EXPLANATORY NOTE

The Bill makes various amendments to the *Smoke-Free Ontario Act, 2017*. Here are some highlights:

1. The Act is amended to prohibit the promotion of vapour products.
2. Currently, the Act prohibits the sale at retail or the sale for the purposes of sale at retail of vapor products prescribed as a flavoured vapour product. The Act is amended to provide that this restriction applies with respect to flavoured vapour products generally, unless the flavour or flavouring agent contained in the vapour product is prescribed. The Act is also amended to provide that this prohibition applies to vapour products that contain more than specified amounts of nicotine.
3. The Act is amended to provide that vapour products can only be sold in specialty vape stores, as well as to provide that no person may operate a specialty vape store without the approval of the board of health of the area in which the store is to be located. Corresponding offences are added to the Act.
4. The Act is amended to provide that the Minister may direct that tax revenue generated from the sale of vapour products at specialty vape stores be used for the purpose of educating the public about the health risks associated with vaping, provided that the Legislature has appropriated funds for this purpose.
5. The Act, as amended, would require Ontario Health to prepare an annual report to the Minister respecting youth vaping that sets out information and recommendations to assist the Minister in developing policies to reduce youth vaping.
