EXPLANATORY NOTE

The Bill amends the *Public Transportation and Highway Improvement Act* in relation to standards for road maintenance in winter. New section 100 sets out a classification system for Ontario highways consisting of five classes of highways. The section classifies all 400 series highways, the QEW highway and highways 11 and 17 as Class 1 highways. The section also sets out the time within which snow must be removed from each class of highway after each snowfall. Class 1 highways have the strictest requirements for snow removal, requiring that the pavement be bare of snow within eight hours of the end of a snowfall.
