998 AND ONTARIO ENERGY BOARD ACT, 1998 (PROCUREMENT CONTRACTS)

The Schedule amends the *Electricity Act, 1998* with respect to the funding of amounts payable by the IESO to entities under procurement contracts. Some or all such amounts as may be prescribed by regulation that are payable under such procurement contracts as may be prescribed by regulation that are entered into by the IESO under clause 25.32 (2) (a), (b) or (c) of the Act (respecting electricity supply, capacity or storage; changes in electricity demand; measures related to the conservation of electricity or the management of electricity demand) may, under subsection 25.34 (2), be paid for out of money appropriated for the purpose by the Legislature instead of being recoverable under section 25.33 through billings. The amendments providing for this method of funding may be repealed on proclamation of the Lieutenant Governor.

In addition, the Schedule amends section 25.33 of the Act to provide that amounts payable under procurement contracts entered into under clause 25.32 (2) (d) of the Act (respecting transmission systems) are not to be recovered under section 25.33 through billings. Instead, section 78 of the *Ontario Energy Board Act, 1998* is amended to provide that the Ontario Energy Board shall provide for the recovery of those amounts when approving or fixing rates for the transmitting of electricity. Section 97.3 is added to the *Ontario Energy Board Act, 1998* to provide that those amounts and other specified matters shall not be the subject of review by the Board on an application for leave under section 92.

SCHEDULE 2 ONTARIO ENERGY BOARD ACT, 1998 (GOVERNANCE)

The Schedule amends the *Ontario Energy Board Act, 1998* to change the Board's corporate governance structure. Subsection 4 (5) of the Act provides for the members of the Board to be a board of directors, a chief executive officer, commissioners (including a chief commissioner) and any other person or class of persons prescribed by the regulations. Sections 4.1 to 4.3 of the Act are re-enacted to provide for the appointment of the members of the Board, and complementary amendments are made throughout the Act to reflect the restructuring. The amendments to the Act made by the Schedule provide that, generally speaking, the board of directors exercises the powers of the Board with respect to its administrative functions, and panels of commissioners assigned by the chief commissioner for the purpose exercise the powers of the Board with respect to its adjudicative and regulatory functions. The chief executive officer is granted specific powers, including the power to make rules under section 44 of the Act and the power to issue codes under section 70.1 of the Act. Various transition provisions are included to address the transition from the current governance structure to the one provided for by the Schedule, including the addition of a regulation-making authority to address transition matters (subsection 127 (6) of the Act).

Consequential amendments are made to the *Energy Consumer Protection Act, 2010*.

SCHEDULE 3 ONTARIO FAIR HYDRO PLAN ACT, 2017

The Schedule amends the *Ontario Fair Hydro Plan Act, 2017*.

The Act currently establishes a framework under which the costs and benefits associated with specified Government of Ontario policies are allocated among present and future consumers of electricity. The Schedule replaces that framework with one under which the Crown and Ontario Power Generation Inc. are instead required to pay specified amounts to the Fair Hydro Trust. The following are some of the features of the new framework:

1. Ontario Power Generation Inc. is required to continue to act as the Financial Services Manager.
2. The Schedule provides that Fair Hydro Trust is the only financing entity and that no other financing entities may be established under the Act.
3. The Financial Services Manager and the Fair Hydro Trust are prohibited from incurring further funding obligations.
4. The Financial Services Manager must perform specified duties, including administering the investment asset on behalf of the Fair Hydro Trust. The Financial Services Manager must amend the Financing Plan, having regard to specified principles.
5. Section 25 of the current Act creates a regulatory asset; section 26 of the current Act authorizes the IESO to transfer a specified portion of the regulatory asset to a financing entity. The Schedule provides that a transfer under the current Act constituted a valid and enforceable absolute assignment, conveyance and sale of the corresponding ownership interest in the investment asset to the Fair Hydro Trust.
6. Provisions are included to provide protection from liability for various parties, including specified consumers and electricity vendors.

The *Electricity Act, 1998* and the *Ontario Energy Board Act, 1998* are also amended to address consequential matters.

SCHEDULE 4
ONTARIO REBATE FOR ELECTRICITY CONSUMERS ACT, 2016

The Schedule amends the *Ontario Rebate for Electricity Consumers Act, 2016* in order to provide that the financial assistance to be paid or credited under the Act, and the determination of which consumers are entitled to that financial assistance, are to be set out by regulations made under the Act by the Lieutenant Governor in Council. In addition, amendments are made to section 4 of the Act, and to the regulation-making authority of the Minister of Energy, Northern Development and Mines in relation to section 4, with respect to invoicing requirements related to the financial assistance paid or credited under the Act. Finally, references to the Minister of Energy are updated.
